CHEVROLET MARKETS

100,000 IN DECEMBER

Chevrolet's new car sales totaled 101,286 units, in December, it was announced today by W. E. Holler, general sales manager. The figure represents an increase over the same month in 1935, of more than 21,000 units, as the record for a year ago was 80,189 new car sales.

Sales of new trucks included in the total unit sales figure, were 17,516. Used car sales during the month were 148,163.

Mr. Holler cited these figures as added proof of the fact that American buying power is on a decided upswing and that a general increase in the potential market for new cars exists.

CATTLE THIEF APPREHENDED

Sheriff Kerlin Convinced of Correct Identification.

Yesterday Sheriff Kerlin went to Fredericksburg and to Bowling Green to investigate circumstances surrounding the arrest there of a W. B. Armstrong on a charge of cattle stealing and is convinced that his long search for the thief who carried away live stock from Linton Hall and committed other depredations in this section of the state last summer has been apprehended.

Working steadily on the case, Mr. Kerlin is said to be preparing evidence for the Grand Jury which will definitely place Prince William County among the group of Counties which want the culprit under charges of cattle stealing.

It is said that the same technique has been used in Fairfax, Fauquier, Stafford and Goochland Counties and that the truck used, where seen, has been identified as identical, being a Chevrolet green staked body with blue cab and carrying the license number T.11008, issued to a W. B. Armstrong, Ruby, Va., who is said to be an ex-convict with a foreign name.

His method was usually to back the truck up to a convenient loading place, cut the fence, load up and speed away. In the case of the depredations at Linton Hall last summer Sheriff Kerlin secured evidence which is believed to definitely indicate that the man now under arrest is the guilty party and it is thought that his conviction will end an extensive series of livestock thefts.

MANASSAS TEAMS WIN AND LOSE

Informal Game of Girls Furnishes Much Interest.

In a fast and furious game on Manassas court last Tuesday night, January 12, the Occoquan Town team noded out an 18-17 victory over the Manassas High School team, although the score was tied several times, thru splendid passing by the Manassas girls, the Occoquan sextet managed to keep in the lead most of the time. Though a good deal of fine jumping was displayed, in the center of the court the object of the game seemed to be "get the ball and fall on it."

Both teams seemed to be possessed with an overwhelming desire to get the ball at any cost, resulting in about ten fouls through out the game. It is general opinion that the game, as a whole, was enjoyed more by the spectators than by those who played it, as the players showed no mercy, either for themselves or for their opponents. The two groups were so evenly matched that it seemed that the game hung on which ever team could hold out the longest. Davies was the high scorer for Manassas, Neale and Sheppard for Occoquan.

In spite of a good defense and also because of that same defense Occoquan high's bravely undiscouraged team was added to the list of Manassas victories.

Manassas began the scoring and achieved a lead that was not lost throughout the game. The score at the quarter stood 8-2.

The second quarter found both teams in a scoring spree. Manassas doubled their score, and although Occoquan defense was strong, it was ultimately the chief reason for their defeat.

They were slow in breaking into an offensive game and while they should have been playing offensively, they were playing defensively. At the half the score stood 16-10.

The last half of the game was even more discouraging. Occoquan's defense weakened. And although Manassas did not take advantage of it Occoquan made no gain. Chaves of Occoquan (high scorer for his team) started a rally but was not supported by the other members of Occoquan's five.

Lynn, with six fields, was star for the winners. His work was closely matched by that of Gene Worley.

Over the past week the Manassas high boys team split a pair of fast exciting games. The fact that Fredon Friday does not detract anything ericksburg defeated them, 20 to 17, from the team. They fought Fredericksburg basket for basket right up until the final whistle. Coming forth with a surprising amount of pep and fight, the Manassas boys surprised an unexpected Fredericksburg team and nearly sent them down to defeat. The score at half time stood 9 to 0. Lynn scored 7 points for Manassas while Whaley scored 11 for Fredericksburg. Visiting teams here should produce some exciting games if this game is any indication of what is to come.

