

Jacob M. Garber, director of dance and student personnel at the Woodrow Wilson Rehabilitation Center, Fishersville, Va., officially accepted the appointment as superintendent of the new William County schools. He will begin his new duties next Monday. Mr. Garber was in Manassas over the weekend seeking housing for his family.

This 'n That

Election is over and townspeople can breathe a sigh of relief, as well as the candidates. A temporary respite until next battle of ballots on August 1st with many contests in offing, main interest centered on the races for supervisor and sheriff.

Jack Ratcliffe sticks his head in the office and suggests the following headline for this week's issue: "Coke Clique Clicks." A bad, Jack!

More trophies for the Manassas Volunteer Fire Department. They brought home two beauties in Falls Church the other night, one for being the best spring company in the parade and the other for showing the best piece of fire-fighting equipment. Looks like the trophy case in Town Hall will have to be enlarged if they continue to win more trophies.

Like to dance? Better make date with your girl friend or step out to the Lions' dance at the high school on Saturday night. Good music and time assured. Tickets are available from members of either club. It will be informal.

Sorry to have missed the annual banquet of the Isaac Walton League at Prince William Forest last Saturday. Understand it had a good turnout and everybody had a swell time. Also seen the Snad Bake of the Potomac Kiwanis Club. Just many affairs going on!

Mighty attractive is the 1951 annual published by Osbourn High. Called the Hi Jacket, it is considered by many one of the best ever turned out here. The cover bears a photo of the new Jackson monument at the Manassas Battlefield. It is richly designed throughout, with pictures and clever art work. Much credit is due R. C. O'Brien, advisor, and members of the student staff who prepared the publication. All the pictures are outstanding.

New National Guard Unit Planned Here

Plans are underway for the formation of a new National Guard unit in Manassas, it was announced last week by Commander E. Guthrie Brown of Prince William Post, American Legion.

He stated that Virginia National Guard officials have recently been in contact with the local Post in seeking the establishment of new Guard unit here. A meeting will be held at Legion Hall on June 21st to outline plans for the organization and interview those interested.

If plans materialize, the local unit would be part of the 99th Military Anti-Aircraft Company, with headquarters at Alexandria. One battery would be located in Manassas and another at Fairfax. Maximum strength would be four officers, one warrant officer and 120 men.

The new Manassas battery would use the quarters vacated by the 177th AA operations Detachment, which was recently activated and is now in regular service at Camp Stewart, Ga.

Some interest has already been manifested in the organization of another Guard unit here, which, it is pointed out, would help to better Manassas' chances for the building of a new, permanent armory.

County Post Elects Smith As Commander

Allan Fletcher was named to head up the Post's softball team.

Farm Bureau Organization In County Shows Progress

The twenty-five Farm Bureau membership committee members, who attended the report-back supper meeting at the Manassas Grill, Monday evening reported several new members and a desire on the part of the farmers contacted by them during the past week to learn more of the purposes and accomplishments of the organization.

Temporary officers of the Prince William farmers group are W. M. Kline, chairman; William Young, secretary-treasurer; William H. Egbert Thompson, Jr., Wm. H. Wheeler and Paul Irvin.

At the Monday evening and earlier meeting held during the past month in the county, it was emphasized that the Virginia Farm Bureau Federation is an independent organization of farmers, paid for by farmers, to do what farmers want done.

It is made up of 52 county Farm Bureaus in Virginia with the other counties of the State rapidly coming into the organization. These independent county organizations control the State Federation. In

Manassas polled what is believed to be a record vote in the town election Tuesday to elect Edgar Rohr and Harry Parrish by substantial majorities over Ferris Gue and Arthur Carter for the two Council seats at stake.

Mayor Harry Davis was re-elected to the office, in which he has served since 1923. He was unopposed.

While the vote was heavy, totaling 460, it represented slightly less than half the number of the town's qualified voters.

For Council, Rohr led with 304 votes, closely followed by Parrish with 296. Gue, seeking re-election, received 196, while Carter trailed with 142.

