ELECTS OFFICERSHeadquarters To Be Moved To

ELECTED CHAIRMANMeeting Held At Haymarket. Na-
tional Representative Is
Present.

The annual meeting of the Prince William County Chapter, American Red Cross, was held on Tuesday afternoon in the Parish Hall, Haymarket, and was marked by an unusually large attendance.

R. A. Rust, retiring county chairman, presided, and after the completion of routine business, the approval of the treasurer's report and committee reports, the election of officers took place.

Mrs. William L. Lloyd, of Nokesville, was elected county chairman; Rev. A. Stuart Gibson, Manassas, was re-elected vice county chairman; Miss Loreto McGill, of Haymarket, who desired to be relieved of the duties of treasurer, was prevailed upon to continue in office for another year, and was re-elected, while Mrs. E. G. Spitzer, of Nokesville, was chosen secretary.

New Executive Committee.

The executive committee, consisting of two members from each district of the county, was duly elected and has the following membership: Manassas district, Eli Swavely and G. Raymond Ratcliffe; Brentsville, Rev. J. B. Cook and W. L. Lloyd; Cole's, Mrs. J. M. Russell, W. Y. Elliott, District; Dumfries, Mrs. C. M. Kline, Mrs. McAtee; Occoquan, Mrs. Edgar Thompson and Dr. F. W. Hornbaker.

The following were named as chairmen of committees: Roll Call, Mrs. E. Swavely; Manassas, Nursing, Dr. A. M. Ratcliffe; Junior, Mrs. H. G. Smith; Manassas, Production, Mrs. J. P. Lyon; Manassas, Home Service, Mrs. Stuart Pettie; Manassas, and Publicity, Mrs. Fred W. Patterson, Manassas.

The committee on by-laws presented its report and new by-laws as offered were adopted by the Prince William Chapter, subject to approval of the National Headquarters. With the adoption of the by-laws the headquarters of the Chapter was changed from Haymarket to Manassas, the county seat, owing to its strategic geographical position with reference to all districts, which it is believed will make for a larger attendance at meetings as well as facilitate the carrying forward of the program of activities. This change of headquarters is dependent, of course, on the approval of National Headquarters.

Retiring Officers Lauded.

Miss Sadie James, representing the American Red Cross headquarters, was present at the meeting and in addition to giving interesting reports of the relief work being carried forward in connection with the recent storm disasters, complimented the retiring officials of the local chapter for the work performed during their administration. The organization passed suitable resolutions commendatory of the officials who had so faithfully given of their time in the year just ended which resolutions were ordered spread upon the minutes.

A meeting of the new executive committee has been called for Friday, October 26, at 2 p. m., the place of meeting to be announced later.

FLOWER SHOW BEST
EVER CONDUCTEDExquisite Blooms, Charming
Arrangements And Crowd
Contribute To Success

The annual Flower Show, conducted under the auspices of the garden section of the Woman's Club of Manassas, which was held on Friday afternoon in the Parish Hall, will go down in history as one of the finest exhibitions of the kind ever conducted in the county.

These shows which were started the Manassas High School several years ago have grown in magnitude each year, but no one not even the garden section of the club anticipated the increased interest developed this year, both among the exhibitors and the flower-loving public.

The floral exhibition was a surprise to everyone and its magnitude as well as the general arrangement of the exhibits was a credit to any town many times larger than is Manassas, to say nothing of the quality and variety of the blooms.

One of the outstanding features of the show was the department for children exhibitors in special classes, while the variety of wild flowers gathered in the county was a revelation to most of those who visited the exhibition.

Such a show exacts a great deal of time and energy of those who conduct it as well as a great deal of work, pleasant though it be, on the part of the numerous exhibitors, and the people of Manassas and Prince William County have every reason to feel proud of the splendid flower show which the combined efforts of those interested in the project made possible.

The judges were: Mrs. Amos Chilcott, of Fairfax, and Mrs. Biddle, of Manassas. The list of exhibitors will be published at a later date.

Attendance.CONGRESSMAN MOORE
CALLS TO DEMOCRATSOld Time Democratic Campaign
Spirit Is Manifest In
Gathering.

