BAPTIST CONVENTIONS

Sunday School and Laymen's Meetings to Be Held at Long Branch Church.

A laymen's convention and Sunday School convention will be held Saturday and Sunday, April 28 and 29, at the Long Branch Baptist Church, near The Plains.

The program of the laymen's convention includes devotional exercises by Mr. C. H. Shipman; organization and election of officers; five-minute reports from different fields; address on "The Layman, a Vital Force," by Mr. George T. Baker; an address on "The Layman's Opportunity," by Mr. S. S. Fields, of Baltimore, Md., and a dinner served on the grounds.

The Sunday School convention will be opened by devotional exercises conducted by Rev. E. B. Jackson, D. D. The remainder of the program includes the election of officers and appointment of committees; statistical reports from the various Sunday Schools; an address on "The Relation of the Sunday School to the Church," by Rev. Charles T. Herndon, D. D.; an address on "Proper Housing of the Sunday School," by Mr. Westwood Hutchison, and an address on the Cradle Roll and Home Departments.

COUNTY FAIR NEXT WEEK

School Exhibits from All Districts Will Be Brought to Manassas Friday.

The annual fair of the Prince William county schools will be held at Eastern auditorium on Friday, April 27. It is expected that a large number of teachers and students from all parts of the county will attend. Superintendent McDonald has issued the following statement concerning the fair:

"It is urged that all District Committees will arrange to have their exhibition material delivered at the auditorium not later than Thursday afternoon. We realize this may be inconvenient to some but the value of this early delivery will overcome a great deal of inconvenience, so we hope you will arrange accordingly. Articles which cannot be delivered at this time will be received early Friday morning. On account of the auditorium being previously engaged for Friday night it will be necessary for all articles to be removed or satisfactorily stored by 7 p. m.

"The usual School Parade will not be held this year. A number of reasons have led to this decision. One reason is that only about 30 per cent of the children of the county attend on account of distance and roads at this time of year. Another is that roads are bad now and the farmers are very much behind with their spring work. Another is that we are trying out the District School Fair this year and do not wish to burden the people by asking for too much of their time this busy season; and greatest of all we do not wish to wear it out. A little rest will bring all together again with good spirit and success. If our schools could run 8 months it would put our date line forward to the interval between corn planting and corn working, when roads are good and the farmer is taking a little much needed rest and would have time to attend and enjoy a good parade and school fair.

"The public is cordially invited and if you will permit I would like to say "commanded" to attend all educational endeavors and the more interest you take in our various enterprises the more helpful and useful they will become. So here to the public:

THE COUNTRY'S CALL

Here is a clarion call from Old Virginia, mother of Presidents, the birthplace of Woodrow Wilson:
To the Editor of the Herald:

Give us the bravest and the best
In this, our country's need,
Men who are loyal, faithful, true,
In word, in thought and deed.
Brave men who will not prate of peace
While vicious tyrants gloat,
And cruel, gory handed war
Is clutching at our throat.

Men who will dare to do and die
For freedom and for right,
Men who will brave with courage strong
The thickest of the fight.
We want no cowards in our camp
Who shrink at war's alarms,
But men with hearts of steel who dare
To face a world at arms.

Our fathers fought and bled and died
To make this nation free;
Their spirits hover o'er us now
And plead for liberty.
Then stick on your armor, men,
Be faithful to their trust,
No foreign foe must dare to trail
Our colors in the dust.

Go, Oist Old Glory to the breeze
And let the tocsin be—
All honor to the Stars and Stripes,
The emblem of the free.
For she shall float where freedom reigns
On land and on the sea;
And death to all who dare defy
This banner of the free.

Margaret H. Bowen, in N. Y. Herald, Brentsville, Va., April 12, 1917.

APPEALS TO EVERY AMERICAN

President Calls Upon Every Man, Woman and Child to Support, Act and Serve Together to Meet This Nation's Supreme Test.

