Miss Stephens is to be married to Mr. Floyd Keys also of Brentsville in May. There were about eighty friends to enjoy the evening and to shower the guests of the evening with lovely gifts. The hall was tastefully decorated in pink and green. The evening was enjoyed by all who came, including quite a number of folks from Vint Hill where Miss Stephens is employed. Earlier in the evening, the guest of honor, was a dinner guest of Mrs. Alice Piller, with whom she works, and who helped make the evening's plans a complete surprise.

Both Mr. and Mrs. E. C. Owens have been confined to their home the past week with the flu. S. S. Strutz has been substituting for Mr. Owens on the mail route.

Miss Julia Rose of Fredericksburg was the weekend guest of Mr. and Mrs. Wade Whetzel and Wade Jr.

## Haymarket

By Mrs. A. H. Meyer

### BIG SUCCESS

One of the outstanding social events of the season was the luncheon and fashion show sponsored by the Haymarket Woman's Club, celebrating the 20th year of the organization of the club. Held at the Tavern on Tuesday, April 10th, costumes for the show were furnished by Margaret Lynch Shop and the Gregory Shop of Manassas. They furnished their own models. Carolyn Gossom and Eddy Melton of Haymarket modeled for the Martha Show with the pose and grace of professionals. The Flower Mart furnished the beautiful floral decorations which were later sent to sick people of the community. Door prizes were donated by M. S. Melton & Co., and Gossom Bros. and were won by Mrs. F. H. Peters and Mrs. Margaret Boger. Mrs. Byron Woodside, president of the club, and Mrs. Stanley Brewster, chairman of the anniversary celebration, and her fine committee deserve special mention for the splendid work done to make this occasion such a success. About 76 club members and their guests were present. Seven new members were added to the club. Among those from a distance attending were: Mrs. Esther D. Terrell, Washington, D. C.; Mrs. Howard E. Smith, Alexandria, Va.; Mrs. Thomas Hutchinson, Waterford, Va.; Mrs. John Tribble, of "Ivanhoe Hall," Dellaplane; Mrs. Paul Cooksey and Mrs. Davis, Manassas; Mrs. Katharine Streeter of Erie, Pa.; Mrs. J. C. Hughes, Buffalo, N. Y.

### SECOND INSTALLMENT

In 1911, under Miss Eugenia's direction, the Manassas High School presented the "Pageant of the States," at the Peace Jubilee commemorating the fiftieth anniversary of the First Battle of Manassas.

Upon the death of Miss Fannie on January 19, 1912, Miss Eugenia was named principal of the Manassas High School.

Thanks to a gift from the alumni of the Manassas Institute and the Manassas High School, in 1914 Miss Eugenia traveled in England, France, Switzerland and Italy. Her return to America was rather precipitate, due to the outbreak of World War One.

When, in 1916, the Manassas District School Board authorized the organization of a commercial department in the Manassas High School and Miss Willette Myers was appointed director of the department, Miss Eugenia assisted Miss Myers in working out a completely standardized course of study, as there was nothing of the sort then available from the State Department of Education.

In the early 1920's Miss Eugenia directed the first health drive put on in Prince William County by the State Department of Health.

By this time, somewhat past the mid-point in her teaching career, Miss Eugenia was well-advanced toward her goal to obtain a bachelor's degree. Beginning in 1905 and to continue for 30 years, Miss Eugenia utilized every available opportunity to study at the summer sessions of various universities as follows:

University of Chicago: Summers of 1905, 1908 and 1913. Subjects: History, botany, education, psychology, English and geology.

Harvard University: Summer of 1909. Subject: Botany.

University of Virginia: Summers of 1910, 1922-24. Subjects: History, biology, English and education.

Johns Hopkins University: Summers of 1912, 1916 and 1919. Subjects: English, education and mathematics.

George Washington University, Session of 1929-30; semester in 1930-31; summers of 1933-34. Subjects: History, English, French (three years), philosophy and education. In entering upon her work at this University, Miss Eugenia took the College Entrance Examination Board's examination on the whole high school course. Several of the history and education courses, which she took here were graduate courses. On February 22, 1935, Miss Eugenia received a Bachelor of Arts degree from George Washington University.

