The Refiner takes on a new Responsibility

Rand refining industries recently decided that much of the task of instructing motorists as to the proper functioning of automobiles must fall upon the manufacturers of motor fuel and lubricating oils.

The Standard Oil Company (New Jersey) had long before gladly assumed its share of this responsibility. It realized that the automobile builders had little opportunity, after the sale had been made, to advise with those who bought engines, trucks or pleasure cars. Branch service stations furnished their only point of contact with users of their equipment.

Refiners of gasoline, on the other hand, have almost daily dealings with motorists and chauffeurs. Gasoline engines have been so far developed that fuel quality has become almost more of a problem than mechanical perfection in the motor.

Accurate understanding of the many deli-

cate considerations involved in the making of a 100% motor fuel—in quantities sufficient for every demand—has always restrained this company from making claims for "STANDARD" MOTOR GASOLINE which could not be justified immediately by every purchaser of the product.

Our Development Department is constantly studying possible improvements in the quality of our products wherever the improvement in quality seems consistent with complete and dependable uniformity. We are the largest refiners of petroleum products in the world, drawing on practically every section of the Western Hemisphere for crude oil.

Our unhesitating advice to every motorist is to realize the advantages of this research work by using "STANDARD" MOTOR GASOLINE. This course will, in the long run, insure engine efficiency more surely than it can be secured in any other way.

STATE NEWS NOTES

Judge Archibald M. Aiken, it is believed, will be the youngest Virginia jurist on the bench when he assumes his new duties this month. He is thirty years old and has been appointed by Governor Davis as circuit court judge in Danville and Pittsylvania, Henry and Patrick counties, to succeed Judge Hughes Dillard, who recently died. Judge Aiken has been practicing law in Danville for six years. For the last two years he has been city attorney. The young jurist is a graduate of Danville Military Institute and the University of Virginia. He served as a captain in the war and went through the Meuse-Argonne campaign.

A small son of Mr. Robert W. Hill-drum, of Spotsylvania county, recently was bitten on the ankle by a copper-head snake. Being some distance from home, the little fellow ran as fast as he could to his house. His aunt, the only person home, immediately took charge of the case. She applied her lips to the wound, and, drawing violently, extracted the poison. She then washed her mouth thoroughly and administered antidotes to the lad. He is apparently all right, and his aunt has suffered no harm.

For resisting arrest and destroying the city's property, Edgar McCrea, a young white soldier, who gave a squad of Petersburg police a stiff tussel Sunday afternoon before he was locked up, was sent to jail for sixty days. Although the soldier caused the police more worry than any other prisoner they have had to handle in months, McCrea pleaded that he had taken two drinks of corn whiskey at Camp Lee and did not remember what happened. After battling six big bluecoats to a standstill and being felled by a blow with a pistol in the hands of an army sergeant, McCrea was bundled into the police patrol and taken to jail.

One of the biggest moonshine raids ever staged in Page county was made last week in the Blue Ridge, six miles east of Compton. A still of 120 gallons' capacity was captured, along with 1,200 or 1,500 gallons of mash and a large quantity of corn.

Lurty R. Houchins, thirty-two years old, was found guilty in the Harrisonburg circuit court of murdering his wife last May by cutting her throat with a razor, and sentenced to twenty years' confinement in the state penitentiary. The verdict ended the longest trial in the history of the local court, it having been in progress ten days. The prisoner showed no signs of emotion when the jury rendered the verdict after deliberating for one hour.

Rev. William Nelson Meade, aged sixty-seven, died September 2 at Boyce, Clarke county. Rev. Mr. Meade had been rector of South Farnham parish at Tappahannock for seventeen years, and was greatly beloved. He had just completed a month's vacation at his native home and was to have returned to take up his work at Tappahannock. Funeral was held from White Chapel Episcopal Church and burial was made in the cemetery adjoining the church.

Louis Brownlow, city manager of Petersburg, was elected president of the Virginia League of Municipalities, which met in Norfolk a few days ago. Senator Claude A. Swanson, who delivered an address before the league, declared that the port of Hampton Roads must be developed, that Congress should lose no time in helping to carry on the work.

The state convention of the American Legion was held at Norfolk last week. Mr. Wilbur C. Hall, of Leesburg, was chosen executive committeeman from the eighth congressional district. Mr. Gilbert J. Cox, of Alexandria, was elected delegate to the national convention at Kansas City October 31 to November 2, with Mr. C. Keith Carlin, of Alexandria, as alternate.

Three plants were destroyed in Alexandria Saturday in a series of fires. The fabricating plant of the Virginia Shipbuilding Corporation was the first burned, and then the Old Dominion Glass Works, a mile and a half distant, and a substation of the Mutual Ice Plant, a mile distant, were destroyed. All fronted on the Potomac river, and the assistance came from Washington was cut off. The damage was estimated at \$100,000.

