## PRINCE WILLIAM COUNTY CHAPTER OF THE AMERICAN RED CROSS HOLDS ANNUAL MEETING

The Prince William County chapter of the American Red Cross held its annual meeting on Saturday, December 6, in Parish Hall at Manassas, Virginia with a good attendance of chapter officials, roll call workers and members.

Reports of committees for work accomplished during the year were given by chairmen as follows: Roll Call, Mrs. George Delaney; Civilian Home Service, Mrs. C. R. C. Johnson; Home Service (ex-service men and families), Mrs. Stuart Pattie; Production, Mrs. G. Raymond Ratcliffe; Nursing Activities Committee, Dr. E. H. Marshall and Mrs. Ruby Ryman Haydon; Publicity, Major W. F. Patterson, Nokesville, Mr. J. A. Hooker.

Mrs. Delaney, Roll Call Chairman, made a most interesting report, reporting that the chapter's quota of six hundred members had been reached. This shows a decided increase over last year's membership which was four hundred and seventy. Mrs. Johnson, chairman of the Civilian Home Service Committee gave an excellent report on the progress and accomplishments of this committee which was organized in February for the purpose of co-ordinating relief and charity given by various organizations and Red Cross to families who are reported to the County Nurse.

Production work under the direction of Mrs. J. P. Lyon and Mrs. Ratcliffe has also been very active. This committee made a number of garments for use of the County Nurse; and remodeled and repaired second hand garments for distribution to children who otherwise would not be able to attend school. Several hundred garments have been made available for distribution by this committee.

Mrs. Stuart Pattie deserves special mention for her work in assisting families of ex-service men to file and receive benefits from claims through the Veterans' Bureau. Seven such claims were taken up and adjusted. Publicity under the efficient direction of Major F. W. Patterson reported splendid co-operation of the Manassas Journal and the Washington papers by which he was able to keep the work of the chapter before the people.

Mrs. W. L. Lloyd was re-elected chairman of the county organization; Rev. A. Stuart Gibson was elected vice-chairman; Miss Loretta McGill, Haymarket, treasurer and Mrs. E. C. Splitter, Nokesville, secretary.

The following members were elected to the Executive Board: Mrs. Carvel Hall and Mrs. O. M. Douglas, Gainesville; G. Raymond Ratcliffe and Eli Swavely, Manassas; Rev. J. Royal Cooke and W. L. Lloyd, Brentsville; Tom Russell and W. Y. Ellicott, Coles; Mrs. Jane Abel and Mrs. J. F. McInter, Dumfries, and Mrs. Egbert Thompson and Mrs. Eva Kidwell, Gardner, Occoquan.

The final score of the B. D. H. S. Oakton game was 27-13 in favor of the Oakton boys. This did not discourage our boys but only makes them work harder to win other games.

## HAYMARKET HIGH VICTORIOUS OVER MARSHALL

The Haymarket High School basketball team opened the season on Friday, Dec. 5, by defeating Marshall 36-8.

Both teams played well, considering the cold evening, but the boys in Scarlet kept war mwhile running up their high score.

They told of existing conditions in the district homes and almshouses and of work being done to improve them, not only in a physical way but to the benefit of the individual's morally, spiritually and socially.

## HUGE TIRE ON EXHIBIT

Unique Display in Manassas  
December 15

Manassas Motor Company, Good-year dealers are sponsoring the exhibition here from 10 a. m. to 12, December 15, of the world's largest tire.

This massive casing stands 12 feet high and is four feet wide. It is a standard All-Weather tread balloon in every respect save size.

Good-year built the tire in line with its policy of pioneering and research thru which have come many of the most important developments in the tire industry.

Today, the massive casing is unique and something to quicken wonder. It is logical to assume that the future will find tires of such towering size a necessity and that they will enjoy a niche of their own without exciting undue comment.

A prominent tire manufacturer when shown this rubber giant registered no surprise. He expressed the opinion that the day would come when mammoth planes would be built needing tires as big or bigger than this one.

The tire giant weighs 1800 pounds with wheel. Forty-five minutes are required for inflation to a pressure of three pounds. The diamond treads measure 16 inches in length and 10 inches in width.

The tire will be exhibited on the streets of Manassas.

## WATERS ELECTED BANK CASHIER

Mr. Waters has been actively engaged in the banking business for 25 years. He was connected with the People's National Bank of Manassas for six years, the Calpeper National Bank of Calpeper for nine years and with the Bank of Upperville for one year before coming to the Takoma Park Bank in May, 1922, as assistant cashier.