CASE NO. 8893

**COMMONWEALTH OF VIRGINIA**  
At the Relation of  
STATE CORPORATION COMMISSION

VS.  
**VIRGINIA GAS DISTRIBUTION CORPORATION**

THIS DAY came again the Virginia Gas Distribution Corporation, by Counsel, and filed herein its petition, requesting that this proceeding be reopened and reset upon the Commission's docket, and represented unto the Commission that an emergency, likely to affect the health, safety and welfare of the people of the State, exists which necessitates the adoption by the applicant of rules and regulations enabling it to limit and restrict natural gas for space heating in new construction, and that by reason thereof, an amendment to the rules and regulations heretofore filed by applicant and approved by the Commission, is necessary and advisable, and presented a proposed amendment in the following words and figures, to-wit:

"**RULE 2.** The Company shall not be required to supply natural gas service to any consumer, present or prospective, in the state of Virginia for design of additional equipment needed to provide gas space heating in any building, unless and until, in the judgment of the Company, it has sufficient gas therefor, or unless proof is furnished to the Company that:

"(a) Gas-fired heating equipment was registered with the Company and the approval for the installation of such equipment was given by the Company prior to the effective date of this order; or

"(b) In the case of new construction which is a designed for gas space heating appliances, the same was commenced prior to March 1, 1951, or a binding contract for such construction has been entered into prior to date last aforesaid. Copies of such contracts must be furnished to and registered with the Company on or before ten (10) days after the effective date hereof and accompanied by an affidavit of the parties to such contract that same was in good faith, entered into prior to March 1, 1951. If, in the latter event, the structure for which such service is desired is not substantially started (such as foundation completed or other evidence of bona fide intention to complete as rapidly as construction will permit) by June 1, 1951, Company shall not be required to furnish gas service for such equipment.

"Provided, further, that when, in the judgment of the Company, the anticipated supply of gas is sufficient to meet the requirements of such deferred new customers, gas service for such new or additional gas-designed space heating equipment shall be supplied in the order in which applications for such service are registered with the Company, if the volumes involved and the appliances and equipment are first approved by the Company which may, in its discretion, without regard to the order of applications give preference to:

"(a) Medical hardship cases where such hardship cases are supported by evidence satisfactory to the Company that the hardship claimed is actual; or

"(b) Newly constructed premises with heating equipment designed exclusively for gas."

and it appearing proper so to do; IT IS ORDERED:

## Owner of Wheat Chevrolet

**RIGHTY HAPPY**—Over the completion of the modern new home of Wheat Chevrolet is Clarence L. Wheat, owner of the business enterprise, which bears his name. It marks another big achievement in busy and successful automotive career.

## Wheat Took Over Chevrolet Agency In Manassas Year Ago

Behind the genial smile and southern drawl of Clarence L. Wheat, local Chevrolet dealer, is a man of varied interests and experiences. Mr. Wheat, most of whose friends know him as "Buck", came to Manassas a year ago from Waynesboro, Pa., where he owned and operated a large Chevrolet dealership for six years. He took over the Chevrolet franchise from John and Bradford on May 1 last year, and has operated this automotive business at the same location on Main Street since that time.

While a resident of Waynesboro, Wheat served as president of the Lions Club and advertising agent, and held memberships in a dozen civic and fraternal organizations. He also served as one of the local chairmen of the national famous Pennsylvania Week. He first became affiliated with Chevrolet in 1938, in the educational department of the Chevrolet division of the General Motors Corp.

# Gala Party To Mark Wheat Opening

## Chevrolet Has Served Area Nearly 30 Yrs.

Completion of the new headquarters of Wheat Chevrolet on Centreville Road, climaxes nearly 30 years of automotive service to the people of Manassas and the surrounding area by Chevrolet personnel.

"The inauguration of our new building will be the biggest event in the long history of Chevrolet service in this area, and we hope the many friends we have here will be on hand to help us celebrate the occasion," Dealer C. L. Wheat declared.

"Our new home," he continued, "was built and equipped to suit the automotive needs of the people of this area. From our many years of experience we know what the public wants, and that experience has guided us in this project—from the first blueprint to the last item of furnishings."

## Finest Lighting System At Wheat Chevrolet

One of the most complete, effective lighting layouts of any building in this area, has been installed at Wheat Chevrolet, Centreville Road.

Planned by the Westinghouse Electric Supply Company, Washington, D. C., the layout includes more than 125 individual lighting fixtures, conveniently located as to provide maximum effectiveness from each outlet.

