The School Board met on Wednesday of last week with all members present.

## JANET OWENS HEADS CLUB

Activities Cited Since Organization in Historical Sketch.

The Manassas Junior Woman's Club met last Thursday night for its regular meeting and annual election of officers at the home of its sponsor, Mrs. J. P. Lyon, with Miss Walser Conner presiding. New officers elected were: President, Mrs. Stanley Owens; vice-president, Mrs. Stanley Owens; secretary, Mrs. Stanley Owens; treasurer, Miss Nancy Lynn.

Reports of committee chairmen were given which showed a year of unusual success for the outgoing president, Miss Walser Conner.

Report of the annual spring dance to be given April 23 in the Manassas high school gymnasium was given. Plans for the annual affair are now complete and the dance promises to be an outstanding one.

A history of the club was requested by the general federation historian and was prepared by Mrs. Frances Saunders. It follows.

"The Manassas Junior Woman's Club was organized through the efforts of the Senior Woman's Club of Manassas. Upon the suggestion of Mrs. Eli Swavely and Mrs. Harvey Kline, thirteen girls met in October 1931, and formed a Junior Woman's Club. These thirteen girls were the charter members of the Club, which became a federated club in May, 1932. The first officers were Miss Lucy Arrington, president; Miss Frances Bushong, now Mrs. Sedrick Saunders, vice-president; Miss Christine E. Meetze, secretary, and Miss Virginia Conner, now Mrs. R. Jackson Ratcliffe, treasurer.

For several years after organization, our aims were purely for holding our members together, and to make club work more interesting. We have advanced far along the line now, and have no difficulty in making the work more interesting; all members seem to be truly interested in the work of the Juniors.

Soon after organization, we de-

## In Memory of the Boys of '61

(Mrs. R. B. Gossom)

Seventy-two years have passed since on April 9th, 1865, General Lee surrendered to General Grant at Appomattox; A triumph for the Union; The sunset of the Confederacy; A cause was lost, which now is only a memory.

In memories of my childhood, I recall a shrine, I seemed to always reverence more than anything. This was a picture on our living room mantel of Col. John S. Mosby and some of his men. I worshipped it. The daring, dashing Mosby! I could gaze for hours at his Appollo-like profile, for wasn't my father a soldier in Mosby's command and wasn't he in his uniform of grey as gallant, young and handsome as any of these. What would I have given if he had been in that picture with the great Mosby instead of a little daguerreotype alone.

And hadn't he told me, he was once taken for Mosby, when with a scout-

ing party of Mosby's men, they held up a train from the North, at Harper's Ferry. As spoils of war they took the money from a pay master enroute to Washington to pay off the Union soldiers. Then some of the boys no doubt thought this was a time they had a chance to pay back the North for some of their many depredations in the South; began to break open trunks and help themselves to personal belongings. Having an inherited sense of right and justice, my father, then a youth of eighteen, implored them not to do that. Many of the passengers gathered around him, thanking Col. Mosby for being such a gentleman. I am sure we loved this better than any of the war stories he told us.

Patriotic little Southerner that I was, how my heart swelled with pride as I attended the yearly reunions, this slogan always in my mind, "These are the boys of '61." To me it was a crushing blow when (See MEMORY, page 10)

## POPPY DAY SALE WELL ORGANIZED

Schools to Assist in Projecting Work.

Miss Margaret Lynch, adjutant of American Legion, Prince William Post 158, attended the Eighth District meeting held in Alexandria April 6 at Gadsby Tavern. The main subject of the meeting was child welfare for the children of the veterans.

This subject is being discussed throughout the U. S., and everything to benefit the children is to be done. As the Legion funds for child welfare in the State of Virginia is so limited, it was decided to share the Poppy sale funds with the children and instead of that money to be used for the two former causes, namely sick veterans in hospital and the needy ones at home through their own Post, an additional share is to be given to the schools for the health fund.

At the meeting Tuesday of this week this thought was brought before the members of Prince William Post 158 and it was approved to have this year Poppy sale conducted through the efforts of Mr. Worth Peters, principal of Manassas schools and the children, whereby the three worthy causes may share the benefits that were ordained at the Eighth District meeting in Alexandria.

GOES INTO REALTY FIELD

Roger W. Cross, who has been associated in the drug business with Dr. George B. Cocke until very recently, this week makes a formal announcement of his new business venture.

