STATE QUOTA FOR CCC IS 898

Immediate Selection of Men Authorized.

The enrollment of new men from this and nearby counties is as follows:

Alexandria 2, Culpeper 4, Fairfax 3, Fauquier 7, Madison 4, Orange 3, Prince William 5, Stafford 5.

Virginia's quota for the next enrollment period of the Civilian Conservation Corps has been set at 898, and relief workers throughout the State have been instructed to begin preliminary work preparatory to the selection of men to fill the posts.

Actual enrollment will not take place for a week or more yet, but local relief directors are urged to have their candidates registered and examined physically so that they may be sent to the Army recruiting offices promptly when the time arrives.

The quota has been distributed over each city and county in the State where local relief organizations are established.

Of the total number to be enrolled at this period, 15 are to be cooks. The remainder are to be young men between the ages of 18 and 25, preferably from relief families, and who have not before had a term of service in the CCC. Cooks ordinarily are older men, frequently with a term of Army service behind them.

HOME OWNERS' LOAN CO. OPERATION OF VIRGINIA

The report of Mr. John J. Wicker, State manager of the Home Owners' Loan Co-operation, states that nearly 11,000 loans aggregating a grand total of approximately thirty-four million dollars have been made in this state. This is more than double Virginia's proportion on a national average basis.

In making these loans delinquent taxes were paid in the counties, cities and towns of Virginia in a total approaching one million five hundred thousand dollars. Also nearly one million dollars for repairs and improvements to the homes on which loans were made. Hundreds of surveys, appraisals, and attorneys have been given employment.

Over 90 per cent of the bonds issued have been taken over by Virginia institutions and individuals.

WILBUR HALL STATES POLICY

Will Only Improve Park Lands Owned by Virginia.

During the past year there has been much discussion concerning the Seashore State Park at Cape Henry, Va. When it became known that 2,377 acres of this area had been conveyed to the State of Virginia by the Cape Henry Syndicate, on which they retained a vendor's lien for the purchase price of \$280,000, it was the consensus of opinion that no funds should be expended upon this area until the State owned it in fee simple. Honorable Wilbur C. Hall, chairman of the State Commission on Conservation and Development, has issued the following statement, which will meet with the approval of the citizens of the State, and adequately meets the difficult situation:

"I have carefully read the report of the Honorable L. McCarthy Downs, Auditor of Public Accounts, touching the Seashore State Park, in which he suggests that the State should make no permanent improvements upon the 2,377 acres of land which it does not own and on which it merely has an option. The State does, however, own 1,060 acres of this park in fee simple.

"The policy of the Commission will be to adhere strictly to the recommendation of the Auditor of Public Accounts and it may be said that at a meeting of the Commission, held in Richmond on the 16th day of January, 1935, a resolution was passed directing the Director of Parks to make no permanent improvements of any character whatever on that portion of the Seashore Park not owned in fee simple by the State of Virginia. I feel that the problem presented is now one for action by the General Assembly of Virginia.

"In this connection it should be said that the Federal Government has been advised that the State does not own the tract of 2,377 acres, and this was done so that there might be no misunderstanding between the Federal Government and the State Government touching this property."

FEEDING SCHOOL WELL ATTENDED

Mock Trial Planned. C. F. M. Lewis to Head Grand Jury.

The Dairy Cattle Feeding School, held at the Manassas Post Office building last Wednesday and Thursday, was well attended and continued interest was shown throughout both days. Practical feeding discussions were led by R. G. Connelly and Paul M. Reeves.

It was brought to the attention of the dairymen by one of their own group that there were in the county heifer offspring of cows of low production, that some of these were sired by bulls who had shown themselves capable of increasing the production of their daughters above that of their maternal parents and some were not, and that since the bull proving project had been included in the county plan of dairy herd improvement it might be well to decide on the fate of one of these offspring by due process of genetical law.

