OUR ANNOUNCEMENT

This week finishes our inventory—March 1st starts a new year for us. We propose to make it the **BIGGEST YEAR IN OUR HISTORY. WATCH US GROW.**

You've Been Looking for the Announcement:

Five per cent Cash Discount on All Cash Purchases amounting to \$1.00 or more.

Two per cent Cash Discount on All Bills paid by the 10th of the month following purchase.

All Bills MUST BE PAID by the end of the month following purchase of goods.

These Terms Are Positive and Absolute to All

GET THEM RIGHT:---5 per cent for Cash; 2 per cent for Accounts Settled Before 10th of Month; All Accounts due must be settled before end of the following month

We know you expected CASH STORE! Now, in addition, we are going over every item in our store and name you a price that cannot be beaten anywhere, in city, county or catalogue, for the same or equal grade merchandise. You may think this is a broad statement. But we simply ask your comparison with any source for equal grade of goods; we can't sell you GOOD MERCHANDISE as cheaply as you can buy shoddy, and this you know; but grade for grade we will equal any and all—and in ADDITION—WE WILL SAVE YOU FIVE PER CENT FOR CASH

Now, listen! We cannot sell you gingham at 10 cents, nor shoes for \$1.50---don't expect it! But, basing our margin on what goods are worth TODAY, we are going to sell you merchandise AT LESS THAN IT EVER WAS SOLD IN THE COUNTY, and then save you FIVE PER CENT FOR CASH. We are tired of hearing our town, Manassas, spoken of as "the highest place in the county." The Cash Grocers say they're going to put Manassas on the map as a Grocery Center; we're going to do so as a Dry Goods and Clothing market.

But, please bear in mind, we are NOT going to sell you CHEAP GOODS. There is a difference between CHEAP GOODS and GOODS CHEAP. Remember that, please. We shall still offer you only the BEST, but at margins smaller than ever tried before; we shall try to offer you BETTER SERVICE than we have ever given, the same DEPENDABLE QUALITIES and HONEST GUARANTEES.

IT IS A PROFIT SHARING PLAN. We propose, with your help, to do TWICE AS MUCH BUSINESS with the SAME NET PROFIT we got in half the business. It is more work for us, but cheaper goods for you. MAKE YOUR CASH COUNT. We are going to sell you MERCHANDISE, NOT TERMS.

Effective After March 15th—Then Judge Our Prices and Merchandise

DE GUSTIBUS, ETC.

A Washington paper this morning says "Apparently women of the National Capital prefer the 'movies' and the theatre to Art. While the former places were crowded last night in spite of the drizzle, a perfectly good lecture on Art at the Woman's Club went begging. Members of the club had been informed that Miss Seaton Smith, local authority on art and artists, would speak on French Art, but when she appeared at the clubhouse the audience was lacking. As there was no audience there could be no lecture and Miss Smith returned home, her talk undelivered and the members of the club still willfully ignorant of French Art and artists."

It is useless to argue against taste, as our headline suggests. In the fall of 1856 Prof. Brown Williams, of Baltimore, delivered a series of lectures in the what was then known as the "New Theatre," a frame structure on the site of the present Sarepta Hall on King street. The professor was a phrenologist, and on one occasion he invited members of the audience to seats upon the stage. George Glascock, a well known fish dealer of that day, accepted the invitation. He was attired as was his wont when selling specimens of the funny tribe in the market area, and wore a pair of boots the uppers of which extended above his knees, and they were well speckled with fish scales. Glascock's diversion was cock fighting. As the professor passed his hand over his cranium, he stopped and addressed the audience substantially as follows: "Gentlemen and ladies, I never saw this man before in my life, but I will make a wager that were Daniel Webster scheduled to lecture in Alexandria tonight and a cock fight to take place at Oxen Hill, Maryland, this man would attend the cock fight."

Glascock, in his natural good humor, replied: "That's so."—Alexandria Gazette.

"And It's Appetizing"

"That's the reason I like to eat at the SANITARY LUNCH. Not only that you know it's CLEAN—and that's a whole mouthful—but it's COOKED right, and not just thrown together. The good, wholesome food you get there has the right TASTE and you really relish it. It tastes like the cats Mother used to give you, and the service is so courteous and efficient that you forget that you are in a restaurant and wonder if you are not back home with your two legs stuck under the old kitchen table. It's just that difference between what a lunch room should be and a hash house."

If the above compliment was paid me recently by a homelick traveler. If you feel we do not merit the compliment, will you let us prove it?

They couldn't be built now for twice \$71,000

When the talk turns from politics to railroads, and the traveler with the cocksure air breaks in with, "There's an awful lot of 'water' in the railroads,"—here are some hard-pan facts to give him:

American railroads have cost \$80,900 a mile—roadbed, structures, stations, yards, terminals, freight and passenger trains—everything from the great city terminals to the last spike.

A good concrete-and-asphalt highway costs \$36,000 a mile—just a bare road, not counting the cost of culverts, bridges, etc.

Our railroads couldn't be duplicated today for \$150,000 a mile.

They are capitalized for only \$71,000 a mile—much less than their actual value. Seventy-one thousand dollars today will buy one locomotive.

English railways are capitalized at \$274,000 a mile; the French at \$155,000; German \$132,000; even in Canada (still in pioneer development) they are capitalized at \$67,000 a mile. The average for all foreign countries is \$90,000.

Low capitalization and high operating efficiency have enabled American Railroads to pay the highest wages while charging the lowest rates.

IN MEMORIAM

HALL—In sad but loving remembrance of our dear brother, Joseph E. Hall, who died at Walter Reed Hospital, February 6, 1920, aged fifty-six. Funeral from the Presbyterian Church at Greenwich, Va. He leaves to mourn his loss two brothers and three sisters, Thomas H. Hall, of Washington, D. C.; Robert L. Hall and sister, of Buckland, Va.; Mrs. John Gough and Mrs. John Reed.

The loss was bitter, the pain severe, To part with one we loved so dear, The trial was hard; we'll not complain But trust in God to meet again.

We cannot tell who next may fall Beneath the chastening rod. One must be first, but let us all Prepare to meet our God.

By his Brothers and Sisters.

DAVIS—In loving remembrance of My dear mother, Mrs. Lizzie Davis, who died November 8, 1919.

Dear Mother, how hard we tried to save you, Prayers and tears were all in vain, Happy angels came and bore you From this world of toil and pain.

Alone in the silent graveyard, Near the sod but new Never for one moment forgotten, In sorrow I think of you.

I often sit and think of you, When I am all alone, For memory is the only friend That grief can tell its own. My dear mother is laid to rest, A dear friend is gone, "Safe in the arms of Jesus, Safe on his gentle breast."

Her Loving Daughter, Lizzie Waite.

1/3 Less Coal- 1/2 More Heat

You can save from a third to a half of your fuel and have a much warmer home than ever before if you will install a CALORIC.

The CALORIC is the remarkable furnace that heats without flames, through only one register. It circulates heat by Nature's method, forcing warm air up into the ceiling, and allowing cool air down, thus the furnace to be placed in any room.

'The CALORIC can be installed in new or old houses—no cutting of walls for pipes and no interference with present system of heating. It burns coal, coke, gas, wood or kyanite, and saves from one-third to one-half the fuel.' 'THE NEWMAN-TRUSLER HARDWARE CO. Manassas, Va.' 'Manufactured by The Heater Stove Company.'
