MOON LECTURE HEARD BY KIWANIS

The Kiwanians had a journey to the moon on Friday evening, via the picture lane as shown by Mr. W. H. Lamb. Explaining the different scenes in brief as he went along, many questions were raised concerning the neighboring orb.

Prior to the talk, the Misses Miller and Perkins, local teachers, gave the Club some mighty sweet music, with Mrs. Beatrice Leachman, accompanist. The sad part of the evening was the resignation of Will Leachman, a chapter member of the Club and one of its most faithful backers.

The budget is yet in abeyance and more discussion may be expected in the near future.

W. C. T. U. OPPOSES SCHOOL BOOK

Text Tolerating Moderate Use Of Liquor Is Condemned

A large number of members and guests attended the January meeting of the Woman's Christian Temperance Union at the home of Mrs. J. J. Conner.

Several important matters came up for consideration, one of which is of vital importance and calls for immediate action namely the book known as the Haag-Waddell Report. There have been several articles about this book styled "Alcohol in Moderation and Excess" printed in the "Washington Star". Mrs. Martha N. Brookings of Alexandria Legislative Representatives of Virginia W. C. T. U. saw the typed manuscript before its transmission to the General Assembly as Senate Document No. 4 and made these quotations. The original resolutions passed in 1936 called for a report to be used by the State Board of Education—"as a basis for material to be taught in the public schools".

"Dr. Hall in a letter to Gov. Perry reported the action of the State Board of Education December 8th, 1937. He wrote that the book, known as the Haag-

Waddell Report was referred to the General Assembly for ultimate action. If the material should be approved by the General Assembly and its publication ordered, the State Board recommended that at least 10,000 copies of the report be printed as a bulletin and be distributed throughout the schools and libraries of the State under the direction of the Superintendent of Public Instruction."

The proposed book on page 7-9 tells the number of brands of distilled liquors and wines listed by the Government stores. Pages 10-11 are devoted to the advantages of beer. It says "But altogether beer is the safest of the alcohol beverages since it is little apt to produce drunkenness and give rise to the alcohol habit." The summary states (page 11) "Alcohol produces a feeling of euphoria."

Fairfax Harrison, a former president of the Southern Railway, died Wednesday in a Baltimore hospital at the age of 69.

He retired last October from active business and was not only prominent as a railway executive, but was a noted historian. His two-volume work, "Landmarks of Prince William" constitutes one of the most valuable researches ever made on the history of northern Virginia.

Mr. Harrison, born in New York, was graduated from Yale and Columbia Universities and began in the practice of law in 1892. After four years, he entered the service of the railroad as solicitor. He was vice-president from 1906 to 1910, and became president in 1913.

His home was at Belvoir, Fauquier County, Virginia.

APPOINTMENTS BY GOV. PRICE

Treasurer, and Comptroller Are Announced

Governor Price this week announced the appointment of Edwin B. Jones, of Highland County, as State Treasurer, to succeed A. B. Gaithright and of Col. LaRoy Hodges as State Comptroller, to succeed E. R. Combs.

The new appointments are said to have come as a surprise to both gentlemen who have held these respective offices. Mr. Jones has been a prominent member of the General Assembly for a number of years, and Mr. Hodges has been directing the Federal Old Age Bureau in Washington.

The only other important appointment so far made by Governor Price is that of Secretary of the Commonwealth to succeed Col. Peter Saunders. Some time ago he was replaced by Raymond L. Jackson.

According to a widely circulated report which has not been verified by any direct intimation from the Governor, two more replacements are imminent, but nothing definite on these appointments has yet become available.

RETURNS HERE AFTER FORD SALES COURSE

Mr. Walter M. Snyder, sales training representative of the Alexandria Va. Branch of Ford Motor Company, has returned home after having completed an intensive course in new and used car merchandising programs at the company's offices in Dearborn, Michigan. Representatives of all the 36 Ford Branches in the United States also attended the conference.

Most of the time was devoted to merchandising of new and used cars, with particular emphasis on the sales of used cars. Aside from these merchandising meetings, the branch men had the opportunity of participating in discussions with company engineers pertaining to modern methods of car design and quality manufacture.

Inspection tours of the Ford Rouge Plant, where Ford V8 cars and trucks are manufactured, and the Lincoln Motor Company factory, where Lincoln-Zephyr cars are built, were arranged to permit the branch representatives to observe factory methods.

