PHONOGRAPH RECORD DRIVE

Splendid Returns Of Old Or Scrap Records Noted.

Several hundred old phonograph records have already been received at some of the collection points which have been established by the American Legion in many parts of the county and from reports and comments already received it appears that several thousand can be collected before the campaign is completed. As was announced two weeks ago the old and broken phonograph records will be traded to the manufacturers for new records that will be sent to our camps throughout the world for the enjoyment of our soldiers sailors and marines. It is proposed to collect at least fifty million records and from these it is expected that about two million new records can be furnished. These will be distributed monthly so that a new supply will always be on hand and in good condition.

Collection boxes have been placed in the following places of business and it is expected that the rest of the county will be covered within a few days so that a list of the additional places can be announced next week. If any one has records they would like to give and have no way of getting them to one of these places, just send a card or phone C. W. Stagg, Edgar Parrish of M. S. Burchard, Manassas, Va. and the records will be called for when collection is made from the boxes placed in stores throughout the county.

RECORDS FOR OUR FIGHTING MEN

A year ago Mr. and Mrs. America were scouring cellars and attics and forgotten corners on the in-between floors for old aluminum items. Last month they were hunting down old rubber gadgets. And now, thanks to The American Legion, there's a nationwide quest for old phonograph records. These old records will be sold as scrap, and provide the funds for new records and phonograph players to be shipped to American fighting men here and overseas. Already millions of old records have been collected. Millions more are needed. And there is a solemn obligation to find them.

For The American Legion's Records For Our Fighting Men campaign, while not concerned with equipment for the war machine, is deeply devoted to the

U. S. O. RESPONSE IS PRAISED BY GOVERNOR

"Reports have just reached me of the magnificent response of the people of Virginia to the USO War Fund Campaign during the month of June," Governor Colgate W. Darden, Jr., said this week in Richmond, as he announced that 40 cities and counties have exceeded their quotas in the states drive.

"Already in excess of \$243,000.00 has been raised for the National USO in the 86 counties and cities which have reported on the progress of their campaigns. Thirty-eight of these are already over the top-in several instances by more than 100 per cent - in most cases by a very comfortable margin. Th Chairman, committe members and contributors in the counties and cities which have exceeded their quotas have my heartiest congratulations on the fine sense of responsibility which they have shown to our armed forces in supporting the USO so wholeheartedly.

"Of the 48 USO Committees in Virginia which have reported campaigns in progress and funds raised, many are already nearly over the top and the great majority have given assurances they will certainly make their quotas if they are given a little more time. At their request and also in fairness to the several counties which for good reasons found it impossible to begin their drive until after the 4th of July, I am extending the USO War Fund Campaign period in the State of Virginia until Saturday, July 18.

"I am sure that by that time every county and city, apart from those which plan to include the USO in the fall War Chest Campaigns, will have had ample time to complete their fund raising effort and to join the Honor Roll of those Virginia communities which have gone over the top for U. S. O."

cause of the men on whom we depend to run that machine. These men are Americans with a profound love for good music. Because they're Americans they like all kinds of music, and because they're in many cases far from home, the music that springs from America not only provides recreation and entertainment for them, but also serves as a reminder of the things American which we all treasure, which we're fighting for.

These factors should count heavily in your all-out support to The American Legion salvage campaign. Time is growing short; August 2 is the deadline. By all means, help the Legionnaires and their co-workers in achieving success in the good work which they have undertaken.

KIWANIS OBSERVES INDEPENDENCE DAY

Parson Graham was again a welcomed speaker before his fellow Kiwanians on Friday night when he gave a talk on the "faith of our fathers" in their struggle for the right to liberty and the pursuit of happiness.

Urging a greater return to the simple faith of the men who made the United States possible, Parson gave a talk that should have been heard by a great many more than the small group which made up his audience. Such earnestness can not fail to be the source of the same sort of inspiration as that which filled the bosoms of the fifty six signers of the Declaration of Independence.

