## BUSINESS GOOD SAYS CHAMBER

### Increase Naval Contracts Boost Conditions

An optimistic picture of business conditions in general in Virginia is painted by the Virginia State Chamber of Commerce in its monthly review of business and industrial trends. The chamber points to an increase in June power consumption in Virginia that is 12 per cent above a year ago, a 34 per cent increase in Hampton Roads coal dumpings for the first six months of the year, a 7 per cent increase in retail sales in the Fifth Federal Reserve District and a 4 per cent increase in debits to individual bank accounts. In addition the crop outlook was generally improved, insurance sales were 23 per cent above a year ago and business failures were slightly less in number and more than 50 per cent less in volume of liabilities.

Outstanding construction activity centering around the national defense program in July included the request for bids on a \$1,500,000 dry dock and shipway at Newport News, a \$8,500,000 building dry dock for the navy at Portsmouth, awarding of a \$12,700,000 construction program to Virginia Engineering Company for work on the Naval Air Station, at Norfolk, and a score of other contracts which include:

Buildings at Norfolk Navy Yard, in Portsmouth, \$720,000, \$1,400,000 enlargement program at Quantico Marine Base, \$250,000 addition to the Norfolk Naval Hospital, at Portsmouth, a \$225,000 hangar and other improvements at Dahlgren Proving Ground, a \$3,000,000 building program at Langley Field, a \$200,000 building program at Fort Myer, in Arlington County, and \$74,000 for construction at Fort Monroe. At Norfolk Navy Yard it is estimated that \$50,000,000 has been expended since last September. Scores of other federal projects are in course of construction or shortly will be advertised, the State Chamber is informed. The Work Projects Administration has allocated \$1,433,000 for defense projects in Virginia. In addition numerous Virginia firms have received orders from various procurement offices of the various departments of government. Among them is an order for \$350,000 to Polack Manufacturing Company of Arlington and another for \$103,000 for trunks and lockers to American Hardware Company, Petersburg.

Other encouraging business factors listed include the reopening, slated for early autumn, of the Chesapeake & Ohio Railway repair shops in Richmond, which have been closed for a decade. The company has appropriated \$50,000 for repair, construction of buildings and rehabilitation of equipment. The shops will give fifty men employment. The Norfolk and Western Railway recently let an order for 1,000 all-steel cars to be constructed by Virginia Bridge Company at Roanoke. The execution of the contract probably will require between one and two hundred additional workers. The order is a part of an \$8,000,000 improvement program just announced.

Installation of 250 additional looms at its Radford plant is contemplated by Burlington Mills, Inc., according to announcements, while approximately thirty new construction contracts ranging up to \$50,000 also are announced.

Earmarked for future expenditure in the Portsmouth area is \$5,000,000 by the U. S. Housing Authority, and appropriations of \$1,300,000 for construction of Blue Ridge Parkway, plus contractual obligations of \$3,900,000 is announced through National Park Service for Virginia and North Carolina.

These are in addition to large expenditures announced during the first five months of the year, which are in course of distribution at this time, while other expenditures, including \$6,000,000 for power facilities in the Tidewater area, will be announced this week.

## C. C. CLOE FOR HIGHWAY COMMISSIONER

It is a pleasure to endorse Mr. C. C. Cloe for the position of State Highway Commissioner. Mr. Cloe has demonstrated his fine abilities and complete fitness for such a position and his appointment would not only be very gratifying, but should serve to emphasize the importance of the road needs of this section of Virginia and inspire the hope that with such representation on the State Highway Commission we would achieve the recognition we deserve in the highway program.

At a meeting of the Prince William Chamber of Commerce, held on Tuesday in the Presbyterian Church, it was voted to give moral support to a proposition of a number of private individuals who seek to establish a livestock market here, following reported conclusions that a strictly co-operative farmer's market would not be likely to meet with success. The motion to endorse the proposition was made by Dr. George B. Cocke, and the committee working on the project, consisting of J. Carl Kincheloe, C. W. Alpaugh and C. Paul Nelson, was continued.

