

# MANASSAS VOLUNTEER FIRE DEPARTMENT VALENTINE DANCE

Friday, February 16, Conner's Hall, 9:30 to 1 - Help the Boys who help you!

## The Manassas Journal

VOL. LXV, NO. 39

THURSDAY, FEB. 8, 1934

MANASSAS, VIRGINIA

SUBSCRIPTION \$1.50 A YEAR

### APPROVE LOAN FOR HAYMARKET

Applications Have Been Sent to Richmond.

The School Board met yesterday with all members present.

The applications for the Public Works fund with which to construct a new high school at Haymarket were approved and have now gone into Richmond.

The next meeting of the Board will be held at Haymarket to get the expressions of the people as to the location of the school.

Additional applications for CWA funds with which to carry on repairs, sanitation works and grading were approved.

The budget for 1934-35 was approved and will be presented at the next meeting of the Board.

### C. C. C. BOYS WIN GAMES

Company 299 Defeat High Schools in Basketball.

The C.C.C. boys of Company 299, located in Prince William County, have been winning honors with their basketball team, which is becoming an aggregation which is worthy of a challenge from the best. On Tuesday night they defeated Occoquan 42 to 15 and Wednesday night they encountered the crack team of the Brentsville District High School at Brentsville, winning by the score of 29 to 23.

Donoghue and Gunn starred for the Conservation boys and those who saw them in action complimented their sportsmanship and good action. They are said to be anxious, with their increased practice, to take another try at the Manassas A. C. This time they believe the outcome will be as pleasing to them as the good game will be to the spectators.

The line-up in the two games was as follows:

299th Company (42)			
Gunn, J. f	20		
Evarts, G. f	0		
Donoghue, W. f	10		
Garten, S. f	0		
Syrek, F. c	4		
Egnaczak, S. c	0		
Janik, W. g	0		
Hart, R. g	2		
Gleed, L. g	0		
Germanovich, L. g	0		
Occoquan High School (15)			
Reynolds, f	6		
Lloyd, rf	5		
Piercy, c	0		
Armstead, g	0		
Joyce, g	0		
Purvis, g	0		
Purvis, g	0		
Pettale, g	4		

This game was played on February 7 at Manassas High School gymnasium.

299th Company (29)	FG	F	T
Gunn, f	3	1	7
Donoghue, f	4	0	8
Garten, f	0	0	0
Syrek, c	1	1	3
Gleed, rg	2	0	4
Janik, g	2	0	4
Germanovich, g	0	0	0
Hart, g	1	0	2
Egnaczak, c	0	1	1
Nokesville H. S. (23)	FG	F	T
Reading, f	3	0	6
Allen, f	0	0	0
King, f	1	0	2
Gorman, c	3	0	6
Wood, g	1	0	2
Hively, g	2	1	5
Cook, g	1	0	2

The Nokesville High School team was undefeated prior to this game.

This game was played on February 8 at Nokesville.

### MUNICIPAL PLANT AT CULPEPER

In spite of vigorous opposition plans are going ahead for the construction of a municipal lighting plant at Culpeper. The cost is estimated at \$160,000, of which \$35,000 will come from the C.W.A.

#### MRS. T. H. COBB

Mrs. T. H. Cobb, wife of Magistrate Cobb died last week after an extended illness.

Mr. Bruce Whitmore has been selected secretary-treasurer of the Prince William Farm Association in place of Dr. Johnson recently deceased.

### ON CAPITOL HILL

Latest News on Congress and Our Congressman.

Direct from the Press Gallery.

Determined efforts will be made by Representative Howard W. Smith, of Virginia, to have Congress enact during the current session, a bill he introduced to slow down importations into the United States of pulp and pulp wood.

The measure, now before the House Ways and Means Committee, would provide an excise tax of \$2.00 a cord on pulp wood, and \$7.50 a ton on manufactured pulp.

The real purpose of the bill, however is to reopen to thousands of Americans an opportunity to return to normal employment in the wood pulp producing areas of the country—men who have been forced to turn to the C.W.A. for relief simply because this country cannot compete with foreign produced pulp and pulp wood.

Mr. Smith's interest in this subject naturally lies in the benefits that will accrue to the pulp wood production sections of Virginia. He estimates that every county in his district and at least half the counties in Virginia would be affected by this bill to a greater or lesser extent.

However, there are many other pulp wood producing areas of the country that likewise would benefit. These include certain sections of the South, the New England States, and, of course, the great lumber regions of the northwest.

Mr. Smith pointed out that heavy importations of wood and pulp had severely weakened the market for domestic products because of the ability of foreign producers to lay down their wares in this country at a price below those at which the American farmer and pulp manufacturer can obtain a profit.

His bill seeks to place the tax on pulp wood and pulp by amending the Revenue Act of 1932—the Act that protects the petroleum industry of the United States from serious foreign competition.

"If we are going to protect the petroleum industry by an excise tax," Mr. Smith declared, "it is equally as important to protect the wood pulp industry."

"Thousands of men in this country, many of them in Virginia, earn their living in the winter working in the woods with an ax. These men now, because of the flood of cheaply produced foreign pulp and pulp wood, are on the C.W.A. rolls."

"It seems to me it would be far better for the Government to return these men to normal employment and that could be done if a tax is placed on the foreign produced pulp and pulp wood, sufficiently high to stem the present flow of imports."

"I am quite certain that if the labor required to cut and manufacture this foreign produced pulp and pulp wood is done by Americans, it would go a long way toward relieving the unemployment situation in the rural districts of Virginia and many other States."

In his study of the pulp and pulp wood situation, Mr. Smith learned

### PEERY ABANDONS MOVIE TAXATION

Governor Peery has abandoned his proposal to add to the tax burden on moving picture concerns, it has been definitely ascertained in Richmond.

In his special message to the General Assembly the Governor stated this week that a revision of budget needs made it possible for him to withdraw his recommendation for increased moving picture theatre taxation.

### CULPEPER SELECTS AIRPORT LOCATION

The Town Council of Culpeper at its meeting Wednesday night decided to lease for five years a tract of land belonging to A. L. Partlow, located about two miles from Culpeper on the Gibson Mill road. The rental is said to be two hundred dollars per annum and will be paid jointly by the town and the county.

### NEW WOODBINE SCHOOL

Professor W. Y. Ellicott is principal of the new Woodbine School, pictured above, and Miss Elizabeth Demaine, is his assistant. The addition to the school was made during the summer under contract by Mr. Walter Keyes. It houses one of the largest groups among the elementary schools in the county.

Professor Ellicott, although youthful in appearance, has actually taught over thirty years in the county, much of which has been right in this school.

### FIREMAN'S DANCE

The Volunteer Fire Department of Manassas will hold a Valentine Dance on Friday, February 16, which, as usual, will be one of the outstanding social events of the community. The committee in charge of arrangements has made a special effort to make this occasion most enjoyable for those who wish to combine a happy time with an opportunity to help the boys who so loyally and efficiently protect the community from fire. An especially good orchestra has been secured for the occasion.

### GRAND LODGE IN SESSION

Masons Gather at Richmond for Annual Event.

Masons from all parts of the State are expected in Richmond next week for the 156th annual communication of the grand lodge, A. F. & A. M., of Virginia, which will be held in Masonic Temple at Adams and Broad streets on February 13, 14 and 15.

Registration will begin at noon Tuesday, with the formal opening at 7:30 p.m. Grand Lodge committees will meet Wednesday morning, with a general session in the evening and closing session and election of officers Thursday morning.

Officers of the grand lodge include: Judge J. C. Padgett, Independence, grand master; Dr. William Moseley Brown, Clarendon, deputy grand master; Rev. T. W. Hooper, D. D., Culpeper, grand senior warden; Lynwood P. Harrell, Roanoke, grand junior warden; C. Vernon Eddy, Winchester, grand senior deacon; Dr. J. N. Hillman, Emory, grand junior deacon; Rev. H. L. Weston, North Garden, grand chaplain; William A. James, Beckley, W. Va., grand marshal; Oscar J. Adams, Richmond, grand tiler, and James C. Drinard, Richmond, grand pursuivant.