Drop cord lights on pulleys, enabling mechanics to use effective lighting on any section of a car, is an important feature of the new service department at Wheat Chevrolet.

Mr. Wheat, at the present time, holds memberships in the National Automobile Trade Association of Virginia, Lions Club, Elks and Moose. He is area chairman of the NADA, and recently was elected a director in the Chevrolet Dealers' Association for this area.

The local automotive head is married to the former Loretta Pearson, of Warrenton. The couple has one son, Leonard, age 10, a student at Linton Hall.

**SERVICE MANAGER**—Oden A. Breeden, Sr. is in complete charge of the service department of Wheat Chevrolet. "Odie" as he is called by many friends is married and the proud father of five children. He is a native of Prince William county. For 23 years he was service manager for Hyson & Bradford. He has a large staff of trained mechanics under his supervision.

**BLUE MT. BOYS**—From radio station WGAY will furnish music for the big square dance at the Wheat Chevrolet opening Saturday night. In the group are Dick Sullivan, Juanita Ellison, "Curley" Smith and "Lucky" Saylor.

## \*Square Dance Will Feature Radio Talent

A good old-fashioned square dance will be held Saturday, April 21, from 7:30 to 11:30 p. m., at Wheat Chevrolet, Centreville Road, in conjunction with the grand opening of the new building. In extending a cordial invitation to the people in and around Manassas to attend, Mr. Wheat declared, "We promise a most interesting and enjoyable time for everyone."

The master of ceremonies will be Connie B. Gay of radio station WRL, Arlington, who has just returned from an extensive tour of the Far-Eastern Command. While in the Far-East, he entertained service personnel in hospitals, camps and bases in both Japan and Korea. Ralph Case, well-known square dance maestro, will be in charge of the festivities.

"Fiddling Curley" Smith and the Blue-Mountain Boys of radio station WGAY will provide the music.

Featured entertainers will include Lucky Saylor, who specializes in the guitar and "sweet songs"; Juanita Ellison, the girl from the hills of old Kentucky, singer of sweet down-home ballads and hymns; Dick Sullivan, bass; and Abner Abernackey, comedian.

There are five modern rest rooms in the new home of Wheat Chevrolet, Centreville Road.

## Customer Satisfaction Is Goal Of Modern Service Department

Genuine customer satisfaction efficiently and economically done is the goal of the modern new service department of Wheat Chevrolet, Inc.

And one reason why the service department will be well prepared to serve each customer quickly and efficiently is the Sun Master Motor Tester, which enables complete, thorough testing of the three major divisions of automotive engines—ignition, compression and carburetion.

Causes of engine failure or poor performance can be quickly determined through this special diagnosis equipment, so that the exact repair operations may be done without loss of time or guess work. Re-testing after repairing will assure maximum performance and efficiency.

The Sun Master Motor Tester tests all these and many more:

1. Tests compression, valves, rings, gaskets.
2. Tests ignition, and electrical

## New Equipment For Efficient Car Cleaning

Every motorist knows it's a fact that a clean motor runs cooler and a cooler running motor is definitely more economical.

That is why Wheat Chevrolet has installed that compact, self-contained unit, known as the Kerrick Kleaner. Designed and equipped to clean dirt, grease and heavy oil deposits from all surfaces, the Kerrick Kleaner will help reveal faulty parts otherwise dirt-hidden.

Assure the most effective lubrication and as a preparatory step will guarantee the best possible polishing, painting or undercoating results.

This modern piece of equipment available for customers of Wheat Chevrolet provides a mechanical means of combining cleaning compound, water, heat and pressure in correct proportions to produce a highly efficient cleaning solution which is jetted through a nozzle upon the vehicle to be cleaned.

## Bear Equipment At New Wheat Chevrolet

All the driving skill in the world won't save you when your brakes fail to hold, your steering fails or poor headlights blind your way. Why gamble your life and the lives of others, when it takes but a few seconds' check on the modern new Bear alignment and balancing machine at Wheat Chevrolet.

## \$500 In U. S. Savings Bonds To Be Awarded At Opening

United States Government Savings Bonds totalling \$500 will be given away at the Grand Opening of Wheat Chevrolet, Saturday April 21.

There will be no obligations, but you must be present to win one of the ten \$50 bonds.

The drawing for three \$50 bonds will be held at 7 p. m.; three at 8 p. m., and four at 9 p. m.