## PUBLIC RELATIONS OFFICIAL VISITS KIWANIS CLUB

Mr. Kirk Miller, director of public relations of the Sanitary Grocery Company, was guest speaker at the Kiwanis Club last Friday evening. He gave a very human picture of the place which his company occupies in the various localities where branch stores are located. The speaker cited many instances in which his company, was of vital assistance to the community.

The speaker also gave some good selling points of interest to business men, and got very close attention. As a frequent visitor in the vicinity for many years past, Mr. Miller was welcomed as an old friend of many of the members of the club. Prior to his association with his present employers, he was a noted sports writer for the Hearst newspapers.

"Bucky" Harris made a presentation of a loving cup to past president, E. R. Conner for which Ed made brief remarks of thanks.

The club is very sorry to lose its sponsor, Mrs. John Beard, who left this week for Saluda, Va., where she will live hereafter.

Miss Waters is one of the most accomplished and popular girls in Manassas both she and Mr. Lyons being leaders in the social activities of the younger set of the town.

## PRICE URGES D. C. GAS BOOST

### Present Low Tax In Washington Hurts Virginia Dealers

Acting for the Governor of Virginia, Marion S. Battle, Director of Motor Vehicles of Virginia, urged an increase in the retail price of gasoline in the District of Columbia this week. Mr. Battle appeared personally before the Congressional Committee and sought a two cent increase in the National Capital to remove the hardships and inequities now existing because of the lower gas price across the Potomac.

In addition to the great loss of revenue by dealers in northern Virginia and near-by Maryland, it was pointed out that revenues from the proposed increase could well be used to improve some of the roadways within the District of Columbia which are now in bad condition and greatly reduce the speed with which commuters to the government offices now reach their daily work.

It is believed, however, that interests within the District of Columbia are fighting to retain the low gas price as a means of drawing business from the surrounding areas, and that unless a definite need of road revenue there is substantiated, that the proposal will not get much favorable consideration in Washington.

At present the District tax is two cents. In Virginia the rate is five cents, and in Maryland four cents, and it is pointed out that as long as such inequalities exist there will be continual difficulty over the problem of the retail price of gasoline in the areas of Virginia and Maryland adjacent to the National Capital.

## URGING INCREASED POLICE PATROL

The Prince William County Chamber of Commerce has gone on record as urging the State Motor Vehicle Commissioner to assign more State Troopers to duty on the roads of Prince William which connect the Lee Highway with the Jefferson Davis Highway. At present it is felt by many that these officers now only come to Manassas when they have a prisoner, and that there should be enough of them here to patrol roads other than the two arterial highways which cross the county. Mr. E. R. Conner states, however, that the proposal which he favored to increase the number of State Troopers was killed by the General Assembly, and that it will be difficult to find officers enough to assign to these additional highways.

## DAIRY EXPERTS AT CLOVER HILL FARM

### Scientist Of National Standing Gave Valuable Talk At Jersey Meeting

Nearly two hundred farmers, county agents and dairy experts gathered within the hospitable folds of Clover Hill Farm yesterday to witness a meeting of the Virginia State Jersey Cattle Club.

Operating as a general farm since 1793 by the Johnson family, registered Jerseys have been kept there since 1900, and the herd has gradually become an acknowledged leader in Jersey circles in Virginia.

"Judge" was kept very busy going from one point to another all day making his guests at home, and looking out for their comforts and interests in every way. Beginning at an hour some time before noon, he made an address of welcome to which proper response was made by T. T. Curtis, of Orange, formerly county agent here.

The demonstrations by H. E. Dennison in which he described how to start a Jersey herd, and the 4-H feature presided over by D. J. Young were of equal and current interest both to those who breed Jerseys and to those present who came to learn.

The picnic lunch gave all hands a chance to spread around and have a good time, as well as to stroll about the beautiful premises. A cool breeze was blowing most of the day, and it registered well with the picnickers.

