WAGENER PRIZE IS ANNOUNCED

W. C. WAGENER MEMORIAL PRIZE CONTEST FOR ADULTS

Ruffner-Carnegie Library

To encourage adult citizens of Manassas and vicinity to enjoy more the facilities of the Ruffner-Carnegie Library, which provides for the public as well as the High School, Clarence Wagener of Baltimore, Maryland, offers a prize for the best book review submitted to the library between January 1 and June 1, 1944, based on the rules and regulations which follow:

The contest is to be known as the W. C. Wagener Memorial Prize Contest and takes the place of a similar contest which Mr. Wagener has put on during the past four sessions of the Osborn High School, Manassas.

Provided not less than ten (10) persons (citizens 21 years who are entitled to borrow books from the Ruffner-Carnegie Library) signify to Miss Eugenia Osborn in writing, by not later than January 1, that they will compete for the prize, the contest will be put on; otherwise Mr. Wagener's offer will become void.

Not eligible for the contest are persons connected in any capacity with the management or operation of the Ruffner-Carnegie Library, or members of the immediate families of such persons. Neither are members of the immediate families of the judges for the contest-eligible.

In addition to the required ten (10) charter entrants, other citizens who meet the requirements mentioned above may participate, if they will notify Miss Osborn in writing by not later than March 1, 1944, of their desire to compete. Charter contestants, other things being equal, will enjoy a distinct advantage in the added time they will have for reading and for the writing of their reviews.

Contestants may submit as many book reviews as they wish. The reviews, however, must be of books (non-fiction and fiction) included in the appended list and of such new books as may be added to the list during the progress of the contest. In fairness to all who may compete, none of the designated books may be borrowed for a total of more than four weeks by any one contestant during the period of the contest, which will run from January 1, to June 1, 1944.

For the convenience of the contestants a list of the books from which the reviews can be made will be kept at Dr. Dowell's drug store in Manassas. Any contestant can send a card or phone to the Librarian to know when a book is available.

Reviews are to be legibly written in ink or typed on one side of white paper, and are to carry no indication as to who wrote them. Attached to each review when it is handed or mailed to the Librarian must be a plain sealed envelope containing on a folded piece of paper the name and address of the contestant and the title and author's name for the book reviewed. In each case the Librarian will number similarly the review and the corresponding sealed envelope.

The reviews, unidentifiable in themselves as to who wrote them, will be turned over to the three judges, who are to be selected by the Library. The Librarian will hold the sealed envelopes intact until the judges have decided which review is the best. Then and then only the judges will know who wrote any of the reviews. Reviews may be submitted any time between January 1 and June 1, 1944.

The prize, to be announced and awarded at a regular meeting of one of the Manassas clubs next June, will be an order on any Washington (D. C.) book store for ten dollars (\$10.00) worth of books, to be selected by the winner. The winning review will be printed in The Manassas Journal. The right to print any of the other reviews submitted is reserved.

Each review, using not more than 400 to 500 words, should strive to convey what the book has meant to the contestant by way of enlargement of viewpoint or pleasure received. What train of thought has been set up in the contestant's mind by the reading of the book? If the contestant has been stimulated to action, let him explain. If the reading of the book has added to life's enjoyment, let the review ring out the glad tidings. In short, the contestant should write a review based

COMMISSIONED AS LIEUTENANT

Second Lieutenant Edgar E. Rohr is spending a ten-day leave with his parents, Mr. and Mrs. L. H. Rohr. Lt. Rohr received his commission on December 8 following his graduation from the Adjutant General's Officer Candidate School, Fort Washington, Maryland. He has been stationed for the past year at Camp Lejeune, Virginia, Miami, Florida; Canute Field, Ill.; and Gore Field, Great Falls, Montana. He will go to Princeton University on December 18 for a month's special training. Lt. Rohr is the owner of the local E. E. Rohr 5c to \$1 Store which is now managed by his father, Mr. L. S. Rohr.

FROM A PAPER PUBLISHED IN BOURNEMOUTH, ENGLAND

"We have been a pleasure-loving people, dishonoring God's day, picnicking and bathing—now the seashores are barred; no picnics, no bathing.