The hall at Haymarket was filled to overflowing on Wednesday night when Congressman E. Walton Moore, popular representative of the Eighth Congressional District, addressed a gathering of the Democrats of the Haymarket section and other parts of the county in a meeting which was brimming over with enthusiasm and earnestness.

This is the first time during the campaign that Mr. Moore has been a speaker within the county, and his presence at the meeting was the magnet which drew the record-breaking crowd present from all sections of Prince William and contiguous counties.

Mr. Moore made one of the finest addresses heard around these parts in many moons, was clear and logical in his arguments for the Democrat platform and for its support by the voters of Virginia, and masterly in his closing remarks in which he stated that it would be a disgrace and an act against the very interests of the people of Prince William County not to keep well in the Democratic column in the national election on November 6.

The close of Mr. Moore's speech, which had been greeted with applause at numerous points throughout its delivery, was the signal for a demonstration and few speakers to Prince William have ever been accorded the spontaneous, excited and pleased acclaim which was showered on the popular representative of this Eighth Congressional District.

ELOQUENT APPEAL
TO DEMOCRATSDemocrats Rally At Manassas
On Last Tuesday
Night.GEN. JOHN R. SAUNDERS
MAKES FORCEFUL APPEALJudge Browning Also Speaks. En-
thusiasm Runs High. Ladies
Grace Platform.

Calling upon the Democrats of Prince William County to rally on November 6, and give the Democracy of Virginia the biggest majority that it has ever received, John R. Saunders, attorney general of Virginia, addressed an enthusiastic audience which gathered in the Manassas High School auditorium on Tuesday night, at the first big Democratic rally held in this vicinity during the campaign.

"It would be strange indeed, if at this particular juncture, there should be any backward movement in Virginia," said General Saunders. "We are in the midst of a great development in Virginia. There is not a state in the Union that is better governed than is Virginia under the Democratic party. But, if we should lose in this fight, you can be assured that there will be no satisfactory progress under the leadership of the Republican party."

"If Governor Smith should win, but Virginia become Republican, our state would have to take a back seat in the National Affairs for a long time," continued the able attorney general. "If Virginia should go Republican and Governor Smith lose a chaotic condition would certainly ensue."

Judge Browning Talks.

The address of the principal speaker was forceful and eloquent and was enthusiastically received by the audience, while at the conclusion of his speech he sat down amidst a demonstration which lasted for several minutes.

Another speaker who discussed campaign issues and pointed the way to his eager listeners was Judge George L. Browning, of Orange, who held the interest of the audience through to the end of the meeting.

The platform was not only tastefully decorated by the Woman's Democratic Committee, but was adorned by their presence on the stage. Hon. Thomas H. Lion introduced the attorney general, while Judge Browning was introduced by Robert A. Hutchison. Others on the platform were H. T. Davies, William Hill Brown, D. E. Earhart, James R. Larkin, T. E. Didlake, and members of the County committee.

Weather Bureau Urged.

Cape Charles, Oct. 10.—Considerable interest is being aroused in the project of having a regular U. S. Weather Bureau Station established on the Del-Mar-Va Peninsula, and from statements issued at the offices of the Del-Mar-Va Eastern Shore Association and by Carl H. Monsees, who approached the Weather Bureau concerning this matter when in the employ of the Association. A Peninsula-wide effort will be made towards securing this service. It is probable that leaders in each of the 14 counties will be asked to bring pressure to bear on their representatives at Washington, so that the necessary appropriation may be secured.

LETTER TO EDITOR.

Brooklyn, N. Y.

October 9, 1928

To the Editor of the Manassas, Va.
Journal:

I was born and raised in
the State of Virginia, close to the old
Bull Run Battlefield. I understand
that the South is being flooded with
propaganda against Gov. Smith and
Tammany Hall. When Samuel J.
Tilden was Governor of the State of
New York he had Tammany Hall in-
vestigated and those responsible were
sent to jail. That is more than the
Republican Party has done in this
Teapot Dome case.

I also wish to state that
Samuel J. Tilden is the man who was
elected President of the United
States, but was robbed of the office
by the Republican Party.