President Wilson has issued the following address to the American people:

"My Fellow Countrymen:
The entrance of our own beloved country into the grim and terrible war for democracy and human rights which has shaken the world creates so many problems of national life and action which call for immediate consideration and settlement that I hope you will permit me to address to you a few words of honest counsel and appeal with regard to them.
We are rapidly putting our navy upon an effective war footing and are about to create and equip a great army, but these are the simplest parts of the great tasks to which we have addressed ourselves. There is not a single selfish element, so far as I can see, in the cause we are fighting for.

ARE FIGHTING FOR MANKIND

"We are fighting for what we believe and wish to be the rights of mankind and for the future peace and security of the world. To do this thing worthily and successfully we must devote ourselves to the service without regard to profit or material advantage, and with an energy and intelligence that will rise to the level of the enterprise itself. We must realize to the full how great the task is and how many things, how many kinds and elements of capacity and service and self-sacrifice, it involves.

"These, then, are the things we must do, and do well, besides fighting—the things without which mere fighting would be fruitless:

"We must supply abundant food for ourselves and for our armies and our seamen not only, but also for a large part of the nations with whom we have now made common cause, in whose sides we shall be fighting.

HUNDREDS OF SHIPS NEEDED

"We must supply ships by the hundreds out of our shipyards to carry to the other side of the sea, submarines or no submarines, what will every day be needed there, and abundant materials out of our fields and our mines and our factories with which not only to clothe and equip our own forces on land and sea, but also to clothe and support our people for whom the gallant fellows under arms can no longer work; to help clothe and equip the armies with which we are cooperating in Europe, and to keep the looms and manufactories there in raw material; coal to keep the fires going in the ships at sea and in the furnaces of hundreds of factories across the sea; steel out of which to make arms and ammunition both here and there; rails for worn-out railways back of the fighting fronts; locomotives and rolling stock to take the place of those every day going to pieces; mules, horses, cattle for labor and for military service; everything with which the people of England and France and Italy and Russia have usually supplied themselves but cannot now afford the men, the materials, or the machinery to make.

URGES INCREASED EFFICIENCY

"It is evident to every thinking man that our industries, on the farm, in the shipyards, in the mines, in the factories, must be made more prolific and more efficient than ever and that they must be more economically managed and better adapted to the particular requirements of our task than they have been; and what I want to say is that the men and women who devote their thought and their energy to these things will be serving the country and conducting the fighting for peace and freedom just as truly and just as effectively as the men on the battlefield or in the trenches.

TRACK MEET FRIDAY

County Schools to Hold Annual Athletic Events Next Week.

The seventh annual track and field meet of the graded schools of Prince William will be held on Round Athletic Field at Manassas on Friday, April 27; at 1:30 p. m. The meet last year was the closest in the history of these contests with only three points separating Manassas, Greenwich and Haymarket, the three leaders, and it is expected that the meet this year will be fully as interesting and possibly just as close.

The competition is bound to be keen in the limited weight events and with a good day most of the records of the meet will probably fall. The following is a list of events:

80-pound class: 50-yard dash, high jump, broad jump.
95-pound class: 60-yard dash, high jump, broad jump.
115-pound class: 80-yard dash, high jump, broad jump.
Unlimited weight: 100-yard dash, 880-yard run, high jump, broad jump, 12-lb. shot put. X

CEREMONY IN WASHINGTON

Miss Russell Cecil Becomes Bride of Mr. Alfred E. Bruch, of Ben Lomond.

Miss Russell Cecil, daughter of Col. and Mrs. George Russell Cecil, of Washington, and Mr. Alfred E. Bruch, of Ben Lomond Farm, were married Wednesday afternoon in the St. Nicholas, where the bride's family make their home. The ceremony was performed by the Rev. C. Ernest Smith, rector of St. Thomas' Episcopal Church. The bridal party passed down an archway formed of Southern sassafras studded with roses. A stringed orchestra played throughout the ceremony and the informal reception which followed.

The bride, who was given in marriage by her father, was robed in white satin, veiled with tulle, and trimmed with point lace worn on her mother's wedding gown.

The long court train was embroidered with pearls and linked with silver cloth. Her tulle veil was held with a spray of orange blossoms and pearls and she carried a shower bouquet of lilies of the valley. She wore a bar pin of diamonds, the gift of the bridegroom.

