OCTOBER MEETING OF WOMAN'S CLUB

The October meeting of the Manassas Woman's Club was held in the dining room of the high school on Wednesday of this week, with Mrs. Aylene Guthrie, vice-president, presiding, in the absence of the president, Mrs. Robert Smith.

Reports of committees and section chairmen showed much progress during the interim since the last meeting. Mrs. Logan announced that the music section would meet for a song on the third Monday of the month, while the literary section chairman, Mrs. Eli Swavely, reported the study of "Modern Diana" had been chosen by that group, which meets on the fourth Monday of each month.

Mrs. Harry Love, wife of the new director of agriculture in the local high school, was accepted as a new member.

The meeting then adjourned for the social hour and programme during which we were delightfully entertained with an address on "Forestry" by Mr. William Harrison Lamb, editor and publisher of The Manassas Journal. Mr. Lamb touched on many phases of this subject, all of which were most interesting. Beginning with the relationship of plants to trees he continued on through the history of forestry from William Penn's first regulations—through the present conservation program, and stressed the fact that had there been a better system of forestry control much of the present economic conditions among farmers might have been avoided, and much land saved from either ruin or destruction. All present expressed themselves as highly pleased, and the club hopes to have more from Mr. Lamb at some future meeting.

The following were appointed as hostesses for the November meeting: Mrs. Harvey Steele, Mrs. William Sharrett, Mrs. Ernest Trusler, Mrs. O. D. Waters, Mrs. M. M. Washington, Mrs. Bruce Whitmore.

PREVENT FIRES

THESE SIMPLE SUGGESTIONS,
IF FOLLOWED BY EVERYONE IN THE FAMILY, WILL
MAKE YOUR HOME SAFE FROM FIRE

PUT lighted matches and smokes out before you throw them away. Keep matches where small children cannot reach them. Never smoke in the garage barn, or attic, nor in bed.

REMOVE rubbish, waste papers and all unnecessary combustible materials. Provide metal ash and trash cans. Burn rubbish in a safety covered brick or metal incinerator. Watch the fire.

EXAMINE all stoves, furnaces, and smoke pipes to make sure they are safe and well away from woodwork or other burnable materials. Have needed repairs made at once.

VALUE the advice of your fire chief who says that many fires are caused by dirty or defective chimneys. Have the chimney cleaned regularly, and have all defects repaired.

ESCAPE the danger of flammable liquor fires and explosions by keeping no gasoline in the house. Do dry cleaning with safe liquids or send the work to the cleaner. Never start fires with kerosene.

NOTIFY the electric company of electrical trouble and the gas company of gas leaks. Replace "blown" fuses with new ones—not pennies. Avoid homemade wiring jobs. Don't look for gas leaks with a match.

TEACH everyone in the family to be careful of fire, to watch stoves, fireplaces, electric irons and all other possible fire causes, and every day to remove old rags, papers and other rubbish.

FIREPROOF your home as far as possible by fire-safe roofing, fire stopping in hollow walls and partitions to stop the spread of flames, and a non-combustible basement ceiling.

INQUIRE of your fire chief, when buying a fire extinguisher, to be sure of getting the right kind. Don't hesitate to ask your firemen whenever you have questions on fire prevention.

REMEMBER always where the nearest fire alarm box is and how to send an alarm. If telephoning, be sure the address is clearly understood. Use a neighbor's phone rather than one in the burning building.

EXPLAIN to everyone in the house what to do in case of fire, how to put out fire in clothing by wrapping in a rug or blanket, what to do when grease catches fire in the kitchen.

SAVE life and property from needless destruction by fire by keeping the principles of fire prevention always in mind and never taking a chance with fire.

THE WHEAT PROCESS MILL TAX

There has been considerable confusion as to what farmers are classed as producers, and entitled to the tax exemptions on the wheat which they have ground into flour for home use.

The matter was referred to the Internal Revenue Commissioner of the Treasury Department by our officials, and the reply covers three specific cases.

