

STRAIN ON RAIL ROADS STRESSED

Mr. Robert Fox Addresses Coed Club on This Important Subject

Before Robert Fox, who is in charge of maintenance on the section of Southern Railway that passes through Manassas, brought to the attention of the Kiwanis Club the present condition of railroading as he sees it. Worth Peters spoke briefly of the vocational school of Manassas. As head of the school he can speak of authority. There are enrolled in the school 142 students of all ages and some with physical handicaps. He mentioned that seven shops are in operation. A fuller account of the school occurs in another column.

Sheriff Kerlin told of conveying flowers to Ted Diddals who is still in the hospital, and is improving.

Mr. Fox tells of the strain that is being put on the railroads of the country and their marvelous efforts to meet the strain. At the outset of the war the railroads were asked whether they could handle 15 per cent more traffic. Much, much more than this has been put upon them. At present an average of 142 trains go through Manassas every day. With the new increase of traffic for example water pumps and tanks had to be increased to meet the strain. Many more cars of coal and gasoline were used. Faster speed had to be maintained, so curves had to be made over, heavier rails had to be laid. The right-of-way is not so pretty now, for laborers must take care of essentials. So many men have been taken away when more are needed, that the R. R. is willing to pay boys from 50 to 74 cents an hour. Labor troubles came in when more or less irresponsible ones quit work, when they had reached a certain sum in pay. Civil engineers have been taken from the colleges to start at \$157 a month with unlimited expense account.

Mr. Fox spoke of how he was moved when he boarded some hospital trains, and saw the pathetic cases in the cars. He also saw on trains which carried prisoners of war, instead in the hospital Pullmans of having one man in an upper and two in lower berth they carry only one man in the lower. The government is now making special hospital cars.

In their efforts to keep unning, the railroads are using men of 65 years and older in supervising positions and also they are fixing up old discarded cars to help out.

R. G. Ratcliffe in charge of the county Bond issue announced that of the county's quota only \$63,000 had been subscribed by June 21. This needs to be more than doubled.

JOHN NATHANIEL OWENS

After a prolonged illness which incapacitated him for active service, Mr. John Nathaniel Owens passed to his eternal reward, June 10, 1944. Mr. Owens was born in King George County, Va., March 8, 1860. On February 22, 1888, he married Miss Lydia Jane Ellison who passed to her reward December 7, 1936.

He came to Brechtville, Prince William County, in 1914, where for a number of years he was a faithful member of the Hatcher Memorial Baptist Church. He afterward moved to Arlington where he united with the Clarendon Church. He was a faithful member of the Baptist Church for about seventy years.

As Luke said of Barnebas "He was a good man."

Beside a host of friends who mourn the loss, he leaves one brother, James O. Owens, Washington, D. C., Mrs. Powell W. Metz, Arlington, Va., and Mrs. E. C. Owens, Nokesville, Va. There are also nine grandchildren. Funeral services were conducted by his pastor, Rev. Frank L. Snyder assisted by Rev. Barnett Grimsley. Interment in the Manassas Cemetery, June 12, 1944. Poll bears were: Eugene Davis, Charles Beahm, D. E. Earheart, L. W. Huff, C. B. Fitzwater and A. E. McMichael.

VOCATIONAL SCHOOL PROGRESSES

The Manassas State Vocational School is now well under way. In its new lease-of life it began to function June 15 and will continue until August 25—fifty-working days. The spirit of the school is apparent. Every one knows what he is there for—to give and get in the shortest possible time a definite knowledge and skill, all tending to be useful in this war

V-MAIL LETTER PFC. WM. P. CURTIS AWARDED PURPLE HEART

From Pfc. Wm. Curtis Co. F 141 Inf., APO No. 38, c/o Postmaster N. Y. C. June 12, 1944

To Mrs. W. N. Curtis Box 162 Manassas, Va.