A tenant house on the farm of J. F. Taliaferro, in Essex county, occupied by Marshall Coleman, colored, was destroyed by fire early Friday. Coleman's wife went to a well some distance away for water, leaving her three children alone in the house, and on her return found the house in flames. She was unable to enter and the three children, the eldest of which was three years of age, were burned to death. The origin of the fire is unknown.

Capt. Walter Buck, jr., of Glass, caught a sea horse in Severn river Tuesday. The little fish has a neck and head closely resembling those of a horse, and is a curiosity in these waters, his native habitat being further south.—Gloucester Gazette.

Representative H. D. Flood, state democratic chairman, has appointed committees as follows: Finance, John M. Miller, Oliver J. Sands and W. T. Reed; speakers' bureau, Harry Flood Byrd, David H. Leake, Mrs. Martha Hangar, Miss Mary Elizabeth Pidgeon, John M. Purcell, J. N. Brennan; campaign committee, General W. W. Sale, Morgan R. Mills, H. F. Hutchison, S. L. Ferguson, W. McDonald Lee and W. S. Battle.

A new underground wonder cave has been discovered in the Valley of Virginia, according to a dispatch from Staunton. The latest cavern to open its doors and reveal its beauties to man was found under an orchard near Mount Jackson. The cave has not been fully explored, but it has been examined by several Valley cave men and is said to be more beautiful than Luray caverns though not as large. It is understood that the owners have been offered \$55,000 for the property. The orchard, it is asserted, is valued at \$35,000.

Discovery of a mine three feet in diameter, coated with barnacles and oysters, provided with an electrical firing device, washed ashore a few days ago at Ocean View, near Portsmouth, has given rise to the theory that perhaps a number of ships lost off this coast recently may have struck these explosive derelicts. The mine is said to be the first washed ashore in that section. It bore the appearance of having been in the water a long time and in white bore the letters K-1. A huge bolt, used, it is believed, for mooring, projected from the bottom, the electrical firing apparatus projected from the top and a flange an inch and a half wide by an inch thick encircled it. There were no firing points other than at the top, so far as could be ascertained.

JUST DOLAN! DIFFERS WITH WIFE, ASKS AID, FOUR GO TO HOSPITAL

A squad of policemen, numerous bullets, a dozen firemen, a ladder truck, and engine, fire hose and other apparatus finally managed to subdue and capture Philip Dolan, who suddenly turned from a peaceful citizen to a raving maniac at his South Boston home.

In the accompanying fight, which lasted an hour, Dolan sent the following men to Carne Hospital: Sergeant Daniel Toomey, stabbed in the head; on the dangerous list, with a severed artery.

Patrolman Burton W. Mullin, severely cut on hands and body. Patrolman Joseph J. Jitredge, also severely cut on hands and body. Thomas J. O'Donnell, knocked out and badly lacerated by a near-beer bottle.

The police came today at the request of Mrs. Dolan, who phoned that her husband was acting queerly.

STILL ANOTHER DRIVE TO MAKE NEW YORK BONE DRY IS ON WAY

Whisky went up to \$18 a quart, cooking liquor up to \$12 and horse liniment to \$9 when word was received that yet another of those well-known antirum crusades is about to begin in New York under the personal direction of Roy A. Haynes, head of the national prohibition enforcement forces.

Haynes, so it was reported from Washington, will make New York "bone dry" and keep the place dry, by attacking the smugglers and retailers alike, with the purpose of breaking up the system and proving to the country that the worst wet spot in America can be reformed.

Haynes is said to have in mind a force of 1,000 men for New York City, an increase of 775. Should New York be made thoroughly dry, Haynes believes, the wet spots in New Jersey, Pennsylvania, Maryland and Connecticut will dry up.

FIRST LYNCHING IN BOSTON'S HISTORY NARROWLY AVERTED

The first lynching in the history of Boston was narrowly averted when forty policemen clubbed away a mob of 500 men, whites and negroes, most of them dockworkers.

They had a noose ready for J. C. Taylor, an 18-year-old negro who stabbed R. Jesse Sudds, 29, another negro, in a crap game argument on Long Wharf.

Four emergency calls were necessary before enough police were assembled to break up the mob and rescue the negro, who was rushed to City Hall Station under guard.

The Leavenworth Post has figured out one thing in favor of prohibition. It is killing off the idle rich, who can afford to buy the bootleggers' stuff.—Kansas City Star.

Receipts and Disbursements of Prince William County for Year Ending June 30, 1921

Table with multiple columns and rows detailing receipts and disbursements for various district road funds including Brentsville, Dumfries, Gainesville, Manassas, and Occoquan. Includes sub-sections for Receipts and Disbursements for each fund.

The foregoing is a statement of all receipts and disbursements of Prince William County, with the exception of the School Funds of the County, for the year ending June 30, 1921. GEO. G. TYLER, Clerk.

