

PRINCE WILLIAM
COUNTY PICNICBrentsville Community to Celebrate
Restoration of Old Court House

The annual county picnic for Prince William County will be held at Brentsville Court House Wednesday, August 20. An interesting program has been arranged to begin at 10 o'clock. From eleven to twelve interesting amusing stunts will be put on by Greenwich, Nokesville, Bethel, Haymarket and Manassas communities.

The lunch hour, 12:00—1:30, is in charge of Mrs. M. J. Shepherd. Each family is asked to bring a well-filled basket and enjoy with the group on old-fashioned picnic spread.

Following the lunch hour a varied musical program will be furnished by county talent. Immediately following the musical program, Mr. John R. Hutcheson, director of Extension work in the state of Virginia, will address the group.

Special ball games, horse-shoe pitching contest, husband-calling contest and other types of amusement are being arranged by Mr. Wheatly Johnson who is in charge of amusements for group-ups. Mr. R. C. Haydon, Superintendent of schools, has charge of stunts, games, and amusements for children. He with his corps of helpers, will have something of interest for children of all ages.

Mrs. C. F. M. Lewis, Chairman of Home Demonstration Advisory Board will preside at afternoon program in his absence of Mr. W. L. Loyd.

Mrs. John Seymore, chairman of the committee on arrangements, will have the ground and building in readiness to accommodate the crowd. Mr. John Kerlin has charge of the parking—if you don't know ask him.

Work on the old court house is just being completed and it really looks like it might house in 1930.

All of Prince William County are invited to attend and enjoy the old county center and to participate in a day of amusement and friendliness together.

GEORGE W. MEETZE

George W. Meetze died suddenly at 7:30 p. m., Friday, August 8, 1930, at the home of Mr. and Mrs. J. J. Murphy, Manassas, where he was temporarily residing during the summer months. Mr. Meetze's death was caused by heart disease from which he had suffered for the past five years, and which had forced him to retire from active service.

He was born in Edgfield, S. C., June 21, 1864, and was the son of the late John L. and Sarah Jeannette Meetze, natives of Lexington, S. C. For over thirty years prior to 1917 Mr. Meetze was in business in Washington, later becoming an inspector in the Engineer Department of the District Government. In 1917 he entered the service of the DuPonts, in Wilmington, Del., and during the period of the world war was in active service when the U. S. Government took over the various ammunition plants.

He was a member of the Men's Club of Manassas and the Radiant Bible Class of the Presbyterian Church. Also was a member of St. John's Lodge No. 11, F. A. A. M., and a charter member of E. J. Ross Council, No. 26, J. O. U. A. M. in Washington.

Mr. Meetze is survived by an only daughter, Mrs. Jesse Chandler Watts, of Washington, and by four brothers, H. L. Meetze, Richmond; C. J. Meetze, Manassas; R. M. Meetze, The Plains; and H. Y. Meetze, Manassas.

Funeral services for Mr. Meetze were conducted on Sunday, August 10, by the Rev. Thos. Worthington Cooke, Rector of the Church of the Ascension, Washington, of which he was a member. Pallbearers were his nephews, Messrs. Edward and John Monroe, Taylor Meetze, Maurice Garrison and Dr. Iron Kohlmeier, and I. R. Wolverton.

Interment was at Gainesville.

A CORRECTION

In the issue of July 28 certain figures in the NEW DOMESTIC rates of the Virginia Public Service were erroneously given through a mistake in the press room. We corrected those figures in the issue of August 7. If there is any confusion resulting from the first incorrect statement on the donkey, Dolly Hyden, we are glad to give further explanation.

STATEMENT

A rumor has been started to the effect that there are ten cases of typhoid fever in the town of Manassas. I wish to contradict this statement most emphatically, as here is not a single case of typhoid fever in this immediate location. Our water supply is abundant and pure and I entertain no fear of an outbreak of this disease as long as these conditions exist.

Stewart McBryde, M. D., Health Officer, Town of Manassas.

