

WAR BOND DEC. 5 AT STOCKYARDS

J. Carl Kincheloe, Chairman of the Farm Auction Sale Committee of the Sixth War Loan Drive for Prince William County, has announced that a sale of livestock and other farm products will be held in connection with this drive at the Manassas Livestock Market on Tuesday, Dec. 5. Mr. Kincheloe is being assisted in arranging for the sale by a committee including C. C. Lynn, Gilmer Garber, Wilmer Garber, Joe Eagle, Wheatley M. Johnson, Wilmer Kline, W. D. Sharrett, T. R. Hurst, William Wheeler, P. A. Lewis, Randolph Eagle, W. T. Thomasson, G. C. Russell, E. R. Conner and F. D. Cox.

Farmers having livestock and other products to contribute to the auction can help materially with the Sixth War Loan Drive and the war effort by making these donations, bringing them to the Manassas Stockyards on the regular sales day on Tuesday, December 5, and weighing or checking them in as War Bond Calves, Cattle, Sheep, Poultry, Pigs, etc. Byers of the contributions will receive the animals and war bonds to the extent of the amount of the purchase price.

It is announced by the Committee that the animals or other farm products will be put up for resale. In the past it has been customary for buyers to turn back their purchases several times for resale but whatever is put up in the War Bond Auction this year will definitely be knocked down to the first high successful bidder. It is thought by the committee that this plan will stimulate bidding and will be more fair for the buyers.

The Committee reports that farmers are being very liberal in making donations for the sale.

INJURED MANASSAS SOLDIER RECOVERING IN ENGLAND

THE 74TH GENERAL HOSPITAL, ENGLAND.—Injuring his foot as his unit was attacking machine-gun positions 50 yards from the German border, Staff Sergeant Robert C. Collins, 26, of Manassas, Virginia, an infantryman, is now recovering at this United States Army general hospital in England, to which he was evacuated by plane.

His ward surgeon, Captain Bachman S. Smith, said Sgt. Collins' condition is "satisfactory."

"Jerry was firing everything he had," said the Infantryman. "We were moving up. Nazi artillery was shelling behind us. We closed in and then took a hill position. I injured my foot and medical aid men moved me to an ad station."

His mother, Mrs. Cordelia Collins, lives in Manassas.

Richmond, Va., Nov. 23, 1944.—In an effort to keep the public advised of the true plans of the Navy Recruiting Service, Lieutenant Commander Charles L. Kessler, Officer in Charge of Navy Recruiting stated today at a press conference in Richmond, "to the contrary of many rumors circulating over the state, the Navy has no plans for the cessation or even curtailment of enlistment of young men seventeen years of age. Another branch of the armed forces has announced their intention to terminate enlistments in this age group as of 1 January, 1945. But this is not true when applied to the Navy. The spreading of such information is obviously detrimental to the Navy Recruiting service, and therefore to the war effort, and should be stopped at once."

According to Chief Alton Frix, who is in charge of the Manassas area, Commander Kessler's statement was very timely. Somehow the rumor has been making its rounds in Prince William County and Chief Frix's word should be issued from headquarters in Richmond which would officially stifle it.

Chief Frix also said that, even though new quotas make it impossible for all girls to get into the WAVES, there is still room for some, and the best assurance of gaining entry is to get an application in at once.

Rummage Sale

The members of the Sarah Rebekah Lodge of Manassas will hold a rummage sale in the old post office building in the room formerly occupied by the National Loan Association, on Saturday, Dec. 2, 1944.

James R. Gorman, 18, of Manassas, Va., is now in training at the U. S. Maritime Service Training Station, Sheepshead Bay, N. Y.

Apprentice Gorman will receive six weeks of basic training, including lifeboat work, fire fighting, breeches buoy, mess, sea rules and traditions, swimming, ship construction and equipment, gunnery and physical training.

Red Cross Meets

A called meeting of the Prince William Chapter of the American Red Cross was held in the chapter rooms last Saturday evening. The purpose of the meeting was to fill several vacancies on the Board. Mrs. Lloyd, the president presided. Impromptu reports given by several chairmen present, brought out interesting facts. The newly organized Service Corps is operating full time and is one of the first 15 corps in the State of Virginia. Some 57 different persons have been given assistance besides various other duties. This month, Mrs. Florence Gue has accepted the chairmanship of the Home Nursing Committee and is organizing a class under the sponsorship of the Junior Woman's Club. This will be open to anyone interested in taking the course. Miss Sue Ayers is chairman for Junior Red Cross and reported the schools 100 per cent organized in active work. Seventy boxes have already gone overseas and many projects are under construction. The camp and hospital council have been asked to send Christmas gift boxes to patients at Vint Hill. Anyone interested contact Rev. Tom Faulkner, our representative. Mrs. Burdard, commander of the Local American Legion, was present and offered valuable assistance in solving the many problems arising as our veterans come home. Coles district, Hickory Grove and Greenwich were represented, besides those from Manassas.

CAPTAIN WELLS AT MIAMI

Capt. Wilbur F. Wells, of Nokesville, has arrived at Army Air Forces Redistribution Station No. 2 in Miami Beach for reassignment processing after completing a tour of duty outside the continental United States.

Captain Wells was a B-24 navigator in the Italian Theater. He is the son of Nathan Wells, of Manassas, Va., and the husband of Ruth Somers Wells, Nokesville, Va.

Fine Arts Club

The regular meeting of the Fine Arts Section of the Manassas Woman's Club will be held Tuesday night, November 28, in the home of Mrs. H. H. Hynson, at 8:00 o'clock.

The chairman, Mrs. M. S. Burchard, urges that all members try to attend as the program on carols will be given, and Mrs. H. Monserrate expects to have guest performers who will sing Spanish carols.

Mrs. Hynson will be assisted by Mrs. Aylene Guthrie, co-hostess.