THE NEW ADMINISTRATION

Mayor Davis greeted the incoming council with a series of recommendations which promise a busy, business-like and progressive administration. His advocacy of the budget system and of a sinking fund, particularly, should receive prompt and serious consideration. The absence of a sinking fund has been sorely felt since the inauguration of the public utilities, when no provision was made to cover this need.

"There should be created," Mayor Davis declared to the City Fathers, "a sinking fund for the retirement of the bonded debt as it matures annually, for the payment of the annual interest due thereon, and for needed improvements, such as future enlargement of the light and power plant and additional water facilities and street improvement, as well as other unforeseen contingencies." He suggests that present obligations, which have accrued in the absence of a sinking fund, be settled by an additional bond issue, the tax assessment to be properly adjusted to support the plan in future years.

He adds, most significantly, that in proposing a bond issue, he is "moved somewhat by consideration of alternatives that will require attention sooner or later, unless something in the nature of this proposition is taken up."

The proposal offered by Mayor Davis was not an ill-considered thought uttered as it came into being, but rather the conclusion which followed mature deliberation on the part of one who has handled the town's finances for a period of years, one who is thoroughly familiar with the financial situation, with our needs and the funds available to supply them, and to whom none of our problems are new. Now is the time to consider it from every angle, and to act upon it.

This proposal, and other recommendations of Mayor Davis, all of which have received publicity in The Journal, merit the thoughtful consideration of the citizens of the town. We as citizens have a voice in the government of Manassas, and we owe it to ourselves and to the community to be alive to the issues which affect our daily life, liberty and the pursuit of happiness within the borders of the town. The new administration is making a good start. Let us be ready to support its measures for the benefit of a better, bigger and brighter Manassas.

THE AMERICAN'S CREED

The American Legion of Virginia, in its third annual convention at Norfolk, adopted a resolution calling upon all school authorities to include the American's Creed in the daily opening exercises of the public schools "for the purpose of instilling in the minds and hearts of the coming generation a true love for the principles of Americanism." The American's Creed, while recommended for use in the schools as a means of reaching the rising generation is a fine exposition of American faith and purpose, which should be an inspiration to any loyal citizen. We are glad to reproduce it here:

I believe in the United States of America as a government of the people, by the people, for the people, whose just powers are derived from the consent of the governed; a democracy in a republic; a sovereign nation of many sovereign states; a perfect union, one and inseparable; established upon those principles of freedom, equality, justice and humanity for which American patriots sacrificed their lives and fortunes.

I, therefore, believe it is my duty to my country to love it, to support its constitution, to obey its laws, to respect its flag, and to defend it against all enemies.

ANOTHER IDOL FALLS

The grewsome scandal in which Roscoe ("Fatty") Arbuckle, the famous film comedian, has become involved, is a shock to the many Americans who have been entertained and swayed into a heartier enjoyment of uncertain days by his million-dollar smile. The familiar "Fatty," good-natured smile charmer of the films, is charged with the murder of a young woman who was said to have been carried to a hospital in a dying condition after a party in his rooms. Many cities have cancelled all Arbuckle pictures until the outcome of the case.

Whether or not he is cleared of the ugly charge, it is certain that "Fatty's" screen popularity is definitely on the wane. The American public is given to creating many idols, but in spite of a so-called questionable taste which evidences itself in the prevailing movie types, it requires of its idols at least the grace of decency in private life. "Fatty" Arbuckle's character in the eyes of his admirers is smirched, and no jury on earth in acquitting him can erase the stain which the unfortunate episode has laid upon him.

HEALTH THEORY UPSET

Health theorists received a jolt a few days ago when a cherub from New York's East Side was pronounced the healthiest small product of humanity in New York's baby show. It further develops that the healthiest district in the great metropolis is one of the most congested quarters, characterized as a veritable hive of the poor. The infant mortality rate there is 52, compared with 85 for the city, and the general mortality rate is 6.14 against 12.93 for the city as a whole.

The only explanation available comes from the New York health commissioner who says that the people of this section of the city, largely foreign, "have been used to governmental control all their lives in countries where paternalism is conspicuous, and when they come here they yield themselves under the regulations of health departments, patronize our baby health stations, and follow religiously the board of health teachings."

Although science has made wonderful progress in the last few hundred years, hard work is still the best antidote for hard times.

Things are looking up in the south. And, with the dawn of a new prosperity there, the whole country is boosted into a cheerier altitude. A lessened demand for credit in the south is reported by the Treasury Department and the Federal Reserve Board.

"About the only way a man can chastise his wife nowadays is to vote against her when she runs for office," says the Washington Post. And, according to our way of thinking, a fine way for a woman to chastise her husband when he runs for office would be to run against him.

"I look for a hard winter ahead, unless something is done quickly. There are 6,000,000 men out of work. There is no use deluding the people with reports of improvement until such is the case," is Mr. William Gibbs McAdoo's view of the present situation. "Which do you prefer—republican normalcy or democratic prosperity?" he asks. Speaking for Virginia, we vote for Mr. Trinkle.