(CENSOR'S STAMP)

Dear Mother and Dad, Guess what just happened. A Captain came in the ward and gave me a Purple Heart. He didn't hardly believe it when he saw I was from Manassas. His name is Eppa Hunton, IV. He knows Mr. Tiffany, knew about the Portners and a lot of people. His father used to be the Representative from the district in Congress. He told me a painting of his father hangs in the Courthouse at Manassas. Who would have ever thought I'd meet up with anyone from around home over here?

I'm sending the Purple Heart home the first chance I get. Bet Gene can't match that, eh? Be sweet and I love you both.

Love,

BILL

Mr. and Mrs. W. N. Curtis of Manassas received word June 17th that their son Pfc. Wm. P. Curtis had suffered a leg wound in action in Italy, June 4th for which he has since received the Purple Heart. As to the awarding of the Purple Heart the story is told best in Bill's own words. The name of Hunton must be familiar to a lot of residents of Prince William County.

William was inducted into the Army on February 19, 1943. Trained at Camp McCain, Miss. left Ft. Geo. G. Meade, Md., on Oct. 3. Arrived in North Africa on Oct. 17 and dated his first letter home to his parents from Italy on Dec. 19th, where he was assigned to the 36th Division 141 Infantry Regt. where he has been ever since.

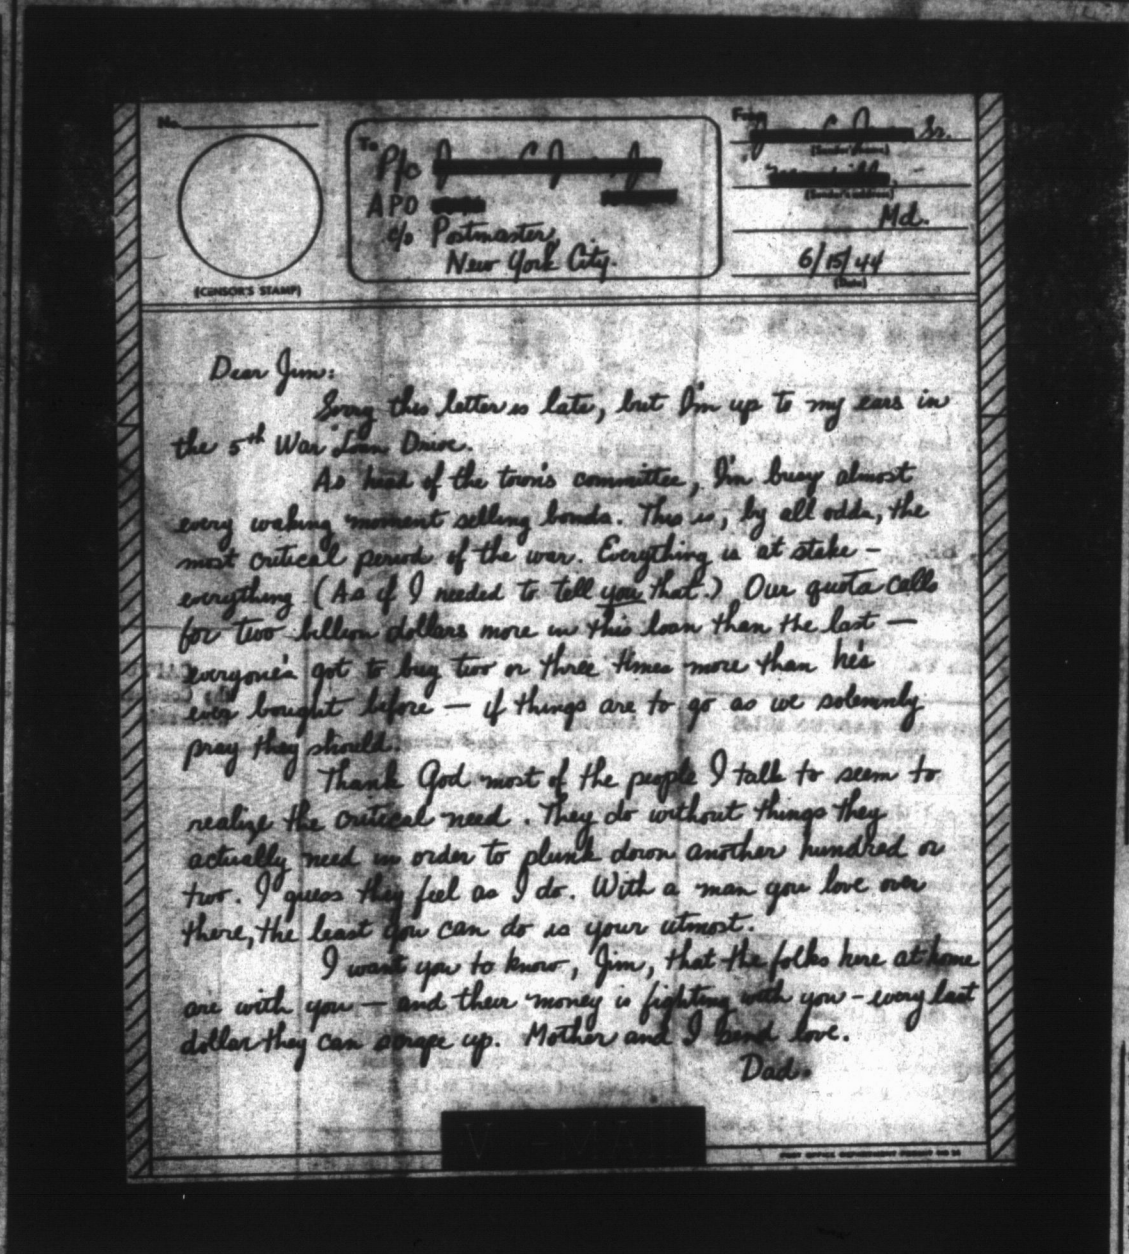

time and afterwards.

At last report 145 students were enrolled, coming from counties in Northern Virginia: Culpeper, King George, Fairfax, Loudoun, Fauquier, Arlington, Stafford, and Prince William, and the cities of Fredericksburg and Alexandria, and all brought there in school buses, as far as 66 miles. There are seven courses: drafting, woodworking, sheet metal, electricity, radio, welding, and machines. There are 23 students taking a coordinating course in English. In nearly every shop there is a tool-room keeper. The principal has at his disposition a clerk and a nurse.