One fact which he brought out was that the Liberty Bell, forged for that purpose, had been in waiting for its task more than twenty years.

The Club had the privilege of adding to its numbers Hypolito Monserrate, a real dirt farmer and business man. He was introduced beneath a shower of learned revelations on the part of Kiwanian Sigman as to the mysteries of Kiwanis.

SPLENDID WORK

With incomplete reports yet on hand, it would appear that the scrap rubber sent into Washington from this county will surely exceed a hundred tons for this figure had approximately been reached last week.

Individuals all over the county did outstanding volunteer work better results than Dr. Lanahan, who collected and took in, gratis, the best part of a ton of rubber.

Final figures will not be reported until after the Journal goes to press this week.

PLANTING PLANS FOR HIGH SCHOOL

Osborn Alumni Will Finance Landscaping Of Grounds

At a called meeting of the executive board of the High School Alumni Association last week at the home of the President, Mrs. Keith Lyons, plans were made for raising a fund among the alumni for the completion of the parking of the school grounds. Mrs. R. C. Haydon was appointed chairman of the committee and it was decided to send out a circular letter descriptive of the plan to members of the alumni to ask their interest and help. It was also decided to have a partial reprint in the Journal of the talk on the plans made at the Banquet this year by Miss Eugenia Osborn.

In this address, after suggesting that the book sale, or other annual entertainment for the Library benefit, hitherto sponsored by the alumni be deferred this year in behalf of the plan for completing the school parking, Miss Osborn said in part: "The work of parking the school grounds dates back some twelve years. It was begun by a survey of the grounds made with the help of some of the students, and a request was then sent to the Virginia Polytechnic Institute for a planting plan. The college generously cooperated and sent a designer, Mrs. McBryde, a trained landscape artist, who prepared a detailed blueprint design for the entire grounds. The work has since been carried on each year a little at a time, as no funds were available for purchasing plants except contributions from the Parent-Teacher Association and the two Garden Clubs. The actual planting has been done each year by the agriculture class and its instructors. The school Board has helped with the grading and terracing, and one year a very considerable planting of the beautiful flowering hedges along the school walls was carried out mainly through Mr. R. Worth Peters who secured the labor from a neighborhood convict camp. The convicts dug and filled in with rich earth the long trenches required for the hedges."

"A considerable part of the grounds has now been planted with large groups of shrubbery and some fine trees and evergreens. But much remains to be done. More groups of shrubbery are needed around the picturesque, new home economics cottage and along the boundaries and walks, and more trees, with dogwood perhaps, along the rear of the grounds to give depth and background. Valuable suggestions for carrying forward this work were made this spring by the state supervisor of school grounds, a graduate of the school of landscape architecture of Cornell University. The supervisor was sent by the State Department at the request of the school.

"The new members of the alumni and all who have recently visited the school know how beautiful the grounds are beginning to be, and when the work is completed, they will be a thing of beauty for years to come. Our people now, moreover, have ample opportunity for developing an appreciation of beautiful things. For in nearby Washington they may see one of the most superb cities in the world, and in the not distant Skyline Drive they may have before them some of the loveliest scenery on earth. In our home town we cannot, of course, have the Skyline landscape or the magnificent architecture of Washington or its great art galleries; but, if we complete the creation of the park around our school, we can at least enjoy some of the ordered loveliness of the Washington parks and public grounds. We need only to work together to secure some of this gracious beauty for ourselves and our community.

It is interesting to note in connection with the above discussion that two of the finest young trees, now growing on the school grounds, a white pine and an American elm, were planted in 1932 by the Masons and the Kiwanis in commemoration of the George Washington Bi-centennial.

PRICE CEILING REGULATIONS

Every Dealer Required To File Schedule

The general Maximum Price Regulation requires that on or before July 10, 1942, every person offering to sell cost-of-living commodities at retail, file with the local War Price and Rationing Board in his city, town or county, a statement showing his ceiling price for each such commodity, which must be no higher than his highest March, 1942 price for the same commodity.

