AMENDMENTS TO LOAN REGULATIONS

Applicants will be assisted by Mr. Cox on Tuesdays, Thursday mornings and Saturday at County Agent's Office.

The regulations governing loans for seed, fertilizer, feed for workstock and fuel and oil for tractors have been amended to authorize loans to farmers for the purchase of feed for livestock (dairy cattle, stock cattle, hogs and sheep.)

Loans for feed for livestock will be made for the season at ratio per head not to exceed the following:

- Dairy cattle, \$15 per head.
- Stock cattle, \$10 per head.
- Hogs, \$5 per head.
- Sheep, \$3 per head.

The applicant for loans for feed for livestock is asked to give a promissory note, payable on or before October 31, 1931, with interest at the rate of 5 per cent per annum. A first chattel mortgage upon livestock owned by applicant will be required. If the applicant has given prior chattel mortgages on the livestock on which he is applying for loan for feed, he must secure waivers of such mortgage holders.

An amendment also loans for the purchase of food for human consumption, minor repairs for farm machinery and a limited amount for clothing and horseshoeing. Hire of labor is allowed only in the case of widows where it is evident there is necessity for same. Loans made for this purpose are due on November 30, 1931 as are the loans for seed and fertilizer. For loans of this nature, adequate crop security must be given.

Cost of Hoover Administration in Two Years Equals Two-thirds Present Public Debt of U. S.

Commenting on the appropriations made by the 71st Congress, covering the first two years of President Hoover's administration, Senator William J. Harris, ranking Democratic member of the Senate Appropriations Committee, said:

"The last two years of President Coolidge's administration \$99,298,814,741 was appropriated, an average of \$4,649,407,370. The \$10,449,819,000 of appropriations and authorizations for the Congress just closed under President Hoover equals about two-thirds of our total public debt at this time (more than sixteen billion dollars) most of which was left over from the World War."

The appropriations of the Hoover Congress, the Senator says, means a tax of about \$81 on every one of the 122,735,046 persons in the United States, or about \$406 on every family. The average family income, the Senator adds, is only \$738 per year.

FIRST PLACE IN CONTEST WON BY WOODLAWN

Woodlawn School wins first place, Bristow second, and Cherry Hill third in the Better Food for Health Contest which has been running for the past three months in ten schools in the county. 214 boys and girls have taken part in this piece of educational work. In some of the schools marked gains in weight as well as improvements in food and health habits have been realized.

To Miss Helen Berg, teacher, Mrs. Robert Nelson, leader and Hazel Nelson, club president, go much of the credit for the very excellent piece of health work done in that school. MEMORIAM

In sad but loving remembrance of our dear Father, Henry A. Pearson, who died one year ago today, March 24, 1930.

We are thinking of you dear Father Thinking of the past, Picturing you in memory Just as we saw you last.

Father, how we miss you When your voice, we do not hear And it fills our hearts with sadness When we see your vacant chair Sleep dear Father your troubles are over,

We loved you dearly—God loved you more.

So he called you to rest. On that beautiful shore. They say time beats a broken heart But it all seems untrue

For one long, long year our hearts have ached.

Dear Father for you.

Leaf by leaf the roses fall, Soul by soul the Saviour calls

Sunshine passes, shadows fall. Love remembrance out last all,

And though the years be many or few.

They are filled with remembrance, dear Father of you.

You bade no one goodbye You quietly passed away.

Our hearts still ache for you dear But we will meet again some day.

By his children, Virginia, Costello, Clara, Isabel and Van Buren Pearson.

CHRIST FOR ALL—ALL FOR CHRIST

The Word of God

BIBLE THOUGHT AND PRAYER
If parents will have their children memorize a Bible selection each week, it will prove a priceless heritage to them in after years.

LOVE DEFRAUDS NOT—Owe no man anything, but to love one another. Thou shalt not steal. Thou shalt not covet. Thou shalt love thy neighbor as thyself.—Romans 13:8, 9.

PRAYER—Father, give us the spirit of the living Christ, that we may do justly, love mercy, and walk humbly with Thee, our God.

CHOOSING A DELEGATE

(Contributed)

The voters of Prince William and Stafford Counties this fall will be called upon to choose a representative to the State Legislature. No higher or more important duty devolves upon the individual voter than that of selecting a representative to the State Legislature. A voter should only cast his ballot for a particular candidate after serious and mature deliberation. A matter of such importance should not be trivially decided by a voter, when it is he who is the direct recipient of the representative's activities.

