FIRST BOLT IN 52 YEARS

For the first time in political history since 1868, when President Grant carried the state of Tennessee, what is known as the "Solid South" has been broken.

In the recent election, Tennessee, the same state that went republican fiftytwo years ago, the same state whose legislature granted between twenty. three and twenty-six million women of the country the right to vote, was carried for Warren G. Harding, for President of the United States, the only state in the South to break away from the old party; and throw their support

to the republicans. It is very surprising, indeed, to democrats throughout the country. Although a number predicted the de- and asked: feat of the democratic candidate, Governor James M. Cox, they had no idea that nearly every state in the Union, with the exception of the few Southern states, would be carried by Senahopes until the final election returns, that the vote of the women of the country, the majority of whom were thought to have been in favor of the League of Nations, would turn the tide of victory to the democratic party and Cox

Although greatly disappointed, they accepted the results without complaint, the majority of them considering the election of Mr. Harding suff- newly employed hired man out of bed cient evidence to show that the people at four o'clock in the morning, was of the nation are not in favor of the surprised a faw moments later to see chtrance of the United States into the the man walking off down the road. League of Nations. They all agree that defeat isn't diagrace, and declare that during Mr. Harding's term, they will support him as true Americans should support the President of the United States.

Prince William county did her best to bring about the election of Governor Cox, as nearly every county in the state of Virginia did, and were hugely disappointed when the democratic can didate was defeated, but the Voice of the People had spoken, and "kicking" Frederick. was useless.

Residents of Manassas arrived at the polls early Tuesday morning, men and women, and cast their ballot.

Approximately one hundred of out ladies were registered, and probably Magazine. all of them voted. The final tabulation of the votes showed that Mr. Cox was leading Mr. Harding by one hundred and sixty-three votes, and where one hundred and one votes were cast for Harding here, only eighty-one were given to Brooks, the republican candidate for congress from the sighth congressional district, who was runin opposition to R. Walton

Moore who received two hundred and ninety-six votes at the polls here.

PUT MANASAS ON THE MAP!

Put Manassas on the mapi Of course, our town is known by readers of history, but getting down to the business opportunities, industries, etc., it is necessary to organize a chamber of commerce, something that will encourage the establishment of business firms in Manassas, something that will draw tourists to this town to view the historic places in and nearby, something that will make people want to make Manassas their home, to really show them that the town of Manasans is not a "has been," but really exists and flourishes daily.

People speak of Manassas in connection with the Civil War, but when they are talking of towns in which there is a good business field or bright business prospects, it is never mentioned-Why ? Because there is nothing to indicate that our town is such a place, and the only solution to a problem of this kind lies in a chamber of commerce, made up of business men, professional men, and all other men who are interested in the gangeal wel fare and prosperity of the town, men who bulieve Manassas is a splendid business place and would make an ideal manufacturing centre.

Business men, professional men, all men get together, organize a chamber of commerce, send out circulars giving the history of Manassas, the possibilities for one establishing himself in his town, stc., the result will be that Manassas will not only be on the map as far as history is concerned, but on the industrial map as well. Call a meeting of the citizens. Get busy.

If a man in Prince William County struck oil on his farm, would he have to go to Utah or Iowa or California for partners to share his luck?

He would naturally let his friends and neighbors in first, but he would have to have oil, would he not?

I Promoters flock to regions where money is made in the good old basic way, out of the soil, and they talk tremendous profits, and liken their schemes to old and well-established concerns whose stock is up in G, trying to give the impression that because some poor widow made enough money to buy a four-room cottage by investing in a share of oil stock once upon a time.

When you consider placing any money in a venture, remember that som 40,000 small investors recently placed their savings with "Get-rich-quick," PONZI at Boston, and many of them would be glad to have half their principal back, to say nothing of tremendous dividends.

A bank prospers when the individual members of the community prosper. Your bank wants you to have savings and earn dividends. It's a business proposition with them to help you with sound advice, and

they will be giad to do it.

When the investment Shark marks you for his own STOP, LOOK, LISTEN, count ten and consult your banker, or any SOUND BUSINESS man, before you put your name "on the dotted line."