## MAMMOTH TIRE

The largest tire in the world is on its way to Manassas, and will be on exhibition in town on December 15, according to Mr. A. S. Boatwright, of the Manassas Motor Company.

That intense interest will be aroused is a foregone conclusion, as this gigantic tire, an outstanding curiosity has been an awe-inspiring spectacle wherever it has been shown.

This massive tire, which has traveled thousands of miles, visiting various sections of the United States and Canada, has been an object of wonderment. It measures twelve feet in height and four feet in width, and the total weight of the tire and yoke is 3,900 pounds, just a fraction under two tons," said Mr. Boatwright.

This tire was built by the Goodyear Tire and Rubber Company of Akron, Ohio, in line with that company's policy of pioneering and research, through which have come many of the most important developments in the tire industry. The longer folks look at it the more interested they become.

"A well-known airplane manufacturer, while focussing his attention on the unique exhibit, remarked that the day was not far distant when planes of huge type would demand tires the size of the one to be exhibited in our city."

"This great tire was not built in a day, or a week, or a month. Three months' time was required to construct the rubber giant, which is, except for size, an exact replica of the regular Goodyear All-Weather tread Supertwist cord tire, the measurements being in exact ratio to measurements and manufacture of the regular size tire."

"Air? Yes, plenty of it is necessary for this mammoth casing. Forty five minutes' time is required for inflation to a pressure of three pounds."

"The tire is attached to a specially constructed bus by two shafts extending from the chassis."

## The Christmas Tree

THE Christmas tree is supposed by great numbers of people to have originated in Germany, but the Christmas tree came in the first instance from Egypt, and its origin dates from a period much earlier than the Christian era. The palm tree is known to put forth a branch every month, and a spray of this tree with 12 shoots on it was used in Egypt at the time of the winter solstice as a symbol of the completed year.

## TWIN CITY GOSSIP

(OCCOQUAN AND WOODBRIDGE)

Good morning friendly readers! This is "TGVA" bringing you another weekly broadcast. We failed to get our Thanksgiving edition of the Manassas Journal. The folks in East End Twin City missed the broadcast. Mr. Editor, did you forget us, or did you have your mince meat too highly flavored?

Reminds me of a little boy. His mother was asked, "Did your little boy enjoy his Thanksgiving dinner?" "I think so," sighed the boy's mother. "He wasn't hungry until half past five the next evening."

(Editor's Note: We regret failure to receive Thanksgiving Journal. Our movement did not prevent getting the paper out a day early on account of the holiday. The Twin City package must have tripped over somebody's mince pie.)

Up in Washington, Congress is congressing, and the Senate is senat-ing. The lame duck lawmakers are quacking their last little quacks. A quack here and a quack there. I agree with Senator Norris, enact laws to do away with short sessions of lame duck congresses. If we are to live in a democracy why not turn our law making bodies into democracies?

Mr. Hoover's message to Congress was just like reciting, "The boy stood on the burning deck." A well known fact with each and every citizen who keep up with the general condition of affairs of our country. We are well aware of the general depression that hangs like a heavy fog over the entire world. This condition does not effect Virginia alone, nor the U. S. and then stop. We see the very same condition existing in England, spreading to her numerous possessions. Here, (in England) we see the dole system trying to alleviate suffering until a more stable foundation is found to restore confidence in government and business.

France, because of certain economic conditions that is peculiar to the French Republic is little affected by present day world depression.

Spain, Belgium, Germany, the Balkan States, Italy, China and Japan, as well as our entire western hemisphere feel an uneasy pinch.

Certain politicians of the lung thinking variety are trying to feather their nest and make their places secure by appealing to the people who never think for themselves.

It is a sad commentary upon our much beloved republic and democratic learning that not more than twenty per cent of our citizens think for themselves. We regret this—we regret that—we let it go at that and that is that.

Here in Virginia (Twin City included) we swallow the bait that our political brethren toss us. When Brother Swanson tells us that England refuses to buy apples from Virginia growers because of our high tariff on incoming goods; we simply swallowed the whole mess and cried, "Bravo!" "Stop, Look and Think!" Think for yourselves. England demands apples graded to suit English buyers and according to the buying power of England she was willing to buy, and pay for what she wanted. The present tariff did not have a one-tenth of one per cent to do with Great Britain's apple orders. The same thing holds good for South America and other countries. As our buying power has been restricted, so has theirs.

Our bump of knowledge from the tenth district orates like a donkey with the distemper. He is in favor of (does not make it very clear) and then he reasons on and on into dream-land.