Mr. Cross has extensive plans which provide for unusual community development if he can carry them to a successful conclusion. His life long association in this area gives him unusual aptitude in his new venture. He has good sales ability and should be able to make his plans of practical value.

A CORRECTION

In giving the account of the Spelling Bee last week the winner, Mrs. J. S. Burks was sponsored by the Bethlehem Club instead of the Homemakers Club.

## CLUB WORK IS REPORTED ON

Woman's Club also Hears Interesting Literature Discussion.

The April meeting of the Woman's Club of Manassas was held in the dining room of the Prince William Hotel on Wednesday of this week, and was one of the most enthusiastic and interesting meetings of the year.

This being the annual meeting, reports of the activities and accomplishments of the various committees were given by the respective chairmen. These reports were most enlightening and covered a wide range of club work.

Outstanding speakers have been obtained for the regular monthly meetings. A study of current music, reviews of books and current event discussions was featured by the Music Literature Section. The membership committee added a number of new members to the roll and reported a number of prospective members. Home beautification and community planning were the outstanding achievements in the section devoted to gardening. Civic work, public welfare and education committees also have been active. A number of books, both for the use of the public and the students of the high school, have been added to the library. A substantial fund for the use of the county nurse was also made available, and the report of the way in which this fund had been used was most enlightening.

It was interesting to note that most of this fund was spent for corrections of defects to help make the recipients more able to support them. (See WORK, page 10)

## STUDENT ELECTION WINNER TO BE ANNOUNCED AT DANCE

The radio dance tomorrow evening promises to be one of the most interesting of the season. At ninety-three the election returns will be announced for the presidency for Student Council Association.

The candidates, Misses Thelma Ward and Shirley Hynson, have been working hard during the past week together with their campaign managers, Mr. Billy Jamison and Miss Althea Hooft. These students deserve much credit for the efficient way in which this school campaign has been carried on and for their outstanding sportsmanship.

The dance tomorrow night is the beginning of a series of radio dances which are being held for the benefit of the school.

Everyone is cordially invited to attend.

## BILLY KEEPS UP WITH HIS CLASS

During the filming of Universal's "The Cowboy and the Kid," which opens at the Pitts' theatre Saturday, April 17, Billy Burrud could not go to school, so he had the school brought to him. Between scenes in which he appeared with Buck Jones, Billy's teacher went over his daily lessons with him, so that the eleven year old actor could keep up with his 6A class.

California law requires all children under 18 to attend school and makes provisions for movie children to be instructed at the studios. Juvenile actors must attain passing grades and keep abreast of their classes. Otherwise the State revokes their acting permits.

While puzzling over a tough arithmetic problem, Billy turned and said to Buck, who had completed his scene, "They ought to make the star take this arithmetic class, too. It isn't fair to saddle all the hard work on the youngest fellow in the cast."

## THE WORLD AROUND US

By  
O. J. Schuster

TWO BILLION HUMAN BEINGS live on this planet. These two thousand million men, women and children who constitute the world's population are just beginning to be conscious of each other. The radio carries the human voice and its messages into the jungles of Africa, to the natives of the thousands of islands scattered over the oceans, and even to the ice-capped polar regions. Most of these 2,000,000,000 human beings have heard the whirr of the airplane propeller and have seen strange men soaring overhead and then alighting as birds do. It is no longer possible for any people to remain indifferent to the human family as a whole.

NEVERTHELESS THERE ARE MILLIONS of men and women in our own country, which is considered one of the more civilized nations, whose interest in the race as a whole is very slight. They are more interested in bridge and movies than in social evolution. The great human drama that is played realistically on the stage of the world interests them far less than do the phantom shadows of movie stars. The childish pictures that fit across the screen make fleeting impressions on passive minds. Effort is unnecessary to reflect the love and the hate, the jokes and the jibes, of the fairy folk of the cinema. But it does take effort to observe and comprehend the star performers on the stage of the world. These star actors are not shadows on a screen to be seen by great crowds comfortably seated in warm and attractive surroundings. They are dynamic men and women who love, hate, fight, struggle in desperate earnestness for the ideals that are good, bad, or indifferent.