FARM AND HOME NEWS NELL GRIM

County Home Demonstration Agent HAM IN HAMBURGERS (Tips for Outdoor Cooks)

Cook ham thoroughly before adding it to a hamburger mixture. This is the advice of meat cookery specialists of the U. S. Department of Agriculture, especially to outdoor cooks this summer. Because ham or other pork adds extra flavor to hamburgers, a mixture of chopped beef and ham with chopped onions and other seasonings is a favorite for camp-fire meals.

Very often picnickers like their hamburgers rare. In any case it is difficult to be sure of thorough cooking over the uneven heat of an open fire especially in the evening when the cooking must be done by poor light. All pork, cured or fresh must be cooked well done to be safe, though beef may be eaten rare. This can be arranged by cooking ham or other pork before mixing it with the raw ground beef and seasonings. About a third as much ham as beef makes an appetizing hamburger.

JUICE FOR LATER JELLY

When fruits are at the height of their season and most abundant, the home canner may not have the sugar to make all the jelly she wishes. She can, however, put up a supply of

juice to use later for jelly. Jelly made from juice that has been stored as long as six months has as fine a texture as that made from fresh fruit, home economists of the U. S. Department of Agriculture have found. The color is admirably preserved. ? ? ? color and flavor may not be quite so distinct, however. This is especially the case with the juice from red fruits which lose color easily.

For making jelly, juice is prepared somewhat differently from that canned for beverage use. Fruit must be boiled rather than simmered to draw out pectin for jelly and no sugar is added.