Senator Glass shakes his thinking mane, gnashes his false teeth and swears to stamp out every speck of harmony he stumps his toe on. Rumor rumors that he takes an aspirin every time he tries to think, and thinks of such a damnable "propollition" as the big seven of Democracy proposed.

Raskob, Smith, Cox et al signed an agreement that they would place Joe Robinson, Carter Glass and Tom Heflin "on the spot." They did this without consulting "Carter" and since then he has been acting like a waltzing mouse. President Hoover made a recommendation for a relief fund out side of the general road and building fund. This relief called for an appropriation of \$25,000,000 to be used specifically for the relief of the drought stricken sections. It is well that Congress thinks this should be increased. It now stands at \$60,000,000. That is fine! But, unless there are several changes made the \$60,000,000 will never be of any use to us. If the poor destitute, drought stricken farmer hasn't the collateral, what then if he is poor, destitute and stricken, according to the present plans of dishing out this money he is not worth saving. If our government cannot come to our aid in the time of need, who can or will?

In a broadcast through the kindness of the Manassas Journal some time ago, I suggested that Federal

aid to the amount \$100,000,000 be used for the same purpose that the present bill in Congress calls for. I made available. This amount to be went further and stated that to help drought conditions the appropriation would have to be used wisely, with an eye open to the true conditions of things. Farmers that are unable to borrow from banks need help. In fact they must have help. Whatever amount is appropriated should be put out as stated on long term notes bearing no interest, with fifty per cent return to the Government. Regardless of the amount appropriated the government would be reimbursed to the extent of one-half of the loan the other half to be borne by the Federal government as its share in rehabilitating a peace time emergency

If our country is worth saving from a foreign foe, then, is it not the duty of our country to save us from ourselves?

Idleness—unable to secure work—when work can be gotten small wages not enough to supply every day necessities the forerunner of cold and hunger—suffering and a groping in the darkness for a way out. When the above has gone the limit the masses tire of capitalistic democracy and then what?

Take a peep at Russia, Italy, Germany and Spain. At present \$100,000,000 judiciously expended will save our country. Later \$100,000,000 and millions of lives will have to be thrown in the offing to make our country safe.

Gov. Pollard sent troops to Danville

and Schoolfield after our courts had given the mill owners injunctions to curtail the effectiveness of the strikers

The mill owners have issued orders to forty-seven families to vacate company's houses or work for us at our wages. Capital vs. democracy. "The Land of the Free, the Home of the Brave."

Does Slavery exist and to what extent?

What are we doing to bring around a peaceful solution of our many trying problems? Will thought and study find an equation that will justify our onward march? The wisdom of a Solomon and the wheel of evolution moves on to a greater height on the other hand, our lack of foresight breeds contempt, which in turn produces communism to

change our once peaceful dreams into a burning caldron of revolution. Think, think hard, act and have faith and I am quite sure you will not need that other aspirin.

Good day, this closes our weekly broadcast.

## One Word of God

WISDOM THOUGHT AND PRAYER  
If parents will have their children, memorize a Bible selection each week, it will prove a priceless heritage to them in after years.

The Lord is worthy—Thou art worthy, O Lord, to receive glory and honour and power; for thou has created all things, and for thy pleasure they are and were created.—Rev. 4:11.

## PRAYER:

"Lord of all to Thee we raise  
This our grateful hymn of  
praise."

### Christmas for the Children of the County

(Contributed)

The Kiwanis Club of Manassas will pursue its usual policy this year of endeavoring to provide some Christmas remembrances for those children of the county who otherwise would have but little Christmas cheer.

Ever since its organization, the Club, under the leadership of Mr. Fred R. Hynson, has made an effort to provide toys and candy for children scattered all over the county.

Small contributions have been made from time to time during the year, with this end in view.

A short time ago, the question arose in the Club whether in view of the unusual depression in business, it would be wise to undertake the task this year; but the feeling was so strong that this work should not be omitted, even though it entailed considerable sacrifice on the part of the Club members and interested friends, that it was decided to "carry on."

A number of persons, not members of the Club have expressed a desire to assist in so meritorious a work.

No one will be asked for a contribution; but in order that those who desire to assist in the glad work of carrying some Christmas cheer to the less fortunate children of the county, headquarters will be opened in the store of Hynson and Bradford, where any contributions, whether of candy or toys or money will be received. In many instances toys, in excellent condition are available, where the original owners have outgrown them.