Brentsville Girl Scouts Entertain

P.T.A. — Informal Dance Planned

An outstanding feature of the P. T. A. meeting, which was held on Thursday evening, Nov. 16, was a group of dances presented by the Girl Scouts of Brentsville. Under the leadership of Mrs. John Cox, with Mrs. Boyer at the piano, this group gave interesting interpretations of songs and dances of many countries.

The Honorable Stanley, Owens spoke on and led an interesting discussion on Federal Aid for teachers and the educational set-up.

Ear Defenders

The wide use by navy fighting personnel of an ear defender of a type originally developed by scientists of the University of California has been revealed by navy officials. The new ear defender consists essentially of a specially moulded plug of Neoprene. With this soft Neoprene device a sailor can hear commands while having his hearing protected against the terrific din of guns, motors and explosions.

Ear defenders are now used extensively by workers in the shipbuilding, aircraft and other heavy industries. The defenders not only help to prevent deafness caused by continued loud noises but also improve the workers' efficiency and help keep them on the job.

Milk Uses

If the pan in which milk is heated is dipped first in cold water, the milk will not scorch. To prevent milk from boiling over while being heated, rub rim of saucepan with butter.

Milk being used in coffee as a substitute for cream will taste much richer if it is scalded, and poured into the cup while milk still is hot. To keep milk from curdling during boiling, add a pinch of soda. In case you are in doubt about the sweetness of coffee cream, add a pinch of soda to it and stir. The cream will not curdle when added to the coffee. To bring cream to the surface of a bottle of milk that has been shaken, heat until it is lukewarm, then chill suddenly.

The Church of the Brethren will have a food and dry goods sale Dec. 9th. The place will be announced in the Journal later.

Prevention and Control

Miss Nell Grimm, Home Demonstration Agent, has been attending a Convention of the Home and Farm Demonstration held at V. P. L. Blacksburg, Va., the past week, also while there visited her home in Roanoke, Va.

ENGAGEMENT ANNOUNCED

Mr. and Mrs. A. O. Beane announce the engagement of their daughter, Elizabeth Jane, to Mr. Harold August Dietler, son of Mr. and Mrs. Fredrick Dietler, of Grantwood, New Jersey.

Mr. Dietler is now located in Mechanicsburg, Pennsylvania, as chief engineer of Geo. M. Brewster & Son, Inc.

The wedding will take place in Manassas late in December.

Our War With Japan

The Sixth War Loan marks a new turn in the war both on the fighting and the home fronts. It points our tremendous war effort definitely in the direction of the Pacific. During the first five war loans Americans were primarily thinking in terms of beating Hitler.

Now our government asks us for a loan of 14 billion more dollars of which five billion dollars must come from individuals. Why? Haven't we nearly finished off our so-called Number 1 Enemy? Can Japan hold up our powerful war machine very long? Your son, brother and friend in his Pacific foxhole wouldn't raise such questions because they are up against realities, not day dreams. They kill or are killed. They pray every waking moment for a sky-darkening cover of friendly planes. They thank America for giving them the finest medical care in the world when their rendezvous with destiny in a Pacific jungle is at hand. They know the war with the Japs is just beginning.

Here are some other Pacific realities so that you will understand why there must be a Sixth War Loan and why it is absolutely necessary that it be a success:

The Allied Military Command has estimated that it will take years, not months, to lick Japan.

Japan's present army numbers about 4,000,000 with 2,000,000 more men available and fit for military service who haven't been called up to date. Another 1,500,000, between the ages of 17 and 20, are not yet subject to the draft.

The Jap Air Force is growing.

In addition to millions of native workers, Japan has a potential slave force of 400,000,000 conquered people. 50% of Japan's labor force is made up of women. Another 25% boys and girls under 20, the balance men. The Jap workday is twelve to sixteen hours with two days off a month. The Jap cannot leave his job, change it, or strike. The highest daily wage equals about three American dollars—30% to 75% of which goes to taxes and compulsory savings.

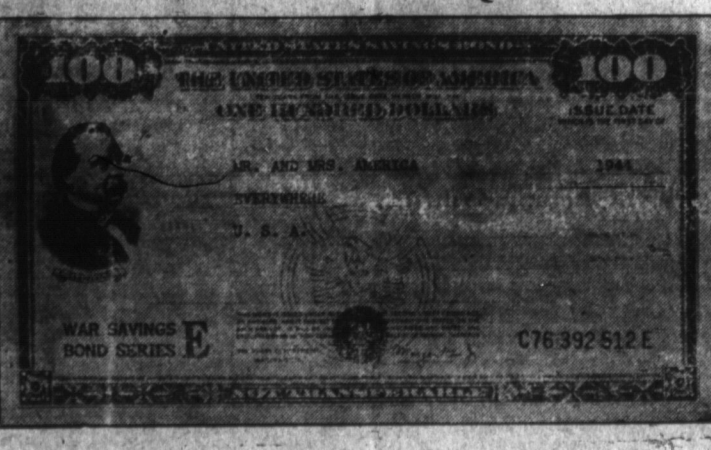

The Jap, as our men in the Pacific know, will fight to the death. As far as the Jap is concerned, the outer Empire—and the men who defend it—are the expendables. The Jap will fight the Battle from inside the inner Empire.

The Jap believes that we shall weary of war too easily and too early.

In the invasion of France, supply ships had an overnight run to make. In the coming Battle of Japan, ships in the Pacific will have long-reached round trips that often take five months to make.

These realities are worth thinking about before you keep your home front rendezvous with a Victory Volunteer. Perhaps you will feel that the national personal Sixth War Loan objective—purchase of at least one extra \$100 War Bond—is entirely too small for you. The better we face the realities confronting our forces in the Pacific the quicker the whole bloody business will be over and the sooner we will welcome home our fighting men. That's an American reality to work for with all our dollars and our sweat.

This Is Your Extra 6th War Loan Quota

O. D. WATERS

"He is gone on the mountain,
He is lost in the forest,
Like a summer dried fountain,
When our need was the sorest."