Tuesday night the boys defeated Occoquan 27 to 16 but not until they overcame a fighting, hard playing opponent. The score at half time was 16 to 10 for Manassas. Occoquan's defense proved troublesome to the Manassas offense and it was not until the game was well under way that Manassas began to break through. Lynn scored 12, Vetter, 8, for Manassas. Chaves was high for Occoquan with 8.

The girls team was easily outpointed by last years state champions at Fredericksburg Friday, 32 to 8. Our girls did the best they were able but just couldn't stop this smooth working team. In a practice game Tuesday night the Occoquan Town team was hard put to it to eke out an 18 to 17 decision over our girls.

URGES PRIMARY ROAD COMPLETION

Kiwanians Told Gas Funds May Be Diverted.

J. Donald Richards, of Warrenton, one of the state organizers of the Citizens Road League, was present last Friday evening at the regular meeting of the Kiwanis club. He came as the guest of Ray Ratcliffe but in that gentleman's absence was introduced to the club by W. F. Cocke.

Mr. Richards explained the organization in considerable detail and its purposes. He stated that the prime motive of the new group is to advise through intensive field investigation and comprehensive membership of the needs over the entire state along primary road construction lines, and general road needs as well.

The efforts to divert gas tax funds from road purposes will be renewed at the next General Assembly, according to Mr. Richards, who heatedly attacked any plan which would deprive the motorist of the tax which he pays.

CATHARPIN

Well, our weather prognosticators are at it again and are now predicting another winter like the one in 1900—open, mild, muddy and most anything except the good old-fashioned kind with plenty of snow and cold weather; in other words—the kind that produces good health. The Press of the country just now is much agitated over the threatened return of flu which has reached the epidemic stage in some parts of the Nation and which is as virile and dangerous as the epidemic of that disease in 1918. So it will be well for every one to post up on health regulations and preventatives, for it must be remembered that this community does not now have the near-by medical attention it has enjoyed for so many years in the past.

The Catharpin Good Housekeeping Club met in special session at Oakwood on Monday, January 4, 1937, for a two-o'clock dinner and to see just what "Old Santa" had in store for its various members. This meeting was of particular interest since it meant the exchange of gifts to each other, the presentation of which created as much interest and enthusiasm as any crowd of children ever enjoyed. At a former meeting each member drew the name of the person who was to be the recipient of her particular munificence; and you should have seen them. The club was glad to have as an honorary guest Mrs. Nellie Sanders Clary of Lawrence, Va., a former member, who also received a "retort courteous" from her hostess as a memento of the occasion.

Mrs. L. J. Pattie and daughter, Cynthia, of Belle Farm, spent last week-end with Mr. and Mrs. Edward Smith of near Greenwich, Va.

Miss Ann Robertson of Lawn Vale, was confined to her room for several days last week suffering from a bad cold which was feared might be an affluence of flu which seems to be gaining a foot-hold in this community.

Speaking of epemics, the Sudley neighborhood is now threatened with that ever-recurring fever known locally as the "quilting fever" which has lately broken out in the home of Mrs. J. H. Akers of Rock Hill where a new quilt of "flower garden design" is being carefully wrought by the ladies of that particular section of the Sudley Missionary Society much to the enjoyment of the participants and to the benefit of the society for which they are so industriously working. This "epidemic" is very contagious and liable to spread to this section at any moment.

It is beginning to look like old times again when fat cattle are moving almost every day to market. It is becoming a very common sight to see huge trucks, heavily laden with this now profitable product of the feed-lots as they wend their way along the highways seeking markets commensurate to the time, labor and expense of production. The feeder is now beginning to realize a better income for his labors and a consequent "uprising" in his mental attitude toward life in general and the future of his occupation. The present trend of prices is very encouraging to the farmer who is now beginning to see daylight once more and the return of his independence from the "dole."

