**DID FARMER WHITE SWAP PORT FARMER DAVIS?**

The following was taken from the *Culpeper Exponent*, April 25.

Editor Exponent:—

The splendid testimonial and endorsement given Hon. C. C. Carlin, as to his record since a member of Congress, in the interest of the American Farmer, by Mr. S. H. Kimble, President and Legislative Agent of the Farmers' National Union, published in your issue of last week, should be published in every newspaper in the 8th Congressional District, and especially should it be given a prominent place on the front page of the *Leesburg Mirror*, which is owned by Mr. E. B. White, candidate for Congress against Mr. Carlin. We have no reason to believe that any word of praise of Mr. Carlin's record by Mr. Kimble was intended to discredit other Congressional candidates, but was solely for the purpose of giving facts as shown by the Congressional record, and in justice to a faithful and efficient representative, who at all times, has exerted his very best efforts in the interests of the farmers.

If Mr. White desires to represent us in Congress he should base his right to do so on other grounds than upon the plea that he is a farmer and can render the farmers more valuable service than had Mr. Carlin done. But there are many other great and important interests to be considered after by our representatives other than the agricultural interest. It is just as important to have a congressman that can have established a shipbuilding plant near Alexandria, Virginia, as it would be to have a stock yard erected near Leesburg, Virginia. It would simply be playing the role of cheap politics and prejudice at this time to swap off an able and efficient representative to gratify the ambition of an untried man.

The farmers at this time have no reason to complain. They were never more prosperous, notwithstanding the fact that we are at war, and should expect to meet with some of the many reverses and hardships that are being experienced by many others, in an effort to win it. No class of people are more loyal to our cause than the farmer, and without his efforts we would be doomed to defeat.

Just here let me say that Hon. C. C. Carlin is not only untiring in his loyalty to the farmers, but every day of his life is given energetically and enthusiastically and in every way possible to assist Mr. Wilson and his administration in winning the war. Mr. White had just as well ask the prosperous farmer to swap the standard brand of fertilizer which he has been successfully using on his crops, and purchase a new and untried brand, as to ask the farmer who have thrived and prospered

through the efforts of Mr. Carlin.

If I remember correctly, Hon. John F. Ryan, a prosperous Loudoun County farmer, and a representative of fine ability, a former speaker of the House of Delegates of Virginia, was a candidate for Congress against Mr. Carlin. Mr. Gordon and Judge Nicol. We never heard of Mr. White busting his shirt in the interest of Mr. Ryan, and after the withdrawal of farmer Ryan, Mr. White cast his vote for Hon. C. C. Carlin. Again Mr. Carlin was opposed for a second term by Hon. Lindsey Gordon, lawyer and farmer, and Mr. White swallowed the same pill that he now asks you not to swallow, but possibly it was sugar coated then. I am reliably informed that farmer White was one of the few farmers of Loudoun County who voted against farmer Westmoreland Davis for Governor of Virginia. But farmers, just at this particular time, by Mr. White, seem to be more valuable assets than they were then. He no doubt feels that their services are needed just now in Congress to win the war, instead of on the farm, between the plow handles. Wonderful changes are made in men's minds by conditions, but we can't believe that the conditions are such at this time, as to call for a change of congressmen from Virginia, though Mr. White proclaims in the poetical part of his platform that "If you vote for White you will vote right; and if you vote right you will vote for White." Mr. Haynes could just as well say "Vote for Haynes and you will vote for brains, vote for brains and you will vote for Haynes." But in justice to Mr. Haynes we

wish to say that he has not been so egotistic as to issue any such proclamation to the voters of the district. FARMER.

**THE LIBERTY LOAN AND THE NEWSPAPERS.**

The relation of the newspapers of the country to the Liberty Loan and other governmental efforts is expressed in the telegram of Secretary McAdoo to the editors assembled in New York last week in attendance on the meeting of the American Newspaper Publishers' Association.

"Will you be good enough to express to the members of the American Newspaper Publishers' Association, now in session, my sincere and warm appreciation of the great service they have rendered to the country by their consistent, unselfish, and patient support of the successive Liberty Loans, which have been offered by the Treasury Department.

"These loans could not have succeeded without the support of the newspapers, and it gives me great pleasure to make this acknowledgment. An enlightened public opinion is the chief asset of a democracy. By keeping the people of America informed on public events and transmitting word of the financial and other needs of the Government, the American newspapers have performed a public and incalculable service to the Nation. I know that the service will be continued and that the newspapers will do their full share in assisting America to win this war for democracy and justice."