C. F. M. Lewis, president of the Prince William Dairy Herd Improvement Association, was designated to look carefully into this matter and if he deemed fit, to arrange for a test case some time in the early future.

GARDEN CLUB HEARS TALK ON ORIENTAL GARDENS

The Manassas Garden Club met Thursday at the home of Mrs. L. F. Hough with Mrs. Jacobson as assistant hostess. Eighteen members and two visitors were present. After a short business session the president presented Miss Tatum who appealed to the members to sponsor a garden beautification movement in our district.

This was made a motion and passed including giving spare flower seeds and plants for distribution.

Mrs. Jacobson presented a most interesting program on "Oriental Gardens" dwelling mostly on the gardens of Manila and Japan, and bringing in points of climate, customs and descriptions of natives, illustrating as she went along with pictures and articles of handwork from clothing to rice baskets. All present considered this one of our most instructive programs.

FRENCH RANDELL

Our friend and former citizen, French Ernest Randell, ceased from suffering on Saturday, March 16, at the home of his daughter, Mrs. Louise Hixson, and on Monday, March 18, at the house, funeral services were conducted by Rev. T. D. Clark, assisted by Rev. A. S. Gibson.

It was in Manassas which he affectionately regarded as his home town that it pleased God to permit his departure and his deliverance. Every evidence of family devotion was present, and anxious to offer relief. Such men as Mr. Randell are far too few, in times like these, when definite decisions on vital questions and general good conduct are in the balance. It does not appear that he ever feared the face of man, and yet his sensibilities were so keen that laughter was never a stranger to tears. Our lamented friend after "life's fitful fever, sleeps well." God rest his soul in peace.

Mr. Randell was born at Midland, Fauquier County, Va., Nov. 17, 1856. He was the son of John Murray Randell and Mary Elizabeth (Crump) Randell. A youth, he worked on the farm, later becoming connected with railroads in Kentucky. He also taught school. When his mother became a widow, in early life, he devoted himself to her care until her death, at an advanced age.

In due time he married Miss

Harry F. Byrd
Virginia

BYRD GRATEFUL TO KINGFISH

Senator Harry F. Byrd, of Virginia, has expressed his thanks to Senator Huey Long, of Louisiana, for what the former considers a compliment by the latter.

Senator Long told the Senate that he disagreed with Senator Byrd more than any other senator.

He was remarking upon how strange it was to find himself in agreement with Senator Tydings (Democrat) of Maryland.

"We don't often agree," Long said. "I think the senator from Maryland is wrong four times out of five. The only one I disagree with more often is the junior Senator from Virginia." "When I walk into the chamber and hear the senator from Virginia voting 'no,' I vote 'aye,'" Long added.

SAD CONCLUSION TO HAL- LOWE'EN PRANK

According to advice received at the Journal office on Monday three young marines have been sent to the naval prison at Portsmouth to serve sentences from one to five years for exhuming the coffin of John Raney as a Hallowe'en prank last fall.

The names of the unfortunate young men as given out are John C. Gillingsworth, E. H. Hauck, and Gene Kase. There does not seem to have been any particular spite work involved in this although it was a gruesome display that not only shocked the deceased man's family but the entire town as well and aroused a great deal of comment.

The disciplinary measures were meted out speedily after the men were detected in their crime. The military authorities are always regretful of such occurrences and are severe on their men when such events do take place.

Sergt. John Adams of the civil police was very helpful in aiding to secure the conviction of the trial.

TRAGEDY AT DUMFRIES

On Monday night while en route to Dumfries, Mrs. Mollie Garrison, aged 65, of Occoquan, Va., was struck by a car said to have been driven by Mr. Eugene Nelson of Accotink.

First aid assistance was rendered by friends. Mr. Archie Keys carried her to the base hospital at Quantico where she was found to be dead on arrival.

Mr. Carlton Garrison was with his mother at the time of the accident and has been in such a high nervous condition since, that a clear account of the accident has not yet been secured for publication.