We note with a great deal of interest the bill now before Congress introduced by our own representative the Hon. Howard W. Smith for the regulation of aliens as they effect the interests of this country. This is a subject but little known in this section of the Union and is well worth one's time to investigate. It is stated that "Our alien population presents one of the most serious problems of American life to-day" with which statement we heartily agree. Our Monday morning's papers tell us that "2,000 Marchers are To Mass In Washington" this week and many more are mobilizing in different sections of the country to join them. Purpose: to intimidate our Law Makers; and who are they? If their names should be published, just see if you can pronounce them. Now read your papers for further information.

At last, our neighbor Waterfall, whom we have missed for so long, has come out in the open and given us the news from that interesting section of Prince William county which is so comfortably embraced in the arms of Bull Run Mountain near the headwaters of Catharpin Run. We are glad you agree with us for it would never do for Catharpin and Waterfall to ever get at cross-purposes, for we are both domiciled on the famous Indian-named pure mountain stream called Catharpin Run, which, with few other streams, have for so many years, kept poor Chesapeake Bay from going dry. So peace it is.

But you have asked us a question which to answer, may lead us far afield. We have been wondering just what "upstage" means? We knew what "upstairs" means and think we have a little idea as to what "upstart" means; but "upstage" sort of puzzles us, unless by inference, we concede it to mean that when one gets a little bit up in the word he has his

name printed on his "Good Wish" cards in order to apprise his friends of that important fact. We have always been advised that it is not good "usage" to write a letter of condolence on a typewriter. Reason: cold type ran not express warm sympathy. Hence custom has established that if true sentiment really comes from the heart, it must also come via the hand—and the pen. Since great bereavement and rapturous joy are the "terminals" of emotionalism, it would seem that they should be treated alike.

But in regard to Christmas cards we sometimes think it possible to lose some of the "personal touch" which inspired their origin, and, has become to some extent, a habit; certainly to the printer it has become a profitable business, made so by the fact that we do not have time in these hurry days to write our sentiments and "long-hand" them to our friends; hence the next best thing is to look over the printer's "repertoire" of beautiful sentimentalisms, select ones best suited to our tastes, sign them and mail them out. If then the publisher can do our thinking and put it a step further for him to print our all on paper for us, it would be but names as well. It might be just here where the "upstage" enters the picture. We have known many business men who have handed their typists or clerks a list of names and instructed them to duly forward same to those whom he wished to be remembered. So it seems in order to get things accomplished at all, we must forgo some of the strict rules of procedure as promulgated at a time when "time" was "plentiful". However, we do love to see that old, familiar hand-write and to know that the sender had actually selected that particular missive and signed his own name to it.

BIBLE THOUGHT AND PRAYER

Parents will have their children memorize the daily Bible selections, it will prove a precious heritage to them in after years.

THE PATIENT TEACHER:
And the servant of the Lord must not strive; but be gentle to all men, apt to teach, patient.—2 Timothy 2: 24.

FEDERAL REORGANIZATION

If Roosevelt's proposed reorganization should be adopted by Congress his administration would constitute a landmark in American history, if no other accomplishment should have been attained. Future generations might forget all about the "New Deal" and the alphabetical experiments with "Recovery", but the day in which the President of the United States assumed real control of the executive branch of the government would never be forgotten.

It will be a source of regret that the present proposal does not contemplate any substantial reduction of the huge federal machine, but the President has the best of the argument when he favors bringing all of the multitudinous bureaus and agencies under a regular Department, headed by a cabinet officer.

Without question a bitter fight will be waged in Congress over the reorganization plan. Certain phases of the program seem to indicate the possibility that some evils will be increased, rather than corrected and there are indications that "jokers" have been inserted to take care of some special interests, as for example under proposals for the Department of Agriculture where the Department of Conservation must share important conservation matters with Agriculture, but as a whole the reorganization plan has a strong appeal to the average citizen who feels that reorganization along lines of efficiency should precede an intelligent reduction of the mammoth enterprise.

Probably Congress will make many changes in the proposals and it is right and proper for the legislative branch to look after its own interests as representatives of the people, but it is hoped that finally a really effective reorganization will result in the bringing of this multitude of independent offices under the President's Cabinet.