Once again, Death has been an unwelcome visitor at the Manassas Kiwanis Club. Twice within a few weeks, two charter members and past president have been taken—the last one being Odale Dabney Waters, affectionately known to thousands as Ode.

He possessed an unusual degree of that quality of charity which covers a multitude of sins. No one could be more ready—even eager—to find some excuse for the frailties and derelictions of others.

To say that he will be missed is trite. His death creates a vacancy which cannot be filled. To the older members it is difficult to realize that his genial and disarming smile and friendly jest will no longer be heard to divert some threatened controversy.

His work is ended. But the sweet memories of association will continue to cheer those who were privileged to be admitted to an intimate companionship with this gentle and lovable character.

"Soldier, rest! Thy warfare o'er,
Dream of fighting fields no more;
Sleep the sleep that knows no breaking.

Morn of toil, nor night of waking."

R. S. HYNSON,
A. H. ROSEBERRY,
ROBERT A. HUTCHISON.

CORPORAL MOSS IN HOLLAND

We have received notification that Cpl. Samuel A. Moss, Jr., of the 753rd Field Artillery Battalion, son of Mr. and Mrs. Samuel A. Moss, Sr., is now serving in the ETO in Holland.

Having completed his basic training at Camp Beale, California, Cpl. Moss embarked for overseas duty, 26 July, 1944.

Upon his arrival in the European Theatre of Operations, he remained in England several weeks for further advanced training. After completion of this training his Battalion was then then ordered on to France. Having participated in a Western European Campaign there, he and the other members of his Battalion have been authorized to wear "The Bronze Star."

He was inducted into the Army 28 April 1943. Upon completion of fifteen weeks basic training, Corporal Moss was then assigned to the Personnel Section working as Headquarters Battery "Battery Clerk," which assignment he is still filling.

Corporal Moss is the husband of Mrs. Katherine S. Moss, the former Miss Katherine Bell Snider, of Washington, D. C. They have one son, Carl Raymond, 26 months old.

A-C John W. Burchard has returned to Columbus Air Field, after spending his furlough at the home of his parents, Mr. and Mrs. M. S. Burchard.

Jack thinks the Mississippi climate is not as good as Ole Virginny.

KIWANIS ENTERTAIN TAM LADIES

The meeting of the Kiwanis Club on Friday the 17th started as usual with a verse of "America," saluting the flag, and the invocation, but what followed was not usual, for it was Ladies' Night. The first matter discussed with real interest was the dinner furnished by the ladies of the Eastern Star. Later the thanks of the hundred five present for the dinner were formally presented by Dr. George Cocks.

The address of welcome was given in his best ministerial style by Rev. Millard Draper, for the length of which Jack Royer as master of ceremonies he was forthrightly rebuked. He said it took too much of his time. Applause at the opening of a speech, said Mr. Draper, was a mark of faith, applause in the midst of the speech hope he would end soon, and at the end pure charity. Response to this speech was gracefully made by Mrs. Worth Peters. She wondered why the audience didn't show its faith by applause at the outset. However, they gave it at the moment and also at the end.

After some effort Jack Royer managed to get four volunteer couples to do as he wanted. With the help of Mrs. Royer the men were arrayed in aprons and the ladies were blindfolded. Then when the ladies had found their men (or thought they had) each fed her man ice cream with a spoon. One lady whose husband is very tall kept feeding her cream into his eyes and hair. She sat down very red in the face and he kept wiping the cream out of his eyes. Stanley Owens and his wife won the prize.

After eleven telephone calls to everybody from colonel to captain, said Charles Alpaugh, he finally secured the quartet from Vint Hill. Charles was all set to make a speech but Jack, having learned something from Millard Draper, cut him off in the middle of a syllable. But the quartet gave a good account of itself and deserved the applause it received. volunteer (?) couples. This time the ladies received a sealed paper bag. At Jack's signal the ladies opened the bags and proceeded to help themselves to what was evidently some of Jack's extra clothing from a poncho to pajamas and shorts. He used his rights and gave the Buddy Lynn.

The serious talk of the evening was given by Mr. Jardine, who represented the railroads of the country. His special subject was the history of the railroads in Virginia. He went away back to 1831 and ended up with the magnificent job being done by the Southern railroad and other railroads in the present war. Manassas came into this history a number of times.

President Edgar Parrish took occasion to thank all who took part in the program.

County Home Demonstration NEWS

Only The Home Can Found A State

Hot Spiced Juice

A pleasant way to serve fruit juice in chilly weather is spiced and hot Cider and grape juice are favorites for spicing. Home economists of the U. S. Department of Agriculture suggest this method of preparing hot spiced cider: To 1 quart of cider add 1-4 cup sugar; 1-8 teaspoon salt; 8 short sticks cinnamon; 12 whole cloves; 8 whole allspice. Just before serving, reheat and strain out spices.

Grape juice is spiced by the same method but twice as much sugar and no allspice is used and a little lemon juice is added just before serving.

Canned grapefruit juice is another possibility for spicing. It calls for more sugar and more spice. Spices suggested are cloves, cinnamon, and nutmeg. For a little color add a little grape juice.

Storm Damage To Citrus

In a hurricane the largest and heaviest fruit on the tree takes the worst beating. In the recent storm in Florida this was the case with citrus crops. The greatest damage was done to grapefruit, second greatest to oranges, least to tangerines, because of their smaller size and lighter weight.

Before the storm the grapefruit crop was expected to make an all time high record of 36 million boxes, but estimates have dropped to 20 1-2 million boxes—10 1-2 million below last year. Production of "seedless" grapefruit will be about 7,800,000 this year, only a little more than half that of last year. Of the fruit that fell or was blown-off the trees, only about 600,000 boxes can be salvaged. Because the storm hit some of the finest fruit on the trees and even affected the quantity of fruit left, a larger percentage of this year's crop will be lower-grade fruit.