Where does Sen. Charles
Curtis, Vice presidential candidate
come off to say what he does about
every Democratic administration since
his time? There was nothing wrong
in Mr. Cleveland's first term. He left
a full United States treasury, but
when he returned for his second term
the Republican Party, under Mr.
Harrison, left only an empty United
States treasury.

The Senator remembers a
debate in the United States Senate
between Senator Foraker of Ohio and
Senator Bailey of Texas. The gentle-
man from Ohio read a letter pur-
porting to be from ex-Secretary
Fairchild, stating that the treasury
was in good condition. He might
have meant the building. The gentle-
man from Texas showed by the Con-
gressional Record where Secretary
Fairchild was before the Ways and
Means Committee and said under oath
that the Treasury was so low that it
was necessary to issue bonds that
they had the dies all set.

I hope the Senator also re-
members a speech in the House by
ex-Governor Benton McMillan of
Tennessee on the income tax, when he
was a member of the House, just after
the Supreme Court of the United
States had decided it unconstitutional
by one Associate Justice, who chang-
ed his vote to suit the Republican
Party; but the income tax is now
constitutional.

It seems to me that Mrs.
Willebrandt, Assistant Attorney Gen-
eral of the United States, did not

find out that the Eighteenth Amend-
ment was on the statute books until
after the Houston convention. Most
everybody knows that the Prohibition
Law is a farce from start to finish. I
have a friend who is a travelling sales-
man. He tells me that he has never
stopped at any hotel between New
York City and the Pacific Coast where
he could not get a drink of liquor.

I would like to say for the
benefit of the Republican Vice Presi-
dential candidate that if Congress had
paid a little more attention to rivers
and harbors and a little less to Pro-
hibition, the Mississippi flood might
never have happened.

I voted for Mr. Smith five
times for Governor and it gives me
the greatest pleasure in the world to
vote for him the sixth time for the
President of the United States.
Yours very truly,
HUGH MITCHELL

BUSINESS HIGH BEATS SWAVELY

Game Is Replete With Brilliant
Runs. Swavely Makes
Game Stand.

Saturday marked Swavely's first de-
feat of the current football season,
when Business High School of Wash-
ington, romped away with a 26-13 win
over the local Prep School boys.

Business, with a team that is
counted upon to score heavily in the
Washington Inter-High series, made
things look bad on the very first
quarter when "Jakie" Lewis scored
on a buck through center, after pound-
ing through Swavely's line for three
first downs.

In the second quarter Business un-
earthed a forward pass attack that
had Swavely's inexperienced team be-
wildered. Loftus took a long pass
from Lewis for another score, and the
half ended 13-0. Swavely's offense
didn't seem to be functioning, although
they started a drive toward the end
of the half that betokened a score,
only to lose the ball in a fumble.

Swavely's First Score

In the second half Swavely's of-
fensive took shape and the scoring
was even during the half. Wilson,
Swavely's scintillating quarter, caught

A "used car" is unused transportation

A GOOD automobile is built to stand
years of use. It will provide many thousands
of miles of satisfactory transportation.

But only occasionally are all its years
and all its mileage used up by one owner.
Many owners turn their cars in after an aver-
age use of only two to three years—long be-
fore the cars' lives have been exhausted.

This custom brings into the market
every year so-called "used" cars which rep-
resent outstanding opportunities to buy un-
used transportation at low cost.

Every year more and more people ap-
preciate this fact. Today millions of families
are driving cars of which they are the second
or third or even fourth owners; and this
year the volume of new car sales and trade-
in transactions has created wider choices and
greater values in unused transportation
than ever before.

3 out of 5 buy used cars

THREE out of five of the cars you see
on the road have been purchased as "used"
cars. You cannot tell—nor do you ask your-
self—whether the driver of any particular
car is its first owner, or its second or its third,
providing the car looks well and is running
satisfactorily.

The cars which General Motors dealers
have accepted in trade vary in name, body
style and price. Some have seen sturdy ser-
vice; in others the potential mileage has
scarcely been touched. And all offer a wide
field of opportunities—

To the family wanting transportation at
lowest possible cost.

To the family wishing to own a car of a
higher price class.

To the family needing a second or third
car to meet the requirements of all its
members.