### NO WOMAN JURIES

The bill permitting service of women on juries in Virginia is said to have failed to get enough support in the General Assembly to justify its further consideration at this time. The proposal failed to get past the Committee on Courts of Justice and there was not sufficient support to force it out.

### WOULD ADD RAPPAHANNOCK

Former State Senator N. B. Early, who is now collector of internal revenue, appeared before the committee Tuesday and asked that Rappahannock County be added to the Eighth District. It is believed, however, that no further important changes will be made in the Redistricting Bill. The new Eighth will be a pretty difficult district to represent in Congress, in its enlarged form without adding any more, it is stated.

### P-T. A. TO SPONSOR PARTY AT CATLETT

There will be a party in the Catlett school house under the auspices of the Parent-Teacher Association on the night of February 14 at 8 o'clock. The library will be reserved for bridge. Parties desiring to play can buy admission tickets ahead and arrange for their own group of players or trickets can be purchased at the door.

### RECKLESS DRIVING—OLD STYLE

Railroad Engineer H. F. Parker has just been released from recklessly driving a locomotive in Richmond. The court decided the case was on for civil action and that there was no criminal intent on the part of the driver of the engine.

### SHIRLEY SEES HEAVY LOSS FROM AUTO TAX SLASH

The proposed 30 cents per 100 pounds reduction in the passenger automobile license tax will come nearer cutting \$2,000,000 off the highway maintenance fund than \$1,793,000 estimated by some of the bill's proponents, it was asserted by State Highway Commissioner H. G. Shirley.

### MARRIAGE RECORD

Feb. 2: Frank William and Jeanette M. Kidwell, Occoquan.  
Feb. 3: Harold K. Hampton and Pearl V. Wheaton, Hoadly.  
Feb. 3: Buck Bailey and Helen Herrick, Quantico.

### CAMP RECOVERY WINS PRIZE

Captain Fass Gets News Today.

Colonel Cobrey, District Supervisor for Virginia, left the local CCC camp this morning with the word that he would probably recommend 299 for the district prize.

There are about a dozen companies in this group, all stationed in northern Virginia, with Washington and Fredericksburg as the termini.

The camp was established in October, with Captain T. H. May as commanding officer. He was succeeded on January 1 by Captain Fass.

The camp is really a model and everyone should take the first opportunity available to visit it. This week the boys are completing the steel look-out tower.

### ALEXANDRIA & WASHINGTON WELL REPRESENTED

Dairy Show in Conjunction with Fourth Festival Favored.

Dan S. Hollenga, business manager of the Alexandria Chamber of Commerce, at annual meeting of the Piedmont Virginia Dairy Festival Association was named third vice-president. Frank Michelbach, who also contributed materially to the success of the 1933 Festival, was named as a director. M. H. Burchell, manager, Alexandria Dairy Products Company, has been named as a special representative to assist with the Fourth Annual Festival to be held again in Manassas next fall.

Commissioner Melvin C. Hazen has been recommended as a member of the Board of Directors to represent the District of Columbia.

Interest is being shown on the part of Arlington, Culpeper, Fairfax and Stafford Counties.

Many favorable comments were heard concerning the festival by the delegation attending the State Dairy-men's Convention and the general feeling on the part of the dairymen was that this annual project in Manassas is proving worth while.

Recommendations have come from several sections of the area that a dairy show be held in conjunction and that the festival be made a two-day event. With the passing of the adult classes at the Virginia State Fair, an unusual opportunity is offered to Manassas and the county, to establish an annual show.

### TO PREACH ON RACIAL PROBLEMS

For the past twelve years the churches of America have been using the Sunday nearest Lincoln's birthday as an occasion to improve Race Relations. In harmony with this observance, Rev. DeChant will preach on the theme: "The Christian Way to Racial Understanding," in the Presbyterian Church, 10 a.m.

There are twelve million negroes in the United States, over one million Mexicans, 300,000 Indians and over 250,000 Orientals. More than ten percent of our population is made up of people of other races. The Christian seeks to understand these people.

### COURT NEWS

The Prince William Circuit Court, in session Monday, Feb. 5. The grand jury, with Mr. J. E. Bradford as foreman returned indictments for felony against the following:

Willie Corbin, Levi Payne, Haywood Payne, James Powell, Marvin Herndon and Carlton Cronkite. A warrant was issued against Willie Corbin, charged with auto stealing. Carlton Cronkite was given a year in jail and fined \$5 for illegal possession. Thomas Crockett was fined \$200 and jailed for two months for driving under influence of intoxicating liquor, and Haywood Powell and Marvin Herndon were sentenced to two years in the penitentiary for turkey stealing.

### OPPOSES ENDING SCHOOL BOARDS

The Fairfax County School Board on Wednesday adopted resolutions opposing the recent proposal to consolidate the functions of Supervisors and School Trustees. They took the position that the respective functions of the two groups are too highly specialized to permit an efficient consolidation.

## CHURCH NOTICES

**TRINITY EPISCOPAL CHURCH**  
REV. A. S. GIBSON, Pastor  
Morning Prayer and Sermon by the  
Rector at 11 a.m., Church School,

## PUTTING FIRST THINGS FIRST

By Rev. Luther F. Miller

Matthew 6:33—"But seek ye first  
the kingdom of God, and his right-  
eousness; and all these things shall  
be added unto you."

This is the very heart of Christ's  
sermon on the Mount. It places the  
emphasis in living where it belongs,  
namely, on the spiritual rather than  
the earthly. It is a challenge to put  
FIRST THINGS FIRST.

"These things" refer to the mate-  
rial things necessary for life, espe-  
cially food and clothing. "These  
things" were very simple in Christ's  
day. A little bread, a few fish, a  
change or two of raiment, a box-like  
simple house. But "These things" in  
our day have become multiplied and  
very complex. Abundant food from  
the four quarters of the earth, pala-  
tial homes with luxurious furnish-  
ings, radios, wash machines, kelvin-  
ators, automobiles, etc. I am wonder-  
ing whether we are more happy with  
our luxuries than our grandparents in  
their poverty. Well, robust men  
of character were developed in those  
days.

Two decades ago the Frenchman  
Wagner wrote "The Simple Life."  
The poet Goldsmith sings,  
"Man wants but little here below,  
Nor wants that little long."

Christ warned of the danger of  
setting our hearts on earthly things  
and laying up treasures on earth  
where finally they are lost. Christ  
calls us to put the heavenly above the  
earthly—the spiritual above the bodily—  
the eternal above the temporal. Christ  
says if we seek the heavenly  
first the earthly will be added to us.  
David says "I have been young and

cellville, Va., was calling upon the  
sick at the Old Homestead on Sun-  
day.

Mrs. Mary Pattie Briggs and sis-  
ter, Harriet, visited their mother at  
Sibley Hospital on Sunday evening.

Just at this writing the leading  
topics of the day among those well  
enough to be "topiced" at all is the  
jig-saw puzzle and the groundhog;  
and since his "eminence" has decreed  
that we shall have six weeks more of  
rough weather, people are casting  
about for something to relieve that  
monotonous traffic between the wood-  
pile and the kitchen stove. Quilting  
is out of the question for a time,  
church going at a standstill; Darn-  
ing, patching and mending a bit tire-  
some so we are falling back on the  
jig-saw puzzle for entertainment. We  
can understand this. When we have  
puzzled for hours trying to get a  
square piece to fit into a round hole  
we become discouraged and say "darn  
it" and "fool thing" yet after a while  
when it is finished, we have some-  
thing we can understand and oft  
times beautiful to look upon. We get  
so tired reading in a daily papers  
about that other great, national  
puzzle the AAA the CCC the NRA  
the RAM the MTY and the WXYZ etc.  
that we are glad to amuse ourselves  
with something innocent and which  
is not accompanied by graft such as  
they tell us the CWA is. There are  
lots worse things in this world than  
the jig-saw puzzle.

### CLIFTON

Mrs. W. H. Mathers is improving  
from her recent illness.

Mrs. Harold Moore gave a measur-  
ing party last Thursday night for the  
benefit of the Ladies Aid of the Pres-  
byterian Church at the home of her  
parents, Mr. and Mrs. Edgar Davis.

Mrs. Clarence Kinchloe is visiting  
her brother, Mrs. Samuel Roberts, at  
Crewe, Va.