HOW TO FILE

No special forms will be furnished the retailers for the filing of cost-of-living commodity ceiling price lists. The regulations require that the retailer use standard size paper and give an appropriate description of the commodity, indicating the brand, the trade number, the manufacturer, or other appropriate description or identification of the commodity.

COST-OF-LIVING ITEMS

TO BE POSTED BY MAY 13

On or before May 13, 1942, every person offering to sell at retail any cost-of-living commodity is required to post in his store his ceiling prices, based on his March, 1942 prices. The price tag or poster should indicate that the price thereon is the ceiling price for that particular commodity by use of the term "ceiling price" or "our ceiling price." The guiding rule is that the consumers should be able to see the ceiling price marker when standing at the point of purchase without having to ask or look for it, and without having to thumb through pages.

CEILING ON APPLIANCES

While the General Maximum Price Regulation places a ceiling over all prices, except those explicitly exempt by Sections Nine and Ten, only the cost-of-living commodities listed in the official schedule of cost-of-living commodities must be filed with the local War Price and Rationing Board, and posted in the retailer's place of business. Records of all other March, 1942 prices of the retailer should be kept on file in his place of business. The list of cost-of-living commodities which must be posted in the retailer's place of business, and filed with the local War Price and Rationing Board is as follows:

SCHEDULE OF COST-OF-LIVING COMMODITIES

TOBACCO, DRUGS, TOILETRIES, AND SUNDRIES

Tobacco:
Cigarettes.
Smoking tobacco, in cans and packages.
Packaged household drugs:
Aspirin tablets.
Milk of magnesia, liquid.
Cod liver oil, liquid.
Epsom salts.
Boric acid.

SAFeway Homemakers' Guide

NUMBER 51 ★ Tips worth reading on menu planning ★ A list of foods you'll save money by checking ★ What one girl learned about so-called "week-end specials"

Want to know how to
save lots of time in
your food shopping?

The answer to the above question is "Plan your menus ahead of time." Planning meals in advance not only saves you time, money and trouble, it is, today, practically every patriotic duty. For today every minute must count—every meal contribute to health and economy. These few tips suggested by the Safeway Homemakers' Bureau, should help in your menu planning.

Tip No. 1—Plan menus several days in advance, a whole week if possible, so you'll see your food picture as a whole. Then check to make sure you've included plenty of variety and a balance of foods needed for good nutrition.

Tip No. 2—For good nutrition, each day's meals should include at least a pint of milk for adults, a quart for children; an egg per person, or at least 3 to 4 eggs a week; some enriched or whole grain bread or cereal; a tomato or citrus fruit or their juices; another serving of fruit; at least two servings of vegetables besides potatoes, one preferably green, leafy, or yellow; a serving of meat, fish, chicken, or sea food; some butter or vitamin A fortified margarine; and whatever desserts and special treats you like.

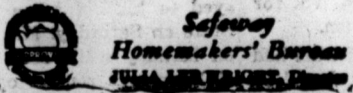

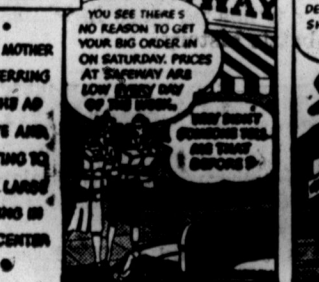

Tip No. 3—Even the best food tastes better served attractively. Be sure to include in every meal a pleasing contrast of shapes, colors, and textures, as well as contrasting temperatures and flavors. A well-known nutritionist has said that if you are color-conscious and include food that's white, green, yellow, and red in each day's menus, your vitamins and minerals will take care of themselves.

Tip No. 4—Plan menus on a regular, definite day in the week, whenever's most convenient for you, and allow yourself plenty of uninterrupted time to do a really good job.

Tip No. 5—It's more fun to plan meals when you're a little hungry, and your ideas may be better then, too.

Tip No. 6—Many homemakers find it easiest to plan breakfasts for the week first, next dinners, and finally lunches or suppers. This scheme lets you check over breakfast and dinner for each day before planning the third meal, so you can make sure it completes the nutritional picture.