CARNIVAL HERE
NEXT WEEK

Its Purpose is to Raise the
Money for the Benefit of
Our Firemen

A mammoth carnival for the benefit of the Manassas Volunteer Fire Department will open here Saturday evening on the grounds of the school gymnasium and will continue through Saturday August 23.

The carnival is being run by the personnel of the Fire Department and all booths and amusements are provided for locally. This means that every dollar spent by the host of expected visitors will go direct to the Volunteer Department and will be used in paying off the loan of the Town Council which went for the purchase of equipment and for adding needed improvements.

Dancing Each Night

In addition to the various amusements and games which will be found on the carnival grounds there will be dancing every night to the strains of a well-known dance orchestra, while special features for the entertainment of the children will be provided nightly.

Fire Chief Albert Speiden has invited volunteer fire departments from nearby Virginia and Maryland to participate in the program on various nights and it is planned to have several standing hook-up contests.

Officers of the Manassas Fire Department are: Chief, Albert Speiden; Assistant Chief, Jesse Crosby; Captain, Thomas W. Howard; Secretary-treasurer, M. M. Ellis; First Lieutenant, Raymond J. Davis; and Second Lieutenant, John L. Hynson.

The committee in charge of the carnival is headed by M. M. Ellis, who has assisting him Jack Ratcliffe, Raymond Davis, C. W. Fitzwater, Bruce Hynson, A. Vetter, Buck O'Neill, W. E. McMillan, Joe Coram, Thomas W. Howard, Maj. P. W. Patterson, Cleveland Fisher.

FREE CHEST CLINIC

Don't forget! the chest clinic to be conducted under the auspices of the State Health Department in the Peoples Bank Building, Friday morning, August 22, as announced in the Journal of July 31.

MISS GILLUM ENTERTAINS

A very charming birthday party was given yesterday afternoon by Miss Jocelyn Gillum, daughter of Dr. and Mrs. V. V. Gillum, the occasion being the young lady's eighth birthday.

Among those present were Cora Lee Cokerel, Carol Illingworth, Virginia Newman, Janet Newman, June Pickrel, Fanelle Pickrel, Rachel Meetze, Shirley Davis, Shirley, Hynson, Lucy Johnson, Lucy Morris, Nancy Baker, Teenie Baker, Mary Mason Davis, Mary D. Lynch, Caton Merchant, Margaret M. Law, Mildred Parrish, Nancy Parrish, Betty Parrish, Catherine Jenkins, Marvin Gillum, Dolly Hyden, Mary Ann Marx and Mira Kelly.

There were refreshments galore, and the young folks simply had a splendid time filling up on the various dainties. A large birthday cake cut by Jocelyn just before the gathering dispersed.

The most entertaining of the games was the old sport of pinning the tail on the donkey. Dolly Hyden showed the best sense of direction, with Virginia Newman a close second.

ADVISES ON
STOCK FEEDING

Drought Problems Discussed by
County Agent Cox

SCARCITY OF ROUGHAGE
CAUSES MUCH CONCERN

Feeding Suggestions

Since practically all the clover which was seeded last spring has been killed by the dry weather, it is extremely important to make special preparation and sow some clover or clover and grass this summer; and at least three weeks before the first killing frost. If this is not done, there will be a shortage of hay again next year. Clover or grass seeded alone in August or early September will make a crop of hay to harvest next summer, assuming that the drought breaks in time. About one-half pound per acre of turnip seed sown with the clover or grass mixture may make possible a supply of roots as a supplement for this winter's feed, if rain comes soon. These would have to be fed with discretion to avoid tainting of milk.

Rye seeded at the rate of one and one-half bushels per acre between the last week in August and September 20 should give about a month's grazing this fall and a month's grazing next spring before permanent pastures are ready to graze. Abruzzi rye seeded after these dates will give some spring grazing, but very little, if any, fall grazing. It is very important to sow the Abruzzi variety, earlier and will furnish more grazing as it is from ten days to two weeks than any other variety. As Abruzzi seed cannot be distinguished from common rye, it is a safe plan to buy certified Abruzzi. Some seed of this variety is now available from growers in the county.