"We have preferred motor travel to church-going—now there is a shortage of motor fuel.

"We have ignored the ringing of church bells calling us to worship—now the bells cannot ring except to warn us of invasion.

"We have left the churches half empty when they should have been filled with worshippers—now they are in ruins.

"We would not listen to the way of peace—now we are forced to listen to the way of war.

"The money we would not give to the Lord's work now is taken from us in taxes and higher prices.

"The food for which we forgot to say 'thanks'—now is unobtainable.

"The service we refused to give God—now is conscripted for our country.

"Lives we refused to live under God's control—now are under the nation's control.

"Nights we would not spend in 'watching unto prayer'—now are spent in anxious air raid precautions."

"Hear, O earth; behold, I will bring evil upon this people, even the fruit of their thoughts, because they have not hearkened unto my words, nor to my law, but rejected it."

—Jer. 6:19

on inner conviction and refrain from any attempt to give a synopsis of the book or to reword what a publicity man or some professional reviewer has written about the book. Grammar and rhetoric will count to some extent, but originality of viewpoint and an individual style of writing are much more important. Orthodoxy of opinion isn't necessary, sincerity is.

If the proposed contest is to become a reality, however, at least ten eligible citizens must signify in writing by not later than January 1 that they will submit at least one review each.

WEEKLY MEETING OF C. OF C.

The weekly luncheon meeting of the County Chamber of Commerce at the Prince William Hotel on Tuesday, December 7, was attended by members from five of the six districts of the county.

Matters of county interest, including that of obtaining a frozen food locker plant, were discussed. Two parties, one a private individual and the other the Prince William Electric Cooperative, are interested in establishing a locker plant at Manassas. Frozen food locker plants have come to be considered as essential for the storage and preservation of meats and foods. In Virginia communities where they have been located, all lockers are now in use and there are long lists of applicants waiting for the opportunity to rent locker space. This is true of the plants now in operation at Fredericksburg, Staunton, Harrisonburg and Broadway.

There is every indication that a plant of this kind will prove successful at Manassas and citizens of the county will be offered an opportunity by one or both of the interested parties to make reservation of locker space in advance of the time of the plant's construction. If sufficient users reserve lockers by depositing a year's rental in escrow with a local bank it appears certain that one of the interested parties can obtain the necessary priorities for the materials and refrigerating units required for constructing a local storage plant.

CHIEF FRIX WILL BE HERE DECEMBER 22

The Navy Recruiting Office will be open as usual on Wednesday morning, December 22, states Chief Alton Frix, Navy Recruiter for this district. He says there are some limited openings for welders, automobile mechanics and plumbers in the newly formed Ship Repair Unit.

HELP THE WAR FUND!

Mr. Samuel Greenberg, Senior Ordnance Machinist, of Manassas, was the winner of the award of \$250 in an "Ideas for Victory" campaign at Fort Belvoir, Virginia. Photograph shows Mr. Greenberg receiving his check from Brig. Gen. Edward H. Marks. The winning idea was a "jit" used in the repair of M-1 rifles, and is said to effect a saving of \$8000 a year in labor and materials. He turned his money in for war bonds as a further aid to victory.

FARMERS NIGHT AT KIWANIS CLUB

MANASSAS KIWANIS HOLD "FARMERS' NIGHT" PROGRAM

Recognition of Part Played By Prince William Farmers in Home War Effort Given

Farmers from throughout the county were present at the "Farmers' Night" program held by the Manassas Kiwanians on Friday evening, December 3.

Recognition was given not only to those present but to all farmers of the county who had contributed to food and feed production and to home war activities during the past year. Among the guests present were Henry Fletcher, Manassas; L. B. Thomas, Wellington; Walter Coverston, Manassas; G. C. Russell, Woodbridge; Joseph F. Hale, Nokesville; Wyatt Colvin, Nokesville; Egbert W. Thompson, Woodbridge; C. C. Lynn, Jr., Manassas; P. C. Wigglesworth, Woodbridge; Wilmer M. Kline, Manassas; L. J. Pattie, Cat-harpin; Garber Brothers, Woodbridge; William T. Thomasson, Manassas; F. L. Hoffman, Gainesville, and Elmer P. Hurst, Manassas. It was regretted by the members of the club that a number of those who had been invited were unable to attend.

