A Year's Abuse In 7 Days

All Light Car Road Records Smashed

At Indianapolis recently an Overland 4 stock car was driven 5,453 miles continuously in seven days and nights, over frozen country roads.

This is an average of 778 miles per day—more than the distance between Toledo and New York City. This is another tribute to the cushioning effect of Triple Springs and the quality of material in Overland 4.

ANOTHER COME-BACK
 The Journal is glad to welcome the
 civic league's return to activity. Man-
 assas has many reasons to remember
 the work of our civic organization of
 other days and the future will con-
 tinue to offer a wide field for its
 labors.

Our best wishes go to the present
 leaders. May all the citizens of the
 town rally to their colors in time for
 a great show-up campaign on April
 28, and compete with them for other
 campaigns yet to come.

THE WEEK'S FAVORITE
 Lovers of poetry among Journal
 readers are beginning to evidence their
 interest in our appeal for favorite
 poems. The favorite of the week is
 "About Ben Adhem," Leigh Hunt's
 masterpiece, which is the favorite sent
 by Miss Margaret A. Shirley, a Jour-
 nal reader at Waterfall. Miss Shirley
 —the Miss Ewell, whose favorite ap-
 peared last week—owns that About
 Ben Adhem is only "one" of her favor-
 ites. Perhaps it is that real poetry
 lovers feel the charm of all good
 poetry and are unable or unwilling to
 play favorites more definitely.

At all events this little poetry con-
 test promises to prove interesting to
 more than 400 of us. Take time to-
 day to read on the poem you consider
 most worth while.

About Ben Adhem.
 About Ben Adhem (may his tribe in-
 crease!)
 Awoke one night from a dream of
 peace,
 And saw within the moonlight flooding
 his room
 Making it rich and like a lily in bloom,
 An angel writing in a book of gold,
 Exceeding peace had made Ben Ad-
 hem hold,
 And to the grammar in the room he
 said:
 "What writest thou?"—The vision
 raised its head,
 And, with a look made of all sweet
 accord,
 Answered, "The name of those who
 love the Lord,"
 "And is mine one?" quoth About.
 "Nay, not so,"
 Replied the angel. About spoke more
 low,
 But cheerily still, and said, "I pray
 thee, then,
 Write me as one who loves his fellow
 man."

The angel wrote and vanished. The
 next night
 It came again, with an answering
 light,
 And showed the names of those whom
 love of God had blessed,
 And, lo! Ben Adhem's name led all
 the rest!

A Reminder!

Washington, March 7.—Plans for reducing the American family's meat bill were announced today by the Department of Justice, which will urge housewives to turn from the high-priced cuts to less costly portions of the steer.

Fair price commissioners in every state will be asked to direct educational campaigns with the co-operation of retailers and wholesalers, and the department will undertake to see to it that the consumer receives good meat at low prices and that no abnormal profits are taken on the low-priced portions.

"The housewife holds in her own hand the remedy for very high meat prices," said the department's announcement. "By turning from the expensive to the inexpensive cuts she not only will lower her own meat bills, but will drive down the price of the choice cuts and make it possible for meat to be merchandise more economically."

May we not be pardoned if we say, "I told you so?" Let us show you some of our meats that you can save big money on. We know you'll not be disappointed for SAUNDERS' SANITARY SERVICE SATISFIES

1/3 Less Coal - 1/2 More Heat

You can save from a third to a half of your fuel and have a much warmer home than ever before if you will install a CALORIC.

The CALORIC is the remarkable furnace that heats without pipes, through only one register. It circulates heat by Nature's own method, forcing warm air up into the entire house and drawing cool air down into the furnace to be reheated and pushed.

The CALORIC heats practically all types of houses, bungalow or three-story house, up to eighteen rooms. It keeps kitchens and back bedrooms just as comfortable and warm as the rest of the house. Also heats churches, factories, stores and other business buildings. More than 50,000 already installed.

The CALORIC can be installed in new or old houses—no cutting of walls for pipes and no interference with present system of heating. It burns coal, coke, gas, wood or kerosene, and saves from one-third to one-half the fuel.

A Death Blow to the High Cost OF GASOLINE

25 to 50 PER CENT MORE MILEAGE

Install the U. & J. CARBURETOR on your Ford car or truck and forget the HIGH COST of gasoline.

The U. & J. CARBURETOR gives your car a faster pickup, and it has the "Punch," and what you want in addition to economy and mileage is "Punch, Pop, Power and Flexibility."

We absolutely guarantee to reduce your gasoline bill, regardless of NAME, MAKE or PRICE OF THE CARBURETOR you are at present using on your Ford.

Over 1,000 installed in Washington during the past six months. The Washington Times says it reduced their gasoline consumption from 60 gallons per week to 30. The Old Dutch Market says it reduced their gasoline consumption from 7 gallons per day to 4 1/2 per day. Golden & Co. says it cut their gasoline bill nearly in half. The Evening Star says it shows a mileage increase of 55 per cent.

GUARANTEE—If the U. & J. CARBURETOR fails to increase your mileage as above set forth, I will refund your money promptly, within 15 days.

There are no strings tied to the above guarantee or to this proposition.

If the above is true, you can't afford to be without the U. & J. CARBURETOR. If it isn't true, I can't afford to sell it to you.

Let me have your order "quick" and you will soon pay for it and own it. Otherwise, you will soon "pay" for it and "never" own it.

COAL, LUMBER AND BUILDING MATERIALS

EXAMINE OUR GRADES WHEN CONSIDERING PRICES:

With prices on Lumber and other Building Materials at their present levels, there are many items in the lower grades which can often be substituted satisfactorily and at a considerable saving.

We have become so much impressed with the possibilities of doing this to advantage that we are exercising the greatest care in buying only from those mills who pay the closest attention to the manufacture and grading of their lower priced stocks.

We ask our customers to examine these grades when buying as we believe they will find some excellent values, and a knowledge of what a carefully selected lower grade really is will often prevent the buying of a so-called higher grade at a little under the market price for the high grade, when it is actually a lower grade and can be bought as such.
