### Diagnostic X-Ray Clinic Will be Held in Manassas Nov. 9

Tuberculosis continues to be a major public health problem. The control of it depends basically upon early diagnosis of the positive case, thereby lessening the possibility of "open" cases who are responsible for the spread of the disease. The x-ray examination is an important diagnostic facility in the case-finding program. It, therefore, becomes evident that where tuberculosis is suspected or an "open" case is known in a family group, every member should be examined and x-rayed.

During the week of November 9 in Prince William-Stafford Health Office, at Manassas, Virginia, a diagnostic x-ray clinic for tuberculosis will be conducted by a specialist of the State Department of Health. This activity is under the auspices of the County Health Department and in cooperation with the medical profession of the county. The examination and testing is a free service, but there is a charge for the chest x-rays, the maximum cost being two dollars (\$2.00) per person.

A written request for these examinations must be obtained from your doctor. Also, a written request is necessary from the parents for children whom they wish to be tuberculin tested.

Apply to your local county nurse for a clinic appointment well in advance of the clinic. Only a limited number of persons may be examined and x-rayed in these clinics, hence appointments made prior to the clinic date are imperative to obtain this service.

Patients will not be admitted to the clinic Thursday or Friday afternoons. The clinician conducting the clinic is always available, especially Thursday afternoon and by appointment for consultation with the local physician regarding their patients.

### What You Buy With WAR BONDS

The "Stovepipe," as the 60-millimeter trench mortar is commonly known, is used by our infantry for close-in fighting. It fires a 2.4-pound shell at the rate of about 35 a minute.

The mortar fires its projectile in a U-shaped arc and for this reason may be successfully camouflaged behind an obstruction. It costs about \$500. You and your neighbors, joining together, can buy many of these effective weapons for use of our Army. Investing at least ten percent of your income in War Bonds every payday will do the job. ### KIWANIS HEARS CONVENTION REPORT

Col. R. A. Hutchison who represented the Manassas Kiwanis Club at the recent Capital District Convention at Wilmington, Delaware, gave a most interesting report on the same at the club meeting last week. He was introduced by Kiwanian Hill Brown.

Anent the heavy flood of the two days previous, everyone was happy to see Sheriff Kerlin, who had a narrow escape that very day from the turbulent waters of Cedar Run, near his home.

Parson, or rather Lieut. R. M. Graham, was a very welcome visitor. He bemoaned the fact that he was leaving for a much more distant point and would not likely see his fellow club members and further for quite a while.

J. J. Conner was present as a guest of E. R. Conner. Mr. J. J. spoke in behalf of the embattled farmers of lower Prince William, who are now being forced out of their homes by Government seizure of their farms. Considerable discussion and advice centered around the subject.