1. Where a person owns the land, and another works the land, both furnishing portions of the tools, seed, etc., and receiving share and share alike, commonly called the 50-50 plan.
2. Where a person owns the land and has it worked by a tenant who supplies all the machinery, tools, seed and labor, and returns to the owner for the use of the land a stated portion of the crop produced. In other words pays rent for the land.
3. Where a person owns the land, furnished all machinery, tools and seed, and the person employed to work the land furnishes only the labor, receiving for his labor a stated share of the crop produced.

In the first case there is no relation of landlord and tenant between the two persons, nor any relation of employer and employee, but each furnishes something in a common undertaking, one the land and part of the necessary tools and seed, and the other his labor and part of the necessary tools and seed. In such a case each person should be regarded as a producer within the meaning of the Act.

In the second case the tenant has the temporary right to possession of the land and produces the crop. He turns over to his landlord as rental for the land, a portion of this crop instead of a money rental. The landlord cannot be regarded as a producer in such a case. The tenant is the producer within the meaning of the Act.

In the third case there is a relationship of employer and employee between the two persons. The owner

GROUP ATTENDS MEETING IN FREDERICKSBURG

The following members of the Manassas Woman's Club motored to Fredericksburg on Tuesday to attend the annual meeting of Federated Clubs in the fourth district.

Mrs. Aylene Guthrie, Mrs. C. C. Lynn, Mrs. Eli Swavely, Mrs. James Bradford, Mrs. G. R. Ratcliffe, Mrs. Eula Holt Merchant, Mrs. John Hynson, Mrs. Richard Hynson, Mrs. C. M. Larkin, Mrs. A. A. Hooff, Mrs. F. R. Hynson, Mrs. C. Wade-Dalton, Mrs. Paul Cooksey, Mrs. Edgar Parrish, Mrs. Miss Pickeral, Mrs. T. J. Broadus, Mrs. N. F. Cocke, and Mrs. W. L. Lloyd.

The Junior Woman's Club was represented by the following: Miss Esther Warren Pattie, Miss Marion Lynn and Miss Walser Conner.

Morning and afternoon sessions were held at the Stratford Hotel where the guests, numbering about 100, were entertained at luncheon.

Splendid addresses were made by Mrs. L. J. Giles, of Clifton Forge, Va., state president; Mrs. L. J. B. Buck, state director; Dr. W. J. Young, State Teachers College, Fredericksburg, and Miss Helen Morris Cummings, who spoke on "American Citizenship."

Mrs. Paul Cooksey of the local club was named Junior chairman for the district.

Guests were conducted on a tour of historic shrines, visiting the home of Mary Washington, the Old Tavern, and Kenmore. At the latter ginger bread made Mary Washington's recipe was served and the warm fire in the ancient fireplace proved to be the center of attraction, and all seemed loath to leave such a charming and hallowed spot.

Of the land is a producer whether the crop is grown through his own labor, or through the labor of some one hired by him to work the land. In the case mentioned the owner is a producer within the meaning of the Act.

BULL RUN GRANGE HOLDS BOOSTER PROGRAM

On Tuesday evening, October 3, a booster program was put on by Bull Run Grange at their grange hall in the Masonic building, Haymarket.

This program is urged by the national grange to be held by all subordinate granges at this season.

Over twenty guests were present. The program was opened by the singing of a patriotic song after which Master Thomas Smith with a few words of welcome to the visitors, turned the meeting over to the lecturer, Miss Jennie Ewell.

Mrs. Foley read a paper giving the history of the organization of the grange over sixty years ago. The Rev. W. F. Carpenter gave some examples of legislation the grange has sponsored and worked to put over for the benefit of the farmers. This was followed by an amusing reading by Miss Mary Louise Carter, "Mrs. Ruggles Reads the News."