After lunch a general introduction was made of some of the more prominent guests, and then the herd classification followed which was a very important item of the day's proceedings. Dr. Yapp, of the University, of Illinois, took the individual cows and cited his scientific classification of them in very interesting and easily understandable phrases. Dr. Yapp is a national figure and his guidance is highly valued.

Prince William is proud of Clover Hill Farm, not only for its history and for the sterling citizens who have so long operated it but for the high grade agricultural standing it lends to this entire area.

## ATTEND AGRICULTURAL CREDIT MEETING

Director T. Otis Latham, of Prince William County, and Directors Hurt, Legard, and Wilson, of the Warrenton Production Credit Association, attended a group directors' meeting along with representatives of three other associations at Orkney Springs on August 5, 6, and 7, reported Secretary-Treasurer Thos. D. Jones today, who also attended the conference.

These annual get-togethers afford the opportunity to discuss mutual problems in open, round-table fashion and constitute one of the highlights in the progress that associations have made in providing a sound production credit lending system for farmers, Mr. Jones said.

The three days were devoted to discussions of credit and collection policies and an attempt to seek better means of meeting the needs of farmers in areas by the associations.

STAGES SENSATIONAL STUNT  
FOR FILM'S AUTO ACCIDENT

Crashing into a speeding automobile on a bicycle and diving over its hood to safety was the sensational stunt staged by Roy Cummings, former famous acrobatic comedian of vaudeville, for a Hollywood thrill. The daring feat was performed for "And One Was Beautiful", society melodrama coming next Wednesday, August 14 to the Pitt's Theatre.

Jean Muir drove the car, an open roadster of the sports type, with Roaction called for Cummings to subert Cummings as passenger. The denly drive a bicycle into its path.

The scene was carefully rehearsed and all distances measured. Experts figured how fast bicycle and car should travel to provide just the right impetus to hurl Cummings, diving from the bicycle a split second before the impact, over the car to land on roadside grass. So carefully was the dive calculated that it was successfully filmed in a single "take" with no injury. Studio experts say it was the most successful stunt of its kind since the famous automobile-motorcycle crash in "Manslaughter" of silent days.

Robert B. Sinclair directed "And One Was Beautiful", a dramatic filmization of Alice Duer Miller's noted story. Miss Muir and Laraine Day play sisters, central figures in a love triangle with Robert Cummings. Billie Burke, Ann Moriss, Esther Dale, Charles Waldron, Frank Milan, Rand Brooks, Paul Stanton and Ruth Tobey are among the principals.

The dramatic highlight is the struggle of a girl torn between loyalty to her sister and love for the man who faces prison on a manslaughter charge growing out of an automobile crash to shield this sister.

## HERR LINDBERG STABS AGAIN

Col. Charles Lindberg, mouthpiece of Hitlerism in America, this week again rushes to the microphone in a final effort to stab our preparedness program in the back.

If there has been any widespread doubt as to the purposes of his broadcasts, the low cunning and obvious Pro-German aspect of his most recent utterance, makes his motives plainly visible to the dullest intellect.

As has been widely commented, this inventor of a mechanical heart must have some such contrivance within his own breast, when he can so lightly ignore the vital and moral issues involved in the titanic struggle now going on in Europe and complacently advise us to make ready to deal with Adolph Hitler as the ultimate master of Europe.

It is time that we fully recognize Col. Lindberg as the logical leader of the fifth column in the United States, and that we deal with him accordingly. A most desperate situation confronts the Christian forces of the world, and we cannot afford to temporize with those who would betray us into the hands of the monster now seeking to devour all honorable and law-abiding nations.

Very shortly, with the inescapable prospect of a National Draft of man power, we will move forward into a sterner realization of the gravity of the dastardly efforts now being made by Charles E. Lindberg and his followers to cripple our vital powers of defense.

This friendly bank will afford you the best means of protecting your savings, and cordially invites you to join our ever enlarging circle of satisfied customers.

## MAKE DEMOCRACY WORK

The American people, fully awake to the menace to our institutions, are willing to make any conceivable economic sacrifice in the name of liberty and security. But that does not mean that the American people are going to be satisfied with mere bills appropriating money and raising taxes. They are going to make sure that tax money spent produces results—that bureaucratic red tape is cut—waste reduced—delay avoided.