ON THIS WORLD'S STAGE are thousands of actors representing earnestly for friendly cooperation, some sixty nations. Some struggle while others in thundering tones personify competition and its ruthless doctrine, "let the devil take the hindmost." Which one of these sixty nations, which people, which one of the three races—white, yellow, and black—will hold the center of the world stage when the final curtain falls, or perhaps even when the last scene of the present act closes? Scientists tell us that the brain capacity, the innate intellectual capacity, of the three races is the same, that the white man can boast no superiority in this regard. The people of China alone constitute one-fourth of the world's population, and the yellow race numbers more than one-half of the total.

THE BROTHERHOOD OF MAN, the dream of great poets and of all

deep thinkers, may be the heart of the plot of the world drama now performing. Will the actor who emerges as hero represent good-will and cooperation, or will the prize be awarded the champion of ruthless competition and force? The answer largely depends on how many of the people of the world will forsake bridge for children; give up silly cinemas to observe and study the great, realistic world performance; exchange soft ease for vigorous effort. We still share the faith of Bobby Burns: "Then let us pray that come it may; as come it will, for a' that; That man to man, the world o'er Shall brothers be fo' a' that."

Won by Pontiac's beauty and size, this motorist looked up the price and discovered this amazing fact: "based on 18 months terms in 168 representative cities, the average difference in monthly payments between a Pontiac DeLuxe six 2-door sedan and the same model of the next lower-priced cars is only 15 cents a day. As you might expect, no time was lost in buying the finest low-priced car. And ownership brought another great discovery! Pontiac is far and away the most economical

## CATHARPIN

Mr. and Mrs. Hamilton Latham, of Snow Hill, are in Birmingham, Ala., for a fortnite's sojourn among relatives in that city. The trip is being made by motor with their aunt and uncle, Mr. and Mrs. N. C. Waller, of Staunton, Va., who are the chaperones of the occasion. Returning, they will spend a few days in Old Kentucky—the State of blue grass and fine horses.

The Catharpin Good Housekeeping Club held its regular monthly meeting at Lone Oak with Dr. and Mrs. Brower as hostess of the occasion. As it has frequently happened in the past, the meeting was accompanied by a refreshing spring shower. Formerly, these showers were the chief worry of its traveling members due to bad roads, etc. But not now; the roads are hard surfaced in this particular community and travel a delight as compared with some 25 years ago. As unusual delicious refreshments were served and an afternoon of pleasure was the experience of all. Visiting guests of the occasion were Mrs. May Dogan, Mrs. Annie Gardner, Mrs. C. C. Lynn and daughter, Nancy, of Paradise; Mrs. Lizzie Larkin and Mrs. Marie Larkin, of Manassas, and Mrs. Roberta Lynn, of Raleigh, N. C.

**DIED:** On April 2, 1937, Miss Mary Ellen Kidwell at her home in Washington, D. C., interment later in the cemetery at Fairfax Court House. To many of the present generation, the deceased is unknown, but there are a number of former pupils who remember her as their teacher in the Catharpin school where she taught for a number of years during the late seventies and eighties. Among them Mrs. Etta P. Lynn, Mrs. I. I. Anderson and Walter Downs. Among her relatives in this neighborhood are Mr. J. E. Kidwell and the B. F. Matthews family, of near Stone House.

Hampton, second son of Mr. and Mrs. J. W. Alvey, is confined to his home just now suffering from a slight bilious attack. A short time ago this young man was kept from school pending a quarantine regulation which was the first time he had missed a day in over three years.

These are rather anxious times for parents since a child coming home sick every one on the bus knows it and naturally the whole community is on "edge" until the cause is known.

Mr. Frank W. Brower, of Price, Md., is spending this week with his parents, Dr. and Mrs. C. F. Brower, of Lone Oak from whence he and other members of the family will attend the Middleburg races on Wednesday.

After a few days reminder that winter had not entirely disappeared from the land, farmers are busy finishing their plowing and setting things in order for a hoped for bumper corn crop. As he scans the market quotations of the cereals he produces, his heart beats high with hope that when he has some of them to sell, prices may still maintain their altitudinarian tendencies. Just now when the farmer seems to have an opportunity of getting something worth while for his labors, high prices of all he has to buy are out ahead ready to absorb it all.