1939 World's Fair Has New Ideas About Amusement Features

NEW YORK (Special).—"Only seeing will be believing," says President Grover Whalen of the New York World's Fair 1939 Corporation, as he tries to envision what the Fair is planning, more than two years in advance, in the way of facilities for recreation, entertainment and amusement.

Every man, woman and child in the United States, he says, has an interest in the 1939 Fair and to some degree or other has a part in the building of that Fair. The exposition, therefore, will surpass all previous fairs, not only in the demonstration of the wonders of the world or present-day life and in the projection of the World of Tomorrow, but also in providing the utmost variety of entertainment and amusement for every man, woman and child.

The entire world will be tapped for every amusement possibility. The tiresome mediocrity of stunts and side shows—the stock-in-trade relics of the amusement world of yesterday—will give way to a new and modern standard of excellence. The plan of the New York World's Fair has anticipated the requirements for entertainment and is making them a part of the general scheme of the Fair, rather than allowing them to spring up as an appendage or an afterthought. Even the tiny children will have a playground reserved exclusively for their own use.

FACTS AND FIGURES ON YOUR TELEPHONE

BY

Edwin F. Hill

Telephone communication is becoming more and more essential to the inauguration of the President of the United States. At the Capitol at Washington, January 20: President Roosevelt takes the oath of office, being the first president to be inaugurated under the twentieth amendment to the Constitution. In taking the oath the President's voice travels over telephone lines and radio circuits for the benefit of people in every city, town and hamlet in the United States and in many countries of the world.

Telephone Lines
Picture transmission by telephone lines to all parts of the country insures appearance of events in papers, in many cases on the same day of the ceremony. Loud speakers convey to the audience present around the Capitol and along the ceremonial march to the White House step-by-step occurrences. The inauguration, in fact, is a communications one.

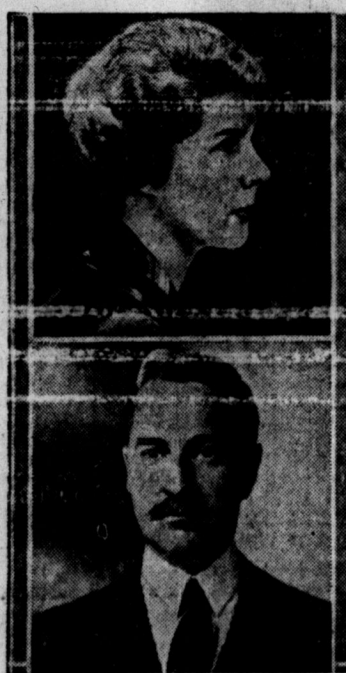

Telephone communication played its first permanent part at inaugurations when the late President Warren G. Harding took the oath of office, March 4, 1921. At that time the Bell public address system made its initial appearance before a large group estimated at 100,000 people around the Capitol. When Calvin Coolidge became president, March 4, 1925, the public address system again came into use and in addition the ceremonies were broadcast from twenty-one radio stations throughout the United States, these stations being connected by telephone lines. Picture transmission by telephone lines also played an important part in this ceremony.

Picture Transmission
At the inauguration of President Hoover, March 4, 1929, the public address system, more radio stations connected by telephone lines and telephoto pictures were the features of the day.

Telephone communication speeding inauguration events is taken as a matter of course. In the case of General Washington's inauguration, even the generous time allowances were found insufficient. He was not notified of his election until April 14, following the casting of all electoral ballots on the first Wednesday in February. Leaving his home on April 16, Washington reached New York in time to be present at his inauguration on April 30, 1789.

Telephone and other electrical communications bring inaugural events to the people as they occur.

Together they will enlist more than 10,000 committee workers in a nationwide campaign to arouse interest in and create support for the New York Fair. Grover Whalen, President of the Fair Corporation, has announced that State Chairmen will be named later and that every state will be brought into active participation in the New York Fair, making it truly national.