There will devolve upon the incoming legislature numerous and complicated matters for solution. The matters which will arise are too numerous to enumerate in the course of this article. For the convenience of my readers I shall list several major propositions which the prosperity of the time will necessitate immediate consideration; such as, re-districting of the State for national representation, Taxation and State expenditures, prohibition, whether the taxpayers should maintain at their separate expense a local department when the United States Government maintains a department which has concurrent jurisdiction and Highway construction. Besides these several enumerated matters there will be presented for solution various and sundry domestic questions, both with reference to our criminal and civil law.

With quotations of such weighty import confronting the incoming legislature, it is incumbent upon us as voters, to select a representative who possesses ability and is fully equipped to uphold our contentions. There are few men equipped to tackle propositions of such complicated and serious nature, whose solution will vitally affect our daily life. The difficulty in procuring the services of men who are adequately equipped is that they are either business leaders or professional men who hesitate to relinquish their position for one tainted with abuse and unwarranted elander.

Prince William and Stafford should send to the legislative halls one who is able at all time to cope without hesitation each and every problem presented. Who will be able to gain the ear of fellow members when furthering the cause of his constituents. Don't, let's remain indefinitely a "babe in the woods," and refuse to be led from the wilderness. Let's, like through Virginians, grasp the situation in the clutch of our hand and

shoulder to shoulder endeavor to replace Prince William and Stafford Counties in a position similar to the one which they formerly occupied in State wide reputation, at a time when her ship of fate was guided by men of outstanding ability.

32 PHYSICIANS REPORT FINDINGS ON NEW SARGON

So remarkable have been the results accomplished by Sargon in helping restore to countless thousands of people that during the past thirty days alone thirty-two leading physicians have broken the rule of a lifetime and have come out openly and publicly to give their unqualified endorsement.

So startling have been the reports in many thousands of cases that selected physicians in principal cities were expressly retained to study the Sargon formula and report their findings—so that the public might know the whole truth.

Outstanding among the number are:

Dr. P. K. Drummond, plant physician for the Ford Motor Company, Detroit, for 12 years.

Dr. C. J. Roberts, Philadelphia—Examining Physician for the Pennsylvania Railroad for 26 years.

Dr. W. L. Mair—Graduate McGill University Faculty of Medicine, Montreal—Medical Examiner for Sears-Roebuck, Detroit.

Dr. G. Warburton—Graduate famous Bellevue Hospital Medical College New York.

Dr. Eugene Perkins—Physician for Western Electric Company, Philadelphia.

Dr. W. W. Kern—Examining Physician for New York Life Insurance Company and many others.

In order that the public may receive the full benefit of the advice of these well-known physicians, their reports will be published in later issues of this paper. The statements of physicians of such standing are perhaps without precedent. Study their reports and profit by their advice.

Sold by Cocke's Pharmacy.

NOKESVILLE

Miss Mary Francis Zirkle the very attractive daughter of Mr. V. W. Zirkle of the Bank of Nokesville was united in marriage to Mr. George Corum of Catlett on Monday last.

The wedding took place in Fairfax with the father and mother of the bride present. The bride and groom left directly after the wedding for a trip South.

Mr. Eugene Herring and Miss Mary Shaffer were married in Rockville Md., last week. Mr. Eugene Herring is the son of Mr. Will Herring of Nokesville and a student at B. D. H. S.

The pictures of the Passion Play given in B. D. H. S. Auditorium last Friday were very good. Dr. J. W. Wright of Shenandoah Collegiate Institute gave a lecture on the pictures which was much appreciated by the large audience present. Dr. Wright spent last summer in Oberammergau, Germany, and saw the Passion Play there.

The B. D. H. S. Oratorical contest will be held in the school auditorium Thursday, April 2 at 8 p. m. The contestants are as follows: Charles Beahm, Ray Swank, Brown May, Thelma Johnson, Stuart McMichael, Evelyn May, Hazel Bowman, Sidney McLearn and Howard Miller. Every one is invited.

We hope to begin work on our gymnasium again in the near future and hope to have it finished by school opening next fall.

Brentsville District 4-H Club held a very interesting meeting in the school auditorium on Friday last. It was decided to plant a tree. It was Washington for the Bicentennial for George Washington to be celebrated in Washington in February 1932.

The next meeting will be April 22, at 8 p. m. in the High School auditorium. We have a wide-awake club of both and girls with 4 County Officers which are as follows: Wally Garman, vice president; Hazel Bowman, long leader; Geraldine Shepherd reporter; Stuart McMichael, cheer leader.