Mayor Davis had 373 votes. Write-in ballots for Mayor and Councilmen were also cast. Reuben Hicks and Councilman Wallace Hook 2 votes. Hook was not a candidate for re-election.

Interest, of course, centered in the four-cornered race for the two Council seats, with all candidates working hard in their campaigns to carry the votes. Candidates kept cars busy all day Tuesday bringing their supporters to the polls.

Councilman Roy Doggett, who supported the two defeated candidates, Gue and Carter, was one of the most active workers, and his defeat proved a blow to his apparent aspirations to control the Council.

The new councilmen-elect will take office on September 1st. The new Council will be composed of the two new members, Rohr and Parrish, along with Mrs. Frances Saunders and Doggett, incumbents, whose terms still have two years to run.

Family Night Is Enjoyed By Lions

The regular meeting of the Manassas Lions Club this week was celebrated as "Family Night." The members and their families met in the basement of the Grace Methodist Church, where a delicious buffet supper was served, followed by the showing of movies.

Johnson Gets In Race For Supervisor

A three-cornered race for supervisor in the Manassas district was assured last week when Wheatley M. Johnson, well-known farmer, announced his candidacy just before the filing deadline.

Johnson, a former supervisor, will be opposed for the nomination in the August primary by J. Carl Kunchel, the incumbent, and Roy Helms.

Johnson served on the Board of Supervisors from 1937 to 1949. He resigned from the Board, when it called for a referendum on a change of county government. The Board later reversed its stand and sought to have the circuit court call off the referendum. The court refused.

Johnson is the owner of Clover Hill Farm, a mile south of Manassas. He is a lifelong resident of the county and long active in civic and public affairs.

Post Office For Residents In Yorkshire

The Yorkshire community is to get a post office as the result of efforts of the Yorkshire Civic group. Application for post office facilities made by the group, headed by Ray Wells, were made some time ago, and last week John J. Beall, post office inspector, visited the community to study the possibilities.

Plans call for a branch office of the Manassas post office, probably located in the Yorkshire Grocery. Mrs. W. E. Garrison, who operates the grocery, is understood to be the only bidder on the project.

The establishment of a branch office does not mean that mail deliveries in the Yorkshire community will be discontinued. Deliveries will be handled as usual with this post office serving as a convenience in handling of stamps, money orders, packages and other services. It is expected that the branch office will begin operation about July 15th.

Beauty Mail Boxes

Other projects of the community group include the beautification of mail boxes. As soon as permission can be secured, 20 mail boxes on highway 28, at the entrance to Ruby Road, will be moved to a more attractive spot and put in a decorative setting. A special committee has been named to work on this project.

Many of the streets in Yorkshire have been improved recently and the State Highway Department has promised that Yorkshire Lane will be made a hard-surface street about the first of July. A traffic check made late last fall showed that the amount of traffic over this lane entitled the community to a sixteen foot street of hard surface.

New Cub Pack Has Induction Ceremony

The first meeting of the newly organized Cub Pack 219 was held in the basement of Grace Methodist Church, Friday night.

Cub Master George Deverall presided over the induction ceremony in which 16 boys became full-fledged cubs. Those inducted were: George Deverall, Jr., John Lanier, Jackie Earhart, Paul O'Meara, Tommy Gibson, John Hilton Jr., Ralph Heise Jr., Charles Compton Jr., Jimmie Satterly, Tommie Flounder, James Bassett, Melvin Mauck, Lowery Saunders, Toby Merchant, David Harrell, Carleton Hill Jr.

Ocoquan Vote

H. L. Mooney was elected mayor of Ocoquan, Tuesday, receiving 21 write-in votes, to succeed H. W. Brunt.

Write-in ballots also featured the Council vote. The five members elected were Miss Mame Davis, 25 voted; Capt. Thomas F. Joyce, 22; Bernard F. Cross, 21; R. S. Hall 19, and Mrs. Rosa Shanklin, 18.

Library Closed

Due to the fact that we do not have a librarian, the Ruffner-Carnegie Library located in Ocoquan High School is closed and will remain closed until further notice.