It is one thing to appropriate billions. It is another thing to translate those billions into airplanes and artillery and fighting ships. Any run-of-the-mill politician can vote to spend taxes—but it will be a dark day for this country if politics is permitted to dominate the actual job of making our needed weapons. The wisest industrial and economic statesmanship is vital. Speed, efficiency and economy are the essentials.

This is the time to make democracy work. America's capacity to produce is limitless—the American genius for achievement has proven itself too often in other crises to be doubted for a single second now. And the genius must be freed of the political shackles that have been welded onto it in recent years.

## DEATH OF PROFESSOR GILL

It is with regret that we record the death at Campbellford, Ontario, of Professor W. H. Gill on Sunday, August 4, after a brief illness.

Professor Gill had been vacationing in Canada at Trent Village, where he had been accustomed to go each summer for the past thirty years. He was 73 years of age, and well known and highly esteemed in Manassas.

He was professor of languages at Woodward School in Washington, and had previously been a member of the Swavely School faculty here. In his fine scholarship and quiet cultured personality, he had endeared himself to a very wide circle of friends in the United States and Canada, and his passing was the occasion of much regret.

He is survived by his widow, the former Miss Blanche Linton, of Campbellford, Ontario, and a son, Linton, who is an instructor at the Royal Canadian Air Force training station at Camp Borden, Canada.

## SHOWER FOR MISS LLOYD

One of the outstanding social events in town this week was the beautifully arranged bridal shower given in honor of Miss Helen Ruth Lloyd. The shower was held Tuesday evening in the garden at the home of Mrs. Cyril Wade-Dalton by Mrs. Wade-Dalton and Miss Marion Lynn. The bride-to-be was generously showered with many beautiful and useful gifts by the fifty guests who were present.

One might well have thought one were back in ante-bellum days when the gifts were brought in a baby carriage, rolled in by an old "black mammy" (Mr. Cyril Wade-Dalton). His clever portrayal of this ancient office added greatly to the enjoyment of the guests and was very entertaining.

Following the unwrapping of the gifts, the guests adjourned to the house which was most tastefully decorated with gorgeous flower arrangements. The center of attraction in the dining room was a lovely bride's table. The center piece was of white sweet peas and baby's breath with tall white candles in silver holders. Delicious refreshments, including a bride's cake, punch and ices, were served by the hostesses.

## WAGNERIAN SOPRANO TO MAKE SOLO APPEARANCE AT WATER GATE

Helen Traubel, major Wagnerian soprano discovery at the Metropolitan Opera last winter, will make a surprise solo appearance with the National Symphony Orchestra on the "Sunset Symphony" concert at the Potomac Water Gate this Sunday, (August 11). The Orchestra will be under the guest direction of the brilliant young American conductor, Charles O'Connell.

On next Wednesday, August 14, Antonia Brico, world's foremost woman conductor, will return to the Water Gate for her second engagement as guest conductor of the National Symphony.

Miss Traubel makes her first Washington appearance on Sunday through the kindness of Mr. O'Connell, who was anxious to have the Nation's Capital hear the American girl that both press and public have heralded as a new singing sensation. Miss Traubel, a native of St. Louis, emerged in New York last season as one of the triumphantly great sopranos of our time. Her first New York recital at Town Hall was followed on successive Sundays by solo appearances on the Ford radio hour, and with the New York Philharmonic-Symphony under Barbirolli. When, two weeks later, she made her Metropolitan debut as Sieglinde in "Die Walkure", Time magazine summed up the critical opinion by calling her "one of the finest Wagnerian soprano voices ever to turn up at the Metropolitan."