A day or two before Christmas, Mr. Fred R. Hynson, will begin to make up his packages and send out his baskets. A number of carriers will be required; but only volunteers will be used.

The experience of those who have heretofore assisted in playing the part of Santa Claus has been such that they have been unwilling to have this community service discontinued.

"Inasmuch as you have done it to the least of these."

## HISTORICAL MANASSAS

(Contributed)

Frederick, Maryland has played up the incident of Barbara Frietich and "Stonewall" Jackson, so that nowadays as soon as one approaches the town he thinks and in many ways he is reminded of the circumstance. Indeed there is a real pilgrimage to the house of the lady and there has been a musical comedy based on the incident tho much distorted as to facts.

With this as a text, think for a minute what such an example should mean for Manassas. In this vicinity two great battles of the War Between the States were fought, one of them at least with momentous consequences. Let's recount a few of them. It made the South feel that they were able to win in the coming contest, it told the North that they had a great contest on their hands and to win meant far more than a summer picnic; and it gave the South backing from the great

European nations, England at the head. Indeed the only great nation which did not back them was Russia.

Now, what has Manassas done of any consequence to remind tourists and travelers and friends of these facts. Are the battlefields well marked? Are there arrows along the roads to remind travelers to turn in this direction or that to get personal acquaintance with great historical facts? True the state has put up a few markers along the Lee Highway with the name Manassas on them, but they mean so little to the village of that name.

A prominent member of Kiwanis at a recent business meeting called attention to these facts and suggested a booklet. Surely something should be done before valuable historical facts are lost irrevocably or badly distorted.

## FIDELITY OF THE DOG

On Tuesday a little fox terrier in Winchester saved the life of a drunken man, barking and pawing at its master's door until 3 o'clock in the morning, finally arousing him and leading a rescue party to the man, lying in an alley.

His work completed, "Tricks" ran lightly along home with his master, but after reaching the warmth of the fireside, he died from the effects of the exposure and prolonged effort to aid the man who was down and out.

A dog can only reason in accordance with the scope of his intelligence, but in matters of character, he often puts to shame the man, with his higher powers of discernment. Without question a dog feels and thinks far beyond the limitations surmised by man and all of the kindness and companionship which he receives is richly deserved.

## DR. C. H. LANE OUTLINES FUTURE FARMERS ACTIVITIES IN VOCATIONAL AGRICULTURE

In these days, dangerous in their clamors for bigness, speed and luxury one needs to remind himself that increase of possessions, whether of property or power, does not insure progress in satisfaction. This comes from the unfulfilling pursuit and service of truth, beauty and goodness in every day life, and from helping on the happiness and prosperity of our fellows. To work in that way for the advancement of the community, state and nation, I take it, is the large inclusive aim which animates the Future Farmers of America.

The social unrest, the Agricultural discontent in some parts, and the disappearance of the love of labor as the source of joy in life, all raise the inquiry! Are we on right lines in Education for safety, prosperity and happiness? Without doubt there is urgent need to transmute the spirit of the daily task on the farm by high ideals and standards.

These are developed by the kind of vocational education which is becoming an integral part of the rural high schools of the several states. They belong to and grow out of the mood of the mind and manner in which work is done.

Achievement of the individual is

made the basis for advancement from rank to rank in the Future Farmers of America. Class work of a high order, a successful handling of project work, evidence of thrift, and a practical demonstration of leadership are the passport to the higher degrees of the organization.

"The possibilities of the Future Farmers of America are immeasurable," according to the Secretary of Agriculture. "Through their leadership we may expect a new agriculture—an agriculture lighted by science and organized to demand an equal share with industry in the Country's general prosperity. There is no more hopeful sign of progress among our farm population."

"Rural leadership is the outstanding need of the hour. It will continue to be the great need in the future. Much of the hope for improved farming conditions lies in co-operative enterprise, and successful cooperation depends on leadership."

The Future Farmers of America must help to make life worth while by great, satisfying purposes in the lives of the plain people, which will find their expression through efficient labor for livelihood, the love of learning and the willing service of humanity. To the rural youth of the nation who are seeking to prepare and to perfect themselves for service through the organization of Future Farmers of America, I address this motto as embodying the true vocational spirit: (1) Learning to do; (2) Doing to live; (3) Earning to live; (4) Living to serve is a national organization for students of Vocational Agriculture. On January 15, 1930, 14 months after the birth of the organization at Kansas City, 35 states and the Territory of Hawaii had formed State Associations of Future Farmers of America and had affiliated themselves with the National Organization. There were then approximately 30,000 members in 1,800 local chapters.