We invite you to examine the unused trans-
portation in the stores of General Motors
dealers. For your convenience General Motors
extends the GMAC Purchase Plan.

THURSDAY, OCTOBER 11, 1928

Has anybody noticed that the streets are being cleaned? William F. Cocke, the new town manager who so unostentatiously slipped into town on October 1, and announced that he would have nothing to say until he had an opportunity to study the town, is still studying and is still silent, but he is sawing wood.

We interviewed the genial gentleman this week but came away without a story, all of which leads us to believe that Manassas has found a rare treasure, and to venture the prediction that the town is about to get somewhere in its journey forward.

A good way to observe "National Fire Prevention Week," which will be recognized throughout next week, would be to guide the children to make a special survey of the fire hazards in and about their own homes, to discuss ways and means of eliminating such hazards, and then to prepare a special fire protection program for the community. What do you say, Chief?

WHAT HO! THE DRUGGIST!

Throughout the United States and practically throughout the English-speaking world, during the week beginning Sunday, druggists are emphasizing the pharmaceutical phase of their stores.

One is apt to forget the prescription room and its compounding and dispensing until sickness strikes close home. Then it is that we give thought to the professional attainments of the druggist.

Pharmacy is probably the oldest profession known to man. Mention is made of the apothecary in the Old Testament, ancient Egyptian papyri tell of his work and disclose some of his working formulas of those early days, and many fearful mixtures they were. Toads, lizards, reptiles, the bones of dead men—these were common ingredients in the prescriptions of the early medicine men. And the man of medicine and the apothecary of the time were one and the same person in those early days.

Magic and doubtful art were invoked in the compounding processes, and the set of the stars in the heavens had its place in the proper compounding of the times.

In Virginia there is much of historic interest connected with pharmacy. In the early records of the Virginia colonists there are numerous records of the drugs imported from England, and of the native vegetable drugs exported from the colony. One George Gilmer was an early Williamsburg pharmacist who did considerable importing from England, it appears. Then, there is the apothecary shop of Dr. Hugh Mercer in Fredericksburg, in which George Washington maintained his private office for a period of twelve years. This old drug store is regarded as of such historic interest that recently an expenditure of \$20,000 has been made to restore it to its original condition. This store flourished in the period prior to 1775. In Fredericksburg today there stands another interesting drug store—Bond's—

established in 1791, and still going strong. In Alexandria Leadbeater's Drug Store, established in 1792, is still operating, and there are many others with interesting histories, though none with continuous records to compare with the two just mentioned.

The modern drug store differs materially from these old timers, yet the ethics of a profession which is honorable with age have persisted in spite of the commercialism that has seemingly almost obscured it, and one has but to step behind the prescription counter of any pharmacy to find the atmosphere of the druggist's professional side.

SMITH AND THE FARMER.

That Governor Smith, in his determined stand on behalf of agriculture, has already accomplished great things for the farmer becomes more apparent every day.

Governor Smith is convincing the important business men of the East that prosperity of agriculture means as much to them as it does to the farmer himself. The indifference of the East to farm legislation is disappearing. For eight years the business interests of the East in general have accepted Herbert Hoover's belief that agriculture's gain would be industry's loss. Governor Smith has undertaken to show them how essential it is to increase the prosperity of the farmer, and thus to increase the buying power of one-third of the national population for manufactured products.

Announcing his support for Governor Smith, Owen D. Young, Chairman of the General Electric Company, says, "On this farm problem, we must affirmatively move, because staying here will spell disaster. I believe in Governor Smith's capacity to lead the American people in action."

"I am supporting Governor Smith because I believe in his willingness and his capacity to put the farmers of this country on an equality with its industry. I am tired of hearing of farm relief as though the farmers of this country, as a class to whom all my people belonged, are the kind of men who stand with their hats in their hands begging alms in the shape of Government doles."

"They ask for an equality of economic opportunity, and they are entitled to it. Not only must they be given it politically because it is right, but they must be given it from an economic standpoint if the prosperity of this country is to continue."

"Don't let us be misled by this talk of unsound economics every time we consider a remedy for the farmer. If 30 per cent of our people, the backbone of the country in intelligence and character, are unprosperous while the rest is prosperous, we have unsound economics already."