With the National Symphony, Miss Traubel will sing Beethoven's "Gottes Macht", and a group of three songs: "Daybreak" by McDonald, Burleigh's "Deep River" and Geoffery O'Hara's "There Is No Death". Under the direction of Mr. O'Connell, who made a favorable impression in his Water Gate debut last summer, the Orchestra will play the Miniature Suite of John Christopher Smith, Schubert's Symphony No. 4, in C minor ("Tragic"), "Divinites du Styx" by Gluck, To Hebraic Poems by Harle McDonald, Mr. O'Connell's arrangement of Albeniz' "Cordoba" and Dance of the Apprentices and Entrance of the Meistersinger from Wagner's "Die Meistersinger".

Miss Brico comes to the Water Gate following a concert at the San Francisco World's Fair. There she conducted an orchestra composed of students from Mills College, Oakland, Calif., where she has been teaching a course in symphony conducting. After her appearance here, Miss Brico will leave for a series of engagements as guest conductor in various South American countries.

For her Washington concert, Miss Brico has programmed overture to "Coriolanus" by Beethoven, Sibelius' Symphony No. 1, aephisto Waltz by Liszt, Mary Howe's "Sand", two Debussy Nocturnes, and Wagner's Faust Overture.

## MRS. JAMISON ENTERTAINS FOR RECENT BRIDE

Mrs. Mary Lipscomb Jamison entertained at a miscellaneous shower Thursday afternoon in honor of Miss Nancy Weir Waters whose wedding to Mr. George Keith Lyons took place on Saturday in the Trinity Episcopal Church. The party was held at Mrs. Jamison's home, Wind Ridge. The hostess with her house guest, Miss Carolyn Robertson, of New York, and the honor guest received a large number of the members of the younger set and personal friends of the bride.

Mr. Edgar Rohr and Mrs. Connie Kinchele, dressed as a rustic bridal couple motored up in a streamlined flivver of the 1912 Vintage to deposit, a large wash basket loaded with gifts for the guest of honor. Mrs. Kinchele was attired in a white lace gown with ruffled flounces. She wore a long curtain veil held in place by a spray of pink velvet rosebuds, and carried an arm bouquet of corn shucks and carrot tops. Following the opening of the many useful presents, a delightful plate supper was served on the lawn.

The guest list included Mrs. O. D. Waters, Sr., Mrs. C. R. C. Johnson, Mrs. Nina Carter Tabb, of Middleburg; Mrs. Stewart McBryde, Sr., Mrs. E. A. Fraser, of Seabrook, Md.; Mrs. T. E. **JACK BENNY RIOTS IN WIDE OPEN SPACES**

When we say that Jack Benny forsakes the radio a horse, twirls a mean lasso and routs a band of cattle rustlers without losing an ounce of sangfroid, to say nothing of insouciance, we give you some measure of the laughs to be found in his newest picture, "Buck Benny Rides Again", which Paramount presents next Monday and Tuesday, August 12 and 13, at the Pitt's Theatre.

Not only Benny but most of his radio troupe forsake that microphone to don ten-gallon hats and head for the wide open spaces. Eddie "Rochester" Anderson is there to heckle his boss; Phil Harris lends his urbane presence; Andy Devine, and even Carmichael, the polar bear, add gusto to this new Benny production.

The result is lively entertainment which is the same as saying "tops for anybody". The picture is as funny as all get-out, which you might expect with Jack Benny playing a dynamic buckaroo under Rochester's critical eye. And Rochester, that old scene-rustler, steals the show as usual with a side-splitting imitation of Fred you might call Shuffle Off to Rochester-Buffalo.

The story of "Buck Benny Rides Again" permits Jack to cavort against a horse-opera background without surrendering any of his radio personality. The picture opens in a broadcasting studio. The New York heat is unbearable, and Benny's side-kicks on the air are trying to sell him the idea of a vacation. Phil Harris wants to go to Nevada, with an eye to meeting a Reno divorcee there. Rochester is getting tired of buying ice cakes for Carmichael, the polar bear.

It's no go, however, until Jack meets Joan Cameron (played by Ellen Drew) and falls in love with her. Joan likes the West, and to make an impression, Jack persuades her that he owns a ranch out there. His deception gets a boost when he learns that Andy Devine actually owns a ranch in Nevada. The whole troupe, including Joan, who is auditioning for Benny, are transported there.