The Annual District Conference of the Washington District M. E. church, South, met in Mt. Ranier, Md., on Tuesday and Wednesday of last week at which three of Sudley's four elected delegates were present. This conference being a part of the Annual body is of much importance to the work of the church, taking up as it does, many things close to the people which the larger body could not reach. One of the topics for discussion and which is coming more and more to the front as time goes by, was Temperance. This always has its "inning" but this year seemed greater, wider and deeper than we have known it since pre-prohibition days. In the interest of this cause, Dr. Abernathy of the Calvary Baptist Church in Washington, D. C., addressed the Conference at the 11 o'clock hour on Wednesday, presenting the subject in a way never to be forgotten. Dr. Abernathy is one of the most out-standing influences of the day in religion and all that pertains to right living and the innate good of mankind. To hear him is but to realize what a poor, little speck of humanity so many of us permit ourselves to be when there is so much to be done and we doing

## FOOD MARKET

## Advice-

**L**ATE winter and early spring is definitely EGG time for it is the season of abundance and relatively low prices. Many dishes not served often at other times appear frequently, such as omelets, souffles, sponge and angel cakes.

Unusually large catches of FISH are being reported, especially cod and haddock, but flounders, bluefish, Spanish mackerel, porgies, sea trout, sea bass and shad are also much more plentiful. A fairly good load of Boston mackerel, that spring and summer standby and delicacy, was landed this week nearly a month earlier than usual.

## Lower Vegetable Prices Expected

Increasing supplies and lower prices of ASPARAGUS, BEANS and PEAS are expected in the next few weeks. BROCCOLI and CAULIFLOWER are moderate in price. The vegetables which have been plentiful and reasonable are expected to continue so particularly BEETS, CABBAGE, CARROTS, ONIONS, SPINACH and TURNIPS.

Old POTATOES are reasonable and they are particularly good for baking, mashing and French frying. New potatoes are better adapted to boiling and serving with butter or cream sauce and parsley.

## Grapefruit Cheap, Strawberries More Plentiful

GRAPEFRUIT continues to be the best value in the fruit market and can be called cheap. STRAWBERRIES which had become relatively scarce are again more plentiful as carloads are now being shipped from Louisiana. ORANGES and APPLES are moderately priced and sufficient supplies are available to meet all demands. BANANA quality is especially good at this season.

Meats and Poultry Generally Higher. Increases in the wholesale price of LAMB, BEEF and PORK loins and advances in many POULTRY items have been noted. Special values are of course available particularly in fowl and fresh HAMs. Ordinarily good values may be had in broiling, frying and roasting chickens and in fore-quarter cuts of VEAL. All veal is reasonable and the quality unusually good.

BUTTER prices are higher. Here is a menu\* planned around foods which are readily available and moderate in price.

Veal Chop or Cutlet with Sautéed Pineapple  
Baked Potatoes Spinach with Onions  
Bread and Butter  
Chocolate Souffle Hard Sauce  
Coffee

\*This menu tested and tasted in A&P Kitchen.

so little. As we have said before, its time now for people to begin to think.

## THE WAGNER ACT RULING

The Supreme Court this week finds the Wagner National Labor Relations Act constitutional. This law is widely regarded as one of the most radical of the New Deal proposals. As the Court had previously rejected the less revolutionary Guffey Coal Act, the present ruling comes as a complete surprise to the general public and possibly to the Administration.

In the general speculation of the effect of this ruling upon the President's proposal to enlarge the Court and its bearing upon Henry Ford's announcement that he will never recognize a union, the provisions of the law itself have scarcely been reviewed in early comment throughout the nation.

The new law makes it obligatory upon employers engaged in interstate business to recognize whatever union represents the majority of its workers and sets up a federal agency to enforce the principle of collective bargaining.

If labor rises to its opportunities under the new law there should now be a general discontinuance of sit-down strikes and an insistence that the government now proceed to enforce its law. If the government does a good job along this line, much progress should ensue, but if the government should be unfair or inefficient, and if there should now follow a bitter warfare between unions for the necessary majority control, employing unreasonable tactics, a long period of industrial unrest may result, with final outcome difficult to predict. In one direction could lie revolution, and in the other, public disgust and repeal of the Wagner Law.

## GARDEN BOOK EXHIBIT

The Ruffner-Carnegie Library has an exhibit of Garden Books this week and next, in the window of the C. R. C. Johnson drug store and a most interesting exhibit it is; for who does not find gardens interesting when spring comes on? Among the books finely illustrated in colors are Wright's "Practical Book of Outdoor Flowers" and Blanchard's "Nature Gardens" and "Wild Flowers Worth Knowing". A number of the National Garden Association publications are also in the list, among them McFarland's "Roses and How to Grow Them" and "Lawn Making" and Kruhn's "Vegetable Garden". Another interesting group includes Rockwell's "Rock Gardens", Ortjiff's "Perennial Gardens" and Wilder's "Adventures in a Suburban Garden".