The funeral was preached at the Dumfries Methodist Church, Wednesday, March 20, by Rev. Wilcher and interment in the Dumfries cemetery.

Mrs. Garrison was very active in civic, church, and fraternal work of Dumfries where she had been a life-long resident. Before her marriage she was a Miss Brawner, a daughter of Mr. William Brawner, also of Dumfries.

Mrs. Garrison is survived by the following children: Mrs. Clarice Amidon of Washington and Messrs. Carlton and Cecil Garrison of Dumfries and Ronald and Chancelor Garrison of Washington.

COUNTY RULE IS DISCUSSED

State Commission Chairman Visits Manassas.

The regular meeting of the Kiwanis Club on Friday night was graced by the presence of the entire membership of the Prince William County Board of Supervisors, a portion of the Fauquier County Board, Resident Engineer Hubbard and several of the leading business men of the town and a number of representatives of the Woman's Club.

The speaker on this occasion was Dr. George W. Spicer of the University of Virginia, chairman of the Commission on Reform in County Government which was appointed some time ago by the Governor.

Dr. Spicer made an address which was thorough in detail, explaining the executive form of county government and relating a number of experiences in such counties where either that form or the regular county managership proposition has been adopted.

An open forum following the time for the regular closing of the meeting kept the club interested until nearly 9 o'clock. A number of questions were propounded, all of which Dr. Spicer seemed to take great delight in answering.

He was introduced to the club by Chairman Lindsey Dawson of the local Board of Supervisors, while the meeting was presided over as usual by President Hunton Tiffany.

JUNIOR WOMEN ELECT FOR 1935

Regular Meeting Features St. Patrick's Day.

The Junior Woman's Club met on last Thursday evening at the home of Mrs. Joe Lyon, with Misses Maud Burke and Frances Bushong as hostesses.

The meeting was opened in the usual order by Miss Pattie, and after reading of the minutes and treasurer's report, a report was called for from Miss Rose Ratcliffe, chairman of the dance. Miss Ratcliffe asked her different committees to report, and everyone gave an excellent account of work done for the dance. The dance was held on the 15th of March in the high school gym, with a good orchestra and a nice crowd in attendance, making it a very successful affair.

Miss Pattie brought to the attention of the club that reports of committees should be made to her in the next few weeks, since the end of the club year is in April, and headquarters are calling for annual reports.

It was moved and carried to assist the Senior Woman's Club with their May breakfast, upon their kind invitation, and a number of the Juniors are planning to attend. Arrangements will be made later.

A nominating committee consisting of Misses Frances Bushong, Virginia Frazier, and Lucy Arrington was appointed. The slate must be prepared for the next meeting, which is election of officers.

After a very interesting meeting refreshments were served by the hostesses carrying out the St. Patrick's day color scheme.

WILL DISCUSS ROADS

The meeting which is to be held in Culpeper on Monday of all groups in the Culpeper Highway District is one designed to ascertain the recommendations of the official bodies within the area as to the most needed improvements, and such ways and means as they may suggest for bettering the present highway system.

Supervisors in all the counties have been especially asked to attend but the meeting is not restricted to officials alone and any interested individual or group which has a definite plan to lay before the Commission will be heard.

PATRONAGE REFUND CERTIFICATE

Patronage refund certificates are the means through which the Southern States Cooperative restores to the farmers who use the cooperative business any amounts which they pay over and above actual cost plus necessary operating expenses. This certificate loses its refund value if not surrendered for credit within six months after the due date given below. Certificates will not be accepted for credit prior to the due date.

SOUTHERN STATES COOPERATIVE

RICHMOND, VA.

Operation of some of the NRA codes, such as the fertilizer industry code, make it expedient for cooperatives to charge patrons the going price. Such a policy on certain commodities has already been decided upon by the Southern States Board of Directors. The result will probably be a substantial increase in patronage dividends. 2% paid on last year's business before codes set prices. Insist upon receiving Patronage Refund Certificates on each purchase of Southern States supplies and preserve them.