VISION

I came to the mountains for beauty
And I find here the toiling folk,
On sparse little farms in the valleys,
Wearing their days like a yoke.

White clouds fill the valleys at morning,
They are round as great billows at sea,
And roll themselves up to the hill tops
Still round as great billows can be.

The mists fill the valleys at evening,
They are blue as the smoke in the fall,
And spread all the hills with a tenuous scarf
That touches the hills not at all.

These lone folk have looked on them daily,
Yet I see in their faces no light,
Oh, how can I show them the mountains
That are round them by day and by night?
—Jesse B. Rittenhouse in Bookman.

LAUGH AND LIVE

THE WORLD FIRST

There is an English church where a box hangs in the porch. It is used for communications for the pastor. Cranks put their notes in it, but occasionally it does fulfill its purpose. Recently the minister preached, by request, a sermon on "Recognition of Friends in Heaven," and during the week following this note was found in the box: "Dear Sir—I should be much obliged if you could make it convenient to preach to your congregation on 'The Recognition of Friends on Earth,' as I have been coming to your church for nearly six months, and nobody has taken any notice of me yet."—Christian Advocate.

DISPROVED

"Women can't keep a secret."
"Nonsense! The cook never tells you she is going to leave until you have invited a house full of company."

HARDLY

A red-headed boy applied for a job in a butcher shop.
"How much will you give me?" he asked.
"Three dollars a week; but what can you do to make yourself useful around a butcher shop?"
"Anything."
"Well, be specific. Can you dress a chicken?"
"Not on \$3 a week," said the boy.

A TRIAL THEN

"Your honor, this lady married a man to reform him."
"Divorce granted," said the judge. "Never mind about the details."

Checking Accounts

Most people have learned through rich experience of the many conveniences which a checking account offers.

Women, especially housewives, should investigate this good method of handling personal funds.

When you spend by check you don't have to stand in line to pay bills, wait for change or argue about mistakes. Checks for any amount can be sent through the mails.

A checking account encourages correct keeping of your account—leads to savings and investments—and it costs nothing. We invite your consideration.

WITH MARGARET LOOMIS

ANNOUNCEMENT

September 2, 1921. Mr. Edsel B. Ford, President of the Ford Motor Company, makes the following announcement:

"We are making another reduction in the prices of Ford cars and the Ford truck, effective today. The new prices average \$70.00 under former prices, and are the lowest at which Ford cars and trucks have ever been sold. List prices, F. O. B. Detroit are now as follows:

	New Price	Old Price	Amount of Reduction
Chassis	\$295	\$345	\$ 50
Runabout	325	370	45
Touring Car	355	415	60
Truck	445	495	50
Coupe	595	695	100
Sedan	660	760	100

"This is the third price cut during the past twelve months. On September 22, 1920, the price of the Ford touring car was reduced from \$575 to \$440; June 7th to \$415, and now to \$355, making total reductions in this type of \$220, or 38 per cent. The same proportionate reductions have been made in all other types. One year ago the price of the Ford sedan was \$975; today it lists at \$660 with the same equipment.

"We are taking advantage of every known economy in the manufacture of our products in order that we may give them to the public at the lowest possible price, and by doing that, we feel that we are doing the one big thing that will help this country into more prosperous times. People are interested in prices, and are buying when prices are right.

"The production of Ford cars and trucks for August again broke all previous high records with the total reaching 117,696. This is the fourth consecutive month in which our output has gone over the hundred thousand mark, the total for the four months being 463,074, which has gone a long way in making possible the present reductions. June this year, with an output of 117,247, was the previous record month.

"One noteworthy feature of our sales is the increased demand for Ford trucks and cars for salesmen. This class of commercial business has been gradually increasing the past sixty days and we interpret it as a very good sign of improvement in general business.

"No reduction has been made in the price of the Fordson tractor, and none is contemplated."

Go over these new prices! See how little it costs to become the owner of a Ford car or a Ford truck. Can you really afford to do without one any longer?

Let us tell you more about it, and advise you regarding the delivery of the particular type of car in which you are interested.

YOUTH KILLED IN LEAP FROM SPEEDING TRAIN

Told Police He "Would Rather Die Than Go Back to School"
—Tragedy Near Quantico.

After telling detective-sergeants at police headquarters in Richmond that he "would rather die than go back to school," Edmund Meanley, eighteen years old, leaped from the window of a speeding train en route to Baltimore and was instantly killed on Tuesday. The youth was taken into custody for alleged violation of his parole in Juvenile Court, and was in the custody of Policeman W. T. Jones when the tragedy took place.

After the train passed Fredericksburg, Meanley told the officer he was going to the forward part of the train. The two left their seat in the rear of the car, the youth asked permission to enter the lavatory, and closed the door. A few seconds later, as the train passed Brooke station, near Quantico, a figure was seen to hurtle through the air. The door of the room was forced, and an open window told what had happened.