## Neighbors through changing years

THERE is a human relationship between local business men and the officers of this Bank. They are neighbors—with a mutual interchange of confidence and understanding—and with a common interest in community enterprises.

They work together toward the advancement of business and the community as a whole. This neighborly relationship fosters better business and better banking... a helpful factor in the extension of sound credit.

A booklet on "Ye Olde Sundials" and their mottoes completes the list. "My hours are made of sun and shade."

## FIRE TOTALLY DESTROYS HANDSOME OLD HOME

"Paradise", one of the oldest homesteads in Northern Virginia, burned early Tuesday morning. The building was 120 years old having been built by William Montgomery Lewis in 1817. At that time Paradise farm included many hundreds of acres of land and timber and the building itself was built from materials on the farm.

This old family estate had been in the Lewis family for seven generations. Since the foundation of Paradise home it had been it had been owned by five direct generations and at the time it burned belonged to Mrs. May Logan and her daughter, Mrs. C. C. Lynn.

"Paradise" was located on the outskirts of the battlefield some distance from the Stone House road. The Manassas Volunteer Fire Department were quickly on the job to save this old landmark but due to distance and other difficulties was unable to save but a few household articles. The exact origin of the fire has not yet been determined.

## CROWN PRINCE WANTS TO ACT

For the first time in Hollywood's history a Crown Prince has signified his intentions of becoming an actor.

His Royal Highness, Crown Prince Modupe, heir apparent to the throne of Nigeria, intends to try out for the role of the Jungle Lord in the Metro-Goldwyn-Mayer Cinema Club's 16-mm, five-reel film, "Why Leave Home," which is to be directed by Steve McDonald, studio florist.

"I do not want the role given to me because of whom I am," said Prince Modupe. "I prefer being tested for the part along with others. In the event that I am not chosen I shall be only too happy to offer whatever assistance I may be able to give."

His Royal Highness was signed by M-G-M as technical adviser for "Tarzan Escapes," because of his first-hand knowledge of African details. The picture is playing at the Pitts Theatre for two day engagement beginning Monday and Tuesday, April 19 and 20, starring Johnny Weissmuller and Maureen O'Sullivan.

## NOTICE TO THE PUBLIC

Having dissolved partnership on February 15, 1937, I desire to make it known that after the said date I will not be responsible for any debts made in the name of Cocke Pharmacy.

## COUNTY AGENTS COLUMN

by Frank D. Cox  
BETTER PASTURES

Until a comparatively few years ago pasture was taken for granted. Rarely did it get any attention. With that growing need to produce meat and milk as cheaply as possible, farmers have come to realize that pasture is one of the most important crops and that it is deserving of better attention.

When improving pastures, both an increased growth of better grasses and a longer grazing season are sought. Fortunately, these goals may be inexpensively attained as pasture soils respond to fertilizing and liming in a remarkable manner.

When a pasture is fertilized and limed, three things may be expected to happen.

1. The more desirable grasses and clover come in (either voluntarily or from sown seed) and crowd out weeds and undesirable grasses. The result is higher quality, better gains or more milk.

2. Pasture growth starts earlier in the spring, holds up better during the hot, dry summer months, and continues later in the fall, thereby lengthening the grazing season at both ends and in the middle.

3. The quantity of grass that grows on each acre is usually doubled and often trebled. This permits the same number of animals to get more feed or more animals to graze on the same land. The need for supplementary feed is thereby greatly reduced.

## ORDER STATE GROUND LIMESTONE EARLY

Orders for State ground limestone, even when not wanted until late summer or fall, should be placed with the State Department of Agriculture now, dating check at approximate time at which delivery is desired. The demand at this time is exceeding production at the Staunton plant. Many were unable to get delivery last fall in time to apply before the close of the Soil Conservation Program year (October 31) because of not placing their orders far enough in advance.

## IN MEMORIAM

In sad but loving remembrance of my dear mother, Mrs. Susie Graham Powell, who entered into eternal rest six years ago today, April 20, 1931. What is home without a mother?