**Both Ends  
Against  
The Middle**  
(The Packer)

The consumer wants to pay a low price for meat.

The farmer wants to get a high price for cattle.

The packer stands between these conflicting demands, and finds it impossible to completely satisfy both.

The packer has no control over the prices of live stock or meat, and the most that can be expected of him is that he keep the difference between the two as low as possible. He does this successfully by converting animals into meat and distributing the meat at a minimum of expense, and at a profit too small to be noticeable in the farmer's returns for his stock, or in the meat bill of the consumer.

Swift & Company's 1917 transactions in Cattle were as follows:

Sold Meat to Retailer for	\$6837
Sold By-products for	24.09
Total Receipts	93.06
Sold to Cattle Raiser	24.45
Balance (not paid to Cattle Raiser)	1.11
Paid for labor and expenses at Packing House, Freight on Meat, and Cost of operating Branch distributing houses	7.30
Remaining in Packer's hands as Returns on investment	\$ 1.29

The net profit was \$1.29 per head, or about one-fourth of a cent per pound of beef.

By what other method can the difference between cattle prices and beef prices be made smaller, and how can the conflicting demands of producer and consumer be better satisfied?

**BUMPER WHEAT CROP**  
Farmers Should Harvest 572,000,000 Bushels This Year.

American farmers will harvest 154,000,000 more bushels of winter wheat this year than last, according to crop forecasts made public this week by the Department of Agriculture. A yield of 572,000,000 bushels is predicted as against last year's estimated production of 418,000,000 bushels. The largest ever recorded was 685,000,000 in 1914, and the smallest 400,000,000 in 1912.

The rye yield is estimated at 82,820,000 as against 60,145,000 bushels, the product last year. Alexandria Gazette.

Cooperation Tendered Anti-Tuberculosis Association.

Richmond, Va., May 15—The office of the Virginia Anti-Tuberculosis Association is already receiving numerous letters from Red Cross Chapters throughout the State offering the fullest possible cooperation in the care and treatment of the Virginia soldiers who have been returned from the army on account of tubercular troubles. The Association has nailed to the top of its flag-staff the inspiring war-cry "One Hundred Per Cent Care for All Tubercular Soldiers," and in the great and noble work it has undertaken there is no doubt that it will have the unanimous support and whole-hearted sympathy of every person in Virginia.

Every one of the 325 soldiers who have been returned from the army on account of the menace of tuberculosis is invited to write the Association's office in Richmond, with the fullest assurance that its cooperation and assistance will have nothing of the presumptuous or officious in its rendering. Every case will have that tactful care and consideration that does not let the left hand know what the right hand is doing.

**GREAT SOUTHSIDE DRIVE**

Anti-Tuberculosis Workers Open War Against Germs.

Richmond, Va., May 15—Miss Agnes D. Randolph, Executive Secretary of the Virginia Anti-Tuberculosis Association, is mobilizing anti-white plague forces for the greatest drive against the tubercular menace ever seen in Southwest Virginia.

On Sunday, May 19, there will be lectures on this great health subject in all the white and colored churches of Franklin, Southampton county, followed by the first clinic Monday night and two each day Tuesday and Wednesday. There will be a lecture at Courtland as well on Monday, with a clinic later.

The object of the drive is to uncover all the cases of the dread disease not now recognized or suspected to the end that they may receive proper medical and nursing care and education, with the great ultimate aim in view of having the three splendid counties of Isle of Wight, Nansemond and Southampton join hands in the erection of a suitable tri-county sanatorium for the treatment of such of its cases as require it.

**THE NEW SUGAR CERTIFICATE**

The sugar certificate which was adopted May 3rd for use in the sale of sugar for preserving and canning purposes has been discontinued. A new form of certificate has been adopted to take its place. The wording of the certificate is given below. No merchant may sell on any one certificate more than 25 pounds of sugar, although, if necessary, a purchaser may use more than one certificate at a time if his needs absolutely warrant such a purchase. The certificates will be carefully scrutinized when they are returned to the Food Administrator, and when it is found that a merchant is allowing a large amount of sugar to a single purchaser an investigation will be made and stringent action taken if the sales of sugar have been unwarranted. Following is the wording of the new sugar certificate:

I hereby declare to the United States Food Administration that I desire to purchase from \_\_\_\_\_ an amount of \_\_\_\_\_ pounds of sugar for my use for preserving and canning purposes only, and that I shall return any surplus not used for this purpose. I used \_\_\_\_\_ lbs. of sugar for these purposes last year and have \_\_\_\_\_ lbs. on hand.  
Signed \_\_\_\_\_  
Address \_\_\_\_\_  
This Certificate must be returned to your Local Food Administrator within seven days.