At Quantico the train was brought to a stop and officers were notified and returned to the scene. The body was found near the tracks a short distance from Brooke. According to physicians, his skull was fractured, and, as the train, at the time he was seen to leap from the car, was running sixty miles an hour, it is thought death was almost instantaneous.

Mr. and Mrs. E. H. Meanly, parents of the youth, are prostrated over the tragedy, and stated that he was averse to going to school. He was for several years a pupil at McGuire's University, and had a wide circle of friends in Richmond.

Flood Declined Debate Challenge.

While the Democratic State Committee will not make arrangements for joint discussions between speakers from the democratic ranks and those from the republican party, it is announced by Chairman Flood, local committees may make such arrangements when the occasion seems propitious. In other words if candidates from the two parties meet at any given place during the campaign, the local committee may, in its discretion, arrange for joint discussion. This position of the committee was made plain in a letter forwarded by Chairman Flood to Chairman Joseph L. Crupper, at republican headquarters.

Senator Trinkle will open his campaign for the governorship with an address at Galax, in the Southwest on Sept. 22.

FOR MIDSUMMER Lyons Velvet Hats

—If history is to be believed, women at one time wore straw hats in summer and velvet hats in winter. Woman is a creature of moods and by no means dependent upon the weather man to tell her what to wear.

—In winter she wears hats of straw or lace—in summer, behold, she dons the chapeau of velvet.

—Because it is becoming almost always, and because it seems peculiarly adapted to seaside wear, we excuse the inconsistency of lovely woman's fads; and applaud her in her chic velvet hat though the weather be 100 degrees in the shade.

—These new models are in large, medium and small shapes. The color list includes blue, brown, pheasant, cherry, taupe and black.

—The trimmings are of pin ostrich, in fancy effects.

MAYOR'S ADDRESS TO CITY FATHERS

Mayor Harry P. Davis Recommends Sweeping Change in Municipal Government.

[Editor's Note.—The inaugural address of Mayor Harry P. Davis before the new town council on Monday, September 5, is concluded today. The first installment appeared in The Journal of September 9.]

"The next matter of vital importance for your consideration, from my point of view, is the business method in which you propose to conduct the town's affairs.

"As I see it, the business of the corporation of Manassas should be conducted along the same lines as the affairs of any healthy commercial corporation are conducted, and in order to put into operation such a plan I suggest that you give some serious consideration to establishing a budget system, for I cannot but feel that through such instrumentality we should have a fair chance to create a modern method of business. One thing that has been conspicuously lacking in our government's business has been the element of careful, understandable and reasonable planning.

"It is easy to believe that the only way to diminish the burdens which the people must pay is to cut the outlay in which the public moneys are expended and eliminate staggering costs and excessive expenditures which a successful private business would not tolerate.

"In passing to other matters of importance, I wish to call your attention to certain suggestions in the form of recommendations which I feel are worthy of your consideration and which if enacted into ordinances would not be detrimental to the welfare of Manassas, and while we have not the time just now to discuss these matters individually, I will merely call your attention to them as they come to me, and ask that you prepare yourselves to consider the same at an early date.

"The first matter of which I wish to make mention is the motor vehicle traffic. I would recommend that more stringent laws be enacted relative to the operation of motor vehicles within the corporate limits of Manassas. My observation is that this class of vehicles is operated entirely too carelessly, not only in the congested streets, but in the streets leading into the town, and while these streets do not offer a very smooth surface yet a great many people persist in making a race track of them and not only does this practice subject the people on the streets to loss of life and limb but it makes it disagreeable to those who live on the streets by reason of the fact that the majority of our streets have a soft surface. I really feel that this class of drivers should be compelled to have some consideration for the helpless people who are obliged to live continually in a fog of dust which could be reduced to a minimum if motor vehicles were handled, with a little common-sense judgment.

"I have given this matter considerable thought and feel that the safety of the public should be the SUPREME law in this instance, and without desiring to increase the burden of operators of motor vehicles, I believe the only solution is to require all owners and operators to operate a motor vehicle of any kind within the corporate limits on a permit signed by the Mayor, and that for the first two violations a fine be imposed and that for the third offense the permit be forfeited and the owner or operator refused the privilege of using the streets of the corporation.

"I would recommend that regular meetings of the Council be held semi-monthly until such time as its business will justify a monthly meeting.

"I would recommend the employment of an all-time, sergeant, who shall not only be an officer of the law, but who shall have charge of all corporation improvements and street work.

"I would recommend that all places of business (considered as essential and allowed to remain open on Sunday) be requested to close their respective houses during Sunday morning and evening hours of religious worship.

"I would recommend the enactment of more stringent laws relative to gambling in our town and some drastic effort to discontinue the bootleg liquor traffic or hip pocket barroom. These two evils I consider are having a most serious effect on the younger generation.