The Manassas Journal
SILENT THOUGHT AND PRAYER

If parents will have their children memorize the daily Bible readings, it will prove a precious heritage to them in after years.

"About midnight Paul and Silas were praying and singing hymns unto God." Acts 16:25 (R. V.).

A WELCOMED INVITATION

On Tuesday next Director Jakemann and his faculty, together with the student body, will hold "open house" in honor of the second "birthday" of the local set up.

The good that this school has accomplished can hardly be measured in words. It has not only meant something different to the students through the curriculum and the pleasant working conditions afforded but it has actually made a very valuable contribution to the war effort, first through the young men who have gone out by the hundreds but also more recently through the girls who have been trained in the shops.

It has become so thoroughly a part of the town that it has been accepted as a matter of fact rather than as a wonderful piece of constructive accomplishment in community growth.

We advise our readers to help the school celebrate this anniversary by attending either the Assembly in the evening or by going through the shops which will be open all through the day, with willing guides to show one around.

QUALIFY IN CIVILIAN DEFENSE

As announced elsewhere in this issue a new Civilian Defense Training Class is being started in Manassas on Friday, July 10 at the Town Hall, and we urge every citizen, both ladies and gentlemen, to take this opportunity to qualify as a Civilian Defense worker.

The Virginia Blackout Law (Executive Order No. 69) requires completion of a prescribed civilian defense training course before one can be certified in any of the various branches of this important protective work.

This is a wise provision, for two reasons, (1) because it insures that defense workers know

THEY NEED NO BANKS IN

Shangri-La

SHANGRI-LA, that mythical land where the Japs think our bombers are based, is one of the few places that can have no possible need for banks.

They don't use money there, so they have little use for checking or thrift accounts, personal or commercial loans, or even for free financial advice.

But Shangri-La is the exception that proves the rule. A modern community like ours must have banking facilities if it is to grow and prosper. This bank is more than a necessity to be used only in times of emergency—it also is an ally, ready and willing to help you in every way. Use your bank.

AN EXCELLENT IDEA

To the Editor:
I feel that the public is not doing its share in helping to God for his help to be on our side in the country's present condition.

Would you see that the Journal does its share in asking the people to help with this first defense of our country? We must remember that all of our soldiers, sailors, and marines are of little use if God is against us.

Thank you for the help we expect you to give us in this need.

Don't wait until it is too late and it may be later than we think.

Someone trying to help.

SUGGESTED FOR JUNK

We read that in some sections of the country historic relics of heavy weight are being turned over to the scrap iron drive, and this reminds us of a piece of junk iron, weighing many tons which ought also to be scrapped, if its salvage value is sufficient to justify its transportation.

We refer to that huge siege gun on the Manassas Battlefield Park. It has no place there and disrupts the historic setting of the park. It is of the vintage of Spanish-American War days. There was no such piece of artillery in use at either of the Battles of Manassas, and whoever secured it for the park must have been intrigued by having some kind of big gun there, regardless of the befitting character of the gift.

It would be just as appropriate to have an airplane on the Yorktown monument, as to have this huge breech-loading siege gun on the approximate spot where Stonewall Jackson made his immortal stand.

So we make the suggestion for what it may be worth, even if that is not very much, that this inharmonious relic go into the scrap-iron drive if it is worth the cost of transportation. Possibly it could be blown up into smaller pieces to expedite removal. Certainly it has no place in Manassas battle history.

She has wandered into an unknown land, And left us dreaming how very fair It needs must be, since she lingers there.

And we and you, who the wildest yearn For the old time step, and the glad return, Think of her faring on, as dear In the love of There as the love of Here.

Think of her still as the same, I say; She is not dead. She is just away!

SUMMER HOURS: 8:30 A. M. to 2:30, MONDAY & FRIDAY.