Mr. Robert Sadd told some early recollections of the grange of which he has been a member for over forty years. After the singing of a song by some of the members of the grange, Mr. D. L. James of Washington gave a most interesting talk. Mr. James who is from the agricultural section of the National Chamber of Commerce, spoke of some of the causes that had helped to bring about the present deplorable condition of the farmer and what is being done at present to rectify the conditions and how necessary it was for the farmer to co-operate and lend all aid possible in the New Deal. The program was concluded by shaking hands with your neighbor on your right with your left hand and with the one on your left with your right hand.

Refreshments were then served and a social time enjoyed by all.

The grange hopes to have an initiation some time this fall and will be glad to send application blanks to any who should think of joining.

after attending the ball game in
Washington on Thursday. Dr. Met-
calf had not seen the place of his
birth, Oakwood, for some 25 years
until Friday morning when he came
to call and view once more the land
of his childhood.

Mrs. J. L. McCutcheon, who has
been an Oakwood visitor for several
weeks, went to Eastern shore on Fri-
day where she will be engaged for
the next week or ten days in train-
ing school work at Cape Charles, Va.

This neighborhood, for the first
time in its history, now has free and
uninterrupted traffic from Catharpin
to Gainesville due to the surfacing
just about completed on that particu-
lar highway, and do you know we are
all beginning to "perk" up a bit by
reason of it. Compared to former
days we now have but little dust and
this is causing those living East and
North of Catharpin on the much
touted route 234 to look upon us with
jealous eyes. We can now clean up
our old model "T," go out for a pleas-
ure ride and come home clean provid-
ing, of course, we stay off route two-
three-four but while "WE" want to
keep clean, those "two-three-fourites"
do love to kick up a dust and they
certainly can do it to perfection just
now; however they will learn how to
appreciate a good thing and some day
may be in a class with "US" and
Waterfall.

Mrs. Mildred Collins Shelton who
has been very much indisposed due
to an attack of tonsillitis is now much
improved.

Mr. and Mrs. E. S. Clary of Law-
renceville, Va., spent a few days last
week with Mr. and Mrs. J. W. Alvey
of Catharpin and Bull Run, returning
home on Sunday.

Mr. and Mrs. J. A. Dorsey of Ar-
lington and Mrs. A. M. King of Alex-
andria were guests of Mr. and Mrs.
W. Holmes Robertson at Lawn Vale
on Friday of last week.

Cadet C. P. McDonald, accompani-
ed by a classmate and two V.M.I. pro-
fessors, stopped at Oakwood for a
short call on Sunday evening while
returning home from Washington
where they had gone on Saturday to
attend the military wedding of one
of the instructors of that institution.

Well the "Quilting Bee" has been
buzzing around these parts again
and the ladies of the Sudley Mission-
ary Society, armed with sandwiches
of all kinds and cakes etcetera as-
sembled at Oakwood on Wednesday
of last week, quilted a quilt, received
their money, talked a while and went
home happy. The cool weather, the
NRA or something or other has
started business off with a boom since
they have several quilts-in-waiting
ready as soon as they can be reached.

Now all you good people must re-
member that the Sudley bazaar and
supper, minus the bazaar part of it,
will be held two weeks from the time
you read this notice providing you
read it on Friday of this week; or,
to be more specific, it will be held on
Friday, Oct. 27. Please don't forget
it. We will tell you more about it
next week.

Well we had an election on Oct. 3
and according to the Catharpin Daily
Mirror, it went "overwhelmingly" for
repeal, rolling up a three-to-one vote
against the 18th amendment and
against the State law governing li-
quor control in Virginia. That is
what the record will show but we
wonder sometimes if any one ever
takes time to really analyze things
as they really seem to be.

Catharpin, according to the last
presidential election, has 78 voters;
of this number but 13 votes were cast
for repeal while 65 other voters either
voted against repeal or did not
vote at all. Now the question is—
How does Catharpin stand? Some
tell us that had they all voted a great
majority would have been for repeal.
May be so; but since they did not in-
terest themselves enough to vote, the
natural conclusion is that they did
not care which way it went; so we
are left in doubt as to what "the will
of the people" really is. One thing
we do know and that is, that but 13
out of 78 electors "ruled" for Cathar-
pin precinct. From an examination
of the published detailed report it
appears that every precinct in Prince
William County is likewise on the
negative, and many of them, like Cathar-
pin, have much less than one-half
of their potential strength represent-
ed at the polls. This, however, leg-
ally decides, yet it can not be other
than an unsatisfactory decision.