"I would recommend that encouragement be given for organizing a board of trade to work in co-operation with the Council.

"I would recommend that encouragement be given the ladies in organizing a civic league.

"I would recommend that the light rates be reduced to at least 15 cents per kilowatt hour and that water rates be increased to 60 cents per 1,000 gallons with a minimum charge of \$3.50 per quarter.

"I would recommend that milk be sold in the corporation only on a permit, subject to certain conditions.

"I would recommend that some adequate provisions be made to prohibit animals being left standing in the streets unattended or unhitched. This is a dangerous practice that has been allowed to exist and should be stopped before there is loss of life or limb.

"I would recommend that some provision be made for prohibiting animals being tied to any electric light poles, telephone poles or trees.

"I would recommend that as much as \$1 on the \$100 of income be assessed on all persons within the corporation who pay no personal property or real estate tax, and a poll tax of 50 cents.

"I would recommend that all appointed officers be required to make in writing to every regular Council meeting a full and complete report of all matters coming under their respective offices.

"I would recommend that all appointed officers be required to take an oath of their respective offices.

"I would recommend that the Charter and all ordinances of the town of Manassas be printed in pamphlet form in sufficient quantities as to furnish all citizens a copy for their guidance.

"As regards the revenue of the town it is my opinion that the same should be given most careful consideration both in the tax and license assessment as well as the manner in which these revenues should be assessed and collected.

"In former administrations this vital and important function of the government has been too much a one-man affair, and I would recommend that a commissioner of revenue be appointed for the assessment of taxes and merchants' licenses and privileges and that all other license privileges be issued by the clerk of the council attested by the signature of the Mayor.

This suggestion is brought about by reason of the fact that quite often applications are made to the clerk for license to conduct amusements which are not morally clean, and while the clerk may be acquainted with the fact, yet he has no choice in the matter save to issue a license, provided the required fee accompanies the application.

"As I understand it, there are numbers of business propositions being conducted in our town without being required to pay a license, and I do not think it just to compel some classes of business to pay for the privilege while others are permitted to conduct a business without sharing the burden.

While there may be some question as to just who should not be subjected, yet, as a matter of justice, all should be on an equality basis. As an illustration, I might name a few foremost in my mind, such as rent agents, agents of agricultural implements, fruit tree agents, auction sale agents, barbers, contractors, cleaning and pressing parlors, ice manufacturers, printing offices, monument and tombstone agents, plumbers, paperhangers, painters, poultry and produce agents, shoemakers and shoe-repairers, veterinary surgeons, public drays, hacks and automobiles.

"The question of furnishing light and power to suburban consumers has indeed presented itself in such a light that I feel that some serious consideration should be given this matter and some adequate provision be made—if this town is to continue this practice—whereby the consumers without the corporate limits be put on at least an equality basis with the consumer within the corporation of Manassas in regard to rates charged for light and power.

"It must be borne in mind that the people within the town of Manassas are taxed for the support and upkeep of the municipal light and power plant, and at the same time are being charged the same rate for light and power as that enjoyed by consumers without the corporation who are not contributing a single cent in the way of its support. While it has been

done, yet, frankly speaking, I do not believe it legal for any council of this town to obligate its citizens in the form of contracts or make expenditures of the town's funds for purposes that extend beyond the corporation limits, without first obtaining the consent of the voters of the corporation. It is my opinion that former councils have exceeded their authority in the erection of all light and power lines extending beyond the corporation limits and in binding the citizens of Manassas with contracts in connection therewith.

"I grant that these ventures, no doubt, were taken in good faith and with the belief that the town would be benefited in a financial way. However, as records disclose, there was considerably more spent in these lines than they were estimated to cost, especially the Milford line, and from the amount of revenue received from this line in particular it would appear to be a rather bad investment, to say nothing of the liability to which it subjects the corporation in the way of damage suits.

"As a business proposition it must be remembered that the people of Manassas pay for all lost resistance, not only on the lines within the corporation, but on all lines running out of the town as well, and while the suburban consumers do pay a transformer resistance charge, yet they do not pay for their share of the line resistance, and until they do pay for this line resistance they are receiving their rates at a lower charge than the people within the town of Manassas. In order to make these rates uniform, I recommend that the master meters be placed on all of these lines at the corporation limits to account for all energy furnished over these lines by the corporation of Manassas.

"These suggestions are offered for consideration, criticism, modification, or for rejection if they are valueless, and are offered with the thought that this is a time when constructive ideas are entitled to attention, when they

may be permitted to offer new methods of dealing with new difficulties."