Winter oats or barley will make possible a source of grain for work animals and for supplementing dairy rations next summer and early fall. Rape seeded in August or early September will furnish good pasture in the fall and early winter for hogs and sheep. For cattle, care must be taken with rape to prevent bloating and tainting of milk.

No crop should be seeded however until the ground has been thoroughly wet. With a late season and an early rain, there is a gambling chance of getting some feed from late planted corn of a flint variety.

Economic Utilization of Feeds on Hand

Take care of supply of hay and straw to prevent losses from weather. The corn crop, in the rare cases where eared, should be used to fill silos without consideration of the need for grain. Roughages will be scarce and high and grains comparatively cheap. When corn tassels dry up without ears forming, the quicker it is cut the higher is the quality of the product.

With grain and protein feeds relatively cheap there will be economy in feeding the low protein roughages available with liberal high protein grain allowances.

Chopping straw and shredding fodder will make these two roughages more eatable. Wetting these roughages and putting the grain with them will increase their palatability. If stock molasses can be obtained at a reasonable cost per gallon, cutting up straw and poor hays and sprinkling with molasses water (one gallon of molasses to four of water) may be strongly advisable.

Do not try to substitute grain feeds for the lack of roughages as dairy cows need to be filled as only roughages can do.

Barley can be used in any dairy ration in the place of corn.

Feed wheat in the dairy ration as long as the price is below \$1.15 per bushel. When fed it should be coarsely ground and not over one-third of the total ration made up with wheat.

Oats may be low enough in price to make it pay to buy your winter supply.

Very careful estimates should be made of the feed that will be needed during the next eight months and thought given to the purchasing of the necessary supplements.

Careful culling of dairy herds is always advisable and more urgent at

this time. G reater profits will come from selling the lowest producers and higher production from the rest of the herd. Even if animals culled must be sold for low prices, this holds true. If there is a difference of not over \$8.00 per ton between the price of alfalfa and other hays, buy the alfalfa as it will go further and produce more milk.

Favorite Recipes of a Famous Chef

As Told to Anne Baker
 By **FREDERIC FRANCOIS GUILLOT**
 Chef, Hotel Astor, New York City

The proper use of seasoning, according to Mr. Guillot, is one of the most important secrets of the culinary art. Here Mr. Guillot illustrates the French use of sugar, not as a sweetener, but as a seasoner to accentuate and bind flavors.

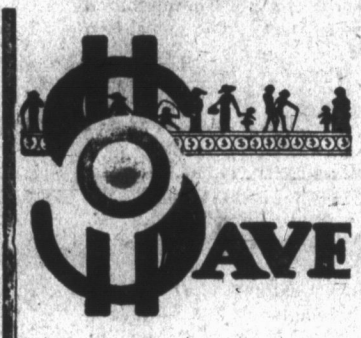

Chicken Mexicaine—Cut up a frying chicken, sprinkle with salt and pepper, and fry in bacon fat, along with the giblets and one sliced onion.

Heat one-half cup strong chicken stock to which has been added one-half teaspoon chili powder, one teaspoon olive oil, one teaspoon tarragon vinegar, and one teaspoon sugar. Add one quart green peas and cook until peas are tender. Pile peas in center of platter and arrange chicken and giblets around them.

Squash Soup—Make a white sauce of two tablespoons butter, four tablespoons flour and one quart milk. Season with salt and pepper, one-fourth teaspoon paprika and the grated half of one onion. Mix one-fourth teaspoon sugar and one-eighth teaspoon ginger with one cup squash, mashed and beaten until smooth. Add to the white sauce. Beat with an egg beater, re-heat and serve.