We have noted a number of in-
stances where the votes of States are
about in the same negative propor-
tion as the votes in our own precincts
at home; so we wonder sometimes
just where we are heading. It has
been asserted that more people have
NOT voted on the amendment ques-
tion than HAVE voted, yet repeal
seems soon to be established and by
reason of a minority vote. This same
condition also prevails sometimes in
our presidential elections. It were

better, however, for all concerned if
a full vote could be had on all im-
portant questions so that whichever
way it went it would be decisive. It
is now said that the great "unex-
pressed vote" will constitute a coun-
try-wide vigilance committee to ob-
serve just how the "minority" is go-
ing to handle a country-wide admin-
istration of the liquor traffic; and
while doing but little just now may
later on be a very potent factor in
future decisions. At any rate, every
voter should go to the polls at all
times and express himself one way
or the other.

At last we have found out about
the "talking" cow. This feature of
the Dairy Festival seems to have
been more or less of a drawing card
yet few were able to find her. She
now seems to have been located in
the "old Post Office bldg." near the
R. R. but we shall now let the be-
holder describe her impressions as
she gazed in wonder at this "wonder
of wonders." Here they are: "I
hunted all over town for the Talk'n
cow and at last I found her in the old
post office near the railroad and do
you know she wasn't any cow at all;
she was just made of paper mash and
when she talked she never opened her
mouth onst. I looked all around and
all I could see was a man setten in-
side and talk'n about feed and a lot
of pipes runnin to places. I tell you
I think it was a fake myself." Well,
we just laughed right out loud. What
would you have done?

BIBLE THOUGHT AND PRAYER

SAFETY OF THE RIGHTEOUSNESS: The righteous shall inherit the land, and dwell therein for ever.
The law of his God is in his heart; none of his steps shall slide.—Psalm 37: 29, 31.

ROOSEVELT'S ACHIEVEMENT

No one can expect the path to recovery in the United States to be anything but thorny. Checks and complications are from the nature of things inevitable, but when seen in their true perspective they should assume much less formidable proportions. For the progress toward recovery already effected by Roosevelt during his first six months in office has been sufficiently astonishing.

His immense courage, his readiness to assume almost unparalleled responsibilities and his bold and astute empiricism have certainly succeeded in infusing new life into the American people. Compared with the almost abject despondency which characterized the final months of the Hoover regime, the change which has taken place in the temper of the public has been little short of miraculous.

All this has been accomplished with magnificent disregard of all known canons of orthodox economics and by methods which, to European eyes, must appear strange indeed. But Roosevelt, however, ignorant he may be of the academic teachings of economists, does thoroughly understand the psychology of his own people.—London Times.

HILL RETURNED
TO KIWANIS POST

Reappointment of Edwin F. Hill, of the Washington, D. C., club as Kiwanis International publicity chairman of the nearly 1,900 clubs in the United States and Canada has just been announced by Joshua L. Johns, International president.

Mr. Hill who is now governor of the Capital district, which comprises forty-nine clubs in Maryland, Delaware, Virginia and the District of Columbia is a native of Orange County, Va. He is well known throughout this area. As an evidence of his interest in Kiwanis activities, for the first nine months of this year, Governor Hill has attended about 130 Kiwanis club meetings. Last year while president of the Washington Kiwanis club and district chairman of Kiwanis education, he attended 125 meetings.

In 1931 he worked out an itinerary and, accompanied by three other members of his club, attended ten regular Kiwanis meetings in five consecutive days. As a result of this feat, Mr. Hill chartered the "Two-A-Day" section of the Washington Kiwanis club, an organization unique in Kiwanis International. Members who attend two regular club meetings from start to close the same day are eligible for membership.