NOKESVILLE

Hebron Seminary opened on Monday with a large enrollment of scholars. Prof. W. H. Sanger, of Oakton, Fairfax county, has succeeded Prof. Franklin J. Byer as president.
 Miss Helen Glastell entertained St. Anne's Social Club Saturday evening at her home near Catlett. Dancing and cards were engaged in by the young people and delicious refreshments were served by the hostess.
 Mr. and Mrs. W. R. Free, jr., are receiving congratulations on the birth of a young son, who arrived September 6.
 Mrs. M. E. Jonas has returned from a motor trip to Pen-Mar, Blue Ridge Summit and Chambersburg, Pa.
 Mr. Sterling, cashier of the Bank of Nokesville, they will occupy the home of Mrs. Mabel Harrell.
 Miss Helen Thornton and Miss Franziska Jonas left Washington yesterday for a ten-day trip to Niagara Falls, N. Y.
 Mrs. Theresa Milnes Evans, of Manassas, with her little daughter, Dorothy, is visiting her aunt, Mrs. W. R. Free.
 Mr. H. J. Jonas has just received word of the death of his brother, Mr. Joseph Jonas, of Sheffield, England, which occurred August 22. Mr. Jonas' death was mentioned editorially in the Sheffield Daily News as follows:
 "Sheffield's sorrow at the death of Mr. Joseph Jonas was clearly expressed at the funeral, yesterday. The civic, educational, commercial and industrial heads of the city were all represented. It was a spontaneous tribute to the memory of a man we could ill-afford to lose.
 "Certain is it that much of the work Mr. Jonas did will endure. His benevolence and energy in the public cause will always be the subject of grateful memory."

GAINESVILLE

Gainesville is "dry" in more than one sense of the word. The small streams and springs nearby have had no water in them for several weeks. One spring, which has been unfailing for fifty years, according to the statement of an old resident, is "bone dry." Farmers have been pumping water for their livestock for several weeks. The fortunate man who has an electric plant is almost an object of envy, and the continued lack of rain seems a boon to the companies who install these labor-saving plants.
 The general merchandise store of the late Macon Cave has again changed owners. Mr. Howard Bell, who succeeded Mr. Cave, has sold his stock of goods to Mr. Heflin, of Alexandria, who took charge of the store on Monday. Mr. Bell considers opening a store at Haymarket.
 Mr. C. M. Dodson, of Harrisonburg, has been in Gainesville to ship a carload of pulp wood to West Virginia.
 Mr. Charles Wood and family have moved to Greenwich.
 Misses Ethel and Ann Shields have returned to their home in Washington after a visit to the family of Mr. John Sweeney.
 Mrs. Kate Brady, of Washington, is visiting her daughter, Mrs. John Clark.
 Mr. Bronston Cave has gone to Chatham, where he will attend school the coming year.
 Miss Mollie Cave is visiting friends and relatives near Luray.
 Mrs. Seldon, who has been visiting the family of Dr. E. H. Marsteller, left for her home in Richmond on Wednesday.

FORESTBURG

Mr. and Mrs. James Anderson and daughter, Marjorie, visited at the home of Mr. and Mrs. W. B. Abel, of Joplin, on Sunday.
 Mr. and Mrs. D. F. Abel and daughter, Katherine, visited Tuesday at the home of Mr. and Mrs. Wallace Randall, of Quantico.
 Mrs. George Atchison and two daughters, Marguerite and Katherine, returned to their home in Washington Monday, after a week-end visit to Mrs. Atchison's father, Mr. R. S. Abel.
 Miss Arzullah Dunn had as her guests on Sunday Mr. and Mrs. Jack Fick and daughter, Doris, Mrs. Nathan Linsky and Mr. A. L. Folger, of Quantico.
 Mr. Philip Abel is visiting his parents, Mr. and Mrs. W. T. Abel.

GREENWICH

Miss Grace Dulin will leave shortly to visit Mrs. Allen Lester in Washington.
 Mr. N. D. Booth, of Alexandria, spent Labor day with friends here.
 Mrs. Pearl Nells is visiting her mother, Mrs. Annie Grant, in Washington.
 Miss Edith Bywaters spent last week in Warrenton as the guest of her grandmother.
 The revival services at the Presbyterian Church closed with the addition of twenty members. The pastor, Rev. J. Royal Cooke, was assisted by Rev. Mr. Cumming, whose sermons were particularly enjoyed.

You'll enjoy the sport of rolling 'em with P. A.!

FIRST thing you do next—go get some makin' papers and some Prince Albert tobacco and puff away on a home made cigarette that will hit on all your smoke cylinders!

And, besides Prince Albert's delightful flavor, there's its freedom from bite and parch which is cut out by our exclusive patented process! Certainly—you smoke P. A. from sun up till you slip between the sheets without a comeback.

No use sitting-by and saying maybe you'll cash this hunch tomorrow. Do it while the going's good, for man-o-man, you can't figure out what you're passing by! Such flavor, such coolness, such more-ish-ness—well, the only way to get the words emphatic enough is to go to it and know yourself!

Prince Albert is the tobacco that revolutionized pipe smoking. If you never could smoke a pipe—forget it! You can—AND YOU WILL—if you use Prince Albert for packing! It's a smoke revelation in a jimmy pipe or a cigarette!