A mixture of slightly underripe and ripe fruit makes the best juice for jelly because the underripe fruit gives more pectin and acid, and the ripe fruit gives the full color and flavor. Discard any damaged parts of the fruit. Wash thoroughly and drain. Wash berries quickly and handle gently to prevent loss of juice. Cut large fruits like apples in small pieces and leave cores in because they contain pectin.

Put fruit on to heat in a broad, flat-bottomed kettle. Very juicy fruit needs no water added, but firm fruit like apples need as much as a cup of water to a pound. Crush soft fruit to start juice flowing. Bring fruit to a boil, and stir to prevent scorching. After boiling starts, currants and grapes need to boil 5 to 10 minutes until soft; apples and quinces 20 to 25 minutes.

Pour the hot cooked fruit at once into a jelly bag and let it drip. Pour the juice into hot sterilized jars and adjust lids. Place on a rack in a water bath with water simmering (15 F.). When water again comes to the simmering temperature, simmer either pint or quart jars 20 minutes. Remove from water and seal tops except the metal self-sealing lids.

Store the juice in a cool, dry, dark place until time to use it for making jelly.

NOW THAT the chips are down... now that our men are writing decisive history with their blood... There can be no halfway measures for us.

The greatest battle in the history of the world must be matched by the greatest war loan in the history of the world.

That's what Uncle Sam says... the same Uncle Sam for whom your brothers and sweethearts

They, in the front lines, are throwing in everything they have.

We, behind the lines, must do the same.

CHAMBER OF COMMERCE

The Chamber of Commerce met Tuesday last at the usual time. Officer Herndon presented the guest speaker, Capt. W. L. Groths, who represented the State Highway Department of Police. Capt. Groths asked the Chamber to sponsor a County Safety Council to cut the accidents which have been on the increase. He asked that this council cover the highways, schools, farm and home and other hazards. He suggested that the schools which have been assisting with the problem, the clubs, the fire departments, Kiwanis, the Agriculture Dept. and other agencies be asked to help in the emergen-

cy.

The State Highway Police Department has dwindled to 128 State Troopers to cover many miles of highway and Capt. Groths said that he expected that the force would probably be 115 by the time he reported at Headquarters. The officers are being inducted into the armed forces.

Dr. Cocke proposed a committee to study the problem. The committee consists of Officer Herndon of the State Highway Department of Police, R. C. Haydon, Superintendent of Prince William Public Schools, Jack Stauff, representing the Fire Department, Hunton Tiffany, Town Manager, Sheriff Kerlin and Frank Cox representing Farm and Home.

BIBLE THOUGHT AND PRAYER

If parents will have their children memorize the daily Bible readings, it will prove a precious heritage to them in after years.

And he said unto Jesus, Lord, remember me when Thou comest into Thy Kingdom. Luke 23:42.

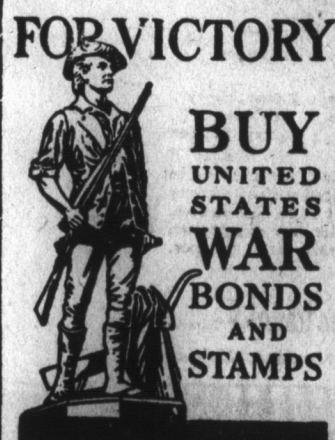

RELIEF FOR ENGLAND

Among the first people to get a measure of relief from war weariness are the English. After having been in the thick of it for nearly five years, the war definitely is moving away from England.

A few air strips are now in service in France. Eventually be removed from the British most of the Allied air force will be based in France. The millions of soldiers that have crowded England, Scotland and northern Ireland will be fighting on the continent. Except for men on leave and others engaged in scattered services, uniforms will be less in evidence.

England has had its share of war. With cities wrecked, people driven underground and their standard of living reduced to the lowest on record, the British resolutely began to prepare for counterattack. This has entailed the entertainment of millions of soldiers from abroad and the erection of facilities for them that crowded the island almost beyond endurance.