Mr. Snyder will open a series of sales training schools that ultimately will reach all new and used car salesmen employed by Ford dealers in the Alexandria Va. Branch.

His many friends here wish him the best of luck.

T. B. SEAL SALE IS INSUFFICIENT

Appeal Issued To Complete Offerings

The Prince William County Tuberculosis Association held a meeting in the office of the County Nurse on January 28th at 2 p.m.

Our total Seal Sale to date is \$690.38.

The amount received from each District for bangles and seals are as follows, the first item being bangles, and second, seals:

Brentsville, \$3.28, \$39.00; Coles, \$5.33; Dumfries, \$5.58, \$326.88; Gainesville, \$2.51, \$56.96; Manassas, \$8.74, \$159.72; Occoquan, \$4.57, \$35.55; Colored Organization, \$7.26, (Manassas District) \$25.00.

We have not reached our quota and our organization is very much in need of more funds to carry on our program of work of those who have tuberculosis and our program of prevention. The money you give buys cod liver oil, milk, helps to provide hot lunches in the schools, supplies clothing for patients to go to the sanatorium pays the board of patients in the sanatorium and helps in many other ways.

About eighty per cent of the money you contribute remains in the county. If you received a sheet of the seals and forgot to make your contribution it is not too late to make it now. If you were overlooked, please make it anyway. We can function only in so far as you support us and we feel everyone will want to share in this good work.

SCHOOL BUDGET READY FOR BOARD

Supervisors and Principals To Be Elected In March

The County School Board held its regular monthly meeting yesterday, with all members present.

The most important piece of business transacted was the adoption of a tentative school budget to be presented before the Board of Supervisors at its regular meeting next Thursday.

As is customary, the Board will elect all supervisors and principals at its March meeting, which will be on March 2.

Two committees from the colored schools of the county appeared before the Board, one committee from the southern end of the county representing the following schools: Quantico, Pimmett, Hickory Ridge and Cabin Branch. Their objective was to promote any plan of consolidation possible.

The other group from the northern end of the county represented Manassas, McCrae, Thornton and Antioch. Their direct request was transportation to the Regional High School at Manassas.

The Board appointed Mrs. McInter and Messrs. Barnes and Lynn to study the first situation while the latter request will be considered by a committee composed of Mrs. Piercy and Messrs. Haydon and Arrington.

The balance of the day was spent in transacting routine business, such as payment of bills and other matters.

SOUTH WINS FILIBUSTER

Virginia Assembly Condemns Congressional Action

Despite the overwhelming majority on record against the South in the National Congress, the filibuster of the determined minority loyal to Dixie broke the Northern steam-roller this week and the anti-lynching measure was laid aside for important business.

Recognizing that the Warner-Vannuys "Anti-lynching" Bill was an attempt to force federal control of local police power on the South, where lynching has almost disappeared, while mass gang murders of the North remain exempt, the Virginia General Assembly by unanimous joint action of both houses, condemned the measure and called upon Virginia Senators and Congressmen to oppose the measure which they were already on record as doing.

State Senator William A. Wright, who made many friends in northern Virginia last summer as campaign manager for Lieutenant Governor Saxon Holt, introduced the bill in the Senate. The bill was immediately thereafter unanimously adopted by the House, after it had been reported out of the federal relations committee, headed by Delegate T. Elliott Campbell, of Caroline County. The committee vote was 7 to 1, the only opposition in the General Assembly being the negative vote recorded by Delegate Francis P. Miller, of Fairfax County.

Voicing unalterable opposition to the bill, the resolution of the Virginia General Assembly calls attention to the adequate Virginia law on the subject and to the fact that only lynchings occurred in the whole United States last year. It further stated that:

"Representing one of the group of Southern States, we view with regret and alarm the obvious political motives behind this legislation and we join our sister Southern States in opposing it as unnecessary, futile and unconstitutional and as a reflection upon, if not an insult to, the people of the South."

JOHN P. ELLIS

John P. Ellis—born May 8, 1860—died January 27, 1938—was the fifth son of a family of seven brothers and one sister, who grew up in the Greenwich neighborhood in the post-war period, when times were hard. But the Ellis brothers were ambitious, industrious, and honest, and remaining united in their endeavors by dint of hard work and sound judgements added many fertile-acres to their home farm, and became the most prosperous farmers of their community.