Not a Virginia Judge

WASHINGTON POST: A New York lawyer has brought suit because a judge insulted him. It's bad form to insult anybody in court except witnesses.

Send One This Way.

NASHVILLE BANNER: "No work, no food," is the order in the Florida region recently storm stricken. Quite a few communities could use a storm if that rule results.

Style Advances

PORTLAND OREGONIAN: The latest mode for women is a dinky little garment called the "cocktail jacket." We wait the "moonshine" evening wrap and the "gin-ricky" party gown. The arbiters of fashion not infrequently are silly.

"Why Can't I Fill That Chair?"

Say, Daddy, won't you tell me the terrible news I heard? I scarcely can believe it! Each cold and cruel word. They say because I worship Christ And Catholic doctrines share, I never can be President Or hope to fill that chair.

You fought beneath Old Glory, In the late and terrible war, And the shot and shell that rose and fell

Some Catholic heart it tore, Both pain and desolation The Catholic home did share; And if I serve my country, Dad, Why can't I fill that chair?

You often spoke of Grandpa, Who fought in sixty-three, You have followed in his footsteps And expect the same of me. I promise to follow Old Glory And my country's troubles share, And serving both God and nation, Dad, Why can't I fill that chair?

Wasn't Columbus, who found our country,

A Catholic by birth? Wasn't Isabella's sacrifice A tribute to Catholic worth? With the signers of Independence Whose memory we revere Wasn't Charles Carroll of Carrollton Fit to fill that chair?

Didn't the Father of our Country To his men, as he bade "Farewell," Speak of his Catholic soldiers Who fought, and bled, and fell? He praised the Catholic nation That helped sweet freedom there, Then why keep the Yankee Catholic From filling the President's Chair?

Wasn't the Constitution, Daddy, Written for one and all? Won't the Stars and Stripes Protect the one who answered every call? Won't Catholic life and Catholic blood That always gave its share, Convince the world that we're loyal And fit to fill that chair?

And far away in Europe, Dad, In many a silent grave, There rests the form of a Catholic boy So noble, true and brave; And they didn't tell him, Daddy, As he started "over there," That he was only fit to fight and die, And not to fill the chair?

Oh, Glorious Flag of Freedom, Oh! Flag of our Native Land, Uphold the Constitution And by its doctrine stand. Protect your native children, Let despots not enslave, And give to them their birthright— THE RIGHT TO FILL THAT CHAIR! —Exc.

Who Cares Anyway?

ROCHESTER DEMOCRAT AND CHRONICLE: The chemists say they do not fully understand the "gas knock" in motors. However, they are no worse off than other people.

Sounds Logical.

NORFOLK VIRGINIAN, PILOT: There is much speculation as to how much of a fortune President Coolidge will retire with. All we know is that he is not a beggar, for beggars can't be choosers.

It Doesn't Matter.

WASHINGTON POST: Great advances have been made in science. A weather forecaster is now regarded as much more reliable than a political broadcaster.

New Set of Nobility.

ARKANSAS GAZETTE: It would seem that the undertakers who provide those \$15,000 funerals are Chicago's real bier barons.

New Levy in Sight.

INDIANAPOLIS NEWS: A murder farm has been discovered in California, and the next thing you know those murder farmers will be demanding relief.

Boob Diplomats.

TOPEKA CAPITAL: Prizes for the greatest contribution to world peace are annually awarded, but the Springfield Republican thinks it might be well for somebody to offer a booby prize also. If such a prize were to be awarded this year it proposes as candidate to receive it the authors of the Anglo-French naval pact.

A CHUCKLE OR TWO

Life's Plain Problem.

Away down South a motor car owner was interviewing a Negro applicant for the position of chauffeur. "Are you married, Sam?" he inquired. "Naw, sah," said the applicant. "I has to make my own livin'."

It Could Happen.

Judge—"Have you anything to offer to the court before sentence is passed on you?"

Prisoner—"No, judge. I had ten dollars, but my lawyer took that."

Attention, Raskob and Work.

We sometimes fear that the movement for absolute truth in advertising has not yet embraced the political managers, who say, for instance: Small contributions received just as gladly as large ones.—Ohio State Journal.