Now the swirl of war is leaving England in its wake. The quietness may seem extremely loud for a time, but as soon as the English reaccustom themselves to it, they can settle back toward normal with satisfaction. Fredericksburg Free Lance-Star

In 1945?

SORRY, GIRLS, NO CLOVER THIS YEAR—NO SEED!

If this farmer actually is forced to tell his cows next year, "Sorry, girls, no clover," the response will be a drastic reduction in milk production. Legumes and grasses are important to livestock production at any time. They are more vital in wartime because of the increased need for milk and meat products. By providing essential abundant pastures and legume hay make the nation's supply of grain go farther and do better work. Increases in seed production essential this year if new seedlings in 1945 are to be sufficient and pasture production and for sod acreage in regular crop rotation. To help increase production of seed, support prices will be maintained for most principal legume and grass seeds, and payments will be made by the Agricultural Adjustment Agency for harvesting them.

Strawberry Shortcake Perfect Summer Dessert

THE shortcake season is always greeted with enthusiasm, for lives there a person who doesn't like fresh strawberry shortcake? Most cooks have their own special way of making the shortcake. Some like individual round biscuits, some prefer one large shortcake, some like a sponge cake base for the fresh fruit. But one thing everybody likes—a generous serving, with seconds available!

Here we have a crusty, tender, melt-in-your-mouth shortcake, a little richer than the usual biscuit dough, but just as simple to toss together. This recipe calls for blended shortening, an economical, all-purpose, highly-digestible shortening that is a blend of meat fats and vegetable oils, and can be used for every cooking and baking use.

We like to bake large drop biscuits, then split them, spread with butter or margarine, fill with fresh berries, top with the other half and then more berries. Serve with a

pitcher of light cream, top milk, or whipped chilled cream.

If strawberries are scarce when you do your shopping, tender pink rhubarb makes an excellent shortcake. Blueberries, raspberries, pineapple, any fresh fruit, sweetened to taste, can be used.

Shortcake Dough
1/2 cup blended shortening
2 cups sifted flour
1 teaspoon salt
1 egg
baking powder 1 cup milk

Sift flour, baking powder, salt and sugar together. Cut shortening into flour mixture until the consistency of cornmeal. Add egg and milk to flour and fat mixture, stirring just enough to blend. Drop by tablespoonful on a baking sheet, which has been lightly greased with blended shortening. Brush top of each with milk. Bake in a hot oven (425° F.) 15 to 20 minutes. If you prefer, turn the dough into an 8-inch baking pan and bake in a hot oven (425° F.) 25 to 35 minutes.

NOTICE

A PROPOSAL TO FIX AN OPEN SEASON FOR HUNTING SQUIRRELS AND BAG LIMITS.

A meeting of this Commission was held at Richmond, Virginia, June 23, 1944, at which meeting the proposal hereinafter was authorized. A further meeting will be held at Richmond, Virginia, July 21, 1944, at which time the said proposal will be accepted:

That the open season for hunting squirrels be September 15-30 and November 20-January 20 east of the Blue Ridge, except that in counties of Halifax, Henry, Necklenburg, Patrick and Pittsylvania be September 1-15 and November 20-January 20 and in the counties of Nansemond, Norfolk and Princess Anne be October 1-30 and November 20-January 20.

Provided, however, landowners may kill squirrels on their own land at anytime.

Bag limit, 6 a day, 75 a season.

That all regulations regarding season and bag limits in conflict with the foregoing be rescinded.

By order of the Commissioner of Game and Inland Fisheries.

WM. S. SNOW, Chairman.

Success of 5th War Loan Will Meet Acclaim of Men in Field and Prove Nation Is Backing Our Armed Forces

by Gen. Ike Eisenhower

"In moments of crisis involving the safety of our native land the American people have invariably rallied against the danger with courage, faith and resolution.

"For the past two years we have been in one of these crises perhaps the greatest in our history. On the battlefield and on the home front men and women are daily making great sacrifices so the freedom in our way of life may be preserved.