John P. Ellis nobly did his part in the hard work that brought competence to the family, but under the strain his health became impaired, and since that time he has been a semi-invalid. But while unable to do the hard steady work of the farm, he was never satisfied to be idle, but was constantly engaged, so far as his strength would permit, in the lighter tasks around house and garden that contribute so materially to the making a pleasant livable home and that is just what he and his noble wife made of their home—a place where visitors were ever welcome, and hospitality and cordial good will abounded.

Although a man of the highest integrity, Mr. Ellis did not write with the church until comparatively late in life. In November 14, 1909 he was received into membership of the Greenwich Presbyterian Church and was ever a loyal devoted Christian, interested in all the work of the Church, and faithful in attending all of its services so far as his health permitted.

He was buried in the family lot at Greenwich Church January 29, 1938 with funeral services conducted by the Pastor.

He leaves to grieve for his loss but to revere his memory his devoted wife, Mrs. Lucy Reid Ellis, one brother, O. D. Ellis of Greenwich Community, one sister, Mrs. Joseph Cockerille of Washington, and a number of nieces and nephew. Also, a host of devoted friends, who will sadly miss his genial smile and his friendly cordial ways.

Manassas High lost a hard-fought game to Lee-Jackson Friday night, 39-31. Lee-Jackson was leading Manassas at the half, 25-11, but in the last half the Manassas boys began to click and completely out played their opponents. High scoring honors went to Vetter of Manassas, with a total of 16 points.

Friday night Aldie visits Manassas for a double-header, girls and boys, and this game will probably decide if Manassas is still in the running for the Northern Virginia League championship.

HEADQUARTERS MAIL—General John J. Pershing, chairman of the national anti-syphilis committee of the American Social Hygiene Association, is this week issuing a call for "recruits" in the "war against syphilis." Betty Ryan, at the association's office in Radio City, sorts the appeal letters through which it is hoped to raise a minimum of \$500,000 for national fight against syphilis and conditions which favor its spread.

NORTHERN VIRGINIA REBEKAH AND ODD FELLOW ASSOCIATION

The Northern Virginia Association of Odd Fellows and Rebekahs held an open meeting at Warrenton, Va., on January 26 at which time the following officers were installed: president, Mr. Meitman, first vice-president, Mr.

W. S. Soaper, second vice-president, Mr. Heitman, first vice-president, Mr. J. V. Turner, secretary, Mr. A. S. Soaper and treasurer, Mrs. Eleanor Mudd of the Liberty Rebekah Lodge. After the business meeting, Mr. Flynn, past grand master, gave a very interesting discourse on Thomas Wildy, founder of the Odd Fellows.

OCCOQUAN (AND VICINITY)

Mr. and Mrs. Edgar Shanklin of Occoquan have had with them during the past week Mr. and Mrs. Pat McMahon of Fairfax.

Mr. Ferman McMahon of Maryland spent the past week-end visiting Mr. and Mrs. E. J. McMahon of Occoquan. Miss Irene McMahon of Occoquan has returned from Alexandria Hospital where she underwent an operation. She is well on the road to being out and about again, for which we are all thankful.

We are glad to report that Mr. Newton Best of Occoquan is home from a Washington Hospital and is getting along very well. As was reported last week, Mr. Best had a fall while working in on a Government project in Washington.

Mrs. Ambrose Petelett of Occoquan is a patient at Emergency Hospital in Washington where she had a major operation. Last reports are that she is doing fine. We hope she will soon be backing home in Occoquan and well.

We are sorry to report that Mrs. Morrison, wife of the Occoquan, Methodist Church Minister is on the sick list, and we hope she will soon be well.

We are also sorry to report that Mr. R. S. Hall of Occoquan our general and efficient undertaker has been on the sick list for about a week last reports is that he is very much improved and hopes are that he will be out again in a few days.

Our Occoquan smiling-banker, Mr. B. W. Brunt will be on his way to the West Indies for a vacation by the time this goes to press. We wish him a pleasant voyage, and hope he only gets three meals a day. Some voyages get six meals a day, three down and three up. We wish Mr. Brunt a very pleasant vacation.

The Senior League of Occoquan District High School will give a play on Friday, February 11, 1938, which promises to be the best ever given in these diggings. Be sure to attend the play. If you miss it, you will kick yourself afterwards for being so foolish as not to see it.

Mr. and Mrs. J. Sydney Wiley, of Lorton, are spending several weeks with their daughter, Mrs. Lawrence Roland, of Miami, Fla. They will also

visit Cuba and other points South.