Mr. and Mrs. Edgar Davis gave a  
birthday party last Saturday night  
for their daughter, Miss Hortense  
Davis.

Misses Catherine and Janice Wine  
have been very sick with flu at their  
home here but are improving very  
rapidly.

Funeral services for Mr. Chas.  
Lindamood were held in the Presby-  
terian Church last Thursday. Inter-  
ment was in Clifton Cemetery. He is  
survived by his widow and several  
children.

Mr. and Mrs. E. L. Mathers at-  
tended the theatre in Washington  
last Friday.

Mr. and Mrs. Frank Detwiler gave  
a card party at their home last Sat-  
urday night.

Mrs. Geo. A. Watts was hostess to  
the Clifton bridge club on Jan. 31.

Mrs. V. V. Weaver is sick with a  
severe cold at her home here.

### NEW LINCOLN STORIES

The Magazine of The Washington  
Star for Sunday, February 11, con-  
tains a number of recently discovered  
Lincoln stories—one article telling of  
the newly found "Lincoln Scrap-  
books." Another article details pro-  
gress of the Negro since slavery. Or-  
der your copy of next Sunday's  
Washington Star from your news-  
dealer today.

## CONDUCT CONFERENCE

Miss Ella Gardner from the Chil-  
dren's Bureau, Department of Labor,  
will conduct the Recreation Confer-  
ence, on February 17, which has been  
arranged for through V.P.I. extension  
division. The conference will be held  
in the Manassas High School gym-  
nasium beginning at 10:30 and clos-  
ing at 3:30 o'clock. A forty-five min-  
ute intermission for lunch will be  
given.

The object of the conference is to  
give special training in the planning  
and conducting of community recrea-  
tional programs.

Each rural organization is invited  
to send two representatives.

Miss Gardner visited the county  
two years ago. She is known through-  
out the United States for her excel-  
lent leadership ability.

## WOODBIDGE

Services at the Woodbridge Baptist Church will be held Sunday at 11:30 a.m. Sunday school at the regular hour.

Mr. Izzie West, who for several weeks has been ill, is still confined to his bed. His many friends are wishing for his quick recovery.

Mr. Walter Smith is still in the hospital. His condition is reported to be about the same.

Miss Lorraine Allen and small brother, Ralph, last week were suffering with sore throats.

The recent snows that packed well made possible good sleigh riding which was enjoyed by a great many of our local people. That old saying that what is good for the goose is good for the gander (or something like that) does not always hold good. The snow was good for those who enjoy sleigh riding but for those including myself that slid off the road it was not so good. Still it is all in the game and in spite of going in a ditch and getting my fingers cold putting on chains I still like snow and think it beautiful.

WEEKLY LAUGHS FROM  
WOODBIDGE

This happened some time ago but was kept on the q.t. It seems T.P. was homeward bound from a day's hunting. Cold and tired. "Hotchew!" said T.P. "I'll get my paper and take off my shoes, prop my old dogs up in front of the open fire and boy, I'll stay there all evening and yes, my favorite radio program comes on at 8 o'clock. Doggone you couldn't pull me away from that fire tonight with a 6 horse team." Well, T.P. got his paper, took off his shoes, poked the fire and lay back. About that time his wife came in and told him that he could not park there all evening. "Why?" asked T.P. "Because I am having a meeting here tonight" said his wife. "Old Ladies sewing circle?" asked Powell. "Call it what you like," replied Mrs. T.P. "But the fact remains you can't stay here." "And what am I to do?" meekly asked T.P. "There are only two things you can do," said his better half. "Get your hat and coat and get out and don't come back before midnight or go to bed right now for soon the ladies will be here." So up to bed went T.P. grumbling about a grown man, married, and in his own home being sent to bed before the company arrived but he went to bed.

## ADEN

Mrs. Lula Wright returned to her home after spending a week with her relatives in Washington, D. C.

Mr. and Mrs. Ernest Hively spent Friday with home folks.

The United Brethren young people put on a very helpful program at the Brentsville Church on Sunday morning.

Mr. and Mrs. W. B. Kerlin entertained quite a number of friends Sunday. This in honor of Mr. and Mrs. Clifford Dove.

The Kensington ladies met at the home of Mrs. Frank Hummer for the January meeting. A lively business meeting resulted in the election of the following officers for the year 1934: president, Mrs. Frank Hummer; vice-president, Mrs. Homer Swank; secretary, Miss Minnie Smith; treasurer, Miss Esther Dickens; charge of devotion, Mrs. H. Lawson. We just cannot tell the absent members how much they missed. The place of the next meeting will be announced later.

## NOKESVILLE GROUP TO MEET

The Nokesville Home Demonstration Group will hold its February meeting at 1:30 o'clock on Wednesday, February 14, in the Community Room. "Reconditioning Old Materials" will be the topic for demonstration. The women of Nokesville community are invited to attend.

HOMELESS CHILDREN AND  
CHILDREN HOMES

There are in Virginia many children in need of good homes. On the other hand, there are many such homes in need of these children. The problem is how to get them together. The Children's Bureau of the State Department of Public Welfare, 11 South 12th Street, Richmond, Va., is more than anxious to make both the children and the homes happier. Anyone interested in giving a child a home may write to the above address for more information. If desired, a representative will visit and discuss details. Free homes and wage homes are needed. Both white and colored children are available ranging in age from babyhood to late adolescence. But especially is there a great need for homes for white boys of school age.

Among those awaiting homes are the following:  
**FRANK** is a small blond, friendly little fellow of twelve years. He has made an excellent record at school and many friends wherever he has been.

**EUGENE** is a white baby of three who is looking for a mother and a daddy. During his infancy he was very frail and little interest in living, but now he is growing stronger daily and has acquired a new zest for life and is learning much about the big and strange world that surrounds a young man of his age. Surely there must be some young couple who needs this baby boy to bring added joy into their lives.

**LITTLE JANE** has never been strong. She is a brown-skinned colored baby girl two years of age. She needs parents who will be patient and kind enough to nurse her to that state of health which should be every child's right.

**JOHN**, while only fifteen, is, according to his own statements, an embryo lawyer. And, from his excellent school reports we are inclined to believe he knows what he is talking about. But he needs a permanent home where he can be given an opportunity to develop his best traits and carry out his ambitions.

**ROBERT** is tall, dark and handsome with winsome manner and a friendly smile that is sure to help him on towards success. He is nineteen and anxious for a job, or better still, a chance to work his way through the last years of high school. Just as he found a job last fall he was taken ill, but he is well again now and ready to go. He loves the out-of-doors and is especially fond of water activities.

**CLYDE** wants a job on a farm. He is an attractive freckled-faced lad of fifteen with an alert mind. Who can give him a chance?

**TOMMY** is the eldest of three, but even then, is only seven. His big blue eyes are very appealing with a babyish expression. Nevertheless, he keenly feels the responsibility of his younger brother and sister. **BETTY**, his rosy-cheeked sister, is plump and blond and mothers the baby brother carefully. She is talkative and proud of her accomplishments at school, but her chief pride and joy is **BABY BOBBY**. His turned-up nose, twinkling eyes and deep dimples make one understand why his brother and sister love him so much.

**FRANCES**, who is fifteen, is a lover of the great out-of-doors. She is particularly fond of caring for small children. She also to wait on the table. She is courteous and possesses a sweet disposition.

Ten year old **MAY** is the third grade at school. She beautiful, expressive gray eyes, is quite in her manner and is especially fond of reading. When she speaks in her deep, well modulated voice, everyone is impressed with its unusual quality.

I carry in stock a nice line of Waltham, Elgin and Hamilton Watches, both pocket and wrist, at lowest prices.  
Full Line of Men's Watch Chains  
Prices reasonable. I invite your inspection.

CLARA BOW ACHIEVES  
HEIGHTS IN "HOOPLA"

Clara Bow, fiery and impassioned, reached new heights as an emotional actress in "Hoopla," her second Fox Film release which opens at the Dixie Theatre in Manassas next Monday.

"Hoopla" is a splendid production that delves deeply into the inside life of the "big top." It offers Clara Bow a marvelous opportunity to display her histrionic abilities. Let it be recorded here that Miss Bow took fine advantage of the opportunities presented her.

