To my friends:
 I wish to take this means of expressing my sincere appreciation for the beautiful flowers and cards and expressions of sympathy sent me while I was sick in the hospital. To the Churches, organizations and individuals, I am deeply grateful for them all.
 If you have a friend sick in the hospital or one in the armed forces of the U. S. A. write them. It helped so much.
 Respectfully,
 C. H. Wine,
 Mount Alto Hospital,
 Washington, D. C.

WAR BOND CONTEST PROVES POPULAR

While Schicklgruber continues to sap the life of enslaved European farmers — American farm people, determined to preserve their freedom, roll up their sleeves to speed the sale of War Bonds. Thousands of letters from all corners of the Union, literally totaling bushels of ideas on WHY FARMERS SHOULD BUY WAR BONDS have already been received by the Allis-Chalmers Tractor Division in response to their nation-wide "Win-the-War" Bond Contest. The flow of suggestions is steadily increasing.

Farm written letters also explain how people living off the land and not having a set of salary or wage can buy War Bonds. William H. Saxman, Portland, Indiana, says he is able to buy Bonds by setting aside a cream check a month. Mrs. Clara Smith, Woden, Iowa, buys a bond a month with egg money. Florida farmers have stepped into the national limelight with the Victory pig idea. They select one of their best pigs, mark it with a V, give it a high speed market finish, sell it and put the money in War Bonds.

The far-sighted, down-to-earth reasons, all of which will be passed on to Uncle Sam, can be typified by a paragraph from a letter written by J. Ward McCague, Ralston, Oklahoma. He says: "War Bonds will help win the war, aid in the prevention of inflation, stop deflation, raise our present standard of living and provide us with our safest investment for the future."

Generous prizes are offered by the Allis-Chalmers Tractor Division for the soundest reasons why farmers should buy War Bonds submitted in a letter of 100 words or less. A thousand dollar War Bond, an exciting free trip to the Great Lakes Naval Training Station, to the Allis-Chalmers Milwaukee plant and, conditions permitting, a cruise on a U. S. Navy boat await the winner and another family member. One hundred and twenty-four other big prizes range upward from \$10 in War Stamps to a thousand dollar bond.

Contestants may enter letters until midnight September 15, 1942. While entry blanks are not needed, the official entry blank and contest information can be secured from P. A. Lewis, the local Allis-Chalmers dealer. The serial number of the entrant's Bond should be listed and he (or she) must reside on or operate a farm. All letters automatically become the property of Allis-Chalmers and the United States Treasury Department.

JOIN THE LEE NAVAL VOLUNTEERS

Today, every true American is asking himself one question. It comes from the heart: "How can I serve my country most?"

Many of your friends have already answered your country's call to service. More will be going. You, too, are ready, eager to do your part. But you want to serve and rightly so, where America needs you most, where you can do the most for your country and for yourself.

Choose now while you can, make your decision carefully. But make it while you still have time. Choose a service that will give you action, thrills, adventure and travel. A service where you will live a rugged, healthy outdoor life that will build you up physically. A service that will make you an expert at a skilled trade, fit you to do a better fighting job now, fit you to land a better peacetime job later on.

Take a step you will be proud of all your life. Volunteer now with the Lee Naval Volunteers at your Navy Recruiting Station which is open in the Post Office Building at Manassas.

**We all have a date with VICTORY...
 ... but first we have a stupendous job to do!**

AND LET'S NOT FOOL OURSELVES—it's going to need some real doing.
 However, America has what it takes. Proof of this we've seen... when our forces have gone into action... when war production meshed into gear... when the railroads showed what they could do, transporting men, supplies and materials... when Uncle Sam's civilian nieces and nephews revealed the power of American morale on the home front.
 We needn't tell you that railroad business is not as

usual. Railroads are a vital arm of America's fighting power. Our country looks to our railroads as *The Mainline of Freedom*. That's the first job of Chesapeake and Ohio Lines... and every other railroad.

So if you, as a civilian, are asked to restrict your traveling... to give up a reservation... or to experience occasional inconvenience or delay... we know you'll do it cheerfully... and understandingly. Being patriotically patient is one more way in which you can help keep America's date with Victory!