High herd for the Prince William Association, W. M. Kline, 31, G. Holstein and Jerseys, averaged 998 lbs. milk and 37.8 lbs. fat.

High cow owned by J. E. Barrett, Bessie, a G. Jersey, produced 1398 lbs. milk and 79.7 fat.

Mr. W. M. Kline had 2 cows and J. E. Barrett 1 cow producing 9 gallons of milk per day. Can you make a record of this kind?

Mr. R. S. Hynson has a Grade Holstein in his herd No. 38 weighing approximately 1600 lbs. For the month of January this cow topped all monthly records for any cow in the county in the past 3 years. She produced 2418 of milk and 101.6 lbs of butter fat equal to 125 lbs. of butter or 4 lbs. of butter per day.

No. 12 in Mr. Hynson's herd has averaged 7 gallons of milk a day for 8 and half months. In 230 days she has produced 13000 lbs of milk.

Mr. W. M. Kline made an outstanding herd average for January an average of 40.2 lbs. of fat for 26 Grade Holsteins and Jerseys. This is higher than any of 500 herds on test in the State in the last 2 months.

OCCOQUAN and VICINITY

Miss Mary Bubb of Occoquan and Miss Dorothy Cranford of Pohick have rented an apartment in Washington, D. C., for the winter. The Misses Bubb and Cranford spent the week end at their respective homes.

Miss Ann McNeil of Washington spent the week end as the guest of Miss Mary Joyce at her home in Occoquan.

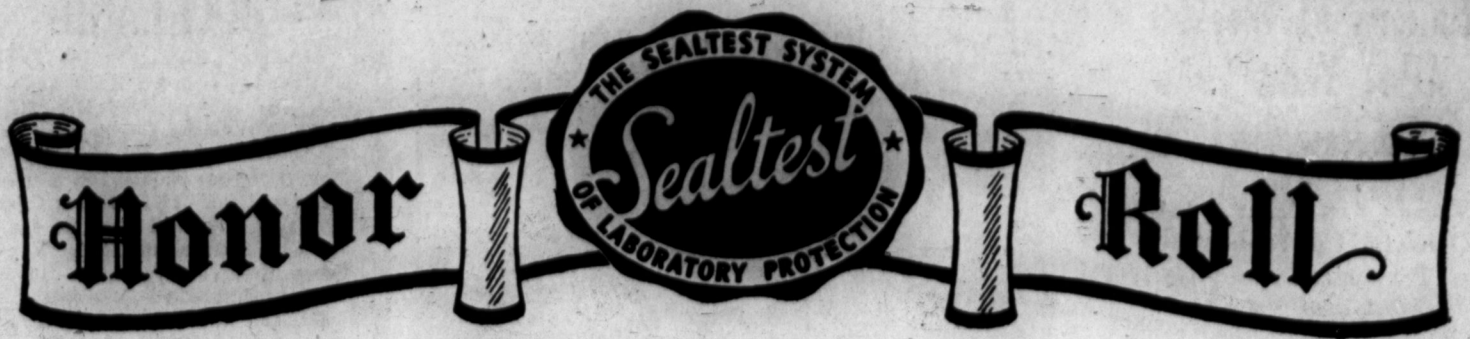

At the last meeting of the Woman's Auxiliary of Pohick Church held at the home of Mrs. H. S. Claggett at Lorton, there was a very good attendance to start the New Year's work, and all enjoyed a very pleasant afternoon. It was with regret the organization accepted the resignation of Mrs. F. A. Claggett of Alexandria as secretary, having held that office for about ten years, and submitted her resignation on account of ill health. Mrs. Leila Bell McNitt of Alexandria was elected to the position vacated by Mrs. Claggett as secretary.

The Alumni Dance at Occoquan high school on Friday, January 8, was a great success. We had some from Stafford Court House and even from Fredericksburg. We are glad to have so many interested in those dances, and we will always do everything in our power to make it pleasant for all of them. Our friends in Fairfax come strong to all our dances. Many thanks for your interest.