The story concerns itself with a vivacious young carnival dancer who, on a bet, attempts to win the love of a young man who is the carnival barker's son. It is not a difficult task for this finished siren, and she soon captures the heart of the boy. But the sincerity of the youngster and his naive manner work a change in the nature of the dancer, and she finds herself involved in a true romance.

The boy's father objects to the affair, and there follows a series of thrilling incidents which are capped by a climax that is the outstanding one among all the Clara Bow classics. As the carnival dancer, Clara Bow

plays her role with astonishing versatility and finish. It is by far the most important production she has to date, and she carries her part with remarkable results. The supporting members of the cast—Preston Foster, Richard Cromwell, Minna Gombell, Herbert Mundin, James Gleason, Roger Imhof and Florence Roberts—are aptly suited to their roles. They acquit themselves with distinction.

Frank Lloyd who directed such hits as "Cavalcade" and "Berkeley Square" has directed this film with the inspired touch that is his. Al Rockett produced the picture from the stage play, "The Barker," by John Kenyon Nicholson. The story was adapted for the screen by Bradley King and Joseph Moncreux March.

DAVID POSTMASTER  
VISITS MANASSAS

David Arrington, genial postmaster at Davids P. O. in lower Fauquier, was a welcome visitor here last week.

Mr. David has a 2200 acre farm besides being postmaster, the same being in the counties of Stafford, Prince William and Fauquier. Every morning before he goes to work, Mr. David has to travel over three counties. This is strenuous exercise but it seems to do him good.

CHRIST FOR ALL—ALL FOR CHRIST

The Word of God

BIBLE THOUGHT AND PRAYER

GIVE GOD THE BEST: Honor the Lord with thy substance, and with the first fruits of all thine increase.—Proverbs 3:9.

## THE LIQUOR SITUATION

The knotty problem of liquor legislation continues to perplex the General Assembly. Two aspects of the situation seem to be particularly annoying. One is the proper disposition of the revenue from taxation and the other the question of State Manufacture. Delegate Herring, who represents Prince William and Stafford, has waged a fight for return of revenue to the localities, which is gaining support daily and promises success. The bill as it has been written in the House would give the localities 65 per cent. The Senate favors giving them two-thirds of the revenue after a sum of \$1,675,000 is reserved by the state, which might mean something or nothing to the local governments.

The sentiment for State Manufacture has been steadily growing. Senator Wicker has quoted New York health authorities as stating that much of the hard liquor now coming into New York from private distilleries is unfit for human consumption. An additional argument for State Manufacture is the elimination of the national tax. Those favoring the idea claim that State Manufacture will make possible high grade liquor at prices tending to discourage the bootlegger. They maintain with considerable foundation that by the time the Nation, State, County and Cities all take their toll of revenue the prices will become so high that the very evils which Repeal was supposed to prevent, will be aggravated.

The question of the Control Board is also the subject of contention. The House favored appointment by the Governor, the Senate wants such appointments to be confirmed by them. The House would pay a salary of \$5000, the Senate favors \$7500. Senator Worth Smith, of Louisa, states that he favors election of the Control Board by the Assembly. Senator O'Connor Goolrick, of Fredericksburg, says the State cannot and should not escape the Federal tax by manufacturing its own liquor.

A commendable feature of the whole situation is the fact that the General Assembly is not being stampeded into quick action but seems inclined to deliberate carefully and to give every idea a hearing.

## BRIEF LOCAL NEWS

Col. R. A. Hutchison, Hon. T. H. Lion, M. M. Ellis and others visited Richmond yesterday and attended sessions of the Committee considering the Trial Justice Bill.

Miss Janet Trusler had as her house guests over last week-end Miss Mary Margaret Ready of Washington, Miss Rene Yoffee of Marjorie Webster School, Mr. Stanley Owens and Mr. Robert Ridgeway of Athens, Ga.

Mrs. Novella Beasley of Clifton Station was in Manassas yesterday. We were glad to see her at the Journal office.

The Ladies Aid Society of the Lutheran Church will meet at the home of Mrs. W. F. Hibbs on Tuesday afternoon, Feb. 13, at 2:30 o'clock.

Mrs. Iris M. Ashby, of Thoroughfare was a Manassas visitor today. We were glad to see her at the Journal office.

Miss Emma Ledman is home on a vacation after graduating from a three-year course at Emergency Hospital in Washington.

## SWAVELY NOTES

Mrs. Leinbach is away on a visit to her son, the Rev. Carl Leinbach, of Quakertown, Pa.

The basketball game last Saturday, against Randolph-Macon Academy, resulted in a victory for Swavely by 28 to 21.

On Saturday the basketball team will go to Alexandria to play the Episcopal High School team.

This week we were favored by Mr. R. Ellsworth with another of his delightful and instructive visits.

On Monday evening he delivered his illustrated lecture on "Samuel Johnson"; on Tuesday, in school, he addressed the students on "The English Bible, regarded as Literature," and on Tuesday evening he delivered another illustrated lecture, entitled "From Scott to Barrie."

The basketball game, played here yesterday against the Roosevelt High School, of Washington, was won by Roosevelt by 40 to 24.

## COUNTY AGENT'S COLUMN

All Hog Producers May Share in Reduction Payments.

Under a new ruling, regardless of the size of their past hog production average, all hog producers now may qualify for hog reduction payments by reducing their hog litter average and production of hogs for market twenty-five per cent. An earlier ruling, now cancelled, required that those applying for payments must have produced an average of three litters of pigs a year in 1932 and 1933. A grower producing any hogs at all during these years is now eligible.

The change in ruling was made because of the interest in the reduction program among farmers producing an average of less than three litters of pigs per year, and to give these farmers an opportunity to share in the proceeds of the processing tax.

## Sign Corn-Hog Contracts Early.

To avoid delay and the making of extra trips in completing the contract all receipts of hogs sold from 1932-33 litters that can be obtained should be brought when coming to sign the contract. Also as much of the work sheet as possible and the farm map showing 1933 crops should be filled in. The sheet of directions supplied with the forms explains in detail how to fill in the forms. Average weight of hogs and date of sale are to be shown on the receipts.

## Korean Lespedeza

Korean Lespedeza has a place on Prince William farms. Last year on several farms the crop made a heavy yield of hay. However, under average conditions it must be considered as a pasture and soil improvement crop. It is at its best in mid-summer when dry weather checks the growth of pasture grasses and will furnish good grazing during the hot summer months.

Korean Lespedeza will grow on thin soils, acid soils and other soils not suited to clover. Though it does not reach its greatest height on impoverished soils, it will still thrive and be of great value in bringing such land back to a state of productivity.

Five to ten pounds of Korean Lespedeza per acre seeded without preparation of the soil on old pastures will furnish some grazing the first year and give an almost complete stand in two or three years. Korean Lespedeza broadcast on old pastures in late February is likely to be well covered by late freezes. Where land is specially prepared March and early April seedlings usually give best stands. Where Korean is included in mixtures sown on small grain it can be included then, if that time is in the latter part of February. If a full stand is desired the first year 25 pounds per acre should be used. Korean seed covered more than a quarter of an inch deep usually decay.

Two-Day Poultry Institute May Be Held.

If a sufficient enrollment is obtained, a County Poultry Institute may be held on February 20 and 21, at a place in the county most convenient to the majority of those who have shown their interest in having the two-day poultry meeting conducted by V.P.I. Poultry Specialists.

## FAVORS PARDON FOR DRY LAW OFFENDERS

Major Edwin H. Gibson, assistant attorney general, expressed the opinion that persons convicted as well as those awaiting trial for violation of the State prohibition law, should be released when the Layman act is repealed.

Major Gibson said he would make an exception of this where violence had accompanied the violation of the prohibition laws. He would allow the judge discretion in such cases.

Facts And Figures  
On Your Telephone

BY EDWIN F. HILL

Telephone conversations in the United States have increased much more rapidly than all other forms of communication. Since 1900, according to the American Telephone and Telegraph Company, telephone conversations have increased 815 per cent, letters, 292 per cent, and telegrams, 71 per cent. This country's population in this thirty-three-year period has increased 63 per cent.

