Prince William County Prepares for War

TIFFANY NAMES SALVAGE AIDES

County-wide Organization For Salvage Of Needed Materials

To the Citizens of Prince William County:

Uncle Sam sorely needs certain waste materials which you now probably destroy.

It is estimated that 50 percent of the paper used in America is destroyed. From this paper might be manufactured thousands of tons of paper board which could be used for the packing of canned goods, clothing, shells and hundreds of other products. In steel, for example, one junked automobile could be used to manufacture one cannon; 20 automobiles, one tank.

The Northern Virginia Regional Defense Council has appointed a Salvage Committee to collect waste materials from 13 counties and two cities. Mr. M. J. O'Connell of Warrenton, Va. is chairman for this district. Your Committee from Prince William County is composed of the following:

Manassas: Hunton Tiffany, Chairman; R. L. Byrd, Secretary-Treasurer; Miss Sue Ayers; Mrs. W. F. Coker; Ralph Davis; O. O. Holler; P. A. Lewis; R. Worth Peters; J. P. Royer; Oswald Robinson; Claude W. Staggs; Murray Taylor; Roger Wharton; John D. Williams; F. S. Wilson; R. W. Hall.

Ocoquan: Wallace Lynn, Vice Chairman.

Triangle: Joe Amidon; Mrs. Bryant; Dudley Martin; John Pattie.

Joplin: Wm. M. Crew.

Haymarket: W. E. Corder; G. A. Gosson; Mrs. Brownie Tullus.

Hoadly: Mrs. Ida M. Davis.

Nokesville: Mrs. L. J. Bowman; Raymond Ellis; J. W. Newman; Fred Shephard.

Board Run: Mrs. Audrey.

Catharpin: Jett Pattie.

Your Committee asks that you immediately begin saving for Uncle Sam the following, of which there is already a shortage: paper of all kinds, iron, steel, brass, copper, lead, rubber, rags and aluminum.

When you have accumulated quantity of these materials (100 pounds of paper, for example), please telephone Manassas 60. Your Committee will then arrange to have this material picked up.

The collected waste materials will be sold and the funds realized will be divided equally between the Regional Defense Council and the Local Recreational Committee, which, as you know, is charged with the responsibility of providing entertainment, amusement and other such services to our men who are in the service.

If you already save waste materials, continue to do so and dispose of them as you have; if not, begin saving now. When you have accumulated a reasonable quantity, call your Local Salvage Committee, Telephone Manassas 60.

This drive is not local. It is nationwide. This drive is not for a day, a week, a month, but for the duration. Speed is all essential. I send this appeal to each of you to help us do our patriotic duty locally. However small your effort, please remember that every bit will count in the production of materials so essential to our national defense efforts. For additional information, call Manassas 60.

Hunton Tiffany

Chairman, Local Salvage Committee.

RED CROSS WAR FUND CAMPAIGN

A Proclamation By The President Of The United States

WHEREAS our country has been viciously attacked and forced into a war of vast proportions, which will inevitably bring grief and distress to many and self-sacrifice to all; and

WHEREAS for more than sixty years the American National Red Cross has played a vital role in binding up the wounds of the injured, in sheltering, feeding, and clothing the homeless, in succoring the distressed, in rebuilding broken ties, and in rehabilitating the victims of catastrophes of nature and of war; and

WHEREAS in preparation for just such an emergency as we are now facing, the American National Red Cross has been spending funds at the rate of more than one million dollars a month, which is but a small fraction of the amount that the organization now requires in order to carry out effectively its functions as an essential auxiliary of our armed forces; particularly as a friendly liaison in welfare problems between the man in service and his family at home, and as a key agency in the civil-defense plans;

NOW, THEREFORE, I FRANKLIN ROOSEVELT, President of the United States of America, and President of the American National Red Cross, do hereby proclaim the beginning, as of this date, of a Red Cross War Fund Campaign for the raising of a minimum sum of fifty million dollars; and I appeal to the American people to make this campaign an overwhelming success. Realizing the desire of every American to participate in the national war effort, I confidently anticipate an immediate response to this appeal.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States of America to be affixed.

Done at the City of Washington this twelfth day of December in the year of our lord nineteen hundred and forty-one and of the Independence of the United States of America the one hundred and sixty-sixth.

FRANKLIN D. ROOSEVELT
By the President:
CORDELL HULL,
Secretary of State.

SIREN TEST ON SATURDAY

Sometime during the noon hour on Saturday, December 20, the new Air Raid Siren will be tested in Manassas and the public is advised that as various tests will probably be made, no one should be alarmed at any of the signals during this hour.