The Woman's Auxiliary of Buck

Keyes Post No. 28, American Legion is making arrangements to put on a spelling bee among the various schools adjacent to Quantico. Included will be Stafford school; two schools at Quantico; Dumfries school; Occoquan school, and perhaps one or more. All schools in the contest will be notified and the requirements explained to them. This is a noble work for those ladies to get interested in. It will cause the pupils to take more interest in correct spelling, and will in general make them better citizens. A prize, (CUP) will be awarded to the winner of the contest.

At a reorganization of the Vestry of Pohick Church, the following officers were elected for the year 1937: Mr. E. Russell, White, Springfield, Senior Warden; Dr. Wm. P. Caton, Accotink, Junior Warden; Mr. Herbert Haar, Lorton, Registrar, and Capt. Thos. F. Joyce, Occoquan, Treasurer. There has reported from among us one who was loved by all his neighbors and associates, Mr. Wycliff Wallis Claggett of Pohick who passed away on January 10, in Alexandria Hospital and was buried at Pohick Church yard on Tuesday, January 12. Mr. Claggett was a good neighbor, a good citizen and a good Churchman. He will be missed by the community, as well as by his wife and son and daughter to whom we extend our heartfelt sympathy. May God protect them and comfort them in this their time of bereavement.

REMARKS: IN CLOSING the record for the year 1936—the following quotation from Browning seems most appropriate—

DECEMBER 31st

"The year is closed, the record made,
The last deed done, the last word said,
The memory alone remains
Of all its joys, its griefs, its gains;
And now with purpose full and clear,
We turn to meet another year."

BROWNING

These few lines sum up the sum total of life and its achievements during the past twelve months. It has not been one continuous victory—with many it has been a struggle—but possibly we can find some consolation in the fact that we are now standing in the gateway of a New Year and we have another chance.

The record for the month of December was just a continuation of the fighting spirit which has prevailed for the past year—each month has brought a new group to the front.

Next month we will announce the winner of the Silver Loving Cup for 1936 an additional award for having held first place the greatest number of months during the year.

With greetings and Good Wishes for the New Year, I am,

Very truly yours,

Nations of World Allot Year 1939 To New York Fair

World Exposition Already
Growing Up; Seeks Active
Participation of State

NEW YORK, (Special).—The New York World's Fair, in which every state in the nation must inevitably take small or prominent part, is out of its infancy. Preparatory construction goes on night and day at the Flushing Meadow Site of 1216½ acres at the geographical center of New York City. A steady flow of activities and announcements emanates from the Fair Corporation headquarters on four floors of the Empire State building. Judging from all of these, the Fair is a lusty, growing institution that will reach full maturity—no question about it—by the scheduled opening day, April 30, 1939.

The task of grading the site is about half completed. Battalions of men with trucks have already moved over 3,000,000 cubic yards of dry fill in the process of turning the waste marsh land, of the Flushing River basin into park ground. Other battalions are scooping out "meadow mat" for use as fertile top soil for the made lands, and in so doing excavate the beds for the two large lagoons featured in plans for the Fair.

The first of the 300 structures which, according to estimates, will house the 1939 Fair, has been completed and is ready for occupancy. This is the headquarters building for the field forces of today and the employment department of the exposition period.

Scheduled for early in the new year is the start of actual construction of the \$900,000 Administration building. The designs for this structure, let under architectural contract a few weeks ago, are nearing the day of their approval in the Corporation's offices. Upon completion of this building, late in August, 1937, the Fair headquarters, baggage and sales offices, moves to the exposition site.

"The most splendid and significant edifice projected for the 1939 international exposition," the Theme building, as described at Fair headquarters, is also well along in its contractual period. The estimated cost of this great building for the "Thematic Centre" of the exposition is set at \$1,200,000. The preliminary designs are to be finished in about eight weeks and the final plans submitted within four weeks thereafter. Construction is scheduled to start immediately the designs are completed.