Prior to his affiliation with the Washington club and the Capital district, Governor Hill was a member of the Charleston, W. Va., Kiwanis club, where he was chairman of publicity and later chairman of publicity for the West Virginia district.

In 1927, Mr. Hill was appointed publicity chairman of the Washington club and during the same year, chairman of publicity for the Capital district. He was reappointed to this position in 1929. He was elected lieutenant governor of the Capital district for 1930, and later in that year was named a member of the International publicity committee.

Mr. Hill is information director of the Chesapeake and Potomac Telephone Companies and has been located at Washington in this capacity since May 1, 1926. From July 1, 1912, to the time of his transfer to Washington, he was located at Charleston, W. Va., as division plant superintendent and later as information manager. His service with the Bell system dates back to February 10, 1900, when he was first employed at Portsmouth, Va. Subsequently he was employed by the telephone company in various cities throughout the southern states.

POLLARD'S VOTE ENDS 33 DRY YEARS

Governor John Garland Pollard went to Williamsburg Tuesday to cast his vote for repeal of the Eighteenth Amendment and for a Virginia liquor control system, thus bringing to an end approximately 33 years of labor in the bone-dry prohibition cause.

Among the Governor's earliest activities were those of lobbying for the W. C. T. U. at the 1900 session of the General Assembly and of speaking widely in favor of State-wide prohibition in the summer of 1914.

It was recalled Tuesday that on the night of September 22, 1914, as Mr. Pollard appeared at the headquarters of the Anti-Saloon League in Richmond to get election returns, the crowd hailed him as "Virginia's next Governor" and "a Governor who will enforce our laws."

This group had to wait fifteen years for him to be elected Governor and see him sign the first bill modifying the prohibition law.

TOLMAN

Noted for Careful Treatment of
Dainty Fabrics Since 1879

A man named Thompson put the first running-water bathtub in his home—and writers said it would be ruinous to health. Laws were passed against it.

About that time, Tolman gave Washington its first efficient laundry service—a service that now comes twice weekly to Manassas.

You have personal laundry problems that Tolman can "smooth out"—questions of proper fabric cleansing, greater safety for silks, linens, and knitted things. Tolman's modern laundry processes produce the results you seek—results possible only when the soap used is Ivory, the water used is softened, the starch used is made differently for each kind of fabric.

Bundle up your laundry troubles—turn them over to the Tolman driver this week. He'll be in Manassas on Monday and Thursday every week! Call the Young Men's Shop 1911, and you'll get the same prompt, efficient service rendered our Washington patrons for fifty-four years.

Tolman has prepared Specialized Economy Laundry Services that fit any sized household.

Dear Sirs:

We, the people of Nokesville, demand through our judges a correction of the returns as published in The Journal of last week.

We do our thinking and voting, and will not bear misrepresentation. When beaten, we take it calmly and when we win we make no big demonstration.

The correct returns from Nokesville precinct are as follows: (56) fifty-six against repeal and (31) thirty-one for repeal.

Please correct this in your next issue.

Respectfully,
Judges of Election.

IN MEMORIAM

In loving remembrance of my dear husband, Gruver Hensley, who departed this life 3 months ago October 15, 1933.

I little thought when you left home That you would not return That you so soon in death would sleep And leave us all alone.

In my heart your memory lingers Sweetly, tender, kind and true There is not a day, dear husband, That I do not think of you.

It is sad that one I cherish Should be taken from my home, But the love that does not perish Lives in memory alone.

Loving Wife,
Alma Hensley.

There was an angel bond in Heaven that was not complete, So God called you home, dear mother, To fill that vacant seat.

REPORTED GOOD**

Reported domestic retail sales by dealers of Chevrolet cars in September of 58,146 cars and trucks were 115 per cent more than the 26,966 units sold in the same month a year ago, H. J. Klinger, vice-president and general sales manager announced today.