RECENT BOOKS:

In addition to some outstanding books referred to in a recent article, the Library has also received a number of the latest fiction best sellers;

Cronin's *The keys of the kingdom*; Llewellyn's *How green was my valley*; Knight's *This above all and Lassic Come-home*; Ferber's *Saratoga trunk*; Shute's *Pied Piper*; McKay's *They came to a river*; Steen's *The sun is my undoing*; Chase's *Windswept*; Glasgow's *In this our life*, this year's Pulitzer prize winner; and Pearl Buck's *Dragon seed*, the winner of the still greater Nobel prize. Rawling's *Cross Creek* and Steinbeck's *The moon is down*, a story of the Nazi conquerors of an invaded land by the author of *The grapes of Wrath* are also listed and Werfel's *The song of Bernadette*. Franz Werfel, the Jewish author of this book, while escaping from the Nazis found refuge at Lourdes and was so moved by the amazing story of Bernadette Soubirous, the little French peasant girl, of Lourdes, and her voodoo vision that he vowed that if ever he reached the saving shores of America he would in gratitude write her story. The song of Bernadette is the fulfillment of his vow and it is a beautiful novel with its deep and penetrating understanding of the infinite variations of the human soul.

Among other novels received during the year are Proust's *The remembrance of things past*; Tolstol's *War and Peace*—often called the greatest novel ever written, a story of Napoleon's invasion of Russia and very pertinent now in the present Russian Harvest; Conrad's *The rescue and Victory*; Anatole France's *Revolt of the angels*; LaFarge's *Laughing boy*; Stoddard's *The lost gold of the Montezumas*; Glasgow's *Battleground*; Griswold's *Sea Island lady* (the last two are Confederate stories of Virginia and Georgia) and Buchanan's *Richard Hannay* series, thrilling spy tales of World War I. Several excellent mystery stories by Mary Roberts Rinehart, Ellery Queen, Agatha Christie, Earl Stanley Gardner and others have recently been added.

The Library likewise has an unusually good collection of biography—a field of reading always worth while and often improving and delightful. Among recent acquisitions are: Stalin, Czar of all the Russias, by Lyons; Johnson's *Roosevelt, Dictator or Democrat*; Kraus' *Winston Churchill*; Nott's *Young Churchill*; Van der Heide's *My sister and I*, the diary of a Dutch refugee boy; Buchanan's *Pilgrim's Way*; Fraser's *Famous American flyers*; Douglas' *I rode with Stonewall*; Guedalla's *Fathers of the Revolution*; Mattingly's *Catharine of Aragon*; Damon's *Granma called it carnal*; Carre's *The trail warrior* (life of Robert Louis Stevenson) and for those interested in the great Romantics, Byron and Shelley, two very readable books, Armstrong's *Trelawney and Barrington's Glorious Apollo*. Two books of unusual interest just received are Lucas' *Man's first million years*, the marvelous story of Man's long history on the earth, and Skinner's *Myths and legends of flowers, trees fruits and plants*.

What You Buy With
WAR BONDS

The power of the greatest Navy in the world, our own two-ocean fleet, rests in large measure on its backbone—the Battleships of the Line. They displace approximately 35,000 tons and cost up to \$70,000,000. We have something like a score of these huge ships in the Atlantic and Pacific.

Eight huge battleships are under construction and more are contemplated. To finance these modern goliaths of the sea it is necessary for every American everywhere to buy more and more War Bonds. We can do it if everybody does his share. Invest at least ten percent of your income every pay day to help your country go over its Bond Quota.

"SONG OF THE ISLANDS"
COLORFUL MUSICAL

Imagine blonde, lissom Betty Grable being made love to by handsome Vic Mature in a South Sea island setting, and you will get some idea of the treat in store for moviegoers when they see 20th Century-Fox's Technicolor musical "Song of the Islands," Wednesday, Thursday and Friday, July 15, 16 and 17.

Filmed under the aegis of ace director Walter Lang, this latest musical adventure into the lazy, care-free life of the South Seas, offers practically everything in the way of top screen entertainment.