16% Superphosphate contains 16 to 16½ units of available phosphoric acid. Southern States 16 - 20 Superphosphate contains the same 16 to 16½ units of available phosphoric acid and in addition, 4 to 4½ units of phosphoric acid which is not immediately available, but is slowly changed by the heat of the soil, soil moisture, soil acids, etc., to a soluble form available for plant food.

Agronomists agree that a unit of insoluble phosphoric acid supplied by finely ground phosphate rock is worth 25c to a farmer. Experiment Station results show that 4 units of insoluble phosphoric acid give results equal to 1 unit of available phosphoric acid. Ordinary 16% Superphosphate costs the farmer about \$1.00 per unit. Therefore, 4 units of insoluble phosphoric acid are worth \$1.00 to the farmer.

SPRING MEETING OF H. D. ADVISORY BOARD

The Home Demonstration Advisory Board held its spring meeting at the home of Mrs. C. J. Gillis at Haymarket on Thursday, March 14, with the chairman, Mrs. J. F. Hale of Nokesville presiding and Sarah Pitts, home demonstration agent serving as secretary. Plans were presented for furthering the sanitation campaign. Members were asked to help further retary pro tem.

Following the reading of the minutes the sanitation work by encouraging attendance at community meetings, contacting families and helping to arrange for such improvements as are needed. The collective buying of second-hand sinks was suggested as a means of providing this needed convenience for homes that could not otherwise afford it. This suggestion met with the enthusiastic approval of the group. Representatives were asked to make investigation concerning sinks desired and plan for the securing of same.

The invitation was extended for Open House day which is being observed by Home Demonstration women and home economic girls of Nokesville and Manassas on May 1. This program will mark the close of the educational campaign on sanitation. Houses in which recommended improvements have been made will be open for inspection. Home economics departments of Manassas and Nokesville are planning social features which will add to the day's interests.

The district meeting of the Federation of Home Demonstration clubs of Virginia which is to be held in Charlottesville on April 4 was announced by Miss R. Belle Burke. Miss Burke recommended the program and asked for representation from each home demonstration group.

After considering participation in the annual meeting of the Federation of Home Demonstration clubs it was decided that the group affiliate by paying the \$3.00 dues. Mrs. McGruder Keys of Dumfries was chosen as representative to the meeting with Mrs. Robert George as first alternate, and Miss Jennie Ewell second alternate. Ten dollars is to be paid toward expense of representative. The cost of affiliation and sending representative to Blacksburg will be borne by the home demonstration group of the county.

Plans for participating in Jamestown Adult Camp were considered. The program was recommended by the home demonstration agent as offering excellent opportunity for studying colonial furnishings as well as offering a most delightful outing at a low cost. The possibility of arranging for bus was discussed. The home agent was asked to secure details concerning time for camp, program offered, camp and transportation cost and present to community home demonstration groups.

Program and date for the annual Home Demonstration Achievement program were considered. November 7 was set as date for the 1935 program, resolution passed asking the County Homemaker's Association to join in the program. House furnishings leaders were named a committee to arrange exhibit list: Mrs. R. F. Persons to act as chairman. The following women are asked to serve on prize committee: Mrs. Robert Mooney, Mrs. Dewey Schaeffer, Mrs. Robert George, Mrs. John Ellis, Mrs. E. E. Hale, Miss Frances Hummer and Mrs. Nalls. The committee will determine means of securing prizes. Chairmen of home demonstration groups were named committee on program to serve with the home demonstration agent.

DUMFRIES

Mr. Luther Carter is greeted back to his old post by his bus students.

The marines have landed at Quantico from practice around Florida and have everything in hand including all the beer, whisky, wine and girls.

Mr. A. H. Shumate, the minister of Dumfries, is very ill at this writing.

The many friends and relatives of Mrs. Louise Cable were shocked to hear of her sudden death at her home in Fredericksburg.