The orange crop took a storm loss of about 10 million boxes. The early and midseason varieties, which are marketed from October to February, boxes lost. The Valencias, which come to market in the late winter and spring, got off easier because they were smaller. Only a few of the blown-off and fallen oranges can be salvaged. The tangerine crop this year is now expected to be about 3,800,000 boxes.

Interesting Journey

In August, Andrew Tally, of the Boston Traveler who was traveling with Gen. Patton's Third Army somewhere in France writes, "The sun is shining now, but I'm still damp after a two-day jeep journey that took us from Cherbourg to Gen. Patton's Headquarters deep in Central France and virtually at the gates of Paris."

I know now why ancient Chinese armies used to call a truce during rainy spells and scot for their umbrellas. That higher type of civilization just hasn't reached the western world. It rained all day yesterday from the moment I awakened in a communications' zone tent to shake raindrops off my nose until our jeep party turned in at a little French hotel in Laval. It really rained. It would start coming down in bucketsful, and when we got accustomed to the place somebody suddenly would bombard us with a hogheadful.

We had the top up, but when you've said everything. The water just poured in on us and the mud, black mud, yellow mud and just plain ordinary New England brown mud crawled up our boots and on to our boots and on to our trousers and splattered our dashing new trench coats from collar to hem.

There were compensations somewhere along the way. We stopped to barter with the eager French farmers, and for a piece of soap, a pack of cigarettes and a gram of coffee we obtained a half-dozen eggs. It was a good thing we did, for when we arrived at Laval there was no food left at the Army mess and we stood in the rain and ate our eggs fried sunny side up by an obliging mess sergeant with Army biscuits and lukewarm coffee which must have been the worst coffee I ever tasted, and yet wanted more.

With me were Larry Youngman of the Omaha, Neb., World Herald and the driver, that pride of Ole Virginia, Max Shepherd. Cpl. Shepherd is a stocky muscular corporal in a public relations detachment, he is also the best jeep driver in the world. For the first time since I left Tremont Street I have ridden in a jeep without having my pants scared off and the pride of Ole Virginny did the job. There were times when we went fast. We sometimes passed a convoy on a hill or at a curve but Max knew how to do it without blinking an eyelid either his or yours.

The Pride of Ole Virginny is a tired pride tonight after his trek with a couple of nutty correspondents and I don't think he's going to sell me that cigarette lighter I've been hankering after ever since he pulled it out. But I hereby salute Cpl. Max Shepherd of Nokesville, Virginia, as the only reason I arrived here alive. He is an awful worried and every kind of a gloomy guy but he can drive a jeep just as though he wasn't trying to kill everybody.

"Prices are surprisingly reasonable here. We paid only 50 francs (\$1) for a room occupied by all three of us, and breakfast for three cost about the same. The people's wants are in order: sugar, cigarettes and soap. They're allowed only four packs of cigarettes a month, and sugar and soap apparently are two items obtainable only by good fortune.

Naturally they're glad to see Yanks with cigarettes to pass out. But there is also a sincere spontaneity in their greetings. They line the streets of every town and city to cheer each passing army vehicle, sometimes throwing flowerst at the grimy liber-

Carrie Stultz

Mrs. Carrie Stultz, wife of Mr. S. S. Stultz of Nokesville, passed away at her home Wednesday morning, Nov. 15, after a long illness. Funeral services were conducted at the Valley View church by Rev. N. J. Miller of Denton, Maryland, her former pastor. Burial was in the family lot in the nearby cemetery.

Mrs. Stultz was born at Mathias, West Virginia in 1888, and moved to Virginia with her husband in 1910. Up until her illness over seven years ago she was active in church and community activities. She is the first member of the Nokesville Woman's Club to pass away.

Besides her husband, she is survived by one daughter, Mrs. Vada Bear and a host of friends who will miss her cheery smile for although she was almost a complete invalid she could always laugh. She had a determination to live and had she not such a will she would not have withstood her suffering for so many years. We cannot lament her departure for we know she has gone to a Land where there is no more suffering or pain and where she can rest from the cares of this world.

Mrs. Fannie Hale has gone to visit her daughter and son-in-law, Mr. and Mrs. Will Kline, Akron, Ohio, and Mr. W. F. Hale is spending some time with his son and family, Mr. and Mrs. Dan Hale of Washington, D. C.

Mr. and Mrs. Earl Seese of Falls Church spent Sunday here on their way to the Mimsy Hotel, Luray, to spend their vacation.

To the People of this Community

Five billion dollars of the 14 billion dollars our country needs to press the war against our enemies must come from individual investors. That sounds like, and is, a lot of money. Actually success or failure of the Sixth War Loan is up to each individual American.

Every war loan has been oversubscribed because Americans by the millions have shared its responsibility. Americans such as you have recognized the need of extra War Bond purchases over and above their normal payroll savings. There is no such thing as a little fellow in a War Bond drive. Your War Bond purchases, multiplied by the War Bond purchases of your friends and neighbors, become fighting power which saves lives of Americans on the battlefronts and brings us nearer our common objective.

THE EDITOR.

ators and often jamming the streets so tightly that the army has to pause and gracefully demand passage. The French around here haven't seen too many Americans yet so the novelty is still fresh. Also they haven't as many wrecked homes to pre-occupy their thoughts.

The pride of Ole Virginny showed a kind of embarrassed pleasure at being so extravagantly greeted. He maintained his grim calm through many towns, but he finally succumbed. Then he grinned rather shamefacedly and muttered softly, makes you feel like a hero, don't it."

T-Cpl. Shepherd, on a later trip was one of the first American boys to enter Paris when it was liberated. Recently he was awarded the Good Conduct Medal.

AMERICAN HEROES

Pvt. Henry B. Lowther, Flint Stone, Md., has been awarded a bronze medal for courageous action in driving a small car loaded with ammunition through constant enemy fire in support of buddies engaged in fierce battle at the base of a hill on a South Pacific island. Snipers' shots rained on his vehicle as he drove at 5 miles an hour over a narrow, hilly extension of a perimeter road, 10 trips in black night. War Bonds buy trucks for heroes.