The important part being taken by farmers on the home war front was discussed by S. M. Cox, District Extension Agent, Harrisonburg, Va. Kiwanis members who are owners or operators of farms and were present Friday evening included Albert H. Roseberry, W. C. Sadd, E. R. Conner, E. G. Parrish, P. A. Lewis, R. S. Hynson, J. Carl Kincheol, Hipoliti Monserratte, C. C. Lynn and John P. Kerlin.

This was the second "Farmers' Night" program held by the club in 1943, the first being on January 15 when thirty farmers were present at a supper meeting as guests of the members.

STATE NEWS UNDER THE

A brown rock with the date 1574 chiseled on it is causing quite a bit of historical speculation in Madison county. The rock was found by workers of a State road gang who were taking down an old stone fence for rock to reinforce a highway bridge.

Local historians believe the rock may have some significance since the "7" is cut very long like other old-fashioned sevens. It is believed that a colony landed on the Eastern coast in the fifteenth century close to Plymouth and may have wandered Southward. A similar rock was found in North Carolina some years ago bearing the picture of a woman and the date 1590 carved upon it. Historians believe the dated stones may have been used as headstones for graves by the early band of pilgrims.

The month of October saw the largest collection of waste fats for any similar period since the campaign started in Virginia according to a statement by C. H. Lubbert, Executive Secretary of the Virginia State Salvage Committee. Housewives of the Old Dominion turned in a total of 94,272 pounds of used fats to their grocers during the period of September 15 to October 15.

Total October collections showed an increase of 20,100 pounds over September and State Salvage officials believe November collections will show an equally large increase over the previous month due to the activities of State and local OCD officials who are placing information on the salvage of waste kitchen fats in every home in Virginia.

An epidemic of "Cat Fever" is sweeping the Norfolk area this week in what may be the latest ailment to reach this country as a result of wartime conditions. Although not as severe as the influenza epidemics of World War No. 1, the new fever has most of the discomforts of the old fashioned gripe. High temperature, nausea and cold, minus the "drizzle" nose.

Navy doctors have treated patients for "cat fever" for years in the tropics but the Norfolk outbreak is the first time this ailment has reached the East coast. Last winter the West coast was hit by the malady. Doctors believe the illness may be spread by foreign money since the first victims in the Norfolk area were bank employees.

AMERICAN HEROES

BY LEFF

A B-25 was taking off somewhere in North Africa. It crashed and burst into flames. Private Eugene A. Ginter rushed forward with three other soldiers to aid the crew. The heat was overwhelming but Ginter and his companions, drenched from the hoses of rescue apparatus, rescued three crew members from the blazing ship. Then Ginter returned to remove loaded 30 caliber machine guns. He won the Soldier's Medal. Such are the men your War Bonds fight beside.

BIBLE THOUGHT AND PRAYER

If parents will have their children memorize the daily Bible selections, it will prove a precious heritage to them in after years.

If we say that we have fellowship with Him, and walk in darkness, we lie, and do not the truth. I John:1:6

THE CONFERENCE WITH MARSHAL JOSEPH STALIN

At last the executive heads of the three major powers at war with Germany have had the long awaited conference and there is no doubt that the results will be felt by the enemy in the months to come.

For reasons of security it is not expedient to publish just what really happened, but it is safe to say that there is little in the situation to justify the belief that the end of the war is just around the corner.

There is considerable justification for a belief that Joseph Stalin had served notice on us, and on England that unless the invasion of Europe was guaranteed, he would cease offensive war as soon as the Germans were expelled from Russia.

This would be a very serious threat, because our best military minds believe that a lot of bombing has yet to be done before a landing expedition can be followed by a thrust into the heart of Germany.

If this surmise is correct it would be a natural reaction to send someone over there who was big enough to get the facts. So the Secretary of State, himself made the journey, and he seems to have brought back a confidential report of such a nature that the President himself, hurried over to see what he could do about it.

At the same time it is probable that a special effort was made to convince Turkey of the wisdom of throwing in with the United Nations at this time.