The seventh grade of Dumfries went on an interesting tour over a part of the proposed Choppawamsic Park to observe the wild animal life and the natural resources and to study how they can be protected and conserved by the government.

Attend the Daughters of America party tomorrow at Junior Hall. Small admission.

 BIBLE THOUGHT AND PRAYER

THE HIGHEST ROCK: Hear my cry, O God; attend unto my prayer. From the end of the earth will I cry unto thee: lead me to the rock that is higher than I.—Psalm 61:1-2.

FRENCH RANSELL

The passing of that chivalrous old cavalier, French Ransdell, is indeed a circumstance of regret for the entire community.

Mr. Ransdell was an exponent of one of the original families in this part of the country, one of his forebears having been delegated as royal surveyor to assist in determining the boundaries of the first Prince William County.

His life was written in a way that will be an ever continuing source of pride to his descendants and certainly constitutes a solace in their time of grief.

In passing it might be noted that Mr. Ransdell's death removed the last of three prominent Prince William men, who lived so many years as close neighbors and friends. The others were Captain Westwood Hutchison and Judge Charles Edgar Nicol, both of whom helped to make Prince William history.

The obituary presented in this issue is a fitting tribute from a friend of long standing. The Journal joins the county in offering its sincere sympathy to the widow and children.

SANITATE AND SAVE

During March and April the schools and the health service are co-operating with the FERA and other extension organizations to further a campaign of sanitation in the county.

Speakers, exhibits and even moving pictures are being employed to expedite the Better Rural Housing Program which is being sponsored by the Home Demonstration organization of Prince William County.

Health units are being developed in the schools and plays are being gotten up for the children as well as other programs. The relief office offers to construct conveniences if the farmers will furnish the building material. Surveys show that many farms are inadequately supplied with modern conveniences, the percentage running from where only 10 per cent have improved baths to a total of 80 per cent who have to carry water to their houses. These figures are general as well as local.

The slogan for the home demonstration organization as offered for the county is "SANITATE AND SAVE."

EYES ON THE UNSEEN

Whether we lose heart or not depends on what we see. Here is why Paul never lost heart: His vision was fixed on the unseen—and enduring. The secret of high-hearted confidence is always in some vision of the unseen. We see the havoc of drought and storm; we do not see, save as we have eyes for the unseen, the great, kind constancy of nature. We see what changes day by day. We do not see, without that vision, the vast reservoirs out of which new power, new growth, new life issue. The greatest things: love, faith, courage, the sovereignty of the right belong to the unseen. When our vision is fixed on something beyond time and sense and change, we begin to see, through the veil of the transient, the assuring strength of the enduring. It is there.

Prayer: Grant unto us, Enduring Spirit, the power to discover and the grace to fix our eyes upon the unseen. Help us to see how unfeeling love is, how goodness has the resource of the unfulfilled years, how behind all the shifting veil and show of things, there is a power which cannot be defeated and a love that will not let us go. In His Name for Whom the unseen touched every dusty way with glory. Amen.

ECONOMY COOKING

Housewives, reports an observer who made a survey, are not "sitting back and wasting their energy moaning" about the high cost of foodstuffs. They are attacking the problem with science. They know a great deal more than housewives used to know about food values and how to conserve them in cooking.

They do their marketing with food value in relation to cost kept firmly in mind. That means more root vegetables, cheaper cuts of meat. Then they study cook books with special attention to methods of serving less expensive foodstuffs attractively and cooking with the least amount of waste.

It is a tough job, but success brings its own reward. It used to be said that the French could feed a family on what an American family wasted through ignorance of the art of cookery. But the American housewife isn't wasting much these days. She may even be developing a talent skill in cookery which will make her French rivals look to their laurels.—Exchange.

THOMAS LANIER BERKELEY

Thomas Lanier Williams Berkeley, of Upper Prince William, passed away at his home, "Mountain Rest," in the early morning of Thursday, Feb. 28.