"There is now in progress the 5th War Loan Drive to raise money so as to insure that this conflict will be brought to the speediest possible conclusion and

with the least loss in lives. The complete success in the drive will meet the acclaim of the forces in the field and will be renewed proof that all Americans are one solid phalanx of determination in this great war.

"All of us profoundly trust that soon the world may be restored to a just peace. Until we can, with God's help, bring about that happy realization of our dreams, each of us must seek incessantly for ways and means by which the value of our services to our country may be enhanced. Right now we can do so by buying Bonds. Let's make this particular victory a quick and decisive one."

And here are 5 More reasons for buying Extra Bonds in the 5th!

1. War Bonds are the best, the safest investment in the world!
2. War Bonds return you \$4 for every \$3 in 10 years.
3. War Bonds help keep prices down.
4. War Bonds will help win the Peace by increasing purchasing power after the War.
5. War Bonds mean education for your children, security for you, funds for retirement.

HE'S OFF ON HIS FIFTY-FIFTH MISSION

There he goes again—out to pour more destruction on the Axis—once more to face the death of enemy fighters and flak!

He won't hesitate to go out on his fifty-sixth or his hundred and fifty-sixth mission. He knows he might not come back, but he keeps on going—giving more and more until the Hitler and

Tojo crews are ready to "call it quits."

This is only *your* fifth mission—and a mission which is mighty easy in comparison with the ones he makes *every week*.

Stay in the fight by welcoming the Victory Volunteers—at least double your Bond purchases and then keep on. Your buying means "bombs away" for the Axis!

Back the Attack!—BUY MORE THAN BEFORE
SALVAGE for VICTORY!

Dear Dr. Evans
Today we had an inspection of our hospital by the head of the Medical Corps. He asked one patient what he thought of our medicinals and the

patient said our Army had the best flea powder in the world! That got a laugh but seriously our modern military medicines are working wonders. Our flying

hospitals bring in the wounded from the front where they say our antiseptics are terrific. As you know real fats contain glycerine and other by-products used

for medicines and munitions. So be sure that Mrs. Evans leaves all of her used kitchen fats and turns it in to her meat dealer.

Sincerely Yours, Jane

Questions, Answers About the WAVES

Does the Navy provide all of a WAVE's clothing?

The official uniforms include "everything that shows." An initial allowance of \$200 is provided enlisted personnel. The cost—about \$170—is deducted from the allowance. The balance of \$30 is for shoes, underclothing and anything else needed. After a year's service, an enlisted WAVE gets \$50 a year for clothing replacements.

May WAVES wear nylon stockings?

Yes, of course—with this one little proviso: if they can buy them! They have the same problems as civilians in that respect.

How about rouge, powder, lipstick, etc.?

All are permitted, but none should be used extravagantly.

Other questions about the WAVES will be answered at any Navy Recruiting Station or Office of Naval Officer Procurement.

Bow Your Heads

THIS is Invasion! Now in the hearts, brains and muscles of our American Youth lies the future of our country.

Bow your heads. Pray with millions of mothers the country over, as their hearts reach out over the seas, each one seeking out her boy, to protect him with the shield of her love.

Believe that in this world there is definite strength in decency and honor. Believe that in our devotion there is moral force. Believe that our will to victory will aid that victory.

Seek and ye shall find!

Let us seek added strength and fortitude for our men in our own sacrifice and devotion.

Let us focus every thought, every action, and every prayer on the boys fighting for us.

And, while each one bends to his task with ever-growing fervor and energy, let us adopt a common symbol as our faith in Victory.

Let that Symbol be War Bonds. Let us pour our money in a gigantic flood of goodwill toward our sons and brothers, as a spiritual shield for them.

This is the Invasion. The lives of our boys are at stake. Let them see that the Soul of America is with them.

Let it not be too late . . . not next month, next week, or tomorrow, but today . . . now.