With the rotund Jack Oakie handling the comedy, assisted by Thomas Mitchell and George Barbier, the film takes us to a small outpost of the Pacific where Mitchell and his daughter, Betty Grable, are striving to keep the island unspoiled from the encroachments of civilization. Tycoon George Barbier sends his son, played by Vic Mature, down to the island to take care of the cattle ranch which he owns. Vic's side-kick, Jack Oakie, goes along for laughs.

Under the spell of the tropical moon and in a setting of breath-taking beauty, Betty and Vic fall in love to the strains of a number of smash songs his, written by Mack Gordon and Harry Owens for the picture. These include "Down on Ami, Ami, Oni, Isle," "O' Brien Has Gone Hawaiian," "Sing Me a Song of the Islands," "Maluna, Malollo, Mawaena," "Blue Shadows and White Gardenias," and "What's Buzzin' Cousin." Authentically interpreted by Harry Owens and His Royal Hawaiians, the songs serve as background for some colorful production numbers with plenty of South Seas gals swinging and swaying to the hula rhythms.

Also featured in the cast are Billy Gilbert and Hilo Hattie for some clever comedy characterizations. Hilo Hattie is out to get her man—and her man is Oakie! With an assist from Gilbert, she nearly gets him—much to the amusement of all. The script was written by Joseph Schrank, Robert Pirosh, Robert Ellis, and Helen Logan. William LeBaron was the producer, and Hermes Pan staged the dances.

50 Million of 'em couldn't win a war

A steel-plated, mechanical robot soldier would be invincible, except for one thing:

He has no heart.

In the heart lie courage, spirit and the will to win.

This is not something that soldiers get in battle. It is something that is built between battles—in the training camps, at home.

It's the job of the USO to nourish this spirit... to keep our soldiers of good heart.

The USO gives men a place to go where they can relax, laugh and have a good time off-duty... a place where their free hours are happy hours... a home away from home.

It's important! This job the USO is doing! Our men need relaxation and recreation off-duty to do their work more efficiently on-duty.

That's why the USO is calling on you for help. It needs dollars, *your dollars*, to carry on... to help our soldiers win our war.

Join in this great work. Give all you can to the USO. It's vital!

LEE VOLUNTEER REGIMENT RECEIVING MANY ENLISTMENTS

Naval officials at the State headquarters of the recruiting service here expressed satisfaction with the first week's response to the largest Naval recruiting program ever to be undertaken in World War No. 2. More than 2,000 young Virginians will be recruited this month as a regiment from the Old Dominion.

In order to assure the necessary amount of recruits for this program (your name) County's quota for this drive has been set at 25 recruits by July 31. Lieut. Charles L. Kessler, navy station head said this week.

Each Volunteer for the Lee Regiment will receive a certificate showing that he belongs to this famous group. In addition, mothers of the Volunteers will receive a Sterling silver pin designating that their sons are serving in the Navy.

Because Selective Service quotas for Virginia during this month have been greatly increased, Naval state their belief that many young men of draft age will take advantage of the opportunity of joining a purely Virginia group such as the Lee Regiment and will volunteer for service in this group.

Rockbridge County led the first week of the Naval recruiting drive with more than 80 candidates for the Volunteers and prospects are that this county alone will soon pass the hundred mark, Naval officials stated.

Virginia civic clubs in close cooperation with the press of the state were praised by officials in charge of the drive who stated that the Old Dominion was proving its ability to answer the call for "all-out" assistance in the war campaign.

OCOQUAN

Ocoquan, Virginia.
July 6, 1942.

The Manassas Journal.

Dear Sirs:

Ocoquan Community has lost its oldest citizen last Sunday, in the death of John Tanner who then resided with his daughter, Mrs. Maude Tanner Clarke of Lorton. Mr. Tanner lived in Ocoquan for a number of years, during which he was the Miller at the Janney Mill in Ocoquan. He was a leading citizen of the community, and even though he has been unable to get out for the past few years, he will be greatly missed in the community. He was laid to rest at Old Pohick Church Cemetery beside his dear wife who was laid to rest there a few years ago. Our sincere sympathy goes to his dear ones left to mourn his departure from this world.