TWIN CITY GOSSIP

Good morning friends and neighbors. Don't think this is "much ado about nothing," for life is real and actions are earnest. My typographical transcription machine has of late been subject to a series of strenuous political bombardments, and under the circumstances surrounding a combination of politico metallurgy exploded under high tension. I simply mention this because scores of Manassas Journal readers have made inquiries—a few are wearing crepe, flowers including a beautiful specimen of a slunk cabbage was sent to what was supposed to be my last resting place.

Political news has been sweeping the battle grounds of old Prince William like a March wind. I have looked in vain through the pages of our Journal and attuned mine ear for a microacoustic embellishment of our political minded brethren—all in vain.

The Dodo breathed his last and his wings collapsed.

The Great Auk turned up his toes, and his wings snapped.

So with an overdose of political aspirants.

The political bug of desire, ever so gently bites Mr. Ordinary Citizen. Presto, he has been inoculated with a genus of bacterian that forces him to tell his fellowman how important it is for the voter to give him a public office. The little microbes are in his blood stream. Science has looked in vain for a specific. Dr. Malcolm, a well known veterinary and research worker of Twin City, comes forward with a collection of Microbicides. One full dose clears the blood stream of a political hallucinations and immunizes the victim for the rest of his natural life. A boon to suffering humanity. This stands next to the serum for eradication of hog cholera and tick fever. This also puts Doctor Malcolm at the head of the list for the Nobel prize in 1931. Our forefathers used verminicide.

Uncle Nick is steadily going forward with his political dulcimer. With good luck coupled with a state of high frequency that can be superimposed by the proper controversial polarization he says, "Predilection points a true finger of success straight towards his high and noble brow." I am betting, as high sheriff of Prince William County Uncle Nick won't be "Just a gigolo."

At the present time Uncle Nick and Tou Pee Davis are going forward rapidly with an undertaking that has been kept a secret for some time. But, secrets have a way of transcending the impound of ordinary impanels. This secret did that very thing. Now it is no longer a secret. Tou Pee and Uncle Nick are building a wharf form the shore line to deep water in Occoquan Bay. This wharf to be used by Uncle Nick to transport his tobacco from plantation to the northern markets.

I understand that Peter Custer Wigglesworth has offered to let Uncle Nick have his patent tobacco planter if Uncle Nick will allow him (Peter Custer) to use the wharf.

And now comes the news that causes sap suckers to migrate and red headed woodpeckers to shake their heads and sneeze. Chief Justice of the Peace Tom Sheppard is no longer a candidate for High Sheriff of Prince William County. The Chief Justice has had his chance. I personally gave him a shot of political gin and set the bacteria coursing

through his blood stream. He died politically while the boom was a bonning. May the tangled vines of the future protect the memory of our Chief Justice of the Peace. Exit, means out—we write "Finis."

I was somewhat amused the other morning. O well, I will start at the beginning. Some time ago I heard that my good friend Boatwright of Manassas was sporting a "Tux" and a flap eared collar on the least provocation. This fact I mentioned ever so slightly to my friend Herring. The other morning I looked out and what did I see? Geo. Herring was driving to Alexandria dressed in a full dress including white spats and monocle. Our legislative candidates are very expressive.

If reported rumors comes true, and Col. Bob Hutchison throws his false teeth in the ring and hangs his yallar cane over his arm we the voters of Prince William and Stafford will see a three cornered legislative fight worth the price of a rainy day during a dry season.

William Henry Carrick has never given up the big idea of opposing J. Lindsey Dawson. Lindsey is plainly nervous. I respectively suggest that he try sulphur and lard. It is hard for the lay mind to diagnose the symptoms of the itch mite and segregate such symptoms from political nervousness. We need one more legislative candidate. No, no, no, not a man! This is an opportunity for a woman. The foot that rocks the cradle while hands are darning socks should have a head in the legislative halls. And that head should not be a man's.

I wish here by and hereon to notify the girls of Tinw City that Manley Southworth has been fitted with a fine set of nippers and molars. Incidentally I feel it my duty to mention that Manley is still matrimonially inclined.

Talking about teeth reminds me. The other day Double A. Davis was milking one of his goats when Mrs. Goat turned face and looked Double A. square in the eye. Double looked at Mrs. Goat and yelled just as sister Goat made contact with his mouth. After the battle was over Double A. spat out most of his teeth.

