Plans For New Hospital Progressing

Dr. Jesse Herrell will arrive in Manassas the first week in July to begin practice here. Dr. and Mrs. Herrell, both of whom are practicing physicians, and Dr. John G. Ringle are now completing plans for the establishment of the Manassas Hospital and Clinic.

Actual construction of the hospital is awaiting only the "go-ahead" signal from the Board of Zoning Appeals, which will tonight consider an appeal for waiver of certain set-back provisions of the zoning ordinance, to permit construction of the building on lots which have been purchased for the hospital site. The recommendation of the zoning board must then be acted upon by Town Council which meets on the 25th.

Dr. Ringle informed the Manassas Journal on Wednesday that under the organization as now set up, the hospital facilities will also be available to other physicians in this area.

Week-Day Bible Work Outstanding

The Manassas District Council of Churches met at the home of the president, Rev. F. L. Baker, last night. The subject was a report for the year's work by Miss Hazel Saunders, teacher of Week-Day Religious Education, showing that in 25 classes in the county, 862 were enrolled in the Bible study. Of this number 32% are regular in Sunday School attendance, while 61% are not enrolled. This reveals the critical need of this work in giving a grasp of the Bible and its contents.

The treasurer, S. S. Rohr, in his report, stated that on the budget of \$1,425.00, there is need of \$158.41 to balance the budget for the year ending June 30. He stated that anticipated amounts would just cover the demand. This has been possible through the generous aid of churches, organizations and individuals.

It was decided that September be the time to complete the organizational set up for the new year and also to consider several new projects for the year.

Misses Blevins and Crabill Outstanding FHA Members

The Future Homemakers of America of Osborn High School had as one of their activities for the year, the recognition of the most outstanding club member. Since two club members did outstanding work, the club decided to recognize both.

Miss Charlotte Blevins, who was given first award for her contributions to her club, home and community, is sixteen years old and has been in the club and in homemaking one year. She is now living with Mrs. Lloyd Miller, Manassas, who has three children.

Charlotte assumes many home responsibilities such as washing, ironing, and repairing her own clothing. Other duties include helping with the family wash, caring for her own room, daily and weekly cleaning of house, and dressing small children for school. She often prepares breakfast, helps with all meal preparations, washes dishes and helps with spring cleaning.

In the club, Charlotte assumed many responsibilities. She sold refreshments during football games to help raise money for the club, made flags for the Red Cross, and worked on many committees. She brought food for the food sale, worked on F.F.A.-F.H.A. dance, served at reception for the Osborn Band after their concert, and helped

to decorate float for the parade. Charlotte is president of her home room and a member of the Council. She is secretary of the Red Cross. As a member of the Council, she attended the District S.C.A. convention this spring.

Miss Frances Crabill, an incoming senior at Osborn, won second award. She is sixteen years old, has been enrolled in homemaking three years and in the club two. She is the daughter of Mr. and Mrs. A. N. Crabill of Manassas.

Frances helps with the preparation of the evening meal, often preparing it herself. She cares for her own clothing and her own room at home. She plans to help with the cleaning, papering, and painting of her home this summer. She is going to plan the decorating from her experiences carried on in her homemaking classes and her club work.

Frances contributed much to her club this year. She is vice-president of the club, she worked on committees, helped decorate float for parade, brought food for the bake sale, and helped decorate the gym for the dance. She served at the reception for the Osborn Band and attended the State F.H.A. Convention. She worked hard on the Junior-Senior Prom this year and was instrumental in making it a big success.

Traffic Up At Manassas New Airport

Greater interest in flying and increased traffic at the Manassas airport is reported by Dudley Watts, who is operating the airport under a lease arrangement with the Town of Manassas.

He states that the field is being gradually improved and landing strips are in good condition.

Harold Hersch flew in Saturday from Eastern Maryland, where he has been engaged in crop dusting. He plans to use his ship, a Piper Vagabond, for crop dusting in this section as soon as the Japanese beetle season begins.

Garland Farris, local flying enthusiast, has recently had his plane, a Taylorcraft, overhauled and painted at the local airport.

Arriving from New York over the weekend were Dr. Evans, prominent surgeon, and Joe Easterly, who landed here for a visit to Harold Stauff, of Longview. Dr. Evans stated that they flew here, mainly, to see the Manassas Battlefield Park.

The airport is being considered as a refueling base for the Civil Air Patrol, according to Mr. Watts. He stated that all pilots must secure new identification cards by September 1st. Those seeking these cards can get the required information from him.