All things this world may send,  
But when we lost our dear mother,  
We lost our dearest friend.  
The hands that did so much for me,  
How helplessly they lay;  
God knows they worked continuously,  
But they are gone today.  
Softly at night the stars are shining,  
On her sad and lonely grave.  
Where lies my dear mother,  
Whom I loved and could not save.  
She has gone where the soul has rest  
And the cares of life are done,  
Where the ones that loved her best  
Will meet her one by one.

—Her devoted daughter,

6 SOLID MILES OF WESTINGHOUSE REFRIGERATORS

U. S. PUBLIC WORKS ADMINISTRATION

awards Westinghouse largest single refrigerator order in history!

The U. S. Public Works Administration Housing Division is buying 16,697 Westinghouse Refrigerators for its slum-clearance, low-rent housing projects. Side by side, one against the other, they would make a line of refrigerators six miles long! Lowest operating costs enabled Westinghouse to win this order. Other makes quoted low prices—but the decision was based on price PLUS operating cost for ten years—and Westinghouse won.

Let us show you the money-saving advantages of the new Westinghouse Kitchen-Proved Refrigerator. Be sure to investigate its famous Economizer Unit, Super-sealed Insulation, fast-freezing Sanalloy Froster, Built-in Watchman protection, and other features. If Westinghouse can save money for the United States Government, it can save money for you.

**THE BISHOPS CRUSADE**

In commemoration of the organization and sending out of the first missionaries by the M. E. Church, South, in 1847 and 48, there is going on now, a church wide movement, known as the Bishops Crusade. Great mass gatherings have been held since January across the entire church, beginning in Washington as the first stage of the celebration.

On Friday evening, April 3, every congregation will assemble in their respective church houses and hold a great fellowship and social and inspirational meeting. More than 20,000 of the gatherings will be held simultaneously from Maryland to California and Oregon to the Gulf of Mexico, and throughout the fifteen mission fields of the Orient, South America, Mexico, Europe and Africa.

The purpose of the first portion of this crusade is to reawaken an interest in and a conscious about missions, both home and abroad. The Manassas Charge, consisting of Burke and Grace congregations are making great preparations for the occasion.

Joint programs will be put on at each church. Thursday evening, April 22 at Burke, and Friday evening, April 23, at Grace Church.

Every member and friend of the church is cordially solicited to be present. Refreshments will be served without money and without price. Watch for the program in next week's Journal.

**CHRISTIAN SCIENCE**

"Are Sin, Disease, and Death Real?" was the subject of the Lesson-Sermon in all churches and societies of Christ, Scientist, on Sunday, April 11.

The Golden Text was "The Lord hath redeemed Jacob, and ransomed him from the hand of him that was stronger than he" (Jer. 31:11).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "Bless the Lord O my soul, and forget not all his benefits: Who forgiveth all thine iniquities; who healeth all thy diseases; Who redeemeth thy life from destruction; Who crowneth thee with loving kindness and tender mercies" (Palm 103:2-4).

The Lesson-Sermon also included the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "There is but one primal cause. Therefore there can be no effect from any other cause, and there can be no reality in aught which does not proceed from this great and only cause. Sin, sickness, disease, and death belong not to the Science of being. They are the errors, which presuppose the absence of Truth, Life, or Love" (p. 207).

## QUIET TALKS ON RELIGION

By  
Dr. James T. Marshall

### EVENING LIGHT

"At evening time it shall be light." (Zechariah 14: 7) Zechariah was an optimist. He lived in a dark period of Israel's history, but he heartened the people by assuring them that the day of their deliverance was drawing nigh. He predicted a day when the Lord would descend and put to an end the struggle between the forces of light and darkness. Of that day he said, "The light shall not be clear nor dark; not day nor night; but it shall come to pass that at evening time it shall be light."

The picture in the prophet's mind is one with which we are familiar in nature. You will recall many mornings when you awoke to find the sky dark and threatening and anticipated a stormy day. Presently the cloud lightened and the sun broke through, but only for a moment, and the whole day was marked by an alternating ascendancy of light and evening the clouds vanished entirely and the sun shone out in the fullness of its glory and then set amid tints of crimson and gold.