STIMSON URGES DRAFT EXTENSION

Would Require Registration Of Men 18 to 64

Secretary of War Stimson has recommended to congress that the present limits of Selective Service Registration be enlarged to include men from 18 to 64, inclusive, requiring those from 19 to 44 liable for military service.

Brig. Gen. Lewis B. Hershey has testified before a Congressional Committee that with the present registration of 17,500,000 men from 21 to 35, this would bring a total manpower of 41,000,000, from which something like 7,500,000 might be secured for active military service.

In releasing the figures Gen. Hershey stated that there was no need for undue haste in the matter since the man-power available under the present registration had not been exhausted. "The time is not here," he stated, "but is approaching when additional men must be ready."

Following his recent testimony to the Capitol, Gen. Hershey released these figures on the number of men which he thought could be made available under the proposed extension of the present draft ages:

From 21 to 35, 2,800,000, including the 800,000 now in service.

From the proposed new 36 to 44 age class, 400,000.

From the proposed 19 to 29 group, 1,400,000.

From 18 year old men who would become subject to call shortly after registration 700,000.

From those who have become 21 since last July 350,000.

From those now rejected for minor disabilities 1,800,000.

By re-examination of those exempted for industrial employment 200,000.

By re-examination of those now exempted because of dependents 700,000.

JUNIOR WOMEN'S CLUB CELEBRATED 10TH YEAR

The tenth anniversary of the Manassas Jr. Woman's Club was celebrated elaborately after the regular December meeting of the club last Thursday evening at the home of Mrs. J. Carl Kincheloe, Mrs. Jack Merchant and Mrs. Earl Hurst were joint hostesses.

Mrs. George Sloane, of Warrenton, Chairman of Civilian Volunteer Service of Northern, Va., explained to the Club members, and their visitors, the defense program which the Civilians of this district are expected to carry out.

Miss Walser Conner announced that plans were nearing completion for the Annual Firemen, Junior Woman's Club Christmas party. The party will be held at Pitts Theater, December 23rd at 2:30 P. M. 165 County Children will attend.

The evening of Dec. 30 was decided upon and set aside as the date for the annual progressive dinner.

All members of the civilian defense committee, all chief observers of the interceptor corps, the chief air raid warden and any special assistants are asked to report to a special defense meeting called by Chairman George B. Coker, at the Town Hall Manassas Friday, evening (December 19th), at 8 P. M.

The Town Hall was crowded to the doors last Friday night as Mayor Harry Davis addressed them on the subject that is very current, namely that of possible air raids and the matter of inadvertently spreading pure rumor.

Along with other speakers, he urged the necessity of simply keeping one's head and not repeating anything as the latter might be an assistance to the enemy whose chief weapon right now is propaganda.

Mrs. Alma Ramsey, executive secretary of the Northern Virginia Regional Defense Council, gave a detailed explanation of the set-up of the council and how excellently it had functioned after the first news of the attack by Japan came over the air.

One thing that had been puzzling some was the term "air raid warden." She explained that for those who were reporting the presence of planes that the general appellation of "spotter" would be less confusing. The "air raid warden" is more properly those who function at the time of the actual raid.

In Prince William County, the American Legion's representative, Mr. E. G. Parrish, is chief "warden" in placing men to detect approaching air-craft. Captain Thomas F. Joyce, of Ocoquan, is chief "air raid" warden who will instruct volunteers all over the county as to how they may best protect those left in their charge.

Mrs. Ramsey declared that there should be at least one raid warden for every five hundred population.

Others who spoke Doctor George B. Coker, county chairman of the civilian defense committee, who told how his set-up would function. Doctor has a complete slate which he released for publication last week.

Mr. C. C. Cloe, member of the Regional Council, was also present. He told something of the part Prince William was playing in the Northern Virginia plan and also introduced Mrs. Ramsey.

CASUALTY LISTS WILL NOT BE PUBLISHED

In accordance with the government last week, this newspaper will not print casualty lists. The Government has ruled out such publications as were in vogue during the first World War, because of the known fact that such publications constantly reveal information of military value to the enemy, particularly in assisting him to keep track of troop movements and concentrations.

Instead of such publications the Navy and the Army will notify relatives as promptly as possible. Where the death of outstanding personalities is concerned, it is stated that such casualties will be made an exception to the general rule and will be given general publication.

It is stated however that newspapers will be permitted to publish stories obtained from relatives concerning the deaths of soldiers and sailors from their respective communities.