The three leading communication services of America today in the order of their origin are: the postal system, commercial telegraph service, and telephone service.

The postal system was established under the Federal Constitution by an act of Congress in 1759. Commercial telegraph service was inaugurated in 1844, following the historic demonstration of Samuel F. B. Morse in transmitting the words, "What hath God wrought?" between Washington and Baltimore. Last, but not least, is local and long distance telephone service which came into existence as a result of the dream of Alexander Graham Bell, who, in 1876, spoke the first words ever heard for distances further than the unaided human voice could carry. Two years later modern telephone service had its origin in the establishment of the world's first telephone exchange.

Spurred by the ever-increasing communication needs of modern America, these three instrumentalities for speeding man's messages have undergone a growth since the beginning of the present century that has been even greater than the fondest dreams of their originators.

The world moves on rapidly and communication has done much to make this possible.

Hints for Homemakers  
By Jane Rogers

THAT old card table with the torn or dented top can easily be restored. Replace the top with a piece of eight-inch pressed wood which can be obtained from a lumber dealer. It can be painted, stained or left in its rich brown natural color.

The popular ready-to-eat cereals such as corn flakes and bran flakes provide a pleasing variation from bread crumbs in breadings, chops, fish and many vegetables, including egg plant and tomatoes. Bran flakes are an excellent substitute for nut meats in preparing Waldorf Salad.

## Food Market Advice

By ANN PAGE

IT IS an interesting fact that the great majority of families buy more fresh fruits and vegetables from Thanksgiving on through New Year's than at other times during the year. It would be surprising were it not that fruit and vegetable markets are as full of fresh colorful produce as in the summer season. Peaches and plums are missing to be sure but there are, to name a few, apples, pears, grapes and a variety of citrus fruits; sweet corn is not here but green peas, lima beans and most other summer vegetables as well as the typically winter varieties are available.

Strawberries have been plentiful at Christmas the last two years but this year the season is late and most of us will have to do without their color and fragrance. Apples are plentiful and you will find almost any variety you favor in the markets. Bosc, Anjou and Comice pears offer an interesting contrast in shape and color. The banana supply has few obvious ups and downs but at present the quality is good and the price reasonable. Red Emperor grapes dominate the market just now but in the next two or three weeks grapes from south of the equator where the seasons are upside down will begin to arrive. Cranberries will be plentiful and low in price for several weeks to come.

If you enjoy grapefruit this is a good year to enjoy them as they are abundant, of good quality and cheap. Florida oranges are plentiful, inexpensive and very juicy.

The four popular members of the cabbage family have been reduced to three as cauliflower has become scarce and high. Brussels sprouts, broccoli and cabbage itself are of good quality and reasonable.

Green peas as well as beans are

now plentiful and inexpensive. Spinach of excellent quality is also abundant. Fortunately we can most of the year depend on a good supply of root vegetables such as beets, carrots, onions and potatoes. Rutabaga turnips and sweet potatoes are especially seasonable at this time.

There is good celery available from both New York state and from California. This is fortunate as many people serve it only at this season. The Quaker Maid suggests that the tops be dried and put in a covered jar or tin for use in flavoring soups and stews. They dry very quickly when spread out on a paper on a radiator or the top of the oven. Firm heads of lettuce are also reasonable in price. Tomatoes are scarce and high so it is a good time to serve tomato aspic or jelly vegetable or fruit salads in their place. Prepared orange, lemon or lime gelatin make good bases for this type of salad.

If you like steak, and who doesn't, next week you may enjoy it to your heart's content. Broiled porterhouse or sirloin steak with onions or mushrooms, pan-broiled minute round steak or round or chuck steak fixed in Swiss style, braised or stuffed and made into beef birds or beef olives. When the week-end comes a chicken fricassee or pie will be welcome or a roast loin of pork or leg of lamb.

Friday's treat, and good fish is a treat, will probably be shrimp. If you prefer, however, there will be a well-rounded assortment of fish and shellfish to choose from including cod, haddock, bluefish, halibut, salmon, mackerel, flounders, shrimp, clams and oysters.

Since this is National Cheese Week and cheese is one of our most important foods, it will be well to renew your stock of this delicious and healthful commodity.

## Emergency Numbers

GRACE SAHM

Grace Sahm, Washington, D. C., artist adds another number to the fly leaf in her telephone directory. A ruled page is provided in most telephone directories for emergency calls, such as the Fire and Police Departments, the doctor, hospital, and drug-gist. Also this page includes spaces for business and social numbers frequently called and as well for the telephone numbers of friends and relatives who live out of town. This page in telephone directories is utilized by innumerable people, according to officials of the telephone company.

## CLUB HEARS ABOUT HOODOOS

Rev. John DeChant subbed for Frank Sigman last Friday and got off Frank's story on Superstitions. This furnished considerable meat for discussion and shivers.

Ed Conner was named to the Board of Directors vice our beloved Bobby Johnson.

Mr. Hubbard, new county engineer, was an honor guest.

KAZAN, DOG ACTOR,  
HAS DRAMATIC INSTINCT,  
DIRECTOR SAYS

It is a well-known fact that once a dog is taught a trick, he will never forget it. Once he learns the meaning of a word of command, he will always obey. But a dog that possesses more dramatic instinct than the ordinary human being, is certainly a wonderful animal.

Such a dramatic faculty is claimed for Kazan, the amazing dog star of "Jaws of Justice," playing at the Dixie Theatre in Manassas tomorrow and Saturday. According to Spencer Gordon Bennett, who directed the production, Kazan is a better actor instinctively than a majority of hu-

man down a ravine to where a burning fuse is attached to a charge of dynamite, pull the fuse out with his teeth and run away with it. One rehearsal was enough, but Kazan improved upon the original 'business.' After pulling the fuse out, he immediately trod on the burning end with his paws, adding a realistic and almost human touch to a dramatic incident.

Throughout the picture Kazan is called upon to do startling things, and he does them convincingly. "He is a remarkable dog, and if I never have more trouble with a human actor on the screen, I'll be satisfied," was Director Bennett's dictum after completing the picture.

## PUBLIC SALE

## MAGNIFICENT SETS SEEN IN "SHOULD LADIES BEHAVE"

When is a movie set not a movie set? When it's completely livable, say Frederic Hope and Harry McAfee, art directors at the Metro-Goldwyn studios.

And they should know, for those two men have achieved a creation hailed as the most important forward step taken in many a decade in construction of motion picture settings.

A country estate, of authentic French provincial design, complete in every detail to the point where a family could move in and live in utmost luxury, has been constructed under the direction of these two young men.

The vehicle prompting this magnificence is "Should Ladies Behave," the picturization of Paul Osborn's famous play, "The Vinegar Tree," which opens next Wednesday at the Dixie Theatre in Manassas with Lionel Barrymore and Alice Brady co-starred.

With a vast lawn of real grass studded with growing trees, plots of live flowers, badminton and tennis courts, and a fourteen-room stone-walled house, the interiors charmingly decorated, a new record is made in film settings and Hollywood comes a long stride nearer its apparent destiny of leading the world styles in settings, as it now does in fashions.

"Most of this furniture," said Hope, surveying the room with critical eye, "is genuine French antique, imported and reupholstered in gay, modern patterns. That copper apron was wrought by a French craftsman here in the studio, as were all those copper fireplace fittings."

Hope said the design of the house is authentic, modeled after an old French farm house he once studied.

"Against a foundation and basic design of pure provincial influence, we have simply modernized this home, made it cheerful and livable," he said.

Although a riot of colors were at play, the room's total effect was one of harmony.

Curtains were of glazed chintz, the floor of wide-planking. Interesting old prints and modernized lamp brackets decorated the walls. Deep chairs, fireplaces and table lamps were everywhere. One felt tempted to change into slippers, sit back and be enveloped by the charm of the place.

That it was a motion picture setting was completely forgotten. That tall lights and cameras would soon be wheeled in was inconceivable. One stared out on the naturally lighted lawn and felt at peace with the world.

Harry Beaumont directed the new film. In support of the stars are Conway Tearle, Katharine Alexander, Mary Carlisle, William Janney and Halliwell Hobbes.