Zechariah's message was never more needed than it is today for we are surely living in trying times. The daily news brings us an endless repetition of stories of human degradation in the form of holdups, kidnapping, divorce scandals, drunkenness, murder and suicide. International news is clouded with wars and rumors of wars, particularly with the long and wearying tale of the mass murder going on in Spain, where churches, hospitals and art and art treasures of the ages are being ruthlessly destroyed and thousands of helpless and innocent women and children are being blown to atoms by bombs which have been supplied by "Christian" nations.

It is little wonder that many persons regard the situation with utter despair, and that a distinguished writer says, "I regard the elevation of humanity as hopeless; the most we can expect is that men will move from one sty to another."

But Christian faith forbids our taking such a view of the outcome. Darkness may be in the ascendancy for the moment, but the sun has not gone out of business and we may wait confidently for the evening light.

Our Lord was an incurable optimist. Only a few hours before His crucifixion He said to His disciples, "Be of good cheer; I have overcome the world." He came in an age when humanity was at its worst.

On that hard Roman world disgust and secret loathing fell; Deep weariness and sated lust Made human life a hell.

Yet He emerged from the carpenter shop of Nazareth and challenged this hard world to abandon its iniquity and bestiality and begin to live like sons of God and citizens of heaven. History has justified His daring. The palace of the Herods and the Caesars have fallen into ruin and their kingdoms have vanished, while the despised son of the carpenter is the central figure of all history, and is accepted by religious leaders in every clime as the only one who can lead us out of our darkness into light, out of bondage into the glorious liberty of the sons of God.

We need not despair if we will cooperate with Jesus and adopt His

# MANASSAS PUPILS SELECTED TO COMPETE FOR SCHOLARSHIPS

In the list of the semi-final scholarship awards announced on April seventeenth, Manassas High School has two contestants. Elizabeth Lloyd will get a trip to Randolph-Macon Woman's College on May first and Marshall Johnson to Washington and Lee University on May eighth. There they will take tests covering scholastic aptitude and high school preparations. The final prizes are college scholarships.

Prince William County has five contestants who compete in the campus finals. In addition to the two seniors from Manassas, Letha Foster and Frances Owens, of Brentsville District High School will go to Randolph-Macon and North Carolina Woman's College at Greensboro respectively; and Pete Katsarelis, of Occoquan is awarded a trip to the University of Virginia.

The Civics class of Manassas High School entertained the contest last fall. Each week a quiz was given.

On March, 22nd a test, sent out, was given to all the class. This test was on news items that had appeared in the papers since the contests began. Then the winners in this test were allowed to choose from the eight scholarships offered, the school which they wished to attend and were required to write original essays on six topics. The semi-final awards were made on the basis of scholastic averages, as reported by the principals of the schools, and on the originality, sincerity, clarity and accuracy of the papers written.

The contest was open to all high school seniors of Washington and near by Maryland and Virginia and all feel that Prince William has a right to feel proud of the showing that these young people have made.

## ART EXHIBIT AT KINGSWOOD SCHOOL

This week the art class of the school has had on exhibition samples of wood done since Xmas. Considering the materials available it is certainly creditable from the cut out paper work of the primary grade to pencil and charcoal sketches by more advanced pupils. Also articles done in applied art.

The teacher, Miss Lida Anderson, of Danville, Ky., deserves the high est praise.

## Instant Cube Release Feature of New Refrigerator

Gone are the days when tugging, chopping, twisting gymnastics are necessary to obtain ice cubes from an automatic refrigerator. Shown above is the sensationally new and efficient instant cube release featured exclusively in the 1937 Frigidaire. Developed in the research laboratories of the Frigidaire division of General Motors, the new type ice

tray makes available instantly and with no effort on the part of the user from two to a dozen or more cubes, doing away with the necessity for holding trays under the water faucet and losing up to twenty percent of the ice content in meltage. One grasps the tray firmly with one hand, lifts the lever with a finger of the other, and there are the cubes ready for use without fuss or muss.

cided to have an annual fall play and an annual spring dance. Shortly afterwards, a fall dance was added to the list of our functions and then several years ago a Progressive Dinner for members and friends of the club was started at Christmas time. These functions are looked forward to by the members and the programs will furnish a well-rounded season of activities.

Most of our energies and money have been spent for charities, and our main objective for many years has been that of "Junior Aid by Juniors Made," the motto of our club. We have worked in close touch with our County Red Cross Nurse, who has advised us and has helped to direct our charities in good and beneficial channels. Glasses for indigent children, clothes, food, are constantly being furnished by the club. Hospital fees are paid and a family of five was supported for one winter. Milk was delivered to several families another winter, and in countless small ways we feel that we have helped the needy.