OF CONSTIPATION

A Battle Creek physician says "Constipation is responsible for more misery than any other cause." But immediate relief has been found. A tablet called Rexall Order-

Stop suffering from constipation. Chew a Rexall Orderlie at night. Next day bright. Get 24 for 25c today at the nearest Rexall Drug Store.

CHRIST FOR ALL—ALL FOR CHRIST

The Word of God

It is a living word, and it is a light to the world.

BIBLE THOUGHT AND PRAYER

If parents will have their children memorize a Bible selection each week, it will prove a priceless heritage to them in after years.

OUR PRESENT POSSESSIONS

—Now our Lord Jesus Christ himself and God, even our Father, which hath loved us and hath given us everlasting consolation, and good hope through grace, Comfort your hearts, and establish you in every good word and work.—2 Thess. 2:16, 17.

PRAYER

"My Shepherd is beside me, And nothing can I lack."

WATER CONSERVATION

Manassas has thus far been blessed with an abundant water supply for which each and all of us should be deeply grateful. However, we cannot foretell just how long the underground strams which feed our wells will continue to flow.

Therefore it is very necessary that our people be sparing in the use of water and not waste it in non-essential uses, such as car washing, street sprinkling, etc.

As yet the Town Officials have taken no steps to curtail the use of water, and it is hoped that such action will not be necessary, but it will do little good to pass restrictions after the water supply has become exhausted and it behooves every one to be guided by caution and foresight and conserve our supply against the possible day when our underground reservoirs will have become exhausted.

IN MEMORIAM

In sad but loving remembrance of my darling little niece Eleanor Virginia Price who died one month ago today, July 10, 1930.

No one knows the silent heartaches Only those who have lost can tell, Of the grief that is borne in silence For the one we loved so well.

As we loved her so we miss her In our memory she is always near, Loved, remembered, longed for always Bringing many a silent tear,

With her Saviour she is waiting In that upper garden beautiful and fair, She is waiting for our coming For there will be no parting there.

May heavenly winds blow softly Over that sweet and silent grave, Beneath lies the one we always loved

But one whom we could not save.

Lovingly,

Aunt Mae

DUTCH TRAVELERS VISIT AUTO FACTORY

The clomp-clomp of wooden shoes mingled with the purr of multiple cylindered engines during the recent visit here, at Chevrolet Motor Company headquarters, of Jan Hoppe with his wife and two small children, natives of the Netherlands, now on a globe-circling tour.

The Hoppe family presented a strange picture of contrasts. Where all the world is style conscious, the Hoppes are traveling in a four-year-old car and are dressed in native costume, even to wooden shoes and the peaked white turban of the wife and daughter. And while aviators are planning to lower the record for round-the-world trips, the Hoppe family expect to spend five years on the tour.

The small island of Marken, in the Zuider Zee, was the Hoppe home until last December. They came first to America, landing at Florida, and there purchased a 1926 Chevrolet sedan to use in seeing America. Despite a combined luggage and passenger weight of nearly a ton, the four-year-old car brought them on to Detroit without a mishap, where one of Mr. Hoppe's first concerns was to have Chevrolet service experts check over the car to determine whether it could be relied on to give satisfactory service during the two years they plan to spend in America. When a check revealed the car in satisfactory shape, Mr. Hoppe decided to acquire a trailer for the luggage and proceed with the car on his journey.

In answer to skeptics, who doubted his ability to drive with wooden shoes, Mr. Hoppe climbed into the car, and drove it over the curb onto the sidewalk in front of the Chevrolet offices with the skill of a veteran at the wheel.

The Hoppes plan partially to work their way around the world. He sings over the radio, Mrs. Hoppe sells novelties, and the family where possible obtain short-term employment in line with Mr. Hoppe's native training as a

Mr. Hoppe states that if the children show any ill effects of the trip, he will immediately call it off and return to his home. So far, except for quarantine for diphtheria last winter, the children, Hans and Weijte, have been having the time of their lives.