For the first nine months of this year, Chevrolet dealers sold 499,912 units and in the next day passed the half million mark. Nine months sales were 31.9 per cent more than the figure, 378,811, sold in the full twelve months of last year. In the first nine months of 1932, 335,970 units were sold.

Sales to date for 1933 exceeded those for the same period a year ago by 163,842 units and for all of last year by 121,001 units.

Sales for September of this year were the largest for that month since 1929. They were approximately 31,000 over September of 1932; 19,000

over September, 1931, and about 5,000 over 1930.

Business in the last 10 days of the month showed the usual strength, 22,832 units having been sold as against 35,314 units in the first 20 days, Mr. Klinger said.

IMPORTANT NOTICE

STATE SAFETY CAMPAIGN

From Oct. 15th to Nov. 15th the usual semi-annual testing and inspection campaign for automobiles will be conducted in Virginia.

In order for cars, trucks and motorcycles to be legally operated on the highways of the State, the brakes, lights, steering wheel, rear view mirror, horn, windshield and wiper, and tag mounting must conform to certain specifications.

Throughout the state a certain number of garages have agreed to do the necessary testing and inspection without charge, but they are under no compulsion to do this work.

There are only two garages in Manassas who have qualified to do this inspection and testing. It will be utterly impossible for them to test and inspect all the cars in this territory during the inspection period, for which they receive no pay, and at the same time take care of their regular customers.

If you are not a patron or customer of some one of the garages in the state that are qualified as inspection stations you cannot expect them to neglect work for which they are being paid to inspect your car for nothing. If the garage which you patronize does not care enough about you to qualify to inspect your car, that is a matter between you and him. BUT do not have the work for which you pay done at one garage, and take your car to another garage for inspection expecting the garage man there to give you service for which he receives no pay.

Don't Wait Until The Last Week To Have Your Car Inspected

Remember that while the inspection is free a charge will be made for any labor or parts necessary to make your car comply with the state law.

WHEAT PRODUCTION AND ACREAGE STATEMENTS OF MEMBERS OF THE WHEAT PRODUCTION CONTROL ASSOCIATION OF FAIRFAX AND PRINCE WILLIAM COUNTIES, STATE OF VIRGINIA

The following is a statement of the production and planted acreage of wheat in the years 1930-31-32 and planted acreage for 1933 of producers of wheat in the counties of Fairfax, Haymarket, Catharpin, Brentsville and Manassas Communities who have submitted applications for farm allotments. This publication is made in compliance with the regulations of the Agricultural Adjustment Administration. It is made so that a check may be made on all statement claims, and so that reports may be made to the county Wheat Production Control Association on any inaccuracies which may appear in the statements.

The allotment for Prince William County has been definitely calculated from official records of the United States Department of Agriculture, and is 68,361 bushels. This is the total allotment for the county. Therefore, if any farmer receives a greater allotment than his past production warrants, he is thus depriving other farmers in this county of their just share.

Total production figures of those who apply for contracts, together with those who do not, must be consistent with the official county production as shown by the records of the United States Department of Agriculture. If the county totals are greater than the official totals, it will be necessary to make a downward adjustment.

Any person may make a confidential report if he finds any statement here which he believes to be inaccurate. Such reports should be made to the community or county Allotment Committee, either in writing or verbally. The reports will be strictly confidential. A farmer whose statements are said to be inaccurate will need to prove his production figures.

Farmers have been asked to furnish evidence of production and evidence of sale, such as thresherman's certificates, elevator certificates or other records and receipts. Satisfactory evidence will be required of any farmer whose statement is questioned.

The following statements have been condensed to save space. "A" represents acres planted and "bu." represents bushels harvested. The "3-year averages" represents the 3-year average acreage and production of 1930-32. Farmers should refer any questions regarding this publication to their Community Committee or the County Allotment Committee.

(Signed) CHARLES R. McDONALD,
Chairman, County Allotment Committee.