Extensive survey work is being done by the CAA in connection with improving drainage and extending runways at the airport.

Bloodmobile To Pay Visit To Triangle

An urgent appeal is being made to residents of the Quantico-Triangle-Dumfries area by Mrs. Lillian Carden, recruitment chairman, and her committee, for gifts of life-saving blood.

The Red Cross bloodmobile will be at the Triangle Fire House on Wednesday, June 27th, from 10 a. m. to 5 p. m. (DST).

According to Charlton E. Gnadt, County Red Cross chairman, the increasing need for whole blood and its derivatives for the use of our Armed Forces, as well as for civilians and for stock-piling against the possible eventuality of enemy attack upon our country, can be met only by an increased awareness on the part of our people of the urgency of the need and a willingness of all healthy adults to do their part in the defense of our country.

Mr. Gnadt said, "One pint of your blood and 30 minutes of your time can be your gift of life to some member of our armed forces, or to some man, woman or child here at home." No donor will be accepted until after the doctors attached to the bloodmobile unit have made a blood test to determine that the giving of blood will not have any injurious effect on the donor.

The Ladies' Auxiliary of the Triangle Fire Department, under the direction of Mrs. Magruder Keys, will serve sandwiches and coffee to donors. Mrs. Augusta Saunders will be in charge of registrars, and Mrs. Florence Gue in charge of nurses.

Former enlisted men who served in the top three grades during World War II for a period of six months or more and are not over 31 years old may apply for commission as 2nd lieutenants.

After the unit has been organized weekly drills will be held in the armory for which members will receive one day's regular army pay, with longevity allowance, for each drill night. Two weeks of field training at an army camp each summer is also authorized.

This unit will not take the place of the 177th AAA Operations Detachment now in Federal service, but will be in addition to that unit. When the 177th returns from Federal service Manassas will then have two National Guard units.

23 Countries Represented At Woman's Club Picnic Sunday

By Mrs. Nicholas Webster

People who make up slogans should bear in mind the possibility that sometime, somewhere, they just might be taken seriously. The current battle-cries of the Federation of Women's Clubs, "World Peace Through Understanding," was given a literal interpretation by its Manassas Chapter last Sunday when a group of students from the International House in Washington was entertained at the old Sinclair Mill, home of Mr. and Mrs. M. N. Levine.

International House is a Quaker-directed institution, with branches in New York and San Francisco, where foreign students may meet and mingle with the aborigines.

About a hundred and fifty guests were present at the picnic and swimming party which was sponsored by two committees, Recreation and Foreign and Territorial, whose chairmen are Mrs. Roy Lilly, and Mrs. Igor Presnikoff.

Among the twenty-three exotic nationalities represented were Burma, Pakistan, Iraq, Turkey, British Guiana, and India, as well as many European nations. Most of the young men and women are in the United States to study certain specialized subjects, and will return as leaders to their own countries, incidentally, we hope, carrying with them friendship towards America.

One Burmese, who spent four years in Texas studying Animal Husbandry, will return next month to fabled Mandalay to introduce improved methods of breeding the native longhorn cattle which were the ancestors of our Western pot-roasts. Phu-Tan, a grandson of the King of Siam, is a medical student; Yotchi Usami, who is connected with the royal house of Japan, is studying social work, and others are going in for economics, business administration, and foreign affairs, at nearby Universities.

Quite a number of awed local children were present, and Master Hugh Lilly, aged three, was so taken by the charms of Sher Singh, a large bearded, turbaned Sikh, that he was observed to burst into tears when his new friend left, which is one way of approaching the problem of World Peace Through Understanding.

At 6:30 all will gather for Methodist Family Fellowship. A covered dish and sandwich supper will begin at 6:30. At 7:30 a service of interest to all will be held in the church sanctuary.

At 8:00 all will go to the departments of the church school for a half hour of inspiration and fellowship. It is expected that all will be in attendance and that this event will be repeated in the near future.

BRENTSVILLE UNION CHURCH

About that old prescription Dr. Jones wrote for you two years ago. The bottle is on the shelf in your medicine cabinet, about one-fourth full. It would be safer for you and your family to discard it. Someone might take it by mistake, or a child might be attracted to it by the bright color and do himself harm. Many medicines deteriorate after exposure to light and air. On long standing, some compounds change their chemical structure. Yes, the safe thing to do is to throw it away. If illness again overtakes you, see your doctor. TODAY—America's newest bomber, assisted on the take-off by rockets and powered by jet fuels, has a cruising speed of 600 miles per hour. The oil industry is today meeting military demand for millions of gallons of these new jet fuels.