I LOVE THE SOUTH

I love the South,
Though Northerner am I.
I love the trueeness of the blueness
Of the Southern sky;
She has her faults,
But faults have I:
I love the South.
I love the South,
Though Northerner am I.
I love the fairness and the squareness
Of the Southern eye;
It has its clouds,
When clouds are in the sky:
I love the South.
I love the South,
Though Northerner am I.
I love the nearness and the dearness
Of the Southern tie;
It may be wrong,
But so may I:
I love the South.
I love the South,
Though Northerner am I.
I love the tearless and the fearless
Way her people die;
Her soil holds noble men,
With noble men I hope to lie:
I love the South.

The Fields of Old Virginia
By Otie Brodrene

The fields are bright,
With daffodils
I smell the air,
Through its stones
The brook is bubbling
Sweet on the hills
The bees around,
The flowers drone
Down in Old Virginia.
Sometimes I used
To see the sun
It sank just when,
My work was done
Toil worn I was—
And yet glad to see
The night come on
And swell the blossoms,
On the tree
For oh, the apple trees,
With blossoms white.
Were just outside
My window at night.
And as I slept,
It surely seemed
Their perfume mingled
With my dreams.
Now within this city dread,
Still the voice of the country I hear,
Oh, Virginia, my native soil
I would not mind this awful toil,
If I could change this dingy gloom
To sweet green fields and lovely bloom
Down in Old Virginia.
TULIPS
In spring when blows the sweet, mild
wind,
And all the earth seems gay,
The tulips lift their petals up
To seek the light of day.
They seem to be of fairy mold
In colors that the artists hold
To be the very best.
Their fragrance is so soft and sweet
That it spreads far and wide,
And through deep shadows of the
night,
Their sweet perfume doth glide.

Fishin' Time

HOLIDAY time is the kids' time especially when the old fishin' hole has a couple of big ones in hiding. If you don't believe it take a look at the smile on the face of this youngster as he shows the trophy he yanked out of the waters in Algonquin Park, Northern Ontario, where the real fish grow.—Photograph Canadian National Railways.

TWIN CITY GOSSIP

Woodbridge and Occoquan

I'll be sun of a gun!
The durn thin' does run.
The old chariot, like the one horse shay,
Has lasted one hundred years to a day.
It moves along with a sput! sput! sput!!!
And covers the ground with a put! put! put!!!

It takes you to work moving slow,
It covers terra firma, a fast snail's
And brings you back—moving just so
pace;

Stops to sneeze and cough in the middle of the race.

"Twix breakfast and supper, the old chariot hack

Takes you avy and brings you back.
N. S. (None Such) Lambert, is the lawful and rightful owner of this wonderful old open air gasoline chariot.

With the regularity of our solar system, we look north, after hearing a spluttering sput, and feeling a shakely shake, and behold "None Such" approaching from the north. He drives at a terrific rate. Barney Oldfield would lay his ears way back on his head and bite a genuine snapping turtle with delight, just for the kick of seeing our old friend "None Such" skimming over Mother Earth in his open air chariot. Fair weather, good wind, "None Such" can cover around five miles per hour. Speed is what counts—zip! zip! zippity!!

Rev. Double H. Hoyt has more energy than a model "T" Henry. He preaches to beat the band on his circuit in Twin City, and then goes out fishing for lost souls around Mount Vernon. May success be part of your stock in trade for, we need men even in the wilderness to preach "Old Time Religion."

Mrs. Warren P. Clarke is visiting in the West. Her husband, Jakey, our idolized postmaster, is looking well, tipping his hat and shaving daily. Rumor is current that Jakey is especially polite to the fair sex during Mrs. Clarke's absence. Have a good time Jake, we swear not to tell.
Col. Allen has at last started to roll his own. Ralph, you look and see for yourself, socks are rolled down to whoopee proportions—tee hee!

Jokey Hampton, of Freestone Club, gives us his word of honor, that a tooth carpenter has signed a contract for thirty-two, including an eye and one or two wisdom teeth.