Miss Nancy Patton, of Richmond, was the bride's only attendant. She wore a French gown of chartreuse crepe over cloth of gold embroidered in blue and gold and carried Ophelia roses.

Mr. Edward Bruch, of Cleveland, Ohio, was his brother's best man.
After a wedding trip Mr. and Mrs. Bruch will make their home at Ben Lomond, near Manassas. Among the out-of-town guests were Mr. and Mrs. F. W. Bruch, of Cleveland, parents of the bridegroom; Mr. and Mrs. Karl F. Bruch, also of Cleveland, his brother and sister-in-law; Mrs. Walter B. Cary, of Detroit, Mich.; Lieut. and Mrs. Luman Edgar Morgan, brother-in-law and sister of the bride, and Hon. G. J. Meetze, of Manassas.

The regular meeting of the Loyal Temperance Legion will be held in the Baptist Church Sunday afternoon at 3 o'clock. Japanese Red Letter day will be observed and the program will be entitled "Our Next-Door Neighbors." Rev. B. D. Lucas, of Eastern College, will tell something about Japan. All legioners are asked to bring a small contribution for the Anna Gordon missionary fund.

IRON GIVES YOU THAT GRAND OLD HAPPY FEELING

Be Sure you Take Right Kind Iron—Acid Iron Mineral, Nature's Remedy the Best.

DON'T TAKE ALCOHOL, IT INJURES KIDNEYS.

"I climb into my clothes these mornings with a hearty appetite speeding me to the breakfast table. Your little old nerves, all smoothed out by Acid Iron Mineral, seem to shout their happiness at the return of the vitality and reserve energy. It is common sense too. When you recall the solid, substantial meals eaten a few years ago and compare them day after day with what you now eat, it is no wonder a fellow begins to get pale around the gills, and sort of loses interest in things.

"A cold drink of 'coke' or dope will now and then put you back for an hour or so, but to take good old medicinal iron in big quantities gives you the 'stay there' feeling. In Acid Iron Mineral, you get the most iron per dollar. In fact a dollar bottle lasts from two to ten times as long as other and weaker iron remedies which often as not contain alcohol which everyone knows has only a temporary effect and always a dangerous reaction when taken in excessive quantities."

GIVE YOUR BLOOD A REAL CLEANSING Start taking a teaspoonful of

Acid Iron Mineral (natural iron) after each meal for a week or ten days. Get out in the air and draw in a few great big mouthfuls of ozone, set the alarm for early and see how sound the sleep comes and how refreshed and full of vim you feel on getting up. Everybody needs iron. Here it is. Non-alcoholic, non-injurious, helpful and beneficial to blood, kidneys, stomach and bladder, it is death to germs, uric acid and other blood poisons. Go to the nearest druggist this very day. A large bottle of Acid Iron Mineral will be sent anywhere prepaid upon receipt of one dollar. Ferrodine Chemical Corp., Roanoke, Va. Adv.

A CALL TO ARMS

President Wilson's address to the American people, the full text of which is given in this issue, should be read by every American as a personal message from the President. Regardless of color, creed or party affiliations, we are all Americans together and we are fighting in a common cause against the foe of "peace and human rights."

Not all of us, nor most of us, are lined up in the trenches, but all of us may serve in the great industrial army which is the support of the nation at home and of her men on the firing line. One by one, men, women and children, irrespective of station or pursuit, have been singled out by our great executive as valuable units in the service.

It is a stirring call to arms which cannot go unheeded.

USING THE IDLE ACRES

The most compelling duty which confronts the farmer today is the utilization of his idle acres. Nearly every crop the past year is reported short, and we are facing a food crisis of a magnitude unrivaled in the history of the world.

Our county leaders in agricultural work were summoned to Richmond by telegram on Tuesday to confer with their co-workers in other parts of the state, and together they have pledged to the Governor the cooperation of Prince William in meeting the food shortage and the attending demands of the war with Germany. Immediate steps will be taken to insure team work between the farm and the government.