BIBLE THOUGHT AND PRAYER

The Lord will give strength to his people, the Lord will bless his people with peace.—Psalms 29:11.

UPHOLD HIS RIGHT ARM

Howard Smith rises above the throng with accomplishments that more than once upset unpatriotic plans and awakened the rest of Congress to what was going on.

While the same efforts have been made here as in France to selfishly submerge the real interests of the public, our great civic leader of the 8th District has literally lived at his desk, constantly alert to all such moves and darting into their midst with some sudden stroke of genius that more than once upset unpatriotic plans and awakened the rest of Congress to what was going on.

In very recent weeks all of us have again been made aware of subversive efforts that have sapped at the roots of our Commonwealth. The foreign saboteur has been one of the chief elements of this rat-like set-up. How many of our readers have stopped to think that without the enemy-alien bill which Howard Smith fostered many months before actual warfare broke out our Federal Bureau of Investigation would have been hampered and in some cases made impotent.

It was the far-reaching sense of this great leader which unveiled to him a picture now apparent to all. He has stood almost alone in many cases but equally unafraid of the storm that might be engendered by legislation so sorely needed. The "Purge" held no fears for him then and it holds none for him now.

We realize that transportation is not so convenient as it was in normal times but this is no time to quibble. We are asking for the vote of "confidence" that will strengthen and uphold the right arm of Howard Smith in his weary battle against the many forces that would tear down a government for which our forefathers and his fought and bled to put into existence and for whose principles the suc-

ceeding generations of this Commonwealth have been equally willing to die.

It is not a time for small politics. It is an hour when the very foundation of this country is in danger. We owe the same duty to the succeeding generations as did the framers of the Constitution to their heirs.

Let us show the entire United States - yes, the whole world, that the Eighth District of Virginia has not degenerated nor forgotten its duty. —Stafford Ranger

POLITICAL RACKETEERS

When we finished reading the announcement of Hon. Howard Smith, it seemed difficult for us to say anything that could possibly be worded in the same masterly and precise fashion.

The attack on Smith is all a part of a hollow scheme to use patriotism, as the labor union leaders interpret it, for a cover for the real purpose behind the whole farce. Howard Smith is a national figure and the labor union "Hitlers" would have a "fest" if there were anyway in which they could fool the independent and sensible voting majority of the Eighth District.

Show your appreciation of Howard Smith by giving him not merely a token majority but by letting the self-styled bosses of America know in the most decided fashion possible that they can not control this Congressional District. —Commonwealth-Monitor

The Observer Says

On August 4 the voters of the Eighth Congressional District of Virginia will choose between retaining their present distinguished Representative, Hon. Howard W. Smith, or replacing him with the Secretary-Treasurer of the International Machinist Union.

There is no question as to what these counties of Northern Virginia will do. They have followed the courageous fight which Howard Smith has made in Congress against the alien enemy and the labor racketeer. They have witnessed how he alone, of all members of Congress, has been able to get constructive legislation through his branch of the national legislative body, an effective anti-strike bill which would remove the knife that radical labor continuously holds at the throat of our Government. They know that while our boys are dying by the thousands on many battle fronts, these labor racketeers are mulcting millions of dollars from honest working men and possess the power at any time to absolutely paralyze our war effort. They have seen organized labor block in the Senate the Howard Smith bill which went through the House so swiftly, and now they are being asked to punish the most distinguished foe of the labor racketeer by replacing him in Congress by one of these "International" labor officers, who by the very name of the organization he represents, gets his orders and inspiration from abroad.

We urge our readers to carefully study the announcement by Hon. Howard W. Smith in this week's issue of this news-

paper. It speaks for itself. He speaks eloquently and honestly and we do not see how anyone save that he is at heart a fifth-columnist or is misinformed or underhanded duplicity, could fail on August 4 to cast his vote for Howard W. Smith. —News Observer

THE SPY TRIAL

We are not bloodthirsty, nor do we, as commonplace examples of the general public, seek immediate execution of the eight spies, regardless of all considerations; but, like most plain folks, we cannot understand why so many generals and "big shots" have to be occupied with the conviction of eight enemy agents, caught with the goods.