**FOOD ADMINISTRATION RULES ABOUT ICE**

The law department of the United States Food Administration has ruled that the manufacture and distribution of ice come under the food control act. The Food Administration is concerned that there shall be no profiteering in ice, and especially that the cost of ice for these elements of the community which are least able to protect themselves shall not be increased over last year unless absolute proof can be given by ice companies as to the necessity. Any increase in price over that of last season to the household consumer will, therefore, justify investigation as to whether it constitutes profiteering.

**TELEGRAM FROM MR. HOOVER ABOUT THE CONSERVATION OF MEAT**

"The Food Administration is extremely desirous of securing economy in consumption of all kinds of meats without renunciation of needless days for the present.

Seasonal decline in volume of animals coming to market is now in progress and its volume will undoubtedly further decrease during the next few months. It is usual, but probably the amount of such decrease is yet obscure.

"The necessities for shipment abroad to our Army and Allies are very large and amount to, roughly, seventy-five million pounds meat and meat products of all kinds per week against pre-war normal of less than fifteen million pounds. Even with these large shipments, the Allies have had it necessary to reduce consumption of all kinds of meats and poultry to an average of about one and one-quarter pounds per week per person in order that no further draft should be made upon shipping than is now required for the transport of our soldiers. Our consumption of meats is about three and one-quarter pounds per week per person, and if we are to make both ends balance during the short marketing season, we must have further economy.

"If the public will continue its rigorous elimination of waste and shaff further economy by reducing the quantity prepared for each meal of all kinds of meats and poultry, more particularly beef, and will restrict their purchases accordingly, the Food Administration hopes that the necessary balance can be maintained. A general adherence to these recommendations will avoid the inconveniences which arise in many directions from needless days and will cause less interference in daily preparation of food.

RED CROSS WEEK

A Proclamation by the Governor of Virginia.

Whereas, The President of the United States has proclaimed the week beginning May 20, 1918, as "Red Cross Week," and has called upon the people of the United States generously to replenish the war fund of the American Red Cross which has been practically exhausted in caring for the men in our military and naval forces and for those dependent on them and for the urgent needs of our brave allies, and

Whereas, The splendid and efficient work of the American Red Cross in the war should not be hampered by lack of adequate funds, now

Therefore, I, Westmoreland Davis, Governor of Virginia, do call upon the people of Virginia to observe Sunday, May 19, 1918, as "National Red Cross Day," and during "Red Cross Week," to pledge anew our determination to win this war against autocracy and oppression by a manifestation of collective and individual effort and sacrifice in providing the funds required by the American Red Cross to care for our wounded and sick heroes and those of our allies, to relieve distress, and to restore as far as possible the terrible waste of the battle.

Given under my hand, and under the Lesser Seal of the Commonwealth, at Richmond, this tenth day of May, in the year of our Lord one thousand nine hundred and eighteen, and in the one hundred and forty-second year of the Commonwealth.

WESTMORELAND DAVIS, Governor.

MUST LIST THEIR DOGS

According to an opinion rendered on Wednesday by Attorney General John R. Saunders, the Baker Dog Law goes into effect on June 21, 1918, when it becomes the duty of owners to have their dogs listed. This opinion was rendered by Mr. Saunders at the request of Walter E. Hathaway, Commissioner of Game and Inland Fisheries.

As the present war drags its slow length along, the belligerents are finding it necessary to curtail their wants and not be burdened with unnecessary expenditures. The thousands of dogs which infest every community are attracting the attention of the provident. It costs much to feed dogs, the great mass of which are worthless, and the people of England are considering the advisability of destroying them at once.—Alexandria Gazette.

The complete text of the Baker law was published in the Journal at the time it was before the legislature.

WANT GOV. DAVIS, SHIRTS

Gov. Davis is among the State executives who have been asked to contribute tails of their cast-off shirts to be used in making kitchen aprons to be sold at public auction for the benefit of the American Red Cross.

The request comes from Eugenia A. Stuart, auction editor of a Des Moines newspaper. She was evidently not aware that Westmoreland Davis is chief executive of Virginia, as her letter was addressed to Henry Carter Stuart, the former governor.

"Our plan is to sell at a large public auction, kitchen aprons made from the shirt tails of famous men," wrote the Des Moines editor. "Entire proceeds will be turned over to the Red Cross."—Alex. Gazette.