The Junior League of Occoquan High School will give a dance on February 18th. This promises to be a good dance. Good music will be furnished. Keep this date open too.

The article which appeared in last week's issue of the Journal was very timely. The article regarding patriotism in our schools. We should all stress patriotism more than we do, especially teaching our youngsters the part played by men like Robert E. Lee and George Washington in the making of our country. Nothing impresses children more than being granted a holiday on certain occasions and the reasons for the granting of such holiday being fully explained to them.

In order to clear up some disillusion on the Three Point School Program now before the State Legislature of our citizens, it would be well to have it fully explained in the Manassas Journal.

As understood by your scribe; the matter of free school books to all pupils is self explanatory; The matter of adequate retirement salary for teachers is somewhat vague; The matter of salary for teachers is based on two facts: The State to appropriate not less than \$720.00 from State Funds towards the salary of each teacher. That means that the minimum for any teacher from State Funds would be \$720.00, the counties appropriating additional money to raise that salary to be commensurate to the duties performed by the teacher. Total salary may be any sum depending on the qualifications of the teacher and the ability of the County to pay. In no case however would any teacher get less than the \$720.00 minimum provided from the State Funds.

It would be well in this connection to state that the children of all the counties of our State will not have equal educational opportunities until the State takes over all the Public School System and pays all the salaries of teachers. The State to collect all the school taxes, examine and hire the teachers and pay their salaries according to their qualifications to teach. This would benefit the teachers as well as the children, and a great saving could be made by dispensing with certain school officials now working in the counties. School taxes could just as easily be paid the State as the County. The State Board

of Education would know by examination, etc., the qualifications of teachers and would pay them accordingly. Realizing that county officials would fight any attempt to take their plums from them, we know this plan would be hard to put over, even though we are sure it would be a far better system than that now in operation.

Comments on this plan are welcomed; pro and con.

In any case, you the taxpayers pay the salaries whether paid by the State or County. It is believed you would have to pay less if the schools were entirely operated by the State, allowing a good increase in salary to qualified Teachers.

JOAN CRAWFORD AS A MODERN CINDERELLA

Once again the screen improves on an outstanding stage hit. "The Bride Wore Red", which comes to the Pitts Theatre on February 10 and 11, was Ferenc Molnar's "The Girl from Trieste".

Remembered, of course, as a rich human experience depicted on the stage, the story has gained in celluloid. Joan Crawford unquestionably was a happy choice for the starring role and she has two excellent leading men in Franchot Tone and Robert Young. The picture was produced by Metro-Goldwyn-Mayer and nothing has High Sierras for scenes to duplicate those of the Austrian Tyrol in Molnar's original.

WHY CHANGE NOW?

A number of proposals are before the General Assembly advocating important changes in methods of County government. One of these is a measure, just introduced, which would change the present method of selecting school trustees by an electoral board to one of designation by the Board of Supervisors.

The proposal may meet special conditions in some counties and in others it might throw strictly educational considerations into the realm of politics. In Prince William County, where our school system is being administered so satisfactorily, any logical method would work, and there is for the same reason no pressure whatever for a change from the present system. There are probably a very large number of counties in the same category. So many, in fact, that it would seem unwise to make such a change at this time when the whole subject of county government is going to be over-hauled by a Commission study initiated by Governor Price.

The present proposition, and all others pertaining to fundamental changes of our county government, should be referred to this Commission, and its report, when submitted to the next General Assembly, should furnish material sufficient to guide the legislature in framing wise and needed reforms.

A POTENTIAL SCHOOL TROUBLE

A serious situation has developed in recent months with regard to pupils living on Federal reservations.

Under the present school laws, the School Board may not use any of its funds for any school located on such a reservation.

An effort was made at this session of the Legislature to prevent the possibility of the county being forced to provide schooling for any number of pupils coming from a reservation. Professor Haydon appeared

before the Legislative Committee this week and showed the matter in its true light. He stated while there that there are at present about 23,000 acres of land in Prince William County which have been withdrawn from local taxation. Any or all of this area presents a state problem if the Federal Government should set up a new Green Belt and the people moving thereon should demand from Prince William schooling for their children.

It is evident, for future peace of mind, that some equalizing factor should be set up and it is hoped that the present Legislature will recognize the unequal situation in this county and take appropriate action.