Out on the range, Jack, by bribing the cowhand managers to convey the idea that he is the terror of the ranch. He routs a phony band of cattle rustlers, and when some real bandits come along, he is under the impression that they are a crew he hired. For the comic complications that follow, we recommend that you hustle off to the Pitt's, Theatre, to be seen for yourselves.

TO PROJECT SURVEY WORK

Business may study the educational needs and efficiency of Virginia's school system. A proposal that such a study be made has been submitted to the Virginia State Chamber of Commerce by Francis S. Chase, secretary of the Virginia Education Association, and directors of the State Chamber have authorized James S. Easley, of Halifax, president of the chamber, to name a committee to confer with him and to prepare a plan for the study in question.

"The Virginia State Chamber of Commerce recognizes the needs of the education system of the state, as enunciated by the Virginia Education Association," Mr. Easley said to sympathy with the improvement of education in Virginia and a solution of the problems that have grown up around the educational system. Therefore it will study the present system of public education and ways and means of improving it."

## CHRISTIAN SCIENCE

"Spirit" will be the subject of the lesson-Sermon in all churches and societies of Christ, Scientist, on Sunday, August 11.

The Golden Text will be "Teach me to do thy will; for thou art my God: thy spirit is good; lead me into the land of uprightness" (Psalms 143:10).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Fools because of their transgression, and because of their iniquities, are afflicted. Their soul abhorreth all manner of meat; and they draw near unto the gates of death. Then they cry unto the Lord in their trouble, and he saveth them out of their distresses" (Ps. 107:17-19).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures", by Mary Baker Eddy: "Spirit blesses man, but man cannot tell whence it cometh. By it the sick are healed, the sorrowing are comforted, and the sinning are reformed. These are the

effects of one universal God, the invisible good dwelling in eternal Science" (p. 78).

## TERRIFYING TYPHOON CLIMAXES GRAND STORY

Torrential rains and the awe-inspiring terror of a tropical hurricane save Dorothy Lamour, Robert Preston and Lynne Overman from cremation on a burning island, and provide the thrilling climax to Paramount's new Technicolor South Sea romance "Typhoon" which opens next Thursday and Friday, August 15 and 16 at the Pitt's Theatre.

Dorothy Lamour, most popular "native" girl in the world, does not appear in her much-sung song. This time it's a lava-lava, which must be Polynesian for "retrenchment", because this bright cloth is scantier than ever! In fact, Technicolor and Dorothy have produced a new combination, which we are calling "Technicolor".

The hurricane sequence provides the most thrilling nature spectacle ever to be filmed. Rain lashes down like blasted mercury; whole palm trees are uprooted by the maddened wind, and the tidal waves top crests of fifty feet! Only those who have lived through tropical hurricanes will be able to make comparisons.

Hand in hand with the technical perfection of the storm, and of the surging Technicolor is the romance-filled plot. Dorothy, bronzed and alluring, lives with Koko, her trained chimpanzee-companion on an uninhabited South Sea island, far from normal sea lanes. She was the only survivor of a sailing ship, wrecked there ten years before Robert Preston and Lynne Overman arrive with their pearl-diving submarine. They are be-

ing pursued by a vengeful Polynesian chief, whom they have inadvertently insulted, and who believes they have stolen his pearls.

Forced to abandon their ship for lack of oil, Robert Preston gets lost, and—luck dog—found by Dorothy Lamour and Koko. A mutiny against Lynne Overman by J. Carrol Naish and his Kanaka crew, and the arrival of the Chief with his gang of cut-throats, follow in rapid succession.

There is plenty of comic relief supplied by Ko-Ko and Lynne Overman, and there is a constant panorama of South Sea color that will leave you dazzled. This Technicolor romance was directed by Louia King, who previously directed the smash hit, "Bengal Tiger".