The Future Farmers of America is a nonprofit corporation designated to recognize and encourage the natural instincts and tendencies of boys to organize themselves into gangs, or groups and put enthusiasm and pleasure into their work and play. By establishing strong state-wide organizations with local chapter in each school where vocational agriculture is taught, an outlet for these instincts and tendencies is afforded our vocational students.

Monthly Report of Sarah Pitts, Home Demonstration Agent, Prince William County, Virginia, for November, 1930.

Names of communities in which Home Demonstration Agent Worked: Wellington, Bristow, Brentsville, Gold Ridge, Payman, Aden, Woodlawn, Manassas, Greenwich, Bethel, Nokesville, Haymarket, Occoquan, Dumfries, Cherry Hill, Minnerville and Quantico. No. of girls clubs met, 17; no. of women's groups met, 5; no. other meetings attended, 10; no. homes visited, 34; no. of miles travelled, 557; no. of letters written, 180 and general remarks:

The finishing of 4-H project work for the year was observed November 1 with the Club Achievement program. Reports were made from 13 of 4-H Clubs of the county. Although Minnerville does not have enough members for a club they were represented at Achievement program and carried off first and third prizes in gardening. Most of the clubs also added to the day's program of entertainment with stunts and skits of various kinds. Reports were given by the boy and girl of the county who conducted best project work. Prizes were awarded for best work in Room Improvement, Poultry, and Garden. The effort and time spent on that program are more

than being made up for in the increased interest in Club Work and in the willingness of club members to work.

The women held their Achievement program on November 6 in connection with the Home Demonstration Advisory Board meeting. Reports of House Furnishings project show following improvements made by women of the six Home Demonstration groups: 64 women remodeling or refinishing furniture; 5 improving treatment of windows; 39 improving arrangement of rooms; 43 improving walls, woodwork, or floors in 157 rooms; 22 rugs made; 63 footstools made; 63 baskets made; 35 chairs reupholstered; 18 other small articles made. Each of the groups has worked either on foods or gardens and have made changes and improvements there.

At the Advisory Board meeting the women decided to take up Home Management as major project with foods, poultry, and yard improvement as minors. A poultry improvement contest is being started December 13. Any person in the county interested and wishing help in improving flocks is invited to enroll. The State Poultry Specialist will come to the county will come to the county will come to the county and give definite and individual help on poultry problems.

The girls of the county have chosen Clothing as major project for 1931. It is expected that groups in ten of the larger communities will take up work on clothing. Enrollments have been secured and work begun in most of these communities. Better Foods Clubs are organized and working in ten of smaller communities on food and health habits. School Leagues and other organizations are being urged to assist with securing hot lunches for as many of these schools as possible. Plans are being made for Woodlawn, Purcell, and Hayfield. A good bit of time has been devoted this month to preparing and

## MAGAZINE IS PAL OF BOYS

Those boyhood years between the ages of ten and twenty are the impressionable years—the formative years when the fundamental character of a boy is molded into the pattern it will maintain throughout the remainder of his life.

That is why so much importance is placed on the factors that govern the lives of adolescent boys—their companions, their environment, their reading, the food they eat, etc. At this age is determined whether the boy will develop into a cheerful or surly man, generous or selfish, intelligent or dull, ambitious or indolent.

School teachers, librarians, Scout leaders and others engaged in boy activities have found that THE AMERICAN BOY—YOUTH'S COMPANION magazine is one of the most favorable influences a boy between ten and boys can have. Its stories and articles are a force for good—wholesome, alive, inspiring.

The million or so boys who read this magazine every month consider it their closest friend. In it they find the keenest entertainment, adventure, mystery, athletics, aviation, humor, everything that delights a live wire American boy. Its sports articles by famous coaches and athletes help boys win places on their school teams. Its professional articles and biographical sketches aid them in selecting their life's work. Its keenly analytic editorials guide them in their daily problems.

That boy or young man in whom you are interested would have a world of pleasure reading THE AMERICAN BOY—YOUTH'S COMPANION.

Make a subscription to this magazine your gift to him. Subscription prices are only \$2.00 for one year or \$3.00 for three years. Mail your order direct to THE AMERICAN BOY—YOUTH'S COMPANION, 550 W. Lafayette Boulevard, Detroit, Mich.

**A** Wherever the best food is produced, A&P buyers are on the spot to buy it. A&P has the pick of every crop and every pack.