Powder Carefully.

Says Edward Schill of East Orange, "If you teach a boy to blow a saxophone, he'll never blow a safe." Even so, it's not a thing to decide hastily.

It's Thrift Anyway.

Marriage promotes thrift, says a financier. Exacts it, means.—Dallas News.

It Made A Difference.

"Doctor, if there is anything the matter with me, don't frighten me half to death by giving it a long scientific name. Just tell me what it is in plain English."

"Well, sir, to be frank, you are lazy."

"Thank you, doctor. Now tell me the scientific name for it. I've got to report to the missus."

A Mother's Love.

Johnnie drove his father's flivver Down the hill into the river. Mother said: "I love his tricks; Few could drive a car at six!"

Just Like Chicago.

Fifteen lifeguards at New York City beaches it was found could not swim a stroke. A case of "wade and found wanting."

Drig, Drag, Drag.

"What's the matter with this speeder you brought in?" asked the police chief. "He looks like he was under the influence of some drug."

"I guess he is," said the new man on the force. "He didn't want to come so I drug him three blocks."

CHRISTIAN CHURCH MEETING.

Norfolk, Va., Oct. 11—The 53rd annual convention of the Disciples of Christ of Virginia will convene at the First Christian church, Norfolk, October 16-19, the Rev. C. M. Gordon, minister.

This convention will include some 300 or more churches of the state, with a membership of approximately 40,000. The convention should bring to the city between 500 and 600 delegates from all parts of the state.

\$80,000,000
for New Equipment

NEW engines and cars purchased by the Southern Railway System since 1920 have cost \$80,000,000. The 364 new locomotives, 31,000 new freight cars, 266 new passenger train cars, which have been added to Southern equipment during the past eight years are an indication of the extent of the improvement program that has been carried on steadily for years.

The Southern, as a consequence of such large investments, is equipped to handle the great increases in Southern commerce which are coming with the progress of Southern agriculture and industry.

And as the South's growth continues, the Southern is constantly anticipating the needs of tomorrow by planning ahead today.

The millions of dollars spent in the South each year by the Southern for materials, supplies, and new equipment provide a strong stimulus to Southern prosperity.

SOUTHERN
RAILWAY SYSTEM

Laid in a network across the South; linking together nearly every important Southern community, the Southern serves that territory east of the Mississippi and south of the Ohio and Potomac as perhaps no other area of equal extent is served by any single railroad system.

CHOICE FOR CONGRESS BY MARYLAND WETS

Senator Bruce's Opponent Is Cited As Wholly Unsatisfactory.

"Wholly unsatisfactory," is the term applied to Phillips Lee Goldsborough, the Republican candidate for the United States Senate, in a statement of its attitude toward the candidates in this campaign issued yesterday by the Association against the Prohibition Amendment, according to a despatch in The Washington Post dated Baltimore, October 10.

"Entirely satisfactory," is the comment on William Cabell Bruce, incumbent and Democratic candidate for reelection.

The declaration is made that Mr. Goldsborough is "supported by the Anti-Saloon League."

Approval of the association is given William P. Cole, Jr., representative from the Second District and candi-

date for reelection, the association opposing his Republican opponent, Linwood L. Clark.

Both Vincent L. Palmisano, in the Third Congressional District, and his Republican opponent, John Philip Hill, are endorsed, and both John P. Brandau, Republican candidate for Congress in the Fourth District, and J. Charles Linthicum, Democrat, are endorsed, with the preference given to Mr. Linthicum.

Stephen Gambrell, Democratic candidate for reelection in the Fifth Congressional District, is declared "satisfactory," while Oliver P. Metzgerott, his opponent, is declared "unsatisfactory."

No comment is made in the statement on either the First or the Sixth Congressional Districts. The statement was prepared by the executive committee of the Maryland branch of the association, which consists of sixteen persons. Arthur W. Machen, Jr., is the chairman.

IN MEMORIAM.

In loving remembrance of my dear husband, Maylon Taylor who died October 11, 1927, age 83 years and nine months, gone but not forgotten.

A precious one from us has gone,
A voice we loved is stilled;
A place is vacant in our home,
Which never can be filled.