## SAVING WASHINGTON'S TREE

Washington, the Nation's Capital, has long been famous for the beautiful trees which line its streets and thoroughfares, shade its sidewalks and frame its mansions and memorials. But as the city grows its ever-increasing traffic problems and the need for widened boulevards and highways menace its arboreal splendor. The story of the preservation of Washington's now famous trees and of the establishment of new tree-lined thoroughfares to meet new traffic demands is told in an illustrated feature article appearing next Sunday in The Washington Sunday Star.

**MAY SOON UTILIZE VIRGINIA PINE**

The Virginia State Chamber of Commerce today announced the appointment of a committee to study the possibilities for the establishment of a newsprint mill in Virginia, using Southern pine as the raw material. The mill would follow the Herty process and be similar in nature to the plant now operating at Lufkin, Texas. Major Raymond B. Bottom, of Newport News, past president of the Virginia State Chamber of Commerce and of the Virginia Press Association, was named chairman of the committee. Other members will be Wistar Heald, of Lynchburg, paper manufacturer and director of the chamber, and Landon R. Wyatt, of Danville, investment banker.

Proponents of the measure notified the State Chamber that consumption of newsprint in Virginia is more than sufficient to provide the proposed plant with a market for its complete output, and that the plant's location would place it within ideal shipping distance of half the paper consumption in the United States.

### TO CONTINUE OPEN AIR RELIGIOUS MEETINGS

The members of the Washington Catholic Evidence Guild are very appreciative of the kindly attention given by the good people of Manassas during the series of meetings they held at the Court House Square between July 20 and 26. According to a statement given out today by Harry J. Kirk, president of the Guild, the number of listeners exceeded expectations and was so encouraging that, on invitation of Rev. James J. Widmer, pastor of All Saints Church, it has been decided to continue the meetings at the same location once a week on Monday evenings.

The first of the new series of meetings will be on the evening of August 12 at 7:30 p. m. The program is as follows:

1. Rev. Alonzo McDonnell, C. S. P. Chairman — "God's Instructions to Man".
2. Miss Madeline Kane — "The Fatherhood of God and the Brotherhood of Man".
3. Clemens Poesz — "The Greatest Thing on Earth".
4. Edw. J. Heffron — "What about the Pope?"

There will be a question and answer period. Each speaker will be glad to take verbal questions at the conclusion of his talk and the chairman will invite anyone to ask general questions regarding the Catholic Church.

No collection will be taken up and everyone is welcome. In the event of rain the meeting will be held in All Saints Church.

### PRE-MARITAL LAW IN EFFECT

Effective August 1, persons seeking Virginia marriage licenses must apply first to physicians for certificates that they have received a blood test for syphilis, and such certificates must then be presented to court clerks before licenses will be issued. The certificates do not state the outcome of the test, but merely that the law has been complied with. Results of the test are placed in confidential files, and in cases where the disease is found, applicants who wish to marry will be permitted to do so upon agreement to submit to a program of treatment prescribed by the State Department of Health.

As the deadlines of the new law approached, wedding licenses throughout the State were issued at more than double the usual rate, many applicants making no secret of their desire to avoid the blood test requirement. Under State law, marriage licenses are valid until used.

State Health Commissioner R. C. Riffin has emphasized that no charge will be made for blood examinations at any of the Department of Health laboratories or official laboratories of city health departments. Approved private laboratories, however, may charge for their services, he said. Those unable to pay for the required physical examination and taking of blood samples may have their local health officer or a physician attached to one of the general clinics make these without charge under the law.

In all cases, if the test shows no syphilis, the physician gives the applicant a signed certificate to present to the court. If the test shows syphilis, the examiner is required to repeat the test. If a second test

### RADIO ADDRESS OF GENERAL PERSHING

(Text supplied by our esteemed friend, Commander P. T. Wright) August 4, 1940.

"I am speaking tonight because I consider it my duty. It is my duty to tell you that, in my opinion, we face problems of the utmost seriousness, that all the things we hold most dear are gravely threatened. I must tell you that we can defend them only if we make up our minds now to speak the truth without flinching; if we make up our minds to act upon the truth without hesitating. I think you will believe me when I say that no war was ever prevented by hiding the danger and by arguing that the danger does not exist."