From this Theme centre will radiate all that is to be the 1939 Fair as conceived by its founders and rendered into concrete terminology and model by the Fair's Board of Design.

"Our job from now on is to give physical expression to the plan and theme of the Fair as announced and set down on paper in our headquarters," says Grover Whalen, President of the Fair Corporation.

"Starting next April 1, we plan to complete the design of one major building every ten days for a period of seven months. In all, we expect to design no less than 30 major buildings to house the exhibits from every part of the world. Some 300 structures, in all, are planned for the Flushing Meadow site, within a few minutes' ride from Manhattan."

Without solicitation on the part of the Fair, more than 250 American business houses and institutions have begun preliminary conversations regarding their participation and are already planning exhibits. Five of the great nations of the world have already assured the Corporation that they would erect their own buildings, while no less than 32 other nations have informally indicated their desire to participate.

And then, on top of all this display of keen interest, comes the announcement that the International Convention Bureau, meeting in Paris, has allocated the year 1939 to the New York Fair. This means that the New York Fair has exclusive ranking as the "one international exposition" of 1939, and assures it of the active support of the 21 nations signing the agreement.

President Roosevelt has just extended official invitation to the nation's and world. Governor Herbert H. Lehman, of the host State of New York, has extended invitation to the governors and residents of 47 states. Grover Whalen, likewise, has invited the governors in a letter pointing out that "the commercial consequences of the New York World's Fair are so great and important that they alone would justify the active participation of every state."

Fair Commissioners are already in South America and Europe. Still others are on their way to the Far East and other foreign shores. Major Dennis E. Nolan, retired, as head of the Department of Foreign, State and Municipal Participation, will himself make representation to the governors and legislatures of the various states.

Meanwhile, under the direction of Harvey D. Gibson, President of the Manufacturers Trust Company, and Richard Whitney, former president of the New York Stock Exchange, the prominent figures in the financial capital conducted a 28-day campaign to sell \$27,829,500 in debenture bonds of the Fair to finance the construction period.

Every confidence is being expressed that the Fair not only will "pay its way," but that it will bring a million dollars more of revenue into Greater New York and stimulate American industry in general to an extent many fold that amount. The total cost of producing New York's Fair, including collateral improvements, is set at \$125,000,000. Statisticians estimate that the attendance will total more than 50,000,000 persons.

The City of New York, the State of New York, and the Government of the United States, according to expectations, will account for \$35,000,000 of the total expenditures and thus lend an official backing never before achieved.

Crippled Youngster Learning to Dance

Last year 10-year-old Shirley Pekny, of Brooklyn, went to the Roosevelt Birthday Ball in braces which she wore on a leg semi-paralyzed as the result of infantile paralysis. This year Shirley, after an operation made possible by funds raised through the Roosevelt Birthday Celebrations for aid of infantile paralysis sufferers, is essaying her first dance steps with the assistance of Arthur Murray, noted New York ballroom dance expert. Mr. Murray has originated a new waltz, the Washington, which is being introduced at the New York celebration in honor of President Roosevelt.

CENTREVILLE

Services next Sunday at the Methodist church at the usual hour.

Miss Anne Sanford, principal of the graded school here, attended the banquet held at the Mayflower Hotel recently as the guest of Prof. Robert Benchoff, of Massanutten Academy. The meeting was under the general direction of schools under the guidance of the Evangelical Reformed church, and other meetings sponsored by the national association of colleges and churches are also being held there.

A new arrival came to Centreville on Thursday evening last in the person of Polly Ann Byrne, daughter of Mr. and Mrs. Lynwood Byrne.

Health here about is good in the main except for Mrs. Irene Woltz and baby daughter, Georgia Mary, both of whom have had very bad sore throats, and Mrs. Clayborne Wells, who has been confined to her bed with an ailment from which she seems to be much better.

Mr. Robert Hawes, sexton of the Episcopal cemetery, will shortly begin some intensive improvement of the grounds, and owners of lot not on maintenance should see him in the near future.