### "GUN LAW" AT DIXIE

Jack Hoxie, whose newest Majestic Western "Gun Law," begins a two-day run at the Dixie Theatre in Manassas next Friday, Feb. 16, was born in Oklahoma and educated at the public schools of Idaho.

He was working as a thirty-dollar-a-month cowpuncher in 1918 when films "discovered" him. He was immediately signed as a feature player and in addition was given considerable work as a "double."

He rose quickly to the forefront of Western stars and after starring under the Universal banner for several years, deserted films in 1929 to tour the country as star of the famous Miller Brothers 101 Ranch Wild West Show. In the following year, he appeared on the RKO vaudeville circuit and again toured the country, this time as star of the famous Shell Brothers Circus.

Among Hoxie's outstanding screen successes are: "Men of Daring," "Heroes of the Wild," "Roaring Adventure," "Gold," "Outlaw Justice," "Law and Lawless," and "Via Pony Express."

## ALONG THE WAY

(By Inna McGinn)

### HELP THE BOYS:

Too much cannot be said in praise of the noble work of volunteer firemen. Last week in this column, the humane deeds of the local volunteers were extolled—but only too feebly, for words are inadequate to describe the hardships faced by this brave group when laboring to protect the lives and the homes of their fellow-men.

The wonder then voiced was: "If the people of Manassas fully appreciate all that their Fire Department and its volunteer crew mean to them and their homes?"

Judging from the numbers of kind comments those lines have evoked, it is evident the residents of this town are gratefully appreciative of the deeds of their volunteer firemen.

The chance to prove this appreciation is at hand. A Valentine Dance will be given by the Manassas Volunteer Fire Department, in Conner's Hall, Friday evening, February 16. It is safe to assume, and earnestly hoped, that every family in Manassas will patronize this function.

Those not caring to attend can yet subscribe to the proceeds of this dance. A fund more than sufficient to meet the present needs of the Department should be realized whereby some monetary recompense could be offered the volunteers to cover their incidental expenses.

"Help the boys who help you!"

### JOHN MARSHALL:

Virginians naturally were thrilled, this week, on hearing over radio the tributes by Representative Beck to that famous Virginia jurist, John Marshall, whose term of thirty-four years as Chief Justice of the Supreme Court is the longest thus far in the history of the Nation's highest tribunal.

It is hoped that construction of the John Marshall Highway in Prince William County may not consume that same number of years.

This road, starting from the Lee Highway just east of Gainesville, goes through Haymarket and Thoroughfare Gap, then into Fauquier within sight of the Chief Justice's home. It was begun last year and, when completed, will be the shortest route between Washington and the Shenandoah Park.

### ASH WEDNESDAY:

The period of fast and self-denial observed by Christians in preparation for Easter, that starts next week, is called Lent from an Anglo-Saxon word signifying Spring.

After the example set by our Lord Himself, this observance of forty fasting days has become practically universal. Hence, the Wednesday of the seventh week before Easter, known as Ash Wednesday, becomes the first day of Lent.

The ashes blessed on this day are obtained by the burning of palms blessed on Palm Sunday of the preceding year.

Solemn are the words uttered by the officiating clergyman as he marks the heads of the people in the figure of a cross:

"Remember man that thou art dust and into dust thou shalt return."

### HINT TO STENOGRAPHERS

Not quite "quitting" time—There's nothing left to do Too late now—there isn't time To start on something new.

All odd jobs are finished Oh! what can we do To pass these long ten minutes? Why, try a rhyme or two!

'Tis true, we're not poetic Of versing, we're no master But as our brains are slow—The minutes go the faster!

So when it's "most 'quitting' time And there's nothing else to do Just take your pen in hand And jot a rhyme or two.

With apologies,  
Just another stenographer.

## COOPERATIVE FARM ORGANIZATIONS

The Work of a Milk Producers Association as Described for the State Chamber of Commerce by Dr. Gordon Ward.

February 4 was the second anniversary of the opening of the surplus milk handling plant of the Norfolk Co-operative Milk Producers Association. The plant was opened on February 4, 1932, to handle the milk of the members which the Norfolk distributors cannot use in fluid form. Approximately a million gallons of milk have been handled thru the plant in the two years of its operation to provide a market for all of the milk produced by the members of the association.

At the time the plant was opened early in 1932, the association was in debt to the extent of over \$6,000, which it owed to the distributor that had been handling the surplus milk for the co-operative. Two years later, not only has that debt been wiped out, but the association has paid every cent of the cost of the \$15,000 plant and its equipment and in addition has money in the bank after paying all current bills, with some of its customers still to pay their current accounts for milk purchased from the co-operative. The plant has been paid for out of the balance remaining in the brokerage account after paying all current operating expenses out of the brokerage of 1c per gallon charged the members. The debt to the distributor was paid from the returns from the improved market outlet developed by the co-operative.

This remarkable record is the result of two things, both essential to the success of co-operative effort. The first is the courage and perseverance of the directors and officials of the association in mapping out sound policies and then carrying these into effect. The second is the loyalty with which the members have co-operated with their elected officers and their association in carrying out the program initiated by the directors.

The Norfolk Co-operative Milk Producers Association was incorporated under the Virginia Co-operative Marketing Act in the spring of 1930 with nearly 100 dairymen shipping milk to Norfolk as the members. The association made agreements with both of the major distributors in Norfolk to purchase from the co-operative.

As the depression deepened in 1931, the consumption of milk was much curtailed and with production well maintained the association was faced with the problem of disposing of an increasing volume of surplus milk. This milk had to be separated and only the cream could be sold. In the fall much of the cream had to be sold for butter purposes, at much reduced prices. The association had to pay 3c per gallon to get the milk separated, and with the losses caused by falling prices, was rapidly running into debt. Consequently the officers found a conveniently located building for sale at a reasonable price, which they bought and remodeled into a milk plant.

During 1932 the fortunes of the Norfolk Co-operative Milk Producers and its members improved materially. The cost of handling the surplus milk thru the association plant was much less than what they had been paying, and the manager was able to expand the sales of fluid milk and cream to the smaller distributors in Norfolk, as well as secure new outlets with local ice cream plants. This made it possible to raise the price paid the members for their surplus milk. The association was also able to expand the sales of fluid milk thru making a contract to supply milk to a new distributing company that opened in Newport News, and this made possible the increasing of the basic allotments of the members.

Even greater progress was made during 1933. The U. S. Dairy Products Co., withdrew from Norfolk and turned the plant it had been operating back to the former owner, who was friendly to the association. The co-operative was then able to make agreements with Dairies to buy all of their supply of fluid milk and cream from the association. This materially expanded the sales of fluid milk by the association, to the great benefit of the members. The advance in the market for ice cream ingredients also enabled the association to advance the price of surplus milk. Much of the skim milk from the surplus cream was pasteurized and given to the Norfolk school authorities for free distribution to undernourished school children.

In the summer of 1933 the Norfolk Co-operative Milk Producers Association took the initiative in negotiating an AAA milk market agreement with the distributors and producer-distributors on the Norfolk market. When the Washington officials failed to act on this agreement, the association officials induced the distributors and producer-distributors all to voluntarily advance the price of milk on the streets to offset the advance in the cost of producing milk occasioned by rising grain prices. The Norfolk Milk Board was established to handle complaints under this agreement, and with aid of the association, has developed a better spirit among the milk trade of Norfolk than ever existed before.

The principal leaders in this progressive organization have been the president, G. W. Wade of Franklin; the vice-president, J. W. Halstead of Norfolk, and the secretary-treasurer, B. M. Williams of Norfolk. Under their leadership the association has fulfilled the purposes for which it was organized to serve the members. It has stabilized the Norfolk milk market at improved prices for the members and worked out a fair distribution of the limited fluid sales between them. It has also succeeded in providing the consumers of Norfolk with an adequate supply of pure milk at reasonable prices.

### SIDNEY ANN RUNALDUE

Mrs. Sidney Ann Runaldue, age 82 years, lifelong resident of Prince William County, died Feb. 2 at her home in Manassas. She is survived by 5 sons, 2 daughters, Mrs. Elizabeth Robinson of Washington, D. C., Mrs. Annie Marvell, Harry H. J. B. Runaldue of Manassas, John G. Henry, R. Thomas, J. Runaldue of Alexandria, Va.; 19 grandchildren, 6 great-grandchildren.