If any of the Journal readers have from one to twenty six false teeth not needed get in touch with A. A. Davis (known as Double A.) Woodbridge. He is in the open market for a set of used molars.

We are very sorry to hear of the illness of Mrs. E. S. Brockett. Mrs. Brockett is in Alexandria Hospital undergoing treatment. Edgar, her son, came up from Atlanta, Ga., yesterday to see his mother.

C. R. Yates is still planting Irish spuds.

Fred Lynn reports that he hasn't

had a proposal this year. Girls and young widows under sixty seven powder your nose and get busy.

C. S. Pierce rumors that times are getting better. Pierce predicts his conviction on his scientific studies of postmasterhip. He says that when times are tight like the past year has been there is not enough stickum left on postage stamps after licking to make stamp adhere to letter.

B. W. Brunt takes issue with Charlie. Says Brunt, times are still hard, for, when times are hard perfume leaves the paper money, all money comes in minus perfume. Pierce says, stamps are sticking well. Guard Glascock of the D. C. Workhouse opened his heart the other day to a R. F. and P. train crew. She lives in Alexandria. And O my! Go on boy I don't blame you. Faint heart won fair lady.

The old philosopher E. W. Thompson, says marriage is just like a railroad sign; when you see a pretty girl you stop, then you look, and after you are married you listen.

GEORGE DENT.

FIFTY YEARS OF SERVICE

Orange Observer Passes Half Century Mark

It was our pleasure some twenty odd years ago to be present when the cornerstone of the Barbourville school house was laid. On that occasion, when every Mason of standing in the county of Orange was present, we noted a lady who appeared to be much interested in the proceedings. On inquiry, we were told that it was the Editor of the Orange Observer, who was going to fix up a nice account of the meeting. We never saw that particular "write-up," but if it is anything like much other matter that "Miss Bertha" writes, we know it was good.

Again, at the celebration of Washington Birthday last year in Alexandria, we had scarcely seated ourselves in the stand which we noted the approach of the Editor of the Orange Observer, looking as spry and chipper as she did on that bright summer day many years ago.

During our brief contact, she informed us that the old Observer was soon to celebrate its golden anniversary. Things slip our mind, and the day arrived just two weeks ago today. Sorry we were not in Orange to give our friends a glad hand.

The Observer is a fixture in the Town of Orange that the town should be proud of, and we take this belated occasion to wish our "fraternal-arms," "many happy returns of the day."

Comes Only by Saving

The difference between the rich man and the poor man is, generally, that the one saved his money and invested it wisely, while the other SPENT all he made.

No matter how much you earn, you will never be wealthy or be independent if you spend it all. Spare time and spare money are the poor man's capital, and his ultimate success depends upon the returns from the capital.

Through the generosity of Admiral Cary T. Grayson, I am able to offer the services of **LONGWORTH**, Imported (Son-in-Law out of Loaf Sugar by John 'o Gaunt), Son-in-Law, Champion Sire in England, 1930—his progeny won £44,588½—approximately \$222,940.

Longworth is a magnificent individual, standing 16.3 hands high. He is superbly bred, as his tabulated pedigree will show. He was foaled in 1923 in England and sent to the United States as a foal. He won his first race in 1925 as a 2-year-old at Coney Island against 6 strong contenders a distance of 5½ furlongs. He won third race on same track a few days later against five outstanding 2-year-olds.

Longworth's sire, Son-in-Law, is by Dark Ronald, who is the sire of St. James, the winner of the Westchester Futurity in 1923 (approximately \$64,000 to the winner), and he is the sire of Jamestown, the winner of the Westchester Futurity in 1930 (approximately \$100,000 to the winner).

Telling the Senate the Facts About Food Prices

A United States Senate committee has been looking into the prices of bread. The Senate wanted to know, in the interest of the public, whether the retail cost of a loaf had come down with the price of wheat. Not in all cases, the committee answers. It says, however, that:

"The chain stores are demonstrating their ability to bake and sell at a profit a pound loaf of bread at 5 cents, using the best materials and approved methods, and paying the prevailing scale of wages."

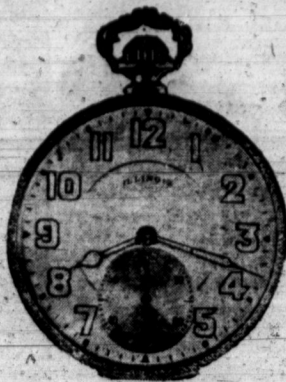

A & P cannot tell the story of all its food better than the Senate committee tells it about bread.