The fact that Turkey does not yet see safety in such a line of action is in itself an indication of the fact that Germany still has great striking power. It is also quite apparent that we will soon be arrayed in battle against the German war machine on a large scale.

In other words, we are now about to enter the war! Up to this time we have only been preparing for the conflict, and we must expect losses and sacrifices on a scale already experienced by England and by Russia.

"After we lick those rats
I'll be out of a job!"

"That's why, on every pay day, after I've taken out the money for my War Bonds, I put all I can into my bank account. So while switching over to another job I'll still be eating three squares."

sia. That we shall win is assured, but it will be a costly victory, and we must not shrink from the fearful prospect that has been revealed to us by this historic conference.

TRIBUTE TO WOMEN VOLUNTEERS

Tribute was paid today by The Rev. J. M. DeChant, president of the Prince William County Tuberculosis Association, to the women volunteers who are working hard and faithfully to make the Christmas Seal Sale a success.

"Since today, December 9, is the 'birthday' of the American Christmas Seal Sale, which was originated by a woman, Miss Emily Bissell, of Wilmington, Del., it is a fitting day to pay tribute to the women in Prince William county who are now making possible the tuberculosis control work of the association for the coming year," he said.

The Rev. Mr. DeChant told the story of the first Seal Sale in this county.

"Miss Bissell, back in 1907, needed \$300 to keep open a small Delaware tuberculosis hospital. She decided to try out in her community a plan that had been successful in Denmark since 1904. She quickly found that the American people responded as quickly as the Danish people to the powerful appeal of the small tuberculosis seal. Instead of the \$300 she had hoped to raise for the hospital, the returns of the first Christmas Seal Sale brought in \$3000.

"Such instantaneous response proved that the right means had been found to finance the American anti-tuberculosis campaign, which had been started a few years before with the organization of the National Tuberculosis Association," he said. "During all the years since this is the 37th annual Christmas Seal Sale—women volunteers have made the sale so successful that tuberculosis control has steadily and rapidly increased. There would be no anti-tuberculosis campaign in Prince William were it not for the splendid cooperation of women of the county, who conduct the annual Seal Sale, and the citizens of the county who respond to the appeal for funds to continue the work of the Association. District chairmen are reporting good returns to date but they need the pennies and dollars which the Christmas Seals represent to put the \$1375 goal over the top."

O. P. A. RATIONS SANTA
Santa will have to deal with the OPA this year when he distributes baskets of foods to needy families this year. Charitable organizations contemplating their usual distributions of Christmas baskets must estimate the number of ration points required and go to their local ration boards and apply for the necessary points to the donors who in turn will reimburse the ration board from which they secured the original "loan" of points.

One of our every two families have at least two workers. Figure it out yourself how much beyond 10 percent of your family income you can put into War Bonds every payday.

CARD OF THANKS

In behalf of my sisters and for myself I wish to express sincere thanks to our many friends for their loving kindness in the illness and death of our father, Lester Edward Beachley.

LAW IN REFERENCE TO PASSING SCHOOL BUSES WHEN LOADING AND UNLOADING

At the 1942 General Assembly the law relating to meeting or passing a school bus while was amended, and may be found in section 61 (b) 5 of the Motor Vehicle's Code as follows:

Any person who fails to stop at a school bus while taking on or discharging school children whether going in the same direction or the opposite direction and to remain stopped until all school children are clear of the highway is guilty of reckless driving.

WON'T YOU HELP US ENFORCE HIS LAW FOR THE SAFETY OF YOUR CHILDREN?

NO OUTSIDE LIGHTED CHRISTMAS TREES, PLEASE

The Office of War Information in a special communication to this newspaper, asks us to publish the Board's request to the American people that they confine their Christmas lighting decorations to Christmas trees inside private homes.

The War Production Board asks that street decorations and interiors and exteriors of commercial establishments dispense with decorations this year so far as lighting is concerned.

Mr. J. A. Krug, Director of the Office of War Utilities, said that no mandatory order was contemplated because, "the American people realize the necessity of this conservation and will do it."

DO WHAT YOU CAN FOR GREEK WAR RELIEF

While we are helping the various war relief projects, this newspaper especially invites attention to the needs of Greek sufferers.