A Girl Scout Troop was organized through the efforts of the Junior Woman's Club several years ago. We have felt that the sponsorship of this project was more than worthwhile, but since the captain of the troop (one of our members) moved from the vicinity, the Troop was temporarily disbanded in the last year. The project of re-organization faces us for another year, and we hope to do all in our power to put the Girl Scouts back on their feet during our next club year.

We have been most fortunate in having such a loving and understanding sponsor, Mrs. J. P. Lyon, for a number of years. She has been affectionately termed "Our Guardian Angel," by our out-going president. In her home we have our meetings, and we are made to feel that it is truly our own home.

Our finances are now in splendid condition, our membership is more active and interested than ever possible. Our meetings are well attended, and our new officers are capable, and willing to work hard and bend every effort for the good of the club. Mrs. Janet T. Owens is the in-coming president, Mrs. Elizabeth Davies, vice-president; Miss Nancy Lynn, treasurer, and Mrs. J. Carl Kinche-loe, secretary.

### Memory

(Continued from page 1)

I read an article quoting Col. Mosby as saying that he would attend no more reunions, as there were too many fakes there, men pretending to have been his followers. Such an attitude to me meant the same, as people saying they would not go to church because of so many hypocrites in it. My idol had fallen, yet I remember no condemnation from his men. Each year they continued the reunions. Each year their ranks became thinner, their hair streaked with silver, and shoulders beginning to stoop. Each year to me these meetings became sadder and sadder, striving always to suppress the tears, as I watched their faltering steps, and uniforms of grey sagging on their wasted forms, and wishing I could be as jovial as they. Always I could see, as through a mist, the boys of '61.

Seventy-two years. Most all have answered the last roll call. In our hearts while life shall last, they shall be enshrined; as we older grow, one of our greatest joys is to honor and perpetuate their memory; to pass on to our children the task of keeping their graves forever green. With understanding hearts we feel more kindly toward their foes. Gone is all hatred and malice—Yes, "Gone with the Wind."

### WANTS TAXES REPEALED

Mr. E. G. Parrish, of the county petroleum industry committee, this week issued a statement indorsing the action of the American Automobile Association in demanding immediate repeal of federal automobile taxes.

"President Henry voices the sentiments of every motorist taxpayer when he demands the immediate repeal of these federal levies, among them the duplicating federal gasoline tax which in 1936 cost the tax-state gasoline taxes estimated to have cost close to \$685,000,000" said Mr. Parrish.

"Although already they are bearing more than one-half the tax burden of the states, motorists last year were forced to pay 72 cents of every dollar collected by the federal government in manufacturer's excise taxes. These levies increased the annual tax bill of average motorist by \$12 and took out of every state millions of dollars that better could have been spent right at home."

## Work

selves. Ninety-five dollars was spent in this work.

The report given for the Junior Woman's Club by Mrs. Jackson Ratcliffe was also usually interesting and showed an active year's work by that group.

The special feature of the meeting yesterday was a program sponsored by the Literature Section. Mrs. C. R. C. Johnson of Manassas was the guest speaker. She gave a most interesting talk on many things. She read some poems by Virginia authors, gave an interesting resume of an article by Alexander Wolcott, urging the reading public not to neglect the reading of some of the old writers in favor of much of the modern lit-

erature with which the book world is being flooded these days. Mrs. Johnson also urged the women to take advantage of some of the fine art exhibits and other valuable exhibits which are available in Washington. Everyone enjoyed this most delightful talk very much.

Election of officers for the coming year were as follows: President, Mrs. W. L. Lloyd; vice-president, Mrs. C. C. Lynn; second vice-president, Mrs. R. B. Bisson; secretary, Mrs. C. Wade-Dalton; treasurer, Mrs. John Barrett; corresponding secretary, Mrs. R. C. Haydon; delegates to the State convention, Mrs. W. L. Lloyd, and alternate, Mrs. C. C. Lynn.

A very pleasant social hour was enjoyed with the hospitality committee under the direction of Mrs. Eula Holt Merchant, assisted by Mrs. George McDonald, Mrs. A. A. Maloney, Mrs. A. L. Mylander and Miss Sabina Neel.