It will be a good trade, seemingly, if such fellows can tie up our high Army officials in such number, when their seeming intelligence and abilities should be working within the channels of combat activity against the enemy. Regardless of what the Supreme Court of the United States now does, it seem that this trial has been drawn out far too long and it is time for action. Either they ought to be turned loose with deepest apologies to Adolph Hitler for having interrupted his efforts to destroy life and property here, or they ought to be shot forthwith.

VAN HEFLIN STARS IN "GRAND CENTRAL MURDER" THRILLER!

Heflin, whom most fans will recall for his fine performance as Robert Taylor's pal in "Johnny Eager," fairly scintillated as the wise-cracking young sleuth of Metro-Goldwyn Mayer's new mystery drama. His pace and timing were just about perfect, as he unravelled a most complicated crime plot.

When Heflin takes over, there are ten suspects held by Sam Levene for the murder of a beautiful dancing star. Levene, in another of his bungling inspector roles, proves them all guilty, only to discover he can't hang them all.

Then Heflin, who is one of the leading suspects, makes an investigation of his own, proves nine of the ten innocent, and reveals how the crime was committed.

Also outstanding is Patricia Dane, as the glamorous victim despised by all. She contributes considerable beauty and acting to the story. Virginia Grey, as Heflin's wife and assistant, gives another of her fine performances and also helps in the solution.

POWELL BREAKS ALL DANCING RECORDS IN GAY NEW MUSICAL

With what appears to be effortless grace, Eleanor Powell cracks all dancing records in a group of striking new routines in her latest Metro-Goldwyn-Mayer picture, "Ship Ahoy," which comes to the Pitts Theatre next week on Thursday and Friday, August 6-7.

She invariably brings a new dance novelty to every picture, but this time there are five. She has a lovely chorus of Hollywood loveliness to aid and abet her.

Dancing, however, is not all that makes this picture highly entertaining. Red Skelton's comedy, with that of Virginia O'Brien and Bert Lahr, combine with the lilting music of Tommy Dorsey's famous orchestra. First rate supporting roles are played by William Post, Jr., Stuart Crawford and Bernard Nedell, with top-flight direction by Eddie Buzzell.

The story carries Miss Powell as an innocent victim of saboteurs into a colorful Latin-American atmosphere where Red Skelton promptly falls in love with her. The plot is gay and exciting.

Miss O'Brien sings a comedy song, and Lahr has one called "I'll Take Tallulah" that rocked the audience with mirth. Skelton even ventures a song, but mostly limits his part to the comedy in which he excels.

WAR BONDS

Tractors and motors will never wholly replace the Army Mule as a factor in the mobile units of our army. The Army Mule is a tradition and the "mule skinner" is a breed unto himself. Army Mules are used by the Field Artillery and the Cavalry in areas where the terrain is rough and tractors cannot operate.

Pack trains in mountainous sectors are often necessary and here the mule, slow but sure-footed, plays an important role. Our Army buys thousands of mules paying from \$175 to \$190 for each. The mule eats less, carries more, and some declare is smarter than the horse. Your purchase of War Bonds and Stamps helps pay for these Army Mules. Invest at least ten percent of your income in War Bonds every pay day. U. S. Treasury Department

War Research

In war the advantage is on the side with the best weapons. The work of scientists in America's research laboratories, developing new materials and new equipment, means a lot to our fighting men.

1. It takes years to build up and equip a large, organized, and able staff for research. Fortunately, industry did this long ago.

2. Long before Pearl Harbor, laboratories like General Electric's were serving their country—solving technical problems of war.

3. History repeats! In the last war "radars" was developed for military needs—to become, with peace, a giant broadcasting industry.

4. So it will be this time. Research will help to win the war, and its many wartime discoveries will help to build a better future.

General Electric believes that its first duty as a good citizen is to be a good soldier.

CHRISTIAN SCIENCE

"Be perfect, be of good comfort, be of one mind, live in peace; and the God of love and peace shall be with you." These words from II Cor. 13:11 comprise the Golden Text to be used Sunday, August 2, in all churches and societies of Christ, Scientist.