"I Keep My Banker in Touch With My Business"

"They know how I keep my books, how much my business earns, how fast I collect money that's owed to me, the amount of my overhead, and the extent of my inventories. They know, because I give them regular balance sheets and statements of my earnings. And because I keep them so thoroughly informed, they can appraise my credit needs quickly whenever I need to borrow. I found out early in my business life that being frank with my banker made it possible for him to give me better service."

ADURETIC stimulant such as Dr. Pierce's A-muric is often indicated and usually it is sufficient to relieve minor kidney irregularities. Mrs. Bethel Brooks, 169 Forest St., Lynchburg, Va., says: "At one time my kidneys were not functioning properly. I used two boxes of Dr. Pierce's A-muric tablets and they were again functioning as they should. I am A-muric at any drug store."

The SNAPSHOT GUILD
Picturing Children Indoors

Floodlight from almost directly overhead makes the child's figure stand out against a background of rich shadow. The picture was snapped when the subject had forgotten there was a camera near.

PARENTS usually think of outdoors and sunny summer days as the proper place and time for picturing children, and once this was true. Before the advent of fast films and electric light bulbs especially designed for amateur photography, daytime was the only time snapshots could work. Today that is no longer the case.

Nowadays, pleasing child pictures may be taken inside the home either by day or night, and more amateurs are taking them. This is partly because the home provides an ideal setting for pictures one wants to keep, and partly because the photographer can control his light to make pictures more interesting.

The modern large-sized amateur flood bulbs are so powerful that the camera worker can put two of them in reflectors three to four feet from his subject, and take snapshots, as he would outdoors, with an ordinary box camera. The camera is, of course, loaded with supersensitive film and its lens set at the largest opening. Other cameras can be used at 1/25 second shutter speed and f.8 or f.11 lens opening.

Ability to take snapshots like this is a great help in obtaining natural, unposed child pictures. It is no longer necessary to take "time" exposures or to tell the child to "hold very still." Now his toys can be placed in the circle of light cast by

the flood bulbs, and as soon as he is absorbed in them, and unconscious of the camera—snap goes the shutter and the picture is made!

There is a variety of lighting arrangements one can use on child pictures. For a cheerful, joyous effect, everything in the picture should be light in tone, and there should be even illumination, with no deep shadows. However, when a dramatic effect is desired, illumination can be restricted to the child's face and hair, with everything else in deep shadow. This tends to give the impression of a very small child in a very large room; sometimes an effect of loneliness which is more appealing than if the picture were bright and carefree.

Beautiful "high-key" effects can be obtained with the child on a window-seat where daylight diffuses through the curtains, and bright floodlight inside so that there are no dark areas or masses of shadow. The child's clothing should be light in color. Good balancing of light will give a picture that is almost all white and lighter tones of gray, with just enough shadow here and there for accents. "Backlighting," as from the window, can also be obtained with artificial light, a bulb being placed behind the child so that the hair becomes a bright, silky halo.

Start today to keep a picture diary of your children.

CATLETT

A very interesting program was given by the Civic League of Catlett on Friday night, January 14th.

The Daughters of America of Prince William Council No. 45 of Manassas, Va., presented a Bible and Flag to the school. The Bible was a gift from the Junior Order of Fraternal Americans through their sister order the "D. of A."

There was a fairly good crowd although the night was rainy and bad. In addition there was musical program.

Catlett school is very proud of their Flag and Bible and are very grateful for same.

Our community again has been saddened by the death of Ernest Austin Corbin aged 3 years and 6 months, January 12, 1938, who died in Charlottesville hospital from spinal meningitis.

He leaves to mourn his loss his parents, Mr. and Mrs. Oscar Corbin and one little brother, Lewis Corbin.

Services were conducted by Rev. Geo. W. Crabtree; assisted by Rev. B. T. Price and Rev. Miller of Nokesville. Burial took place in Catlett cemetery.

The family have our deepest sympathy.

The little son of Mr. and Mrs. Edwig Trenis is very ill with pneumonia. We wish for him a speedy recovery.

Mr. Brown Daniels who was severely injured in an automobile accident about two weeks ago is improving slowly. He has been in Alexandria hospital.

His friends wish for him a speedy recovery.

Mr. Owen Hedrick of Nokesville a brother-in-law of Mr. Lewis Guy passed away and was buried here in Catlett cemetery last week. The family have our deepest sympathy.

Mr. Floyd Shaffer spent a day shopping in Washington, D. C., this week.