Prince Albert is sold in tippy red baggy, tidy red tins, hand-some pound and half-pound tin humidor and in the pound crystal glass humidor with sponge moisture top.

SUES COMPANION FOR DAMAGING HIS AUTO

He Allowed Her to Drive and Accident Occurred—Suit Decided Against Him.

On May 24, Paxton G. Williamson, a Ma. Jackson attorney, was a business visitor in Woodstock; on the same day, Mrs. Ed Coffman of near Conieville was in town to witness her daughter's marriage to Clayton Painter.

Mr. Williamson fixed Mrs. Coffman's share of the damages at forty nine dollars. The evidence of the plaintiff disclosed that the lady was driving the car with the attorney's permission; that agency was implied when this permission was granted; and that, therefore, Mrs. Coffman was not liable for any damages in driving the Williamson car.

THE PERFECT WOMAN

For a perfect woman the correct weight for 5 feet 8 inches height is 141 pounds; for a man, 146 pounds.

The perfect woman's foot should equal in length one-seventh of her height.

What is called a perfect "36" has a bust measure of 36 1/4 to 38 inches; but 37 is the ideal. Seventy-five per cent of the women are below the 36 inch standard.

In the hand of the perfect woman the third finger is longer than the first, or index finger, while in a man the perfect proportions are a longer first finger than the third.

Physical culture lectures say the perfect woman should be able to touch the floor with her hands without bursting a seam in her clothes.

In the foot of the perfect woman the line along the inside of the foot from the great toe to the heel is perfectly straight. The toes are very flexible. The foot has neither high arch nor narrow ball. It is free from callous and its twenty-six bones are in normal position.

The measurements as descriptive of the perfect woman, as approved by a New York sculptor, follow: Height, 5 feet 7 inches; weight, 140 pounds; wrist, 6 1/2 inches; bust, 36 inches; waist, 24 1/2 inches; hips, 42 inches; thigh, 22 inches; knee, 17 inches; calf, 15 inches; ankle, 8 inches; size of glove, 6 1/4; size of shoe, 3 1/2; color of hair, chestnut brown; color of eyes, hazel.—Alexandria Gazette.

BUYS HOME WITH NICKELS HE SAVED DURING LIFETIME

"Save the pennies and the dollars will take care of themselves" is an old adage that has just been applied practically by Grant Mullin, house mover, of Richmond, Mo., who has gone the advice 4 cents better by saving nickels.

With the advent of the Buffalo nickel several years ago Mullin began to specialize in the collection of this coin. His accumulation grew quite fast, but even last week he was greatly surprised when he checked up and discovered that they totaled 900. He then bought a house and one acre of ground in West Richmond with the savings.

Grant said that for sometime he had thought of converting the Buffalo nickels into an automobile, but some thing told him that a house and lot was a better investment.

"But there is nothing to keep me from collecting nickels now with which to buy a car," added Grant, "or possibly an airplane."

"Yes, it came from SAUNDERS — I always buy my hams and bacons from him. I can depend on him."

Building a patronage of this kind has not been an easy task. It has taken not only time and hard work, but sticking to this motto:

"Long after the price is forgotten, the recollection of quality lingers."

Our patrons depend on us for meats of quality, and we do not disappoint. Our prices are low as can be made without sacrificing quality and sanitation. Have you been down our way?

SAUNDERS' MEAT MARKET

THE SANITARY WAY MANASSAS VIRGINIA

THIS FALL is the time to do that building and improving you have been putting off on account of high costs, as our prices and an examination of our grades will convince you that our present values on LUMBER, MILL WORK AND BUILDING MATERIALS will justify you in going ahead with your work.

Remember to examine our grades when considering our prices. W. A. Smoot & Co., Inc., Alexandria, Virginia.

It's Economy To Have Tires Repaired

Even though you can buy a new tire cheaper today than you could six months ago, you can save perfectly good money by having your blowouts properly repaired.

It is extravagance and a pure waste of money to run a tire with a blow-out patch. If brought to us promptly, we can make your tire as good as new, and at a very slight cost. We know HOW. Bring your tire work to us.

Wonderful Clothing Prices for You This Fall

You wished that clothes prices would come down. They have; government reports show that clothes have come down 34 per cent., but we want to show you that they have come down even more than that at Hynson's.

Our Mr. Hynson has just returned from New York City, where he spent a full week buying Men's and Young Men's Clothes for SPOT CASH. We have the greatest line of all-wool clothes from \$10 up that it has been our pleasure to show. Come in and let us show you the values that SPOT CASH will buy in New York now. Our stock is twice as large as it ever was, as we bought every suit that two large clothing manufacturers had made up, for SPOT CASH. We bought so that we could name you a PRICE to sell in a hurry and we are offering you reduction prices at the start. EVERY SUIT ALL WOOL.