Called with the local National Guard unit about a month ago, the young men were granted leave from their base at Camp Stewart, Ga., in order to participate in the commencement exercises here last week and receive their diplomas. They are, left to right, Thomas Baker, Harry Gilley, Charles Johnson, Roy Reid, Irwin Heinemann, James Baker, Robert Johnson. (Photo by Churchill)

New Airport Site In Fairfax County

The site chosen for the huge Washington airport, which is a 4500-acre tract near Burke, Va., in Fairfax County, is as near Manassas as it is Washington.

It is 17½ miles from the White House, and approximately 16 miles from Manassas according to local estimates.

Decision on the site was announced yesterday by Secretary of Commerce Charles Sawyer. The Justice Department has earlier filed suit to condemn the land.

The new airport will be seven times the size of Washington National Airport, and will be exceeded in size only by New York's Idlewild International Airport and Chicago's Municipal Airport.

The site, about eight air miles southwest of Falls Church and 10 air miles west of Alexandria's Southern Railway tracks and Burke Station on the north; Route 663 and State Highway 123 on the west and south and Route 643 on the east.

Osbourn Students Get Awards

George Oliver Lynch award, by the family of Mrs. Patrick Lynch, to the most outstanding athlete—Luther Gibson Black.

Dr. Marsteller Is Named To School Board

Dr. E. H. Marsteller, well-known Manassas physician, was unanimously elected a member of the County School Board by the County School Trustees, Electoral Board at a public hearing called for that purpose last Friday afternoon.

Dr. Marsteller was one of three candidates for the office, the other two being Wheatley M. Johnson and P. A. Lewis, School Board chairman, whose term is expiring.

The name of the candidate-elect was presented at the hearing by Dr. George B. Cocke, and he was strongly endorsed by W. M. Kline and Mrs. Wallace Hook.

Dr. Cocke said, "Dr. Marsteller has resided in the county 29 years and in the town 25 years. He has literally his finger on the pulse of Prince William County... his profession gives him access into practically every home in the county."

Mr. Kline, chairman of the Prince William County section of the Maryland-Virginia Milk Producers Ass'n, said, "For 15 years Dr. Marsteller has represented us on the board of the Maryland-Virginia Milk Producers Ass'n. He has been a great influence on that board. All these years he has been appraising a case and comes up with an answer. Our taxes are doubling and tripling, and we want to know where they go. Dr. Marsteller would like to see where this school money goes, and that the facts be published, and that people have a hand in that decision."

Col. E. L. Rice and Col. Allan Merchant presented Mr. Johnson's name, and strongly urged his appointment. They pointed out that he has long been interested in the schools, and that he has advocated appraising the people of what goes on on the School Board. They stated that Mr. Johnson, now a teacher in the high school, had devoted much time to the development of Osbourn High School.

The name of Mr. Lewis had been presented to the Electoral Board prior to the hearing.

Quantico Election

In hotly contested election at Quantico, Wallace Bourne was elected mayor, receiving 96 votes to 67 for Hugh B. Ashby.

For the five council seats, the winners were Percy Brown with 112 votes; A. E. McIner, 103; J. Frank McIner, 102; J. Hunt McIner, 96; Anthony Perazzo, 75. The losing candidates were Miller B. Lewis, 68 votes; V. E. Sison, 56; Gerald O'Brien, 50; Harry Cokinides, 44; Raymond Moyer, 14.

SHOW SCHOOL ANNUALS—These Osbourn High graduates are mighty proud of the Hi Jacket, the 1951 school annual. Shown are Iris Rebecca Slusher, Jack Bryant, one of the co-editors, and Jeanette Hurt. It was a busy time as the seniors sought autographs from each other. (Photo by Churchill)

Hope "Cappy" Told Him Where To Get Off!

"Cappy" Fisher—who just retired after thirty-five years as a railroad conductor—was telling about a salesman who was often one of his passengers.

"That man was so busy," says Cappy, "he used to bring a dictaphone on the train to catch up on his letters. On one trip he'd been rushing around so much he clean forgot to bring his ticket. Left it on his desk."