1945—To meet the gigantic requirements of global war and vital civilian needs as well, U.S. oil companies shattered all previous records by refining over 197 million gallons of oil products a day.

TODAY—Oil companies of the U.S. are refining at the rate of 250 million gallons a day—more than at the peak of World War II—5 gallons of oil for every 4 refined in 1945.

German Women Visit P. W. Electric Coop.

Three German women, who are in this country on an exchange education program, visited the Prince William Electric Cooperative here recently to make study of how the American program for rural people worked.

As host to the foreign visitors, Mrs. Thekla Goodrich of the P.W.E.C. demonstrated the differences between an electrified farm home and a completely electrified one. On the tour they were taken to a successfully operated electric home of Mrs. Alice Haines on State Road 666.

They were quite pleased that Miss Haines spoke fluently in their native tongue and was able to give them much valuable information concerning electrical farm and home equipment.

They were amazed that there were still a few farms not so well equipped, still using kerosene lamps, wood ranges, heating wash water in the yard and pumping water from the well by manual labor.

Enjoy Summer's Bounty...the Year 'Round

- with a home Food Freezer!

WONDERFUL eating is one of the big reasons so many families want a home food freezer—it means fresh vegetables, fruits and berries the year 'round, and "open season" on fish and game 365 days of the year—so far as eating is concerned! But beyond catering to your family appetites, an Electric Food Freezer saves you money—actually pays for itself! You can buy vegetables, fruits, berries and fowl cheaper in quantities at the top of the season—and freeze them for future use! And—because a Food Freezer is like a "super-market" right in your own home, you'll spend less marketing time. (Of course, if you've got a garden—freezing your own produce is a fine idea—and lots easier than canning!)

An Answer To Helms

Recently CANDIDATE Helms smeared the whole County Board Supervisors and other conscientious individuals who appeared at the budget hearing on April 30, 1951, and told the Board they approved the budget by accusing them of a RAW DEAL tax rate in Prince William County.

CITIZEN-TAXPAYER Helms did not choose to appear at the LEGAL PUBLIC HEARING on the tax rate as OTHER Public Spirited CITIZEN-TAXPAYERS did on April 30. At that hearing the overwhelming sentiment was in favor of the budget as advertised. In effect, CITIZEN-TAXPAYER Helms gave his silent assent to the tax rate as adopted because he did not appear at the time and place SET BY LAW to make his views known. Rather, CANDIDATE Helms now AFTER THE FACT chooses to SLANDER and SMEAR the whole Board by circulating PART truths about tax which present a FALSE picture. Obviously he is not informed or sincere.

Helms denounces the tax rate but he does not say what items he would cut out of the budget. He is negative, not constructive. What he had to say about RATES in six northern counties he has grouped is generally true, but rates are purely relative and mean one thing as used in one county with HIGH assessment values and mean another thing entirely as used in another county with LOW assessment values. The real test is "What is the AVERAGE taxes PER PERSON in each of those six Counties?"

This is the REAL ISSUE. The following table compares the same six counties. It includes Prince William debt service on outstanding bonds, but does not include the temporary ten cent jail levy or temporary fifty cent school levy for capital outlay because the average for the other counties do not take into account special levies that will have to be made for 1952-53 to cover their new bond issues. The TRUE comparative table follows:

COUNTY	AVERAGE PER PERSON
Loudoun	\$21.43
Fauquier	21.36
Stafford	10.05
Fairfax	35.94
Arlington	49.16
PRINCE WILLIAM	18.70
Average for all six Counties	26.10

PRINCE WILLIAM therefore actually is far BELOW the average. As to the average expenditure for school operations, the following table for 1949-50 (last year figures available) is interesting. It includes funds from all sources:

COUNTY	Average Per Pupil Average Daily Attendance
Arlington	\$192.89
Fairfax	159.50
Fauquier	145.52
Loudoun	133.03
Prince William	132.82
Stafford	116.38
Average for all six Counties	146.69

Low how much below the average PRINCE WILLIAM is!

The undersigned believe the sincere citizen will agree that, TRUTHFUL, Prince William is much better off than any comparable county in the HELMS group. We have not given the people of Prince William a RAW DEAL. Helms knows it; that's one reason he and the rest of us love it so much.

Respectfully submitted to all persons interested in HONEST truths and not just captions, out-of-focus, misleading PART TRUTHS