The subject of the Lesson-Sermon will be "Love." Included among the Scriptural selections will be "Beloved, let us love one another: for love is of God; and every one that loveth is born of God, and knoweth God. He that loveth not knoweth not God; for God is love" (I John 4:7, 8).

The following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy, will also be included: "Universal Love is the divine way in Christian Science" (p. 266).

PORK GOAL IS PASSED

Virginia Farmers Exceed Another On Hog Production

Neighborhood committeemen of the County Board of Agriculture can tell their neighbors that Virginia farmers have doubled the goal set for spring pigs and are getting ready to market much more than the goal of 202 million pounds in 1942. However, surpassing the goals does not allow for any let up in the Food for Freedom program. It is highly important to continue to use the very best feeding and management practices. It is necessary that fall marketings begin as early as possible for two reasons. There is likely to be a shortage of pork for consumers, despite the increase in marketing, and, more serious than that transportation and packing facilities will be swamped, as most of the fall marketing is done in the usual six to eight weeks.

The spring pig crop for the County is estimated at 62 million head, 27% over 1941. U. S. Farmers say they will have 22% more farrowing this fall compared with farrowings last fall. It is told, the 1941 pig crop may total 135 million head compared with 85 million in 1941.

Virginia's spring pig crop is 32% over 1941, and is the largest on record.

G. C. Herring, animal husbandman, Agricultural Extension Division of V. P. I. suggests the use of self-feeders containing corn or ground small grain in one compartment and a high protein supplement in the other. (Full information about self-feeders can be had from the county agent.)

BYRD RAPS NEW SUBSIDY PLAN

Tells Senate Body His Views On Inflation Control

It is very evident that our fight against inflation has reached a very critical stage.

In his testimony yesterday before a House committee, Mr. Henderson admitted that the price control program instituted to prevent inflation is in danger of breaking down. Already price increases have begun and his will very soon be reflected in the retail prices of many commodities essential to our existence.

Once the vicious spiral of inflation is well started, it is extremely difficult if not impossible, to control it. Courageous and effective action to control inflation cannot be longer delayed without bringing disaster to the country. Short of defeat in war, there is nothing more harmful to the institutions of government of a free country than an uncontrolled inflation.

The reasons for this imminent collapse of the control of inflation are very obvious. Neither the Administration nor the Congress has been willing to meet squarely the problem of inflation and to adopt the necessary restrictive measures to prevent it.

The price control bill did not provide for stabilization of wages and, as wages are the first and greatest cost in the production of goods, it is perfectly plain that no price control can be effective which eliminates the largest single item of cost.

If we are to avoid the great evils of inflation, we must realize before the

inflationary movement which has now started gains greater momentum that one of the main dependencies in the effective prevention of inflation is an all-out control, including every single element of cost, both of labor, agricultural products, and all other elements entering into the cost of the finished article offered for sale. Quick, decisive, and courageous action is imperative if the situation is to be saved.

It is essential to control the cost of living from spiraling to a point that would bring distress and suffering to millions of our citizens and, at the same time, destroy the currency system of our country.

The suggested plan to pay wholesale subsidies to civilian business is merely palliative. It will not cure the trouble but, in the end, will add immeasurably to the difficulties of restoring the sound conditions of business enterprise after the war.

It is not and cannot be made a substitute for an effective price control system. It is not necessary if the Congress and the Administration have the courage to do the obvious things to prevent inflation. Subsidies will cost billions of dollars, all of which must be borrowed. The spending of borrowed government money in great amounts is in itself the heart of the inflationary problem. It will place much of the civilian business enterprises of the country under the direct control of the Government and will encourage waste and inefficiency in private business to be paid out of the public treasury. Let us first give price control an honest trial by including in the control all elements of cost.

Signs are increasing that instead of facing squared the political dilemma of all-out price control, the Administration is considering asking for a general program of vastly costly subsidies, which may appear to star on a small scale, but will regularly increase in cost and the dictation by the Government to private business will be constantly extended.

For the good of America we must meet the situation intelligently and courageously and not seek a political compromise on an issue which admits of compromise.

The enemy of inflation is insidiously creeping up on us. Each day's delay in meeting this enemy is to the advantage of Hitler and the Mikado.

We must not delay.
