# CHEST CLINIC RESULTS

At the chest clinic held at Court House on Monday, Juy 19 twenty patients were examined by the State specialist. The reports of the examinations have been sent to the referring physicians and all positive and suspicious casts advised to consult their family physicians for advice and treatment. Some of them will doubtless go to the State sanatoria, but most of them must remain at home. Doctors report that it is easier to get well at a sanatorium because people at home do as they please and not as the doctor advises. The advice of the family doctor if followed out in the home is just as effective as the advice of a doctor at a hospital. People with tuberculosis should realize this when they must remain at home with the disease, act sensibly and obey the doctor. Medicine is not needed. Plenty of rest, cure if they begin soon enough.

At the Battle Park yesterday Mrs. Clay of the Stone-wall Chapter pointed to the work of the U.D.C. in restoring Stratford and asked that the Battle Park Restoration be turned over to the Southern Memorial Association. It would seem to us that the suggestion of Mrs. Clay should be earnestly considered.