Mrs. Will Ficklin visited her sister-in-law, Mrs. Blanch Laws Thursday.

Miss Arabella Laws spent the weekend home with her mother.

Mr. Harry Wilson who has been suffering with his throat, recently was operated on. He returned to his home, but due to a very bad coughing spell ruptured a blood vessel and came near bleeding to death, but was rushed to the hospital in Warrenton

where he was successfully treated, and is getting along nicely although very weak from loss of blood. His many friends wish him a speedy recovery.

The Ladies Auxiliary of the Presbyterian church met with Mrs. Geo. Crabtree on Thursday. A good attendance was present.

The Christian Endeavor met with Miss Lois Crabtree on Wednesday and elected new officers for the new year as follows:

Mrs. Howard Heflin, president; Miss Inez Mercer, vice president; Miss Mabel Mercer, secretary; Miss Lois Crabtree, treasurer.

Mr. Geo. Nesselrodt who was operated on in Charlottesville hospital a few weeks ago has returned home. His many friends wish him a speedy recovery.

Dear Mr. Editor:

Lake Killarney Fish always demand the truth. They do not have to resort to fiction in the case of fish caught in Lake Killarney. A local gentleman who went out in our boat this morning, caught a black bass which tipped the scales at fifteen pounds and nine ounces and a half.

The fish was displayed at Hotel by one of our boys who forgot George Washington, a great example. He put a placard on the fish stating that it was caught by "Mr. Fisherman" from Prince William Academy, Manassas, Virginia. In a short time a gentleman drove up and asked for "Mr. Fisherman".

"Mr. Fisherman, let me see your Fishing License please," whereupon, Mr. Cadet Fisherman replied "I am from too near Mount Vernon. I cannot tell a lie. I did not catch that fish."

The jokes was on him. The gentleman who drove up was a former school boy of the Colonel's who attended his school twenty years ago. It was not the game warden, but a gentleman whose people came down here from New Market, Virginia. This gentleman's mother was a Dodson. Some friends in Manassas may have known her.

SUPPOSE this newspaper had presses capable of printing 140 newspapers per minute and a law was imposed limiting its production to only 70 copies during the same time. Wouldn't you say that law was literally turning the wheels of progress backward?

Or suppose your local grocer's staff of clerks could serve 140 customers an hour and a proposed law would force your merchant to handle only 70 customers per hour. Common sense tells us he could handle only one-half of his normal business. Wouldn't that be putting shackles on private initiative and private efficiency?

If a farmer has a tractor capable of pulling six plows, how would he feel if a law was passed allowing his modern tractor to pull only three plows? Wouldn't that handicap the farmer and retard modern agricultural progress?

All right, then, what do YOU think of a proposed law—one that has actually passed the United States Senate and is now before the House of Representatives—which would really reverse railroad progress? Modern railroads, with their big locomotives, heavy rails and straightened curves, are equipped efficiently to handle trains of 100 cars or more. Yet this law, if passed, would compel railroads to limit their trains to 70 cars.

Don't you agree that such a law would needlessly increase the cost of railroad transportation; decrease railroad service to you and your community? We'd like to hear from you. Better still, we would like for your Congressman to hear from you. It is to your personal interest that railroad progress continue forward—not be forced backward!

This bill to hamstring the railroads is known as The Train Limit Bill (Senate Bill 69). It is called a "safety measure"—yet the fact is that railroads have reduced accidents to employees by approximately three-fourths during the same years that modern, long trains were developed to give you faster and better service. Incidentally, The Train Limit Bill would increase the number of trains and proportionately increase grade crossing hazards. Facts and figures about this proposed legislation will be furnished gladly. Address Chesapeake and Ohio Lines, Public Relations Department, Huntington, W. Va. Your inquiry will be handled promptly; your interest appreciated.

HIGH ROMANCE RIDES WITH TEX RITTER

Romance rides with Tex Ritter, the famous singing cowboy, in his latest tuncful action-film of the old West, "Sing, Cowboy, Sing", which will open at the Pitts' Theatre on February 9 with the lovely Louise Stanley, recently featured in "Lady Be Careful", in the principal feminine role. Reminiscent of that epic of the silent screen, "The Covered Wagon", more than twenty-five expert wagoners and hostlers, were required to stage the big scenes in "Sing, Cowboy, Sing", which portrays a running fight between two rival freight caravans, as a climax to the thrills of this de luxe musical western.