Ocoquan may well feel proud of one of its citizens in the person of Mr. H. Caldwell Slack who gave up his position as Asst. Superintendent of the Industries at the D. C. Workhouse and Reformatory at Lorton, to join our armed forces and fight for his country. Mr. Slack gave up this very important and lucrative position because the spirit of patriotism kindled in his heart the desire to do what he could in the defense of his country and all it stands for. We salute Mr. Slack on his decision. If we had many more like him, how wonderful it would be for our country. HIS PARENTS SHOULD FEEL VERY PROUD OF HAVING A SON SO PATRIOTIC, as to give up his position and join our Armed Forces. Some slackermongers may criticize his and he expected such criticism, but those who may criticize should kneel and Pray to God for such men as Mr. Slack; and pray they may return safely after the peace is made.

The following names Citizens of Ocoquan and nearby communities are full fledged members of the O. W. L. Volunteer Fire Department, for 1942, they having paid the requires dues for membership:

Messrs: E. R. Shanklin; John A. Musselman; John A. Musselman, Jr.; Thomas F. Joyce; Robert S. Hall; Robert W. Hall; Allen A. Bourne; William F. Weidner; J. C. Rowan; Walter Haislip; LeRoy Petellat; A. J. Petellat, Sr.; Howard Petellat; William O. Sanford; Marshall E. Davis; H. T. Lohr; Roscoe Clarke; Warren P. Clarke; Claude M. Green; W. T. Berrett; Clarence B. Jett; Robert F. Roberts; H. L. Mooney; John A. Riley; Douglas Riley; John C. Riley; William A. Barbee; William R. Wood; Eldon D. Carter; K. I. Davis; William M. Arnold; D. Damewood; George Cross; Gilmer Garber; W. G. Gesky; M. J. Best; C. W. Hanger; J. W. Lowe; Tommy Arrington; Lacey Harvey; M. R. Hafer; E. J. Dwyer; H. Wicker; Ralph E. Beahm; F. M. M. Lamphier; M. T. Duval; Hobart B. Lynn; C. H. Humphries; David R. Eike; R. W. Stotler; Wallace Lynn.

A grand LOT of patriotic citizens, who, if they are unable to render service to our country on the field of battle are doing everything they can to protect our home front. Some folks have to protect the home front; though a great many SELFISH ones never think of anything but themselves.

Thos. F. Joyce.

CHAMBER OF COMMERCE AND
FIREMEN UPSET LEADERS

The Chamber of Commerce Team smashed their way to their first victory of the season in dowing the Kiwanis Teams in a slugfest 18-12. Saunders, Fox, and Rohr were the sluggers for the cellarites, while Lynn, Kline, and Byrd led the stickwork for the losers. Mills played a brilliant defensive game for the Commerce.

The Firemen jumped back into a tie for second place by defeating the American Legion Team 7-6 by a last inning splurge. Whetzel banged out a single with the bases jammed to bring in the winning run. Bolding and Cross aided in bringing the victory to the Firemen. Marshall was the only Legion man able to collect more than one hit during the game.

THEY'RE WORKING FOR VICTORY — AND EDUCATION

These three young graduates of Virginia rural high schools are the first of many who are expected to enrol in the "War Work Plan" inaugurated by the College of William and Mary to give financial assistance to students and at the same time supply labor for war industries on the Virginia peninsula. This summer they are working full time to earn funds for their college entrance expenses. When classes start in the Fall, they will work three days a week and attend classes the other three. Left to right are Edwin Ellett of Midlothian, William Holland of Surry and Allen Tanner of Victoria.

Ever since 1935, when 100-octane gasoline was first produced by Esso research, we have supplied it to the U. S. Air Forces, and have turned over to other refiners the working details they needed to make it cheaply and quickly. And greatly to America's gain, the improvements in plane and engine designs take full advantage of this super-fuel.