Thanksgiving, 1944

This is the time of the year when Americans everywhere pause to give thanks... thankful for our country's ability to provide all of its citizens with plenty of food for health and strength. In this war year, to this spirit of thanksgiving is added the fervent prayer that victory will not be far distant and that future Thanksgiving Days may be observed in an atmosphere of peace among all nations.

BIBLE THOUGHT AND PRAYER

If parents will have their children memorize the daily Bible verses, it will prove a priceless heritage to them in after years.

"Enter into His gates with thanksgiving, and into His courts with praise; be thankful unto Him, and bless His name."
Psalm 100: 4.

Why Not Buy War Bonds?

It is hard to think of any good reason why people should need to be urged to buy as many war bonds as they can. It may not always be as easy as it is now to hold a good job and draw a well-filled pay envelope; war bonds are the most convenient and the safest provision against the rainy day to come. It is as simple as that and the wonder is that anyone needs to be told about it more than once.

Many do need to be told, apparently, because buying bonds reduces the individual citizen's pocket money or easily accessible deposit balance. In a sense, his bond purchases restrict his general purchasing power, but only in an implied sense and not in actual fact. For the E bonds can be converted into cash without notice 60 days after issuance and the F and G bonds six months after issue date on a month's notice. This right of redemption the government offers the subscriber as an anchor to windward—as an assurance against any sudden financial emergency. Both in his country's interest and in his own, he should cash a bond or bonds only to meet a real necessity he cannot meet any other way.

Then, too, probably a good many people need to be urged to buy because they assume that every drive succeeds and the government is sure to get what it needs. That state of mind ignores two things, namely, sound national war finance and wise management of the individual's affairs. The greater the proportion of the government's borrowing that comes from individual citizens the safer war-time and post-war conditions will be for both borrower and lender. As for the citizen's choice between buying bonds and other uses for his money, the fact is that he must buy things now in a "seller's market." Sooner or later a buyer's market will reward those who are patient enough to wait for it.

For the present drive the over-all goal is \$14 billion, of which individual subscribers are expected to take \$5 billion. They

Whether you are aiding the war effort by purchase of bonds and stamps, or are meeting your own necessities in these difficult times, you will find us willing and able to serve you.

Make this friendly bank your headquarters for all of your financial transactions.

Shopping Hints

Hints to use in shopping: Do you keep a record of your expenditures? Could you save a larger share without jeopardizing your family's welfare? Do you get your money's worth? Was your selection made on the basis of label information, advertisement, the previous experience of yourself or your friends, or just because the articles appealed to you at the moment? Do the meals you plan contain the basic seven food groups? Do the lunches you prepare for the children and the workers in your family contain a variety of needed vitamins?

Saarbrücken One of German Industrial Centers

Saarbrücken, with a prewar population of slightly more than 135,000, is the leading city of the Saar district, whose coal wealth and buffer location between France and Germany have made it one of the storm centers of Europe. Under League of Nations control for 15 years following World War I this 738-square-mile area was returned to Germany in 1935 by an overwhelming vote of the inhabitants.

Saarbrücken industries have been fed chiefly by the Saar coalfields and iron ore from Lorraine. They have supplied iron and steel, coal gas, machinery, glass, and chemicals to the Nazi war machine. The phosphorus of Lorraine ores has been especially valuable for making fertilizers to increase food production for the Reich.

Situated on both sides of the Saar river, that flows northwestward to join the Mosel, Saarbrücken is surrounded by low, wooded hills. Near the city on the east and southeast, their rise to more than 600 feet.

UNCLE SAM IS CALLING

Now is the Crucial time in the war

Victory is in the making—but it requires money, and lots of it, to back the heroes over there in the tremendous effort they are making for the peace we all want

Remember they are GIVING their all. We are only asked to INVEST our money. What better form can our gratitude to them take at this Thanksgiving season than to support the 6th War Loan with every dollar we can spare—and do it promptly.

Lice and Mites Cause

Poultry Production Drop

Two noted thieves are robbing farmers of their opportunity for poultry profits, one of these thieves being a louse and the other is a mite. They cause a decline in egg production and lower the vigor and vitality of pullets. Body lice and tropical mites remain on the bird's body while the red mites stay in the poultry house and are usually on or around the perch poles.

Poultry specialists recommend that birds be dusted with sodium fluoride to eradicate body lice or that birds be dipped in slightly warm water to which has been added one ounce of sodium fluoride to each gallon of water used. Perch poles should be treated with nicotine sulphate and the treatment repeated in 7 to 10 days.

Since red mites suck blood from the birds, it is necessary to use a material that will kill by contact. The recommended practice is to treat perch poles and supports with used motor oil to which has been added one-third or more kerosene. The house should be thoroughly cleaned and all litter and nesting material should be burned prior to the treatment.

Early Imperialism

Japan set out to conquer the world over 350 years ago, the Encyclopedia Britannica says. The campaign was started in Korea, a country which had attained a culture far superior to that of their Japanese neighbors. The following excerpt gives an interesting account of how the conquest was frustrated by the use of a strange looking man-of-war, the first iron-clad war vessel recorded in history.

"In 1592, Hideyoshi the Japanese usurper determined to conquer the world. He sent an army of 300,000 men to Korea armed with matchlocks. At first they met with little or no opposition, but presently Admiral Yisunsin invented an iron-clad war vessel which the Japanese could not burn or board. With a fleet of these he attacked a huge flotilla of Japanese vessels and won a battle which did for eastern Asia what the Battle of Salamis did for Europe. The Koreans took heart and, with the aid of a Chinese army, drove them southward and finally out of the country. From that time dates the immemorial feud between the two countries."