When Cappy started to tell him not to worry about the ticket, the salesman busts out with "Who's worried about the ticket? It's just

that now I don't know what city I was going to get off at!"

Cappy might have been pulling our leg, but from where I sit, lots of us get so wrapped up in ourselves we often forget "where we're going." Some folks get so narrow they even begrudge their neighbors the right to enjoy a glass of beer now and then. Let's not forget that just as trains run on steam and oil, democracies run on freedom and tolerance!

Helms Against Burdensome Tax

Roy Helms, candidate for the Board of Supervisors from the Manassas district, says that it is an amazing revelation to most people to find that the tax rate in Prince William County is higher than any other county in this part of Northern Virginia. Here are the comparative rates for 1951:

Loudoun	\$1.65
Fauquier	\$1.65
Stafford	\$2.10
Fairfax	\$2.65
Arlington	\$2.75
PRINCE WILLIAM	\$2.90

This is a very clear indication taxes raised still higher or whether that enough economies have not yet been reduced.

Paid Political Ad.

MANY THANKS!

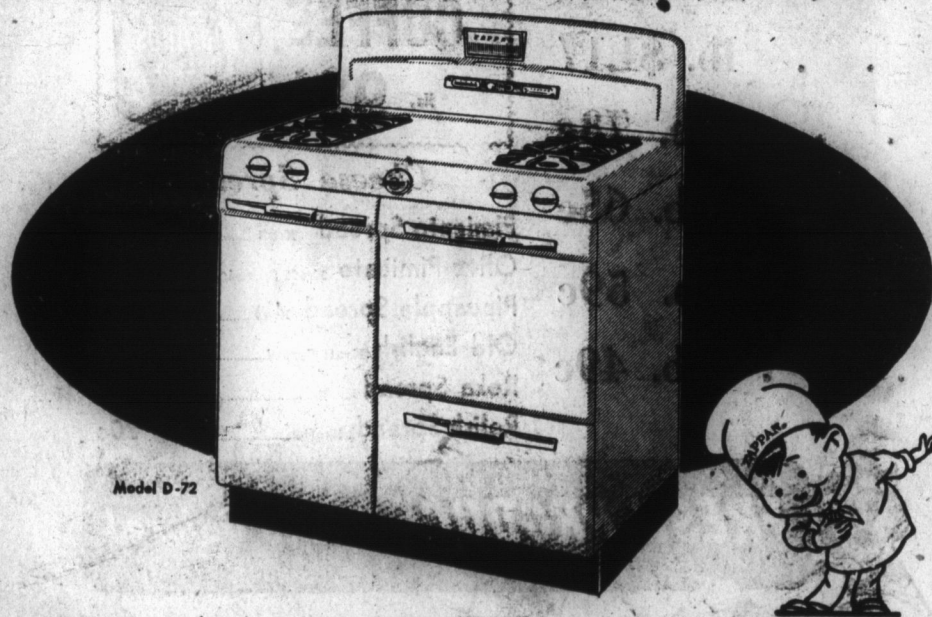

I wish to take this opportunity to express my sincere thanks to those who made possible my election Tuesday to the Manassas Town Council. It will be my aim to merit the trust and confidence you have placed in me.

PROBABLY you have never thought of buying national defense "by the yard." But that's what the Southern Railway System has been doing.

For example, our new ultra-modern Yard at Birmingham... now under construction... will cost more than \$9 million. Modernizing our Yard at Knoxville... now nearly completed... is costing another \$3 million. These Yards are necessary defense projects... like the new Diesels and other equipment and facilities we are placing in service.

Because of this forward-looking program, vital defense traffic will flow faster to and from mills and factories throughout the modern Southland, speeding on stepped-up schedules to hundreds of destinations... adding might to America's national defense effort.

True, the "cost per yard" of national defense comes high. But who can put a price tag on national security?