Mr. Berkeley was born at "Evergreen," this same neighborhood, Jan. 31, 1869, third son of Col. Edmund Berkeley and Mary Lawson Williams, his wife. He was a singularly handsome and lovable boy, and talented in several ways. He attended near-by schools, and later Captain William Marshall's Academy at Marshall, Va., also the Boys' High School, Atlanta, Ga., in 1884. He entered the Southern Railway Shops, and spent practically all the rest of his active life in the service of that road. In 1913 he married Margaret Wilson of Hartwell, Ga., who survives him.

Mr. Berkeley was a Mason, a member of the Alexandria Washington Lodge No. 22, and the lodge sent a delegation who conducted the beautiful Masonic service at the grave in St. Paul's Church yard, Haymarket. The Rev. Percy Foster Hall of St. Paul's Church, Alexandria, assisted the Rev. Mr. Carpenter of St. Paul's, Haymarket, in the usual service. There were many beautiful flowers. A large body of Southern Railway men were present, also many relatives and friends from far and near. Mr. Berkeley was a man of most winning personality, beloved by all who knew him. We are glad to know that he rests in peace after a long and trying illness.

BOOSTERS' CLUB ORGANIZED TO SUPPORT BASEBALL

The Manassas High School Athletic Association finds itself in a very embarrassing position. Unless funds are raised very soon, there will be no baseball team this year. The athletic association will have no money left to finance baseball after all its debts are paid. In view of this circumstance, the association has issued an appeal to the Boosters' Club for increased support. The association organized the Boosters' Club last fall as a subsidiary club to which the townspeople might belong and through which they might express their interest in athletics in the school. A campaign is being put on to raise the enrollment of this club. The present number of members is thirty. The aid of all the townspeople who are interested in baseball is asked.

ASSEMBLY TALKS AT M. H. S.

A series of addresses of very unusual interest was given at the high school last week. As the school is conducting a campaign to increase its percentage of five-pointers, a special health program was held last Tuesday. Miss Neal, the county nurse, gave first an excellent illustrated lecture on the care of the teeth. She warned the school, however, that it would find it hard to beat the recent record of the Dumfries School where the children had had a 100 per cent correction of their teeth and had expressed their lively interest in the subject by producing a charming little play on the importance of care of the teeth. She also stressed the two essentials for good teeth: the right kind of diet and early and frequent visits to the dentist.

Following Miss Neal, Mr. Reeves, the athletic director of the Swasey School, gave a discussion on "What I Must Do to Become an Athlete" which was received with eager attention by the members of the athletic teams. Mr. Reeves also stressed the value of the right kinds of food for the athlete—milk, vegetables and fruit (with meat only once a day). He also pointed out the great importance of fresh air, plenty of sleep and regular methods of living. Smoking and drinking must be cut out, he said, if success was to be won and kept in athletics.

On Friday, the whole school listened with absorbed attention to a two and a half hour address on "Soviet Russia" by Mr. E. C. Ramsay, a former press correspondent in Russia. Mr. Ramsay gave a remarkably interesting account of the social, industrial and educational activities of the great socialist experiment being carried on in modern Russia, together with some discussion of Fascist Italy and Hitlerite Germany. He also stressed the immense importance of cultivating a greater spirit of co-operation among the nations of the world, for any other attitude inevitably meant war in the end.

NOTICE

The monthly meeting of the Children of Confederacy will be held Friday, the 29th, at 3:30 o'clock, at the home of Mrs. E. H. Hibbs.

FORD TO HOLD BIG EXHIBIT

California Pacific Exposition Opens May 29.

Final agreement has been reached under which the Ford Motor Company will put on, at San Diego, Calif., this year, another great industrial and educational exhibit.

The occasion will be the California Pacific International Exposition, which opens May 29 and runs through November 11, commemorating the past and welcoming what is termed "A great new era of expansion and development for the West."