The story of "Sing, Cowboy, Sing", deals with the experiences of Tex Ritter as a happy-go-lucky range rider, in protecting Madge Summers, played by the glamorous Louise Stanley, from a gang of ruffians who murder her father and attempt to steal her wagon route franchise. How, with the connivance of the sinister leader of the gang, Tex is shot at, jailed and an attempt made to lynch him, while the gang try to stampede the wagon train for a second time, forms a thrill-packed feature in which the singing cowboy star risks his life.

THE WORLD AROUND US

By
O. J. Schuster

THE ENORMOUS SALARIES PAID to officials and directors of big corporations are stones of stumbling in the way of the administration as it moves to increase the buying power of the masses. For many years Eugene Grace, head of Bethlehem Steel Corporation, drew a bonus of a million dollars a year out of the company earnings, in addition to his salary. Big bonuses in addition to big salaries have been a very common practice of industrial and financial corporations. A congressional committee has been investigating the highest-paid industrialists, movie stars, and financiers. It report shows a long list receiving from \$300,000 to \$561,311 paid to Alfred P. Sloan, President of General Motors Corporation. There is something wrong in an economic system that pays Mae West more than \$1,000 a day for her teaching of the public and pay many a teacher of children in the state of Virginia less than \$500 a year.

NINE OFFICIALS OF GENERAL MOTORS have compensations ranging from \$303,423 to \$459,878 paid to one of its numerous vice presidents, and to the still larger salary of Sloan. These nine officials received a total compensation (in 1936) of \$3,246,620. The report gives 48 others with salaries ranging from \$50,000 to \$300,000. If they average \$75,000 (a modest estimate) these 48 officials drew \$3,600,000 out of the earnings of General Motors in 1936. A group of 280 come next with compensations from \$15,000 to \$50,000. Assuming that the average of these 280 is \$25,000 a year, they drew out of the earnings of General Motors \$7,000,000 in 1936. How many more in this corporation draw from \$10,000 to \$15,000 a year we do not know but it is evident that these immense sums skimmed off at the top, together with large surpluses held in reserve, drastically reduce the amount that can be paid the great mass of workers as wages.

THIS LOPSIDED ECONOMIC SYSTEM is as stupid as it is selfish. It works corruption among those at the top no less than degeneration at the bottom. A salary of \$561,311 is nearly seven times the salary paid the President of the United States, and it is 28 times as much as the salary of a member of the Supreme Court, and 35 times the salary of a cabinet official. These big salaries and bon-

uses of corporations are the Sacred Bulls of the corporate hierarchy, to be guarded and protected at all cost. When earnings begin to decrease and threaten the sacred idols the discharge of thousands of laborers is the defense strategy—a stupid procedure because it destroys the buying power of those thousands, brings on an epidemic of further discharges in allied and other industries until the goose that lays the golden eggs is killed. Years elapse before a new goose can be matched and grown to pullet age and can begin laying little golden eggs.

THE EVILS OF THIS SYSTEM are greater today than ever before. To defend and protect the Sacred Bulls the hierarchy resorts to specious arguments the hypocrisy of which is glaringly manifest to an ever-increasing number of citizens. Quoting "big" wages of even \$10 a day are seen to give a yearly income of only \$1,000 if discharges reduce working days to 100 in the year. On such an income buying power is limited to the bare necessities. Buying of homes, automobiles, household goods, clothing, and other desirable goods stops. Degeneration, class struggles, bitterness, hatreds are generated at the top as well as at the bottom. And crime multiplies—the top evading the law, the bottom violating it. The administration has the vision to see and understand this vicious cycle and is making the public conscious of it. Fortunately more and more of our big industrialists are likewise grasping its significance and are supporting the administration's policies. Thru such genuine cooperation it should be possible to create a better world around us.

UNMARRIED WOMEN HAVE HARDEST JOBS SAYS MARJORIE HILLIS

"I take my hat off to single women," writes Marjorie Hillis in this month's Woman's Day magazine. "No," answers Vera Connolly in the same issue, "the married woman has the harder job."

It all started in the editorial staff rooms a month ago. Exactly, one-half of the women on the magazine's staff are married—the other half single.

Words began to fly, at first good-natured jibes, but soon heated arguments.

"We'll settle it in public," said Mrs. Haydie Yates. She promptly engaged Marjorie Hillis, of "Live Alone and Like It" fame, and Vera Connolly, long champion of the married woman, to represent the two sides—on two facing pages of the February issue.