"The men who are best qualified to know what is going on in Europe and in Asia and in this hemisphere, the men whose business it is to know the facts, are very nearly unanimous in believing what I am saying to you tonight—that grave danger for us lurks in the present world situation. So the time has come when we must rise up as a united people to make secure our country's independence and our great inheritance of constitutional liberty."

"More than half the world is ruled by men who despise the American idea and have sworn to destroy it. They know that while one great people remains independent and free because it is strong and is brave, they can never crush finally the people they have conquered. The example of liberty here will always continue to inspire the resistance to tyranny over there. They are fanatical and they are strong. They are efficient and they are ruthless. Eight nations have tried to appease them. The appeasers of eight nations are dead or in jail or discredited and ruined. In seven of these eight nations the appeasers who would not take the danger seriously, who would not prepare when there was still time, have led their countries to disaster."

"It is not 'hysterical' to insist that that democracy and liberty are threatened. With democracy and liberty overthrown on the continent of Europe, only the British are left to defend democracy and liberty in Europe."

"By sending help to the British, we can still hope with confidence to keep the war on the other side of the Atlantic Ocean, where the enemies of liberty, if possible, should be defeated. But some are bold about what they would do tomorrow, if Great Britain is defeated, and the war comes to this hemisphere. I say to you solemnly that tomorrow may be forever too late to keep war from the Americas. Today may be the last time when by measures short of war we can still prevent war."

"We must be ready to meet force with a stronger force. We must make ourselves strong by building up our Army and Navy and the establishment of the principle of universal selected service, which means merely that the men needed are

chosen by lot. "And I am telling you tonight, because it is my duty to warn you before it is too late, that the British navy needs destroyers and small craft to convoy merchant ships, to escort its warships, to hunt submarines and to repel invasion. We have an immense reserve of destroyers left over from the other war, and in a few months the British will be completing a large number of destroyers of their own. The most critical time, therefore, is the next few weeks and months. If there is anything we can do to help save the British fleet during that time, we shall be failing in our duty to America if we do not do it."

"If a proper method can be found, America will safeguard her freedom and security by making available to the British or Canadian governments at least fifty of the over-age destroyers which are left from the World War. If the destroyers help save the British fleet, they may save us from the danger and hardship of another war. Americans should not shrink from duty because of possible hazards."

"I know that many sincere patriots are frightened at the thought of even the smallest act because they think such acts would lead us closer to the day when another American Expeditionary Force sets sail for Europe. It is my opinion that in this war it would be absolute folly even to consider sending another expeditionary force. No one is considering it and considering it are deceiving themselves and deceiving you."

"We must have the strength of those who may say that anyone is character to face the truth. Foremost among the truths which we will ignore at our peril is that the time needed to build our own defenses may be lengthened if we have the courage to make the small but important contribution which is still within our power toward the sustaining of the British defense."

"A new kind of war is loose in the world—fought with all weapons, including treason, and fought most insidiously during what some of our countrymen call 'peacetime'. It is a war against the civilization that we know. It is a revolution against all the values which we have cherished and which we wish our children to cherish in the future. It is a revolution which denies the dignity of man and which banishes the hope of brotherhood and comradeship on earth. We can see it developing right before our very eyes."

"It must be faced with daring and with devotion. We must lift up our strong hearts. We must reaffirm our noble tradition. We must make ourselves so strong that the tradition we live by shall not perish from the earth."

### NEW HOURS FOR SALE OF BEER AND WINE

A midnight curfew for beer and wine drinking will supplant, after September 15, the 1 a. m. and 2 a. m. hours now in force at different times of the year.

The new regulation of the State Liquor Board will thus slice off one hour during the September 15 to May 15 period and two hours during the summer months.

Under the new order all beer must be purchased and consumed before midnight in the establishments of licensees. The order, however, will not affect licensees with club-type licenses.

Governing bodies of localities may petition the board for an extension of the hour, in which events the board will consider moving back the curfew to not later than 2 a. m.

The opening hour—5 a. m.—will remain the same.