Cerebral Palsy Drive In County Successful

The local campaign in behalf of the Virginia Cerebral Palsy Association, an affiliate of the United Cerebral Palsy Association, came to an end this week when coin boxes were turned in and collections forwarded to the Richmond office through Mrs. Paul Cornwell, of Canova.

A letter of warm appreciation has been received by Mrs. Cornwell from the associate director of the Virginia Association and with it an apology for failing to provide local volunteer workers with that important information frequently called for, namely a statement as to use of the funds collected.

Mrs. Cornwell was advised, officially, that all funds collected in Virginia went to the Virginia association, 75 per cent go to care and treatment of cases in Virginia; 20 per cent is devoted to research in care and cure, and 5 per cent goes for national publicity, printing, etc. In Virginia all officers and workers serve voluntarily, even the rent for office space is donated.

In Prince William County, the endorsement by the President of the United States, by Ex-Governor Darden, Dr. Francis Gaines, Bishop H. St. G. Tucker, and the publicity spread through radio, television and the press was sufficient to enlist a number of contributors, in a cause which has been fostered by Bob Hope, Kate Smith, Shirley Temple, Bing Crosby and many other celebrities of screen and video in broadcasts, interviews and telecasts.

Any additional contributions may be sent to Box 349, Manassas.

POWER-PACKED -and then some!

THERE are a lot of reasons you can expect a new GMC to keep hauling a lot longer than any other truck you can buy.

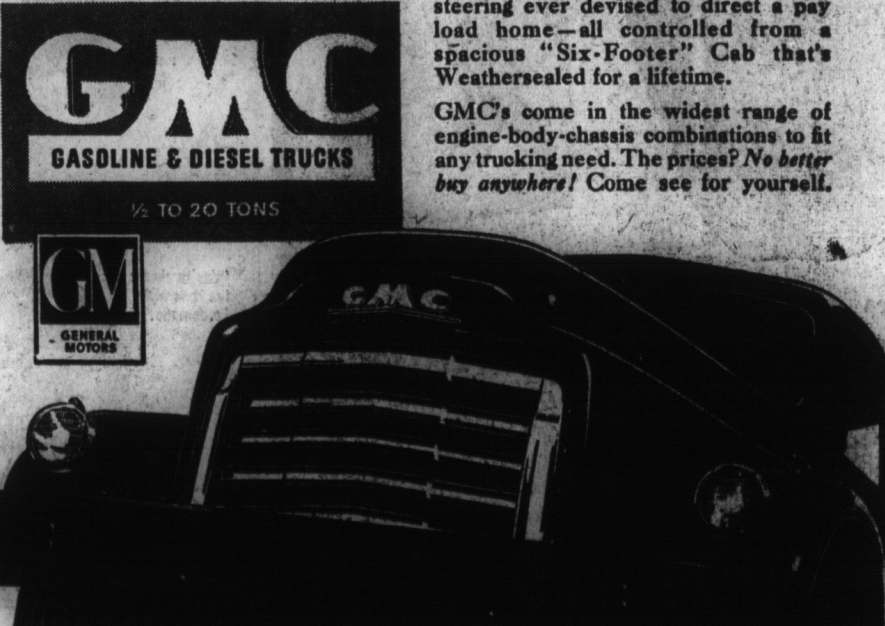

First is the fact of horsepower. Whether it's a gasoline-powered 1/2- to 2-tonner with horsepower unbeaten in its class, or one of the new heavy-duty Diesels—you can't beat a GMC for "go"!

But the extra value you find in these great trucks doesn't end at the power plant.

There's the smooth GMC Synchron-Mesh Transmission linked to a sharp-shooting drive line, pouring every ounce of power back to the rugged rear axle. And the solid way horsepower becomes wheel-action—you know there's extra depth of truck performance engineered right down through a GMC's broad-shouldered frame!

And standing guard over these long-time trucks are husky brakes with more area than most—the surest, easiest steering ever devised to direct a payload home—all controlled from a spacious "Six-Footer" Cab that's Weathersealed for a lifetime.

GMC's come in the widest range of engine-body-chassis combinations to fit any trucking need. The prices? No better buy anywhere! Come see for yourself.