It is also revealed that hereafter draft quotas and induction calls will be considered confidential military information, not to be published as this would disclose the rate and manner of army increases. The ruling, it is stated, will not prevent the publication locally of the names of men drafted for military service.

The importance of not publishing general casualty lists is forcibly demonstrated at the present moment when Japan is most eager to find out what ships, and how extensively, were damaged at Pearl Harbor. The complete publication of casualty lists would give that information.

A gift that will last all year. The Manassas Journal. Still only \$1.50 for 52 issues.

PRINCE WM. FARMERS CO-
OPERATING IN EMERGENCY

Although there is sufficient food in this country to supply our present needs and those of our allies, a greater production of everything that we grow here, with the exception of wheat, will be necessary in 1942. During the past month, farmer committeemen have visited the farmers of the county asking for their cooperation in increasing food production during the coming year. With the outbreak of the war, this need for more food will be still more urgent. It is cooperate will now lend their full assistance in this effort.

All farmers have advised through the County Agricultural Defense Board and the farmer committeemen that it is urgent that they obtain or place orders through their dealers now for all farm machinery repair and machinery now so vitally needed.

parts needed during the coming year. Manufacturers must obtain priorities on steel for this purpose and the only way to be sure of 1942 farm machinery repair parts is to order them immediately.

Scrap steel is needed immediately to combine with pig iron in the furnaces for production of war materials and machinery. Farmers are asked to market all scrap iron—keeping only those parts that will be useful for future repairs—to help supply this urgent immediate need. The financial returns cannot be expected to be large but the results of all placing this scrap iron—keeping the useful parts—will mean much at this time in our whole defense effort.

All Prince William farmers can now aid in the war emergency efforts by:

(1) Planning for increased food production in 1942.

(2) Making immediate repairs on all machinery needed for future good and feed production.

(3) Marketing scrap iron—keeping only the useful repair parts—for immediate reworking into war materials and machinery now so vitally needed.

A FIFTH COLUMN TRIUMPH

"The United States services were not alert against surprise attack on Hawaii," reports Secretary Knox, as a Board of Inquiry headed by a Supreme Justice of the United States begins official inquiry into the debacle at Pearl Harbor which resulted in the loss to us of several valuable ships, 2,638 enlisted men and 91 officers killed, and 636 enlisted men and 21 officers wounded. The Secretary of War also reported that the Fifth Column cooperation with the enemy was the most effective witnessed in the present World War, with the possible exception of Norway.

Remembering that we live in an area exposed to possible enemy attack, we should not overlook the extreme probability that a Fifth Column is organized and waiting to give similar cooperation to any enemy attempting to bomb the National Capital.

Right here in Washington, only a few days ago, we witnessed one of the most dastardly Fifth Column blows at the security of the United States which has occurred, when a yellow Washington newspaper, in collaboration with one in Chicago, published the secret war plans of our Nation.

If anyone believes that the treasonable publication had no bearing upon the Pearl Harbor attack, he has only to read the speech of Adolph Hitler a few hours afterward, when he said: "Since then a plan prepared by President Roosevelt has been revealed in the United States, according to which his intention was to attack Germany by 1943 with all the resources at the disposal of the United States. Thus our patience has come to the breaking point."

STUDENTS BUSY SELLING DEFENSE STAMPS

The students of Osborn High are responding to the present emergency with enthusiastic generosity.

The sale of defense stamps, which began on Wednesday, December 10, totaled over \$150 at the end of the first week. To create more interest and to remind the students of the importance of each person's doing his part by buying defense stamps the school has devised the following plan.

Each home room has a roll posted on its bulletin board which contains the following information. The name of all students in that specific room, the amount of stamps purchased that week and the total amount owned at that date. These weekly reports are then turned over to the Treasurer of the school and an honor roll is posted in the auditorium upon which are placed the names of those students purchasing the highest amount that week.

The total amount of stamps sold to date running the highest.

The following are on the "sales honor roll": Bonnie Lynn, Jean Hurst, Miss Gravely, Jack Burchard, Mr. Saunders, John Cox, Robert DeChant, Betty Parrish, Nancy Parrish, Barbara Beane.

UNCLE SAM'S NEW WATCHDOGS

The United States' new destroyers are swifter, harder-hitting and farther ranging weapons of war than their predecessors in the first world war. They're still the slender, agile speedsters of sea war but the men aboard are given a great deal more protection from air raids and submarine attacks. Some highlights in the activities of these new destroyers are outlined in an illustrated feature story appearing next Sunday in the Washington Sunday Star. 33-X