Funeral services were held at the home at 3 p.m. Feb. 4 by Rev. John M. DeChant. Interment in Manassas Cemetery.

Mrs. Runaldue was one of the most highly esteemed of the elder members of the community. Her sweet Christian character, motherly instincts and the fortitude with which she bore her illness were an inspiration to a wide circle of loving friends and relatives.

### CARD OF THANKS

Through The Journal we wish to express our thanks to our many friends and neighbors for their help, kindness and sympathy during the recent illness and death of our mother, Mrs. Sidney Ann Runaldue. We also wish to express our appreciation for the many beautiful floral tributes and use of automobiles.

The Family.

### MRS. COLLINS TO ENTERTAIN BETHEL WOMEN

The February meeting of the Bethel Home Demonstration Group will be held at the home of Mrs. Ollie Collins on Thursday, February 15, at 1:30 o'clock. "Reconditioning Old Materials" will be the topic for study. The women of the community are invited to attend.

The regular meeting of the Woman's Club will be held on Wednesday, February 14, at 2:30 o'clock in the dining room of the high school. The program is being put on by the Civic section and is expected to be very interesting. The public is cordially invited to attend this. It will be in the

The executive board of the Woman's Club will meet at the home of Mrs. T. J. Broadus on Monday, February 12, at 7:30 p.m. All members are urged to be present.

Your address label tells whether a subscription is due.

**LITTLE AMERICA**  
AVIATION and EXPLORATION  
CLUB  
LITTLE AMERICA ANTARCTICA  
With Byrd at the South Pole  
by C.A. Abele, Jr. President

### Dangerous Plans!

ON BOARD THE BYRD FLAGSHIP, JACOB RUPPERT: Jan. 14 (via Mackay Radio). Ice, water or air. It's all the same to Admiral Byrd! I mean that no matter what conditions the elements confront us with, the Admiral has a way of combating them.

Take last Thursday, for example. Up against an almost solid wall of closely packed ice sheets and not knowing whether there was open water beyond to which we might force this steel ship, without damaging her plates in our quest for a rear water door to Little America, Admiral Byrd decided to find out—by the air. And he certainly did just that thing!

At 3:30 in the morning of January 11th, he and June, Bowlin and Peterson, took off in the Condor, in perfect sunshiny weather, from Capt. Allan Innes-Lat. 69.50° South Taylor, Our Dog Long. 152.21° West Expert and flew for two hours to Lat. 71.45° South and return. Part of the time they were up 7,000 feet, scanning the horizon fifty miles away. And what they saw decided the Admiral in his plans and sent them scurrying back to the Jacob Rupert. As far as they could see to the South there was ice, ice, ice, getting heavier and thicker all the time. No back door there so we must continue skirting the pack the long way around to our future home—if it is still there when we arrive. Believe me, this whole proposition is getting more interesting, if that's the word, every minute. The plane operated perfectly, as usual, and so did its fuel and oil, despite the terrific changes in temperature they have to endure.

So mark that flight down on your map in blue pencil. That's three now—Dec. 21, Jan. 3 and this one. When this flight started we were hot—40 degrees Fahrenheit. A few hours after the Condor returned, we were in the midst of a swirling snowstorm the Admiral had spotted from the plane when they were only 480 miles from Little America and we were bundled in our heavy coats. The Admiral reported: "I saw no land. It is pretty safe to say that no land exists any nearer than the coastal fronts of King Edward VII and Marie Byrd Land. There may be, however, a few low

islands, nothing more. It is just ice-covered ocean."

On your club map you will notice there is an enormous gob of undiscovered land indicated by a broken line from the 117th to the 152nd meridians. Well, Admiral Byrd's three flights along the 117th, 150th and 152nd meridians tell why it will never be discovered. It isn't there!

By the time you read this, the Admiral, with two or three companions, may have made one of the most dangerous flights in history. He told me about this several months ago, as a secret. This trip will be to Little America. There they may settle down to wait until the Rupert or the Bear, or both, can crush their way in. Or it is now possible that he may fly back to the Rupert. At Little America they will study the terrifying ice ridges which Dr. Lincoln Ellsworth has reported to us as a possible obstacle to getting our supplies from the ships to the base and perhaps do some exploring in the Condor or the big Ford trimotored plane, left there in 1930, which they tell us is all safe and snug—as yet—with its big supply of cached gasoline.

If they land anywhere except at Little America, with its three wooden houses and its two 70-foot radio masts which Ellsworth says are still standing, the Second Byrd Antarctic Expedition may spend its entire time searching for Admiral Byrd and his two or three fearless companions. Wouldn't that be something? They're taking three months supplies of food, in case—

Commander George Noville tells me he hopes to make an exploration trip of 800-miles or more with the three tractors we've brought. More work for yours truly and more to write about. I could write ten books now!

Don't forget, everybody of high school age or over, interested in aviation, adventure and exploration, is eligible, without any cost whatever, to join our club and receive a membership card and a fine working map of the South Polar region to keep track of all our various flights and other exploration trips. Simply send a self-addressed, stamped envelope to Arthur Abele, Jr., President, Little America Aviation and Exploration Club, Hotel Lexington, 48th Street and Lexington Avenue, New York, N. Y., and the club staff there will do the rest.

## PROLIFIC PEACHES

HAVE you ever considered as a housewife how prolific are peaches of dainty dishes? You can make pies with them, puddings, fruit combinations, ice cream, pickles, candy, cakes and cake fillings, salads and even soup. The more you think of it, the more prolific peaches become of a variety of delicious recipes with which to regale your family and friends.

But that's merely an assertion. Here's something to back it up—tested recipes for many of the uses mentioned above.

### A Pie and a Pudding

**Peach Pie with Whole Wheat Crusts:** Drain the sliced peaches from a No. 2½ can, and lay them evenly in a pie tin lined with whole wheat pastry. Mix one-half cup sugar with four tablespoons white flour, and sprinkle over. Dot with two tablespoons butter, and pour over two-thirds of a cup of the peach syrup. Cover with upper crust, and bake in a hot oven—425 to 450 degrees—for thirty minutes. This cuts into six or eight pieces.

**Peach Oatmeal Pudding:** Drain the peach halves from a No. 2 can and arrange them in the bottom of a buttered round or square cake tin. Sprinkle over four tablespoons brown sugar and some cinnamon. Cream four tablespoons butter, add one-half cup brown sugar, cream again, and add one well-beaten egg. Add one-half cup milk alternately with one-half cup flour, two teaspoons baking powder, and one-fourth

teaspoon salt, sifted together and added to one-half cup quick-cooking oatmeal. Add one-fourth teaspoon vanilla. Pour this batter over the peaches and bake in a moderate oven, 375 degrees, for about thirty minutes. Serve hot or cold with thin cream. Delicious! Serves eight.

### A Fruit Dish and Ice Cream

**Peach Celestial:** Scald four cups milk, reserving one-half cup to mix with eight tablespoons cornstarch, one-half cup sugar and one-fourth teaspoon salt. Add and stir until thick and creamy. Cover and cook twenty minutes. Add one teaspoon lemon flavoring and one teaspoon orange flavoring, and pour out onto a flat serving dish, cover top with canned peach halves, and chill. Sprinkle with moist canned coconut over entire top. In serving take up a peach with each serving. Serves eight.

**Peach and Macaroon Ice Cream:** Press peaches from a No. 1 can through a sieve, add two-thirds cup sugar and three cups thin cream, and freeze to a mush. Add two-thirds cup macaroon crumbs and continue freezing. Serve flanked by two small meringue glacés. Serves eight to ten.

### Pickles and Candy

**Peach and Pineapple Conserve:** Mix together the contents of a No. 2 can of peaches, a No. 2 can of crushed pineapple, one cup seedless raisins, one and one-half cups brown sugar, and the juice and grated rind of four lemons. The peaches should be finely cut,

Cook gently until thick, adding one cup chopped walnuts ten minutes before done. Pour into jelly glasses or jars. Makes about three pints.

