## Names That Live Forever—

IN A WAY, this otherwise inconspicuous week is probably one of the greatest weeks in the year, for in it are the birthdays of three of the outstanding Americans of all time.

Today, of course, is the birthday of Robert E. Lee. Day before yesterday was that of Benjamin Franklin. And day after tomorrow will be the natal day of Stonewall Jackson.

If there is another week in the calendar that has given us such a heritage of greatness, we cannot identify it. Not only is the talent of each man worthy of note, but the sum of their three fortes can well be taken as a pattern for modern living.

There stands Franklin with his kite and his ever-questing mind.

There stands Lee with his gentility and devotion to principle.

There stands Jackson like a stone wall. The dedication of each of us to the things these three men stood for cannot help but make this a better America—a better world.

For us in Prince William County the names of Lee and Jackson hold special significance. As long as America lives Lee, Jackson and Manassas are synonymous.

We have just passed through another great war. No name now prominently associated with that war, we predict, will live as long in history, or shine as brilliantly, as the names of Lee and Jackson.

## A Dollar a Thousand

IN A LITTLE over three months now, a man or woman with a big sheet of paper will be knocking on your door to ask you a lot of personal questions. Under ordinary circumstances you would be justified to setting Fido on such a nosy parker, but this is 1950 and things are just a little bit different.

The third clause of the second section of Article I of our federal constitution empowers this visitor to ask these questions, and it behooves all of us to give full and frank answers knowing (1) that we may go to prison if we refuse and (2) that the census enumerator, as he is called, may go to the same dank place if he carries further what you have told him in confidence.

The Manassas Journal is just as curious as the next fellow about how many people the 1950 census will turn up in Prince William County. Or maybe a little more curious, because The Journal is hereby opening a contest for the best guess about the coming head-count.

Below are the contest rules and entry blank. It costs you nothing to enter. Just follow the rules, and write your guess about the official 1950 census figure for Prince William County and mail it in, paid for by a one-cent post card.

When the official figures are announced, we will find the entry that comes closest to the correct figure. That winner will get a prize based on one dollar per thousand population. For instance, if the official figure turned out to be 13,951, the person making the closest guess would get \$14; if it were announced as 17,738, the winner would get \$18.

We are pretty sure it won't be either one of those figures, because the smaller number was the county's 1930 population and the larger was its 1940 population. And Prince William has grown since 1940.

It's worth a dollar a thousand to us to know how close you are watching Prince William County grow.

"THIS IS THE FIRST OPPORTUNITY I'VE HAD TO CASH MY LIBERTY BONDS."

## To The Homemaker

By Virginia W. Post  
**VEPCO Home Economist**  
Aluminum Cooking Utensils  
Question: My aluminum utensils have become discolored and ordinary washing with soap and water does not brighten them. What should I do?  
Answer: The discoloration is formed by minerals in foods or in the water in which they are cooked. Use a steel pad or any of the good aluminum cleaners on the market. Another method is to boil two tablespoons of either cream of tartar or lemon juice or vinegar in a quart of water in the utensil for a few minutes.  
Never use soda, lye, ammonia, or any other washing compound containing a strong alkali; these injure pure aluminum and cause it to discolor. Ordinarily, soaps that will not injure the hands are not harmful to aluminum.  
Question: Is it alright to cook acid foods in aluminum?  
Answer: It is perfectly safe to cook acid foods in aluminum. Neither the pan nor the food will be harmed in any way. You may have noticed that aluminum utensils are brighter after acid foods are prepared in them. This is due to the fact that the acids remove the dark-colored mineral salts that may have been left there as a deposit.

## Crannies in Germany Get Journal Sent to Them

The Manassas Journal has a subscriber in Germany. He is Master Sergeant Lawrence M. Hall who until recently lived at 301 North Main Street, but who is now stationed with the Signal Corps, 6th Detachment, 2nd Signal Services Battalion, Hero Base, near Nuremberg, Germany. Mrs. Hall and their 19 month old daughter, Cathy, have gone to Germany with Sergeant Hall, who previously was attached at the Vent Hill Station.

Before leaving Manassas Sergeant Hall asked to have his paper sent to his German station, so he and Louis Tombessi, who formerly lived in Manassas on Grant Ave. and is also at Hero base, could be kept informed of what friends at home are doing. Tombessi who was also at Vent Hill helped install the lights for night games in Manassas. Friends who desire to write them should address their letters to APO 66, care postmaster, New York.

The individual who is willing to learn from experience can become better educated than the collegian who has a few degrees for hard work on his books.