The "new era" is promised by several huge development projects just completed or under way. Boulder Dam power and irrigation project is nearing completion, bringing cheap power and water over a vast area of the Southwest late this year. The All-American Canal, from the Colorado River through the Imperial Valley, is under construction. These two projects alone cost \$188,000,000, and with the Los Angeles Metropolitan Aqueduct, costing \$220,000,000, to be completed next year, make more than \$400,000,000 invested in southern California within the last several years. Added to existing water and power supply they are designed to provide water and power for a population of 20,000,000 and a proportionate amount of industry.

In addition several other great projects are under construction. Los Angeles and Long Beach are spending \$7,000,000 on a breakwater, San Diego is spending \$2,000,000 on harbor development. Two San Francisco-Oakland Bay bridges, costing respectively \$176,000,000 and \$90,000,000 are the greatest projects of their kind in the world. Work is also afoot on the Grand Coulee power and reclamation project on the Columbia River, to cost \$63,000,000.

These projects do not include scores of millions already being spent and to be spent for local public and private developments and industrial expansion, and millions more being spent for highways in Washington, Oregon, California, and states immediately adjoining to the East.

Thus, by the end of 1938, there will have been completed up and down the West Coast and its immediate interior development projects totaling approximately \$1,000,000,000 in cost.

All these factors, combined, form a basis for a great new era of development being launched this year, with the San Diego exposition symbolizing the start.

Catching the spirit of the occasion the Ford Motor Company will make its exhibit an educational expression of the last word in modern industry, agriculture and transportation, and on a huge scale. It will in no point duplicate the Ford exhibition at the Chicago Exposition, last year.

The Ford exhibit will be housed in a permanent building, construction of which has been in progress for nearly two months.

Nearby, at one side, will be a Ford amphitheatre, seating 3,000, where concerts and other attractions will be staged, the structure so set in the hillside that the top of the shell is below the tip of the hill.

BIBLE SONNETS

CHRIST

St. Matthew VI—28 to 34

These Things Shall Be Added Unto Thee

Why thought for raiment take? Consider ye

The lilies of the field, how they do grow;

They toil not, neither do they spin; yet know

Thou that not even Solomon, though he

Outrivalled all in glory, like a lea

Of this pure flower was arrayed. If God

So clothe the grass, which now is, and discard

It on the morrow, shall he not clothe thee?

Therefore no thought take, saying what we shall

Eat, drink, or where withal be clothed; but seek

Ye first the realm of God and so bespeak

His righteousness; then these things, they shall all

Be added unto thee. Sufficient to The day the evil thereof. This is true.

Capital Loans

—are not the proper field for commercial banking operations.

CAPITAL loans are those which remain fixed in the borrower's business for long or indefinite periods. Such loans perform a useful, necessary, business function, but, obviously, are not the proper field for commercial banking operations.

The commercial bank makes loans of short-term, or seasonal duration, to carry on current business activities whose cash proceeds are sufficient within a specified period to repay the loan. The daily maturing of such loans—and new deposits—normally bring in sufficient cash to meet the daily requirements of depositors and to make fresh loans.

In addition to commercial loans, this bank holds conservative securities readily marketable for cash on established exchanges. Likewise, it requires that the collateral for secured loans be equally marketable.

MOORE AND GRUBBS LEAD DISCUSSIONS AT POULTRY AND LESPEDEZA MEETINGS

Korean lespeveda, from its infancy to the present time, was discussed at length by S. F. Grubbs, fieldman for the Va. Crop Improvement Association and pioneer Korean grower, at the Grange Hall at Haymarket Monday evening.

A joint lespeveda and poultry meet-

ing was held at the Nokesville High School Tuesday evening with Mr. Grubbs and H. L. Moore, V. P. I. Poultry Specialist, leading the discussions. A pie sale was held and a short recreational program given by the Nokesville 4-H Club following the meeting.

Mr. Moore met with a group of poultry keepers at the U. D. C. Hall at Hickory Grove Wednesday afternoon.

NOKESVILLE BASKETEERS COMPLETE SUCCESSFUL SEASON.