It should be needless to urge upon our farmers the importance and the necessity of co-operation.

In placing President Wilson's message to Congress on April 2 upon the bulletin boards of every school in France, the French people have set an example which America might well have been proud to inaugurate. This document, remarkable as a part of present day history, is yet destined to go down to posterity as the most remarkable utterance ever dedicated as the sentiment of a free people. Accepting the lead of the French, let the message be read in every school in America, not as the choice of a small number of instructors but on an impulse so broad as to include every school in the land.

Already Supt. McDonald has received encouraging reports of the district school fairs in the county. A little more work in every division of the county and the county fair will have attained a new standard.

Keep the flag flying! Come out to the county fair!

APPEALS TO EVERY AMERICAN

(Continued from First Page)

"The industrial forces of the country, men and women alike, national, a great service army, notable and honored host engaged in the service of the nation and the world, the efficient friends and saviors of free men everywhere.

"Thousands, nay hundreds of thousands, of men otherwise liable to military service will of right and of necessity be excused from that service and assigned to the fundamental, sustaining work of the fields and factories and mines, and they will be as much a part of the great patriotic forces of the nation as the men under fire.

ADDRESSES WORD TO FARMERS

"I take the liberty, therefore, of addressing this word to the farmers of the country and to all who work on the farms: The supreme need of our own nations and of the nations with which we are cooperating is an abundance of supplies. A food supply, especially for the present year, is superlative.

"Without abundant food, alike for the armies and the peoples at war, the whole great enterprise upon which we have embarked will break down and fail. The world's food reserves are low. Not only during the present emergency, but for some time after peace shall have come, both our own people and a large proportion of the people of Europe must rely upon the harvests in America.

"Upon the farmers of the country, therefore, in large measure rests the fate of the war and the fate of the nations. May the nation not count upon them to omit no step that will increase the production of their land or that will bring about the most effectual cooperation in the sale and distribution of their products? The time is short.

"It is of the most imperative importance that everything possible be done and done immediately to make sure of large harvests; I call upon young men and old alike and upon the able-bodied boys of the land to accept and act upon this duty to turn in hosts to the farms and make certain that no pains and no labor is lacking in this great matter.

APPEALS TO THE SOUTH

"I particularly appeal to the farmers of the south to plant abundant foodstuffs as well as cotton. They can show their patriotism in no better or more convincing way than by resisting the great temptation of the present price of cotton and helping, helping upon a great scale, to feed the nation and the peoples everywhere who are fighting for their liberties and for our own. The variety of their crops will be the visible measure of their comprehension of their national duty.

GOVERNMENT TO AID FARMERS

"The government of the United States and the governments of the several States stand ready to cooperate. They will do everything possible to assist farmers in securing an adequate supply of seed, an adequate force of laborers when they are most needed, at harvest time, and the means of expediting shipments of fertilizers and farm machinery, as well as of the crops themselves when harvested. The course of trade shall be as unhampered as it is possible to make it, and there shall be no unwarranted manipulation of the nation's food supply by those who handle it on its way to the consumer. This is our opportunity to demonstrate the efficiency of a great democracy, and we shall not fall short of it!

"This, let me say to the middlemen of every sort, whether they are handling our foodstuffs or our raw materials of manufacture or the products of our mills and factories: The eyes of the country will be especially upon you.

WARNING TO THE MIDDLEMAN

"This is your opportunity for signal service, efficient and disinterested. The country expects you, as it expects all others, to forego unusual profits, to organize and expedite shipments of supplies of every kind, but especially of food, with an eye to the service you are rendering and in the spirit of those who enlist in the ranks, for their people, not for themselves. I shall confidently expect you to deserve and win the confidence of people of every sort and station.

"To the men who run the railways of the country, whether they be managers or operative employees, let me say that the railways are the arteries of the nation's life, and that upon them rests the immense responsibility of seeing to it that those arteries suffer no obstruction of any kind, no inefficiency or slackened power. To the merchant let me suggest the motto, 'Small profits and quick service'; and to the shipbuilder the thought that the life of the war depends upon him. The food and the war supplies must be carried across the seas no matter how many ships are sent to the bottom.