Fine Fix

To most people who ride through the Holland traffic tunnel under the Hudson river between New York City and Jersey City, the experience is thrilling. But having a flat tire or break-down in the tunnel is an experience which every driver hopes to avoid. Breakdowns and flats, however, occur daily. The moment a car stops in one of the twin tubes, guards flash word by telephone and instantly a wrecker is on the way. If the trouble can't be corrected on the spot, the offending car is yanked out in a matter of three or four minutes. Only by quick action can costly, delaying traffic snarls be avoided.

Note Of Thanks

To our many friends and relatives we wish to take this way of thanking you for the kindness and sympathy you have shown us during the long illness and death of our devoted wife and mother, and also for the beautiful floral tributes.

Chinese drummer boy, symbolizes the sturdy resistance of his nation to tyranny and aggression. Such boys are being trained in mission schools, in spite of the war, Episcopal leaders say, and on them depends the responsibility of leading China into the company of Christian nations. A high percentage of China's present leadership is already Christian.

Says Radio Reception Varies With Moon's Phases

Radio reception has now been found to vary with the phases of the moon, it was disclosed by Dr. Harlan True Stetson of Cambridge, Mass., director of the laboratory for cosmic terrestrial research, Massachusetts Institute of Technology.

Citing the results obtained from data after more than 20,000 hours of observation over two periods of four years each, Dr. Stetson said:

"From the study of our data, made on those nights when the moon was overhead, we found radio reception definitely improved from the time of the moon's first quarter to shortly before full moon. After full moon, radio reception deteriorated, but began to improve again from about the last quarter until a few days before new moon. This, of course, is true for a certain particular frequency over a certain path we were measuring."

However, in observations made when "the moon was below the horizon"—observations made in the dark of the moon, "we found no such effect, where no radiation from the moon's surface could reach the radio waves over the path we were studying," Dr. Stetson pointed out. The same thing happened in both series of data, except that the lunar effect was more pronounced during the second four years of our data than during the first four years, he declared.

Hot Biscuits Good Around the Clock

THE Continental custom of serving tea in mid-afternoon has something to be said for it. Who wouldn't like hot golden biscuits and honey with a steaming cup of tea? One interesting English, or Canadian tea-time custom is to serve the foods on plates of different patterns—including cups and saucers!

Fluffy tender biscuits can be whipped up in short order whenever unexpected guests arrive. Make them with thrifty blended shortening for good results. Serve with homemade jelly, jam or marmalade.

Biscuit dough can also be used as a shortcake base—with creamed fruit for a main dish, or with a fruit topping for dessert. If you're in a hurry, make crunchy drop biscuits instead of uniform rolled ones; use a little extra milk in the recipe for drop biscuits.

Cinnamon biscuits or orange biscuits are good breakfast hot breads, while bacon biscuits are a treat for lunch. So biscuits are around-the-clock favorites.

Yield: 12 medium biscuits
1/2 cup blended shortening 3 teaspoons baking powder
2 cups sifted flour 1/2 to 3/4 cup milk
1 teaspoon salt

Sift together flour, salt, and baking powder. Blend in shortening until mixture is the consistency of coarse cornmeal. Stir in milk to form a stiff dough. Turn onto a lightly floured board or pastry cloth and knead gently 3 or 4 times. Pat out to 1/2 inch thickness. Cut with floured biscuit cutter. Place on an ungreased baking sheet. Bake in a hot oven (425° F.) 10 to 12 minutes.

For variations of the above recipe try: Orange Biscuits—Sift 1/4 cup sugar in with other dry ingredients. Add 2 tablespoons grated orange rind to dough.

Cinnamon Biscuits—Roll biscuit dough out into a rectangle 1/2 inch thick. Spread with butter or margarine. Sprinkle with a mixture of 1/4 cup sugar and 1 teaspoon cinnamon. Add 1/2 cup raisins if desired. Roll up as for jelly roll and cut in 1-inch slices. Place in greased pan and bake.

Bacon Biscuits—Roll biscuit dough out and cut into squares. Dice 6 slices of bacon. Sprinkle bacon pieces on top of dough. Place squares on baking pan. Bacon will brown as biscuits bake.

Started Sale in U. S.

Back in 1907, in response to an appeal from a small group of doctors, Miss Emily P. Bissell (above), of Wilmington, Del., started a Christmas Seal Sale to help tuberculosis patients. Every year since then the Seals have been sold in this country to aid the fight against the White Plague.

NOKESVILLE

Mr. and Mrs. Harry Miller entertained the Young Married People's Class on Tuesday night. Our class is very active with a large number usually attending. We have quite a lot of new members but the places left vacant by those who have moved away and in service, will never be filled until they return. We were very happy to have with us our "adopted couple" Rev. and Mrs. J. W. Fidler who were enroute from York, Pennsylvania to hold a meeting in Indiana.

Mr. and Mrs. Lynn Weeks have moved into the Swartz tenant house. Lt. Swelwyn Smith who has been stationed at Camp Wheeler, Ga. is spending some time with his parents, Mr. and Mrs. Harold Smith before his overseas assignment.

Mrs. James Hively is ill in Warrenton Hospital. Her little son is staying with his aunt, Mrs. Della Sonafank. Mr. and Mrs. Fred Whetzel and Faye were present at the reunion of the Collins family at the parents home Engleside on Sunday, November 12. The entire family were present, including Mr. and Mrs. Olie Collins, Mr. and Mrs. Jack Collins, Engleside, Mr. and Mrs. Jay Collins, Bethesda, Md., Mr. and Mrs. Buck Hedrick and daughter, Mr. and Mrs. R. W. Ballinger and son of Alexandria, Mrs. Jessie Lee Worley and Mr. and Mrs. Fred Whetzel and daughter.

The Runion family received a telegram Sunday saying that another son, James has been wounded while in action in France.