Here's 180 Horsepower... on regular grade gas—Now!

NEW YORKER NEWPORT

It's always interesting to hear about future-looking experiments with new super engines to run on new super-octane fuels...someday.

But it's even more interesting to hear today's real life, on-the-highway talk about Chrysler's new super-performing FirePower engine. FirePower takes any regular grade gas you care to buy... and adds its own

180 HORSEPOWER Here's the new Hemispherical Combustion Chamber that's the heart of Chrysler FirePower. Its new, designed-in "mechanical octane" makes regular grade gas do what best premium grades can't do in any other engine you can drive today!

new mechanical octanes to the power-giving octanes of the gasoline itself. The result is 180 horsepower performance such as no other passenger car built in the U.S. today can equal.

If you haven't driven Chrysler FirePower yet, your Chrysler dealer invites you to do so now. It's the most revolutionary engine in 27 years. It offers highway satisfaction and safety such as you've never known.

And it's a sounder engine other ways than any other on the road. Its new design keeps it almost completely carbon-free. It is smooth and quiet... but also rugged

and strong and free from need for great attention and repair.

Now remember that this same new Chrysler offers you the new Hydramatic power steering... plus the amazing new rough-road stability of Oriflow shock absorbers... plus Water-Proof Ignition, and Vacuum-Ease Chrysler Cyclebonded super-brakes... then come see what we mean when we say the car of your tomorrow is right here for you to drive... today, and for years to come!

*Hydramatic regular on Crown Imperials, optional at extra cost on other Imperial and New Yorker models.

What's ahead for the motorist?

HERE'S THE PICTURE... Folks have been asking me—how is national defense going to affect the motoring public? (meaning the people who drive cars and need gas and oil).

Well, exactly what lies ahead is anybody's guess—but I do know this: right now the oil industry is breaking every record to meet the country's stepped-up oil needs. We're producing and refining more oil than at the peak of World War II.

"In the future, depending entirely on how much oil the military takes, there may be less for civilian use. In an all-out war

we would not be able to supply everybody with everything he wants. But we will be able to supply the public with everything they need—just the way we did last time."

In peace or war, America's thousands of privately-managed oil companies provide the public with the finest oil products in the world at the world's lowest prices.

This has come about because free men, competing vigorously over the years, have out-distanced the world in their race to out-distance each other. The benefits of this competition go to you and the nation.

MERCURY Proves it!

Facts
Prove
it!

ALL MERCURYS EVER BUILT

MERCURYS STILL ON THE ROAD

YES, OFFICIAL REGISTRATIONS PROVE THAT 82% OF ALL MERCURYS EVER BUILT FOR USE IN THIS COUNTRY ARE STILL ON THE ROAD!

Extra Durability—Mercury's body and frame has special bracing—to withstand hard use.

Less Maintenance—Mercury engine features help assure top "going" for thousands of miles.

Miles
Prove
it!

YES, MILE AFTER MILE OF TESTING—UNDER WORST POSSIBLE DRIVING CONDITIONS—PROVE MERCURY'S AMAZING DURABILITY.

Mercurys are built to withstand far rougher handling than you could ever give them—as this water test shows. Every part of the Mercury is test-proven to last for years!

3-WAY CHOICE! Mercury now proudly makes available a triple choice in transmissions. Merc-O-Matic Drive, the new simpler, smoother, more efficient automatic transmission—or thrifty Touch-O-Matic Overdrive are optional at extra cost. There's also silent-ease standard transmission.

It's proof that may astonish you, but it's no surprise to Mercury owners. They know the dependability of their cars—the brawny frames, powerful engines, sturdy bodies.

They know about the remarkable economy that took first-in-class honors two years in a row at the Mobilgas Economy Run. They know about low upkeep, too!

And your Mercury dealer can tell you his experience regarding resale value. He'll show you why your Mercury's value stays up—and he'll even prove it with used car market reports. Just one more way you save with Mercury!

Standard equipment, accessories, and trim illustrated are subject to change without notice.