"The places of those that go down must be supplied and supplied at once. To their miner let me say that he stands where the farmer does: the work of the world waits on him. If he slacks or fails, armies and statesmen are helpless. He also is enlisted in the great service army.

EVERY GARDEN A HELP

"The manufacturer does not need to be told, I hope, that the nation looks to him to speed and perfect every process; and I want only to remind his employees that their service is absolutely indispensable and is counted on by every man who loves the country and its liberties.

"Let me suggest also, that every one who creates or cultivates a garden helps, and helps greatly, to solve the problem of the feeding of the nations; and that every housewife who practices strict economy, puts herself in the ranks of those who serve the nation. This is the time for America to correct her unpardonable fault of wastefulness and extravagance. Let every man and every woman assume the duty of careful, provident use and expenditure as a public duty and a dictate of patriotism which no one can now expect ever to be excused or forgiven for ignoring.

"SUPREME TEST HAS COME"

"In the hope that this statement of the needs of the nation and of the world in this hour of supreme crisis may stimulate those to whom it comes, and remind all who need reminder of the solemn duties of a time such as the world has never seen before, I beg that all editors and publishers everywhere will give as prominent publication and as wide circulation as possible to this appeal.

"I venture to suggest also, to all advertising agencies that they would perhaps render a very substantial and timely service to the country if they would give it wide spread repetition. And I hope that clergymen will not think the theme of it an unworthy or inappropriate subject of comment and homily from their pulpits.

"The supreme test of the nation has come. We must all speak, act and serve together! WOODROW WILSON."

WITH THE COUNTY AGENT

Preparation for Corn - Advises Against Plowing When Land Is Wet.

(By Montgomery County Demonstration Agent)

On account of so much rain this spring, the farmers are behind with their plowing. Some are becoming impatient and are plowing their land too wet. In fact, in one field I saw being plowed last week, the water would stand in the furrow within a few minutes after it was made, for some distance across the field. Of course few people plow when the land is in this condition, but the soil can be far from this condition, where water will accumulate, and yet be too wet to fallow.

When we plow land too wet, this time of the year, we are forgetting the object of plowing, or we do not know. The object, in mind, may be simply to get a seed bed for planting, but that is not the real object, we must leave the texture and structure of the soil in position for growth. If plowed wet you get a puddled condition which will not drain well in wet weather or hold moisture in dry weather. You not only injure the crop for one season, but the texture of the soil for many years, thus lowering the crop production.

It is true that many are behind with their work, but do not get excited, just wait until the soil is dry enough before plowing. You will gain by it; especially is this true with heavy clay soils. Follow plowing immediately with the harrow or drag to make sure a good seed bed and to conserve the moisture. Do not think that I am trying to discourage early planting of corn; it is the general experience in corn growing that corn planted early most often gives the best yield. Remember through, thorough preparation before planting is very essential.

NEW SCHOOL IS BURNED

Cherry Hill Citizens Think Building Was Set Afire—Totally Destroyed.

(Communicated)

The new Cherry Hill school house was burned to the ground Saturday morning between the hours of 2 and 3:30 o'clock. There was no school on Friday and every indication points to a clear case of arson.

A prompt and thorough investigation should be made and if the culprits are located the full force of the law should be used against this undesirable element.

If action is taken at once it should require a very short time to trace the matter to its foundation, as several of the patrons took immediate action to ascertain if any assistance could be rendered the officials in running down the culprits. Circumstantial evidence is very strong.

We, the undersigned citizens of Cherry Hill and vicinity, pledge ourselves to give the amounts set opposite our names for the apprehension and conviction of the culprits who committed this cowardly act:

G. E. Soutter, \$5; F. W. Walker \$5; W. M. Sullivan, \$5; O. G. Gurney, \$5; G. E. Shepherd, \$5; H. O. Russell, \$10; W. G. Bushey, \$5; J. F. Hicks, \$5; J. E. Morgan, \$5; J. G. Crane, \$5; R. A. Gerty, \$1, and John O'Neal, \$2.