Those attending the Stultz funeral on Friday from a distance were Mrs. Martha Fitzwater, Mr. and Mrs. Gene Souder of Bergton, Mrs. Joe Stultz, Mr. Guy Stultz, Mrs. Andrew Thomas, Criders, Mr. and Mrs. Russell May, of Bergton, Mr. John May, Sistersville, W. Va., Mr. and Mrs. Hosea Duffey, Mr. George May, Mr. Everett May, Mrs. Helen May, Mrs. Nettie May, Washington, D. C., Mrs. Wilbur Bowman and family of Oakton, and Mrs. Edna Harris, New York City. At the Parent-Teacher Association meeting last Wednesday night, the Nokesville Safety Council, after being thoroughly explained by Dr. Cocke of Manassas, was organized with the following officers elected, Chairman, Harold Smith, Vice Chairman, Charles Beahn, and Secretary-Treasurer, V. W. Zirkle.

ORDINANCE

IN RE: ORDINANCE REGULATING THE SANITATION OF RESTAURANTS, LUNCHROOMS AND ESTABLISHMENTS SERVING FOOD IN PRINCE WILLIAM COUNTY.

Be it resolved by the Board of Supervisors of Prince William County, Virginia, that the following ordinance be and the same is hereby adopted by this Board.

BE IT ORDAINED AND ENACTED by the Board of Supervisors of Prince William County, Virginia, under and pursuant to the powers vested in it by Section 2743, of the Code of Virginia of 1942, that the following ordinance be enacted and ordained by the said Board, to-wit:

Section 1. It shall be unlawful for any person, firm or corporation to maintain or operate in Prince William County, Virginia, any restaurant, lunchroom, dining room or eating place for the entertainment or accommodation of the public generally without having first obtained a permit to maintain and operate such establishment from the Prince William County Health Department.

The term "restaurant" shall mean restaurant, coffee shop, cafeteria, short-order cafe, luncheonette, hotel dining room, tavern, sandwich stand, soda fountain, or any other establishment where food, diet or refreshment is prepared and sold for consumption therein.

Section 2. The permit issued under the provisions of this ordinance shall be displayed in a prominent and conspicuous place, or at any place on the premises designated by the Prince William County Health Department.

Such permits shall be for a period not exceeding one year from the date of issuance. Such permits may be withheld from issuance or be suspended by the Prince William County Health Department, for good and sufficient cause. Any person or persons who may feel aggrieved by such suspension or by a refusal to restore such permit or to issue a permit under this ordinance, may within ten days from the date of such suspension, or refusal, as a matter of right and without bond, appeal such act of suspension or refusal to the Trial Justice Court of this County on the question of cause. Such appeal may be perfected simply by a request in writing directed to the Trial Justice, signed by such proprietor or proprietors (person or persons) or by counsel, setting forth the material facts, and the Trial Justice shall forthwith set said case for trial, giving prompt notice thereof to the said Health Department. Such trial shall be conducted as other law cases, and the right of appeal as a matter of right and without bond, from the decisions of said Trial Justice to the Circuit Court of this county, shall be preserved. The trial in the Circuit Court shall be on an issue of fact as in any civil case at law, and if the parties request it, the trial shall be by a jury of five.

Section 3. All such restaurants, lunchrooms, dining rooms or eating places shall be open at all reasonable hours to inspection by any representative or official of the Prince William County Health Department, and it shall be unlawful for any person, firm or corporation maintaining or operating any such establishment in Prince William County, Virginia, to refuse or prevent the inspection of such establishment by any representative or official of the Prince William County Health Department, at any reasonable hour.

Section 4. FLOORS. The floors of kitchens shall be made of tile, concrete, or other impervious material approved by the Health Department, or of wood; and shall be kept clean and in good repair. The entire floor of kitchen must be free of unnecessary articles.

Section 5. WALLS AND CEILINGS. Walls and ceilings must be constructed of material that can be cleaned easily; painted with a light color paint, or finished in a manner approved by the Health Department.

Section 6. LIGHTING AND VENTILATION. The window space in kitchens must not be less than ten percent of the floor area unless adequate artificial light is provided and windows must be so arranged as to give the maximum amount of natural light. In all instances adequate artificial light must also be used during periods when there is not sufficient natural light. Metal hoods over ranges, equipped with ventilators, and exhaust fans must be provided where the Health Department deems it necessary.

Section 7. DRAINAGE. Drain and waste pipes from floors, wash sinks, soda fountains, ice boxes, etc., must be of sufficient size, well trapped, and in good state of repair, and approved by the Health Department.

Section 8. SCREENING. Screening shall be considered satisfactory if all openings are effectively screened. Outer doors must open outward and be self-closing, unless other effective means are provided to prevent the entrance of flies. Other methods approved by the Health Department may be used in addition to prevent flies in food establishments.

Section 9. TOILETS. Adequate, approved toilet facilities must be provided for employees. Toilets must be constructed and maintained in accordance with the current rules and regulations of the State Health Department.

Toilets must be entirely separate and apart from any room used for the manufacture, storage, or handling of food products. Flush toilets used in food establishment must be provided with tight, self-closing doors, and all new construction must be vestibuled, and toilet room must be ventilated by means of a window or flue leading to the outside. All flush toilets must be connected to an approved sewer system or provided with properly constructed septic tank.

Walls, floors, seats and commodes must be clean, and a supply of toilet paper must be provided.

Section 10. HAND WASHING FACILITIES. All food handlers must observe a high standard of personal cleanliness, and they must be constantly supervised in this respect by the employer. The hands of all employees must be washed thoroughly in hot soapy water after visiting the toilet. The waiters, cooks, etc., must keep their hands away from the mouth and nose and wash their hands immediately in hot soapy water should they become contaminated with oral or nasal secretions. Employees must keep fingernails short and clean.

Adequate hand-washing facilities include running hot and cold water, or a suitable vessel and an adequate supply of clean water, soap, and a clean individual towel for each employee.

Section 11. KITCHEN UTENSILS. All kitchen utensils must be of an approved type, constructed of heavy gauge material, with a not readily corrodeable surface and of a shape that will make cleaning easy. All containers, utensils, and other equipment, must be in good repair, free of breaks, open seams, and corroded places. All utensils not in use must be stored above the floor, inverted when practicable, and protected from flies, dust and insects.