**Peach Jelly Cubes:** Press the contents of an 8-ounce can of peaches through a sieve, making a puree. Add one-half cup pectin syrup, one-half cup sugar, and one-half cup corn syrup and one tablespoon lemon juice, and boil till thermometer registers 222 degrees. Pour into greased pans so that mixture is about one-half inch thick, and let cool. Let stand overnight in a cold place. Cut in cubes and roll in powdered sugar. You may also dip this in chocolate or in melted fondant if you prefer.

### A Salad and a Soup

**Peach and Cottage Cheese Salad:** On a large chop plate or salad plate arrange the required number of individual lettuce nests. In each one place a well-chilled canned peach half, cut side up. Pile cottage cheese lightly in the center of each peach half, and garnish with preserved grapes or maraschino cherries and mayonnaise.

**Sparkling Ginger Bouillon:** Smooth together one teaspoon cornstarch and one tablespoon cold water, and add to the syrup from a quart can of peaches, the juice of half a lemon and one teaspoon sugar. Cook until slightly thickened. Chill. Just before serving, combine with one pint cold ginger ale, and serve at once. Serves eight.

## TWO MILLIONS OFF AUTO TAX

Legislature Makes Huge Slice in Car Taxes.

A bill to reduce all automobile licenses to forty-cents on the hundred-weight is apparently going through the Legislature with little opposition.

This issue was one of the salient features of the Democratic Primary. Worth Smith, Louisa Senator, favored a drastic cut to a minimum of five dollars for the small cars. This minimum will probably be held at ten dollars, as provided in Judge Peery's campaign pledge.

The real saving is, of course, on the heavier cars weighing over a ton.

As this is crystallizing, there comes to the front Judge Peery's apparent willingness to reduce his \$1,600,000 tax plan to \$900,000. This involves a group of ten tax readjustments. The auto license tax does not go into the general fund so these two features are not exactly linked together.

## MASONS LAY CORNERSTONE

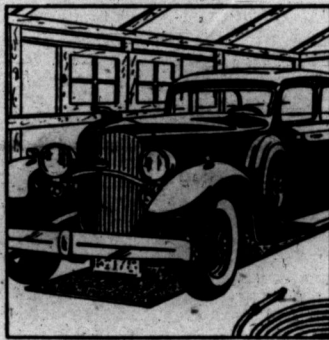

On Friday afternoon the Kemper Masonic Lodge of Falls Church laid a cornerstone for the \$17,000 Masonic Temple in East Falls Church.

The ceremony, which was preceded by a parade by the Washington-Lee High School band, included addresses by Dr. William Mosely Brown, deputy grand master of Masons of Virginia, and by Mrs. Nellie Cosden, worthy grand matron of the Order of the Eastern Star in Virginia.

Among those taking part in the ceremony were: John H. Fisher, first master of the lodge; Mason C. Grasty, senior warden; C. M. Sale, junior warden. Several hundred people attended the services.

## Hints for Homemakers

By Jane Rogers

A little soap rubbed on the bottom edges of a sticking drawer will often cause it to slide easily.

Local Advertisers keep the prices down. Patronize firms who do not fear to advertise in your local newspaper.

## CHEVROLET IMPROVEMENTS

New Car Has Many Attractive Features.

In the design and development of the new models, particular attention has been given to driver and passenger comfort and every effort has been made to eliminate the sensations of both and feeling that prove annoying to the motorist.

The new Chevrolet is longer—it has a 112-inch wheelbase—roomier, more powerful, smoother and more quiet than its predecessor. The engine is placed several inches farther forward in the chassis and seating has been rearranged.

The additional length is disposed so as to provide more space for the front seat occupants and considerably more room for the rear seat passengers.

In appearance, the sleekness which has characterized Chevrolet cars in the past, is further accentuated by the actual length increase plus the treatment of the car design itself.

The increased power delivered by the new "Blue Streak" engine improves the flashing performance and the many engine refinements, combined with distinct chassis improvements insure extremely fast, safe, economical and quiet operation.

The new "Blue Streak" engine with which the 1934 Chevrolet is powered, is more powerful, smoother, quieter and more economical than any of its predecessors. Incorporating many unique design features and refinements, the new motor has a bore of 3 5-16 inches and a four-inch stroke and develops 80 horsepower at 3,300 revolutions per minute.

The new "Blue Streak" engine also embodies the results of many years' experience in providing ample water space around the valves and spark plugs. By an entirely new method of distribution control, the coldest water in the system is taken into the cylinder head and, by a series of eight small stamped copper nozzles pressed into the lower cylinder wall, directed toward the exhaust valves seats, the hottest point in the cylinder head. This increases the efficiency of the valves and is a factor toward the prevention of carbon forming on the valves.

The new Chevrolet engine has many other distinctive features and at the same time retains the many basic features for which it has been so highly praised by automotive authorities and hundreds of thousands of owners. The additional features include: improved valve mechanism; more efficient pistons and narrower compression rings; recalibrated harmonic balancer; new type oil pump; new inlet manifold; improved exhaust manifold and longer more quiet muffler; downdraft carburetor; larger air cleaner and intake silencer; Octane selector; simplified and improved fuel pump and an additional rubber mounting located beneath the transmission.

Brakes on the new Chevrolet are of the double-articulated shoe type, with additional length of contact surface produced by the increase in the length of the lower shoes. This provides more uniform support for the drums, prevents undue distortion under heavy braking pressure, as well as greatly increased braking efficiency. Both front and rear brakes are of the diagonal full-cable control

## MAYTAG WASHERS are hard to get

How soon will Maytag Washers Advance in Price?

We don't know, BUT we have received information that the factory is having to pay more for materials, labor, etc., and have suggested that we place all our orders with them on or before

FEB. 26th, 1934.

This is a hint that we may be expected to pay more. The factory has been swamped with orders since the recent Reduction and public demand will assuredly cause the price to ADVANCE.

We will take orders for delivery up to and including Feb. 26th at the present low prices and give every purchaser a package of soap powder, (enough for 40 weeks washing) who comes into our store and buys a Maytag.

Don't wait until the price goes up then wish you had bought your Maytag. Place your order NOW and we will deliver it as soon as possible. If you make a small down payment we will arrange to deliver the Washer after Feb. 26th, and at the same low price.

We have given you a hint, you had better place your order with us now.

Prices—

\$79.50 - 69.50 - 59.50

GAS ENGINE MODELS  
\$20.00 extra

Easy payment plan if desired

Hynson and Bradford  
Manassas, Virginia

type with a short, rigid cross shaft. The shaft is larger in diameter and shorter, with the six levers controlling the brakes securely welded in place. This insures uniform action of all four brakes and entirely eliminates the effect of axle movement on brake action.

The core of the smart, rakish new radiator is of the same ribbed, cellular type which proved so efficient in the 1933 car. The core is made entirely of copper this year, representing still further cooling efficiency.

Chevrolet also offers the Starter in the 1934 models. The starter eliminates a starting button, the latter being coincidental with the foot accelerator.

## TWO MILLIONS FOR SCHOOLS

Dr. Sidney B. Hall has just sent to the State Comptroller figures compiled in his office, being the balance of the allocation for the present term, the remainder having been paid last fall.

The figures are interesting and items for this county and others nearby are included:

Accomac, \$32,873.80; Albemarle, \$31,566.33; Arlington, \$21,295.59; Caroline, \$16,313.21; Clarke, \$7,265.45; Culpeper, \$12,720.46; Fairfax, \$23,732.74; Fauquier, \$20,125.38; Fluvanna, \$7,141.24; Frederick, \$13,659.85; Greene, \$6,913.06; Hanover, \$22,935.16; Henrico, \$22,792.18; King George, \$4,620.28; Loudoun, \$20,246.06; Louisa, \$17,851.40; Madison, \$8,016.85; Orange, \$12,004.34; Page, \$14,485.53; Prince William, \$12,471.32; Rappahannock, \$7,442.93; Spotsylvania, \$10,845.73; Stafford, \$7,173.16; Warren, \$7,587.82.

Cities — Alexandria, \$18,748.74; Charlottesville, \$13,887.57; Fredericksburg, \$4,470.81; Richmond, \$130,987.80; Winchester, \$9,800.25.