The Reverend "Gus" Brown, Commander of American Legion Post No. 158, will make the presentations.

So get your ticket at the door as you enter. You may win yourself one of these bonds. No duplicate bonds will be awarded.

## Over 10,000 Feet Space Devoted to Used Car Lot

More than 10,000 square feet of space is devoted to the attractive new "OK" used car lot of Wheat Chevrolet, located on the south side of the dealership's new home on Centreville Road.

Today's best values in used cars and used trucks will be featured in the lot, which is colorfully decorated with orange and blue neon signs and valences.

Dealer C. L. "Buck" Wheat is a licensed "OK" used car dealer pledged to meet iron-clad requirements. He will stake his reputation as a Chevrolet dealer on every used car transaction, and will offer you the economy of a cash deal or time-financing at the lowest rates.

Employees of Wheat Chevrolet, will have modern shower rooms with hot and cold running water, and individual lockers in their new building.

## How can you explain these times to a boy?

To you, the world is in a pretty sorry state. But not to a boy. He's growing up in times like these. He doesn't remember anything much different.

Perhaps you ought to remind him that many precious things may be taken from him, temporarily. Many prized American freedoms, rights and opportunities must be suspended for a while, as the price of arming the nation against aggression.

But warn him that there may be danger of losing these freedoms permanently. Because there are some people who, for years, have been saying, "The government ought to own and run things. The railroads, for example, and the electric light and power companies." And right now the defense program may give these

people a new opportunity for putting over their idea of government ownership and permanent controls.

And tell him that the real name of this idea is socialism, and that most Americans don't want it. For socialism means that people have less money, and fewer rights and privileges.

Tell him we all must make sacrifices today. But tell him, also, that when we give up any of our freedoms, we must be sure to keep the claim check that says, "Return to bearer on demand."

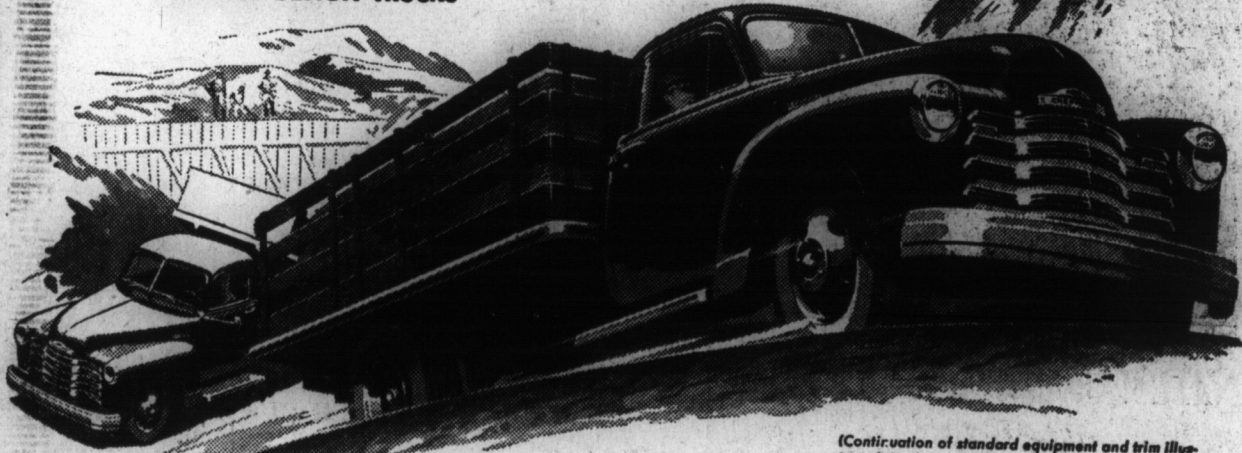

To help everyone remember the difference between temporary emergency powers and permanent socialism, we publish this reminder.

Going...  
Going...

GONE? No...not yet! But the familiar water tank is fast disappearing along the Southern Railway System. Why? Because Diesel locomotives don't "drink" from water tanks...and Diesels now move about 80 percent of our traffic.

Since 1940, the Southern Railway has spent more than \$125 million on Dieselization. A like amount has been spent for thousands of new freight and passenger cars and for all sorts of modern improvements and additions.

Because the Southern has kept pace with expanding civilian transportation needs of the growing Southland, it is better prepared than ever before to serve the South...better prepared to shoulder its full share of growing transportation demands of national defense.