Section 12. DISHES, CUPS, GLASSES, ETC. Dishes, cups, glasses, etc., must be of an approved type free of cracks, and chipped places, clean, properly sterilized after each usage, and stored so as not to become contaminated.

Section 13. SILVERWARE. Silverware must be in good state of repair, clean, properly sterilized after each usage, and stored so as not to become contaminated.

No article, polish or other substance containing any cyanide preparation or other poisonous material shall be used for the cleaning or polishing of eating or cooking utensils.

Section 14. MECHANICAL EQUIPMENT. Mechanical equipment must be maintained in a good state of repair, clean at all times, and sterilized as often as the Health Department deems necessary.

Section 15. DISHWASHING EQUIPMENT. Adequate facilities must be maintained for the washing, rinsing, and sterilization of all utensils used in the preparation, handling, and serving of food and beverages. The following is considered the minimum equipment for washing, rinsing, and sterilizing such utensils: Adequate facilities for heating water for cleaning; stationary wash and rinse vats of not less than three compartments, or if chemicals are used to sterilize utensils, a four compartment vat must be provided. An approved washing powder must be used.

Nothing contained in this section shall be construed as disbaring any other equipment which has been demonstrated as of at least equal efficiency and is approved by the Health Department.

Section 16. METHODS OF STERILIZATION RECOMMENDED. One of the following methods must be used: Steam, hot water, and Chlorine chemicals. If steam is used as a method of sterilization, utensils must be exposed for at least fifteen minutes to at least 170 degrees F., or for at least five minutes at 200 degrees F. in a steam cabinet; or exposed to a jet of steam for at least one minute, or submerged in hot water at 170 degrees F., or more, for at least two minutes; or exposed to a chlorine solution containing not less than fifty parts per million of Chlorine for at least two minutes. (A solution containing one hundred parts per million, or more is recommended.)

The practice of drying eating utensils with a towel shall not be permitted.

Provided that nothing contained in this section shall be construed as disbaring any other process which has been demonstrated as of at least equal efficiency and is approved by the Health Department.

Section 17. TABLES, SHELVES, ETC. All tables must be properly constructed of materials that can be thoroughly and easily cleaned. All table tops must be of non-absorbent material when deemed necessary by the Health Department. Table tops must be free of unnecessary articles. Table covers, napkins, etc., must be clean and all shelves shall be clean, free of unnecessary articles and neatly arranged. All napkins shall be discarded or laundered after each usage.

Section 18. GARBAGE CANS. Garbage cans shall be of non-absorbent material, leak-proof, adequate size, with tight fitting top, and must be kept reasonably clean.

Section 19. WATER SUPPLY. Any water supply used at a food establishment shall be properly located, constructed, operated, and shall be easily accessible, adequate and of a safe sanitary quality.

Section 20. REFRIGERATION. Refrigerators, ice boxes, etc., shall be of adequate size to store all perishable food, constructed of materials that will permit thorough cleaning, shall be properly drained and ventilated, shall be equipped with thermometer and kept at a temperature below 50 degrees F., at all times, except during periods of defrosting. Floors, walls, ceilings, racks, hooks, pipes, etc., shall be kept clean.

Section 21. MILK AND CREAM. Only graded milk shall be used or served in a food establishment. Official placards, stating the grade of milk served, whether pasteurized or raw, must be displayed in a place designated by the Health Department. All milk must be served in the original one-half pint container in which it was bottled at the plant. Milk drinks shall also be made from the entire contents of the original one-half pint bottle.

Section 22. FOOD COVERED. All prepared foods and foods consumed in the raw state must be protected from flies, dust, dirt, etc., by properly covering, wrapping with cellophane, or displaying in fly and dust proof cases.

Section 23. EMPLOYEE'S CLOTHING. Employees must wear clean, washable outer garments at all times while engaged in the preparation, handling and serving of food.

Section 24. EXAMINATION OF FOOD HANDLERS. Every person connected with any food establishment in the County of Prince William, whose work brings such person in contact with the handling, preparing or serving of food or food products, shall furnish such information, permit such serving of food or food products, shall furnish such information, permit such Department may require for the purpose of determining freedom from infection.

Section 25. VERMIN AND RODENT CONTROL METHODS. Owners and operators of food establishments must employ methods for controlling vermin and rodents.

Section 26. PENALTIES. Any violation of any provision of this ordinance shall constitute a misdemeanor, and shall be punishable by a fine of not less than \$5.00, nor more than \$50.00 or by imprisonment in the County Jail not exceeding thirty days, or by both such fine and confinement in jail, in the discretion of the justice court or jury trying the case, and each day's violation of any of the provision hereof shall constitute a separate offense.

Section 27. If any part or parts, section, subsection, sentence, clause or phrase of this ordinance is for any reason declared unconstitutional, such decision shall not effect the validity of the remaining portions of this ordinance, which shall remain in full force and effect as if this ordinance had been passed with the unconstitutional part or parts, section, sub-section, sentence, clause or phrases hereof, eliminated; and this Board now declares that it would have passed this ordinance if such unconstitutional part or parts, sections, sub-section, sentence, clause or phrase had not been included therein.

BE IT FURTHER ORDAINED that this ordinance be, and the same is hereby made effective on and after February 1, 1945.

BE IT FURTHER ORDAINED that the Trial Justice of this Court be furnished with a certified copy of this ordinance, and that complaints for the offenses hereinabove set forth be prosecuted under the terms of this ordinance, and that all fines imposed under this ordinance shall be collected and paid to the credit of the County Levy Fund of this County.

BE IT FURTHER ORDAINED that the Clerk of this Board be, and he is now directed to cause a copy of this ordinance to be published in two consecutive weekly issues of The Manassas Journal.

WITNESSES: R. S. Hall, W. M. Johnson, John W. Ellis and J. Murray Taylor