The Nokesville High School basketball squads have completed a rather successful season. Although not having won any outstanding honors, both teams have clearly shown that sportsmanship and co-operation are two of their main goals.

The girls sextet have played twelve games, winning six, and losing six. The squad was composed of: Gayle Bowman, Margaret Dodd, Nina Flory, Anna Smith, Virginia Carrico, Hazel Owens and Christine Earhart. The substitutes were: Marie Harpine, Muriel Summers, Letha Foster and Gladys May. We are sorry that four of the members: Nina Flory, Hazel Owens, Christine Earhart, and Mary

Harpine, will be graduated this year. They have been outstanding players on the team.

The boys quintet seem to have had more success in winning than the girls. They have played nine games this season, and have only lost three. Four of the members of the squad are seniors: William Schaeffer, Allan Schaeffer, Philip Reading, and John Hively. The other members are Raymond Showalter, Raleigh Nelson, Clement Rollins, Oscar Aubrey, Ralph Rollins, Billy Hale, and Billy Hedrick.

JACKIE COOGAN

COMING BACK!

"The Kid" comes back! Grown to handsome and virile manhood, Jackie Coogan, long remembered as the greatest of "kid" actors, performs his first grown-up role in Paramount's "Home on the Range," coming next Monday to the Dixie Theatre in Manassas. Veteran and leading character of eighteen motion pictures, Jackie Coogan left the screen at the completion of "Huckleberry Finn" to fin-

ish his schooling. At the University of Santa Clara, Coogan distinguished himself by his prowess on the track and in the pool. When he is twenty-one the annual interest on a million dollars will be his, the result of the well-invested earnings of his childhood. But he won't get the million until he is fifty.

"I never dreamed a back seat ride could be so comfortable"

Now "Front Seat Comfort"

for every passenger in the Car!

It is not too much to say that the 1935 Ford V-8 brings you an improvement in riding comfort that matches the performance of the Ford V-8 engine.

Let a ride show you exactly what this means. It means "front seat comfort" for rear seat passengers—for everyone in the car!

The diagram at the right explains the engineering development that made this possible. But, when you examine this new car, look for more than new comfort. Go to your Ford dealer's expecting to see a car built to meet every present-day motoring need.

The V-8 engine—the most economical, dependable and powerful engine Ford ever built—is here to give you the performance you need on the road and in traffic today.

This car is longer, wider—with plenty of luggage space behind the rear seat. Safety glass

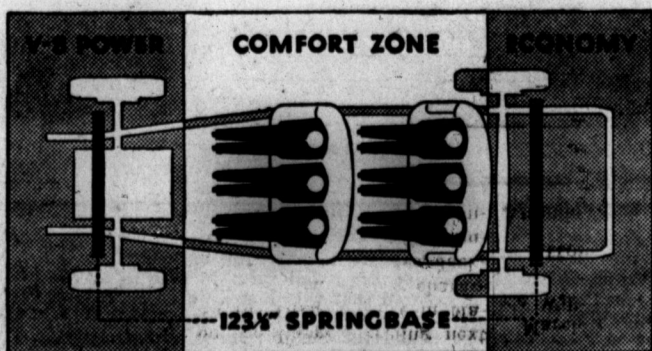

all around comes at no extra cost—combining with a welded, all-steel body to give you the security you need.

New, larger, air-balloon tires are standard equipment. Newly designed clutch and brakes not only give better action and service—but also easier operation. In its new body lines and interior appointments, the 1935 Ford V-8 provides the beauty every woman wants today.

This is a new Ford V-8 car, yes. But, more than that, it is a new car value. See it today.

AUTHORIZED FORD DEALERS

THE NEW
FORD V-8

Note how the springs of the new Ford V-8 are placed out beyond the front and rear axles. They provide a long springbase for riding ease on a wheelbase designed for handling ease. Both front and rear seats are cradled between the springs—enabling all passengers to ride in the Comfort Zone.