God, in His wisdom has recalled,
The boon His love has given,
And though the body slumbers here,
The soul is safe in heaven.

In the fourth quarter, with Tarbuton in the Swavely line-up, on a series of line backs and forwards, the local team took the ball down the field, mainly through the brilliant work of Tarbuton and Wilson, when Wilson plunged over for his second touchdown, after which he kicked the goal. This was followed by another 18-yard dash by Business as the game ended. Score, 26-13.

In engine tests, the effective power developed by a motor is commonly measured by machines called dynamometers. In almost daily tests with these devices, "Standard" Motor Oil is being compared with other motor oils, commonly used.

Results show the same motors develop from 4 to 10 per cent more power with "Standard" Motor Oil. No wonder motorists say of "Standard": You can actually feel the difference.

FIRE PREVENTION WEEK IS OBSERVED

Fire Chief Crosby Busy In Fire Safety Drive. Movement Is National.

This week is being observed throughout the country as fire prevention week. Its object is to indicate to the public the extent of our National fire loss to life and property, and point out the sound methods for reducing it.

Fire prevention week is the one week in the year when the attention of the entire country is concentrated on this important problem in cities

conducting continuous programs, while numerous projects which cannot be consummated in a single week are begun and later carried through to completion because the impetus they have received as a result of favorable public opinion aroused during the special week.

Jesse Crosby, chief of the Manassas Fire Department, is making special efforts this week to make a complete inspection of the buildings in Manassas with a view of making suggestions for safety improvements and the merchants are cheerfully cooperating in this country wide movement for fire prevention.

"To make fire prevention work successful it is necessary to have the assistance, cooperation and support of

the property owner and the general public," said Chief Crosby yesterday. "It should be the duty of every citizen to assist in eliminating the elements of carelessness. A citizen should consider it a reflection on his or her ability to remove a fire hazard. It is not only a duty, but an act of self-preservation, to prevent the destruction of our neighbors' property as well as our own, from fire."

The Kiwanis Club, the Woman's Club and other organizations in Manassas and throughout the county are assisting the numerous fire department directors in their work of making Fire Prevention Week, a week of benefit to each community, in the hope that each year will find the fire hazard reducing throughout the county.

For COLDS of All the Family

This Modern External Treatment is best

Mothers prefer the external treatment, Vicks VapoRub, for children's colds, because it avoids the constant "dosing" so disturbing to delicate little stomachs. You just rub it on throat and chest.

Other members of the family prefer Vicks for their own colds, because it is convenient, and quick in bringing relief. Colds usually yield overnight.

SOUTHERN NOVELIST HONORED BY CHURCH

Episcopal Church Unveils Tablet to Commemorate Life of Catholic Novelist.

Asheville, N. C., Oct. 10—Commemorating the life and works of "Christian Reid," Mrs. Frances Tiernan, Catholic novelist and poet, a tablet has been unveiled in the churchyard of Calvary Episcopal Church, Fletcher, N. C. It was Christian Reid who gave to the mountain country of North Carolina the name, "The Land of the Sky," in her novel of that name in 1876.

The principal address was made by Dr. Archibald Henderson, of the University of North Carolina, a member of the Episcopal Church, who took occasion to assail present-day religious bigotry in his eulogy of the great Catholic writer.

"Surely it is a happy augury," he said, "that without thought of sect or creed, faith or church, a tablet is unveiled in this churchyard to this distinguished writer, who also was a devout Roman Catholic."

"At a moment in American political and theological—I cannot say religious—history, marred by the most deplorable outbursts of religious big-

otry, I welcome this opportunity to stand in this Episcopal building, a church to which I belong, to pay tribute both to the personality and the literary gifts of a devoted Roman Catholic who lived an exalted and saintly life and gave strong ethical cast to all her writings."

The unveiling of the tablet was presided over by the Rev. C. S. McClellan, pastor of Calvary Episcopal Church. Among others present were the Rev. Lawrence J. Bour, pastor of St. Lawrence's Catholic Church, Asheville; the Rev. Leland Cook, pastor of the First Christian Church, and Mayor J. L. Fisher, of Salisbury, N. C., the birthplace of Mrs. Tiernan.