Our old bachelor list is still open, and we are being thanked every day. One old bachelor of Twin City got caught in the under tow of a permanent wave and now it is Mr. and Mrs. Burdette. Congratulations folks, settle down in Twin City and help it to grow.

One of our very best looking bachelors drives a model "T" Henry and is a devotee of Lady Nicotine. We understand that a beautiful young widow of Twin City does not think that Lady Nicotine can give him the proper companionship. Some bachelors are nearsighted.

Don't forget that we are always willing to give advice free. One of our bachelors that we can especially recommend without reservations, Car ton Burdette, quiet and thoughtful. She may not say "yes" so girls you still have a chance.

Friend Eggy Thompson reports that Sulphuric Speakes, who has had the Hornswoggle Construction Co., Inc. to build him one of the "Hornswoggle Specials" on South Easy Street, sunk a well the other day and five feet down struck a wonderful flow of colorless, odorless, transparent fluid, consisting of two parts hydrogen to one part of oxygen.

The drought has been very detrimental to the hair on top of Jigg Embrey's head. Wells and Jewel, Inc. a new concern, located at Well's old stand on Piney Ave. are in need of an entertainer. They want a black boy who can plunk a banger and dance. This is a new innovation that has been forced upon the oil service man. A competitor located about one-half block south of Wells and Jewel have installed free air, free water, free information, free thought, free discussion and free entertainment. And dances for the entertainment and aggravation of customers. Wells claims that he is so old to dance and Jewel dittoes that he is too ugly to make a pleasant impression on out of the state customers. The rays of old sol and the extreme dry weather put an edo on the word drought.

Wonder if the Hawley Smoot tariff raised the rate on our yearly precipitation? We suggest that President Hoover put a Secretary of Humidity in his cabinet, empowered to wring rain at will from old Mother Nature.

Prof. Joohn R. Bates, of Princeton, has been able to transform benzol into carbonic acid. Excited mercury in the presence of oxygen does the trick. He hasn't a thine on Prohibition. Prohibition in the presence of saloon barony causes excitement and in turn causes the Virginia Bar Association to drink drinking conditions.

Sharing Good Things

Helping yourself you help Virginia

The best customer your state has for the food it produces is A & P. The reason is simple: A & P has to buy a larger supply of this food than anyone else because of the demand for it from hosts of housewives all over the country who trade in A & P stores.

This helps the producer just as A & P methods help you. Producers, to prosper, must have sure, quick, and good markets. You, to be satisfied, must have the best of what you like at the lowest possible cost.

Ask the food and allied industries of Virginia who are their very big customers—for their canned vegetables, potatoes, oysters, tobacco, and other famous products. Last year A & P bought more food in Virginia, at a fair price, than any other buyer, and will buy still more this year.

Why a low price to you and a fair price to producers? ... Because all the money you pay A & P for food—less only actual expenses and A & P's small service charge—goes to the producers.

THERE'S MORE TO THIS TIRE THAN Mileage, MISTER!

Low price, for one thing . . . and that significant name "Goodrich" on the sidewall!

28x4.50	6.63
30x4.50	6.65

MILEAGE? Sure there's mileage in the Cavalier! Plenty of it . . . and every bit the kind that lets you forget you've got tires on your car!

But mileage is only part of the story of Cavaliers. There are low prices to think about, too. Real savings, in cold hard cash.

And right there on the sidewall that significant name Goodrich! Assurance of quality . . . value . . . ability to take punishment!

For Goodrich puts its name on only one kind of tire . . . the kind that stands up in spite of punishment, high speeds, bad roads. The kind that takes its own good time about wearing out . . . and keeps you from worrying about it.

That's the kind of a tire the Cavalier is. Big. Husky. Oversize in air cushion and tread thickness. Stout in the sidewalls. Water-cured for through-and-through toughness. And mighty good looking on your car.

You can forget about mileage. That goes for granted with any Goodrich Tire. Just remember the low prices and the fact that they're backed by Goodrich. Come in . . . see them. We have them in all sizes . . . including a couple for trucks.