All civilized people know of the tragic fate of Greece and of the desperate plight of the heroic people of that unfortunate country.

Their countrymen here are only modestly asking for donations of clothing, and we urge our friends to help.

The local Greek War Relief Committee is making the following appeal:

"The Greek War Relief Association is asking for donations of clothing of all kinds, particularly coats, shoes, and underwear, for suffering Greek population.

"The storeroom at No. 515 C. St., in the rear of the Quantico Railroad Station will be open from 11 A. M. to 5 P. M. Please leave donations there, as the local Committee has no means of calling for your gifts. Ask Pete Pandazides or Harry Conkinides.

NOTICE TO NAVIGATION INTERESTS

Navigation interests and others are advised that there will be test firing in the waters of OCCOQUAN BAY and POTOMAC RIVER from the vicinity of Sandy Point, Virginia, until further notice.

Firing will occur two or three times per week and will last for intermittent periods during all hours of the day and night. The direction of fire will be approximately 195 degrees (true) from Sandy Point, Virginia.

The danger zone covered by the firing activities will include a triangular area, the west side of which extends from Sandy Point, Virginia, to a point 100 yards east of Free-stone Point, Virginia, and the east side from Sandy Point to a point 350 yards west of can buoy C-37A on Mattawoman Bar. During firing played by day and a red light by night from a flag pole on Sandy Point. The general area is shown on U. S. C. and G. S. Chart 560, and on the map on the reverse side of this sheet.

Generally no restrictions will be imposed on through traffic in the Potomac River or Occoquan Bay, but vessels are requested not to remain in the danger zone during the display of firing signals. Vessels traffic will be instructed on navigation procedure by patrol-boats during special tests which might endanger navigation.

Cure For Shine
Sandpapering and sponging are two of the treatments for shine on wool clothes found successful by clothing specialists of the U. S. D. A. in their work on wartime clothing conservation. A smooth, shiny place on the seat of trousers or the back and sleeves of a coat can make the entire garment look worn, shabby

and ready for discard, but cleaning and then gently roughing up the nap is often all that is necessary to extinguish that shine and give the garment a new lease on life.

Soil combined with wearing and matting of the wool fiber produces the shine. Sponging with cleaning fluid will remove much of the soil; sponging with water containing a few drops of ammonia or vinegar may help brighten the color. The nap may then be lifted by brisk brushing or even by fine sandpapering.

In making over an old navy blue coat that had been discarded because of worn looking patches and white flecks that showed through the yarn, the clothing specialists first washed the material, then brushed it lightly with dark blue dye. When dry they applied fine sandpaper to lift the nap. This put the cloth in such good shape that when made over, the coat looked new and the worn spots were not noticeable.

Onion Ins and Outs
The large demand rather than the small supply is responsible for the present shortage of onions, according to the U. S. Department of Agriculture. To be sure foods and rain early in the season in the central

and western parts of the country did cut the onion crop. Some of the best land for onion growing in these regions is muck land which is easily flooded in wet weather. But the latest estimates of the fall onion crop are 11,397,000 sacks (100 pound sacks) as compared to the average crop of 11,586,000 sacks. Last year's crop was larger than average which makes this year's seem unusually small.

The heavy demand this year comes from the armed forces who use great quantities of onions, especially dehydrated onions. It also comes from civilians who have more money to spend for food of all kinds.

Ordinarily in an onion shortage, the cook could shift to garlic for a somewhat similar seasoning, but this year's garlic crop was considerably below average in size. The California crop was especially short because of the evacuation of Japanese farmers who have grown much garlic in former years. Wartime demands for garlic also are heavy. Over a million and a half pounds of dehydrated garlic are being allocated for war uses this year, much of it to be exported to Russia under Lend-Lease.

As for onion salt and garlic salt, they also will be short of the demand because the production depends on supplies. But in many dishes, celery flavors can be used instead of onion flavor. Celery salt supplies happen to be large because ample celery seed is now coming in from India. Resourceful housewives with a sunny window have still another way to provide themselves with onion seasoning. They can have a pot of chives, leeks or even wild garlic

growing indoors and clip the green sprouts as they come up. Even one onion grown in a pot will send up enough shoots for seasoning use the rest of the winter.