COUNTY FIELD DAY

Colored Schools Hold Athletic Events on M. I. S. Campus.

The first annual field day of the colored schools of Prince William county was held Saturday on the campus of the Manassas Industrial School. Although the inclemency of the previous day kept away many young folk from the neighboring communities a very representative crowd of pupils, parents and teachers from the county schools was present.

The first part of the afternoon was given over to athletic sports of various kinds, including dashes and jumps for boys of varying ages. An exhibition game of captain ball was played by the girls of the Industrial School. After the athletic games the assemblage crowded into the chapel of the school for the moving picture show where reels of Sherlock Holmes, played by William Gillette, and reels illustrating the wool industry were shown.

This event is hoped to be made permanent and to occur annually from now on. Everyone who attended voted the undertaking a huge success and expressed the desire that it continue.

Students, parents and teachers from the following communities were represented: Bristow, Catlett, Leesville, Thoroughfare, Haymarket, Catharpin, Wellington and Manassas. It is hoped as the event becomes a fixture that from year to year the representation of the county school will be increased until it includes all of them, and perhaps some of those nearby in the adjoining counties.

DUMFRIES

The Dumfries district school exhibit took place here on Tuesday. The attendance, according to Mr. G. M. Ratcliffe and the oldest inhabitants, was the largest ever known at Dumfries. Cost of living; farm implements have advanced; it costs much more to educate your children than formerly; wearing apparel and everything you buy is going up. We are told that fire insurance companies are advancing their rates in tremendous proportions—BUT REMEMBER—the old reliable Fauquier Mutual Fire Insurance Company have not as yet advanced their rates. Now, before that fire comes, insure your property. Better to have it and not need it than to need it and not have it. We will be glad to give you rates. No renewing every year or two.

BRENTSVILLE

Rev. J. Royal Cooke preached Sunday morning to an unusually large congregation. He based his sermon upon the closing verses of the last chapter of the Gospel of Saint Matthew.

Cooke spoke of the many times the Savior appeared to His disciples, after his resurrection, as unquestionable proof that He in truth rose from the dead. In this last chapter of Matthew is recorded his last appearance, and it was at this time He gave them what may be termed their "official commission." The commission, however, could not be narrowed down to the twelve apostles, because Christ would not have commanded them to do what, on account of their environment and lack of means of travel, was rendered impossible to do.

AN OFFICIAL COMMISSION

Therefore his commission rests upon all who profess to be ministers of our Lord, Jesus Christ, and upon all who by their gifts and money can send his Gospel to the uttermost parts of the earth, and instead of giving grudgingly it should be considered a great privilege to be among those who obey this command. At the time this official commission was given, many witnesses are supposed to have been present. In fact, this is the occasion which St. Paul speaks of in the fifteenth chapter of first Corinthians; in which he says, "He was seen of above five hundred brethren at once; of whom the greater part remain unto this present."

Mr. Cooke said much more is embraced in the word "teach," used twice in this commission, than our language conveys. According to the Greek, in which this Gospel was written, in the first use of the word teach, Jesus meant to go out and bring in disciples. In the second use of it, He meant that they must be taught and fully instructed in all that is required of his followers, just as we bring children into a school and then instruct them in all that is required in education.

CHURCH RESPONSIBILITIES

At the close of the sermon Mr. Cooke gave a brief explanation of the different responsibilities of the church—the home and foreign mission work, and the support of ministers whose lives have been devoted to church work and service. These servants of God are so poorly paid, they find it impossible to "lay by" anything for old age or sickness, and hence their dependence upon the church.

A most beautiful and impressive prayer was offered by a visiting minister, Rev. Mr. Fultz. Mr. and Mrs. C. G. Keller have moved to Akron, Ohio.

Mrs. John Donovan has opened a millinery store here.

The people of Brentsville have caught the spirit of the President's appeal to the nation on the conservation of all that is required to support it, and the importance of an unlimited food supply and "The Man with the Hoe" is the man of the hour.