**B** A&P cuts out needless expense and wasteful handling by controlling the movement of food from the time it is bought at its source until it is sold at the store counter.

**C** Although performing the tasks of broker, jobber, retailer, and oftentimes of manufacturer, A&P takes only one small profit—extremely small, in fact.

Nothing complicated about that, is there? Of course not. Only business experts make it hard to understand. It is the A B C of modern retailing. How A&P sells the highest quality food at the lowest possible prices is the simplest thing in the world.

RELIEF FROM CURSE

OF CONSTIPATION

A Battle Creek physician says

"Constipation is responsible for more

misery than any other cause."

But immediate relief has been

found. A tablet called Rexall Order-

lies has been discovered. This tablet

attracts water from the system into

the large, dry, evacuating bowel called

the colon. The water loosens the dry

food waste and causes a gentle, thor-

ough, natural movement, without form-

ing a habit of ever increasing the

dose.

Stop suffering from constipation.

Chew a Rexall Orderlie at night. Next

day bright. Get 24 for 25c today at

### THE BOY THAT LAUGHS

(Dedicated to Buren Pearson)

I know a funny little boy—  
The funniest ever born:  
His face is like a beam of joy,  
Although his clothes are torn.

I saw him tumble on his nose,  
And waited for a groan  
But how he laughed! Do you suppose  
He struck his funny bone?

There's sunshine in each word he  
speaks:  
His laugh is something grand;  
Its ripples overrun his cheeks  
Like waves on snowy sand.

He laughs the moment he awakes,  
And till the day is done;  
The schoolroom for a joke he takes  
His lessons are but fun.

No matter how the day may go,  
You cannot make him cry:  
He's worth a dozen boys I know,  
Who pout and moan and sigh.

One who knows you well.

Emergency Feeding Suggestions

Given by R. W. Dickson, Dairy Ex-

tension Specialist, at Series of

Meetings in County.

Emergency dairy feeding sugges-

tions were given by R. W. Dickson,

Dairy Extension Specialist, at a series

of five feeding meetings held in

Prince William County this week.

The following is a brief summary

of the suggestions offered by Mr.

Dickson.

Know Analysis of Feed Purchase

Feeding dairy cattle is on import-

ant problem that most of our dairy-

men will have to confront this win-

ter. Very little feed was raised on

Virginia farms this year; therefore

it is necessary that almost all of the

feed be bought.

Consider all feeds very carefully

when buying, compare them with

other feeds and see if you are paying

a legitimate price for value received.

Know exactly how much digestible

food material is in the feed that is

considered. The value of a feed is

its comparison with other feeds, and

it should be bought accordingly.

Such organizations, if they function properly afford an excellent opportunity to teach vocational students some of the fundamental principles of group leadership. Boys are taught how to conduct their own meetings and how to do things in an organized way. An increasing number of the competitive activities, such as live stock judging—contests among different schools in a state, are being taken over by these student organizations under the careful supervision of the local teachers and the state supervisors. As a matter of fact one of the main secrets of success of any student organization rests in the ability of supervisors and teacher trainers to delegate responsibilities to the students themselves, for unless a student organization is assigned something to do which is interesting and really worth while, there is no reason for existence.

By having strong state and National organizations of Future Farmers of America, additional incentive for achievement by local chapters is set up. Greater dignity accrues to local organizations if each member knows that his local chapter of the Future Farmers of America is a part of a America is a part of a state and national organization of similar groups of vocational agricultural students which have been established in all on a great majority of the department of vocational agriculture throughout the United States.

Dr. Lane is chief of Agriculture Education Service, Federal Board for Vocational Education and National Advisor, Future Farmers of America.

Twelfth Annual Dairy Short Courses at Virginia Polytechnic Institute

The Dairy Husbandry Department of the Virginia Polytechnic Institute will conduct a series of Dairy Short Courses during the month of February, 1931. The cow testers' course will run from Feb. 2 to 14; the following week from Feb. 16 to 21 will be given over to dairy framers, taking up mainly feeding and management. The fourth week is arranged to give feed salesmen and dealers work to better acquaint them with the feed requirements of the farmer.

### CARD OF THANKS

We wish to thank our many friends for their kindness, assistance and sympathy in connection with the death of our son and the destruction of our barn by fire. We are particularly appreciative of the efforts in our behalf of the Manassas Fire Department and the boys of the Nokesville High School in endeavoring to put out the fire. The loss occasioned by the fire was of little moment compared with the great sorrow that came to us, but we want all our friends to know that what they have done for us is deeply appreciated.
