A BOUQUET TO OUR MILK PRODUCERS

Prince William dairymen, in common with other milk producers of nearby Virginia and Maryland, may share particular pride in the statement of Dr. Harvey W. Wiley, pure food expert, that Washington has the best milk supply in the United States.

Dr. Wiley is therefore able to understand the difficulties as well as the benefits of the business of milk production. In the six years he has been on his dairy farm in Virginia, he estimates his loss from tubercular cows at \$2,000.

ANOTHER FAIRY TALE

The story about the "youngest son of President Monroe being still alive and enjoying the best of health at Jacksonville, Fla., at the age of 103 years, has started on its rounds again," says the editor of the Fairfax Herald, who proceeds to give conclusive evidence that it is a passing bit of fiction, and nothing more.

"There is undoubtedly an individual who calls himself Major Edward James Monroe, who lives in a little houseboat on the St. John's river at Jacksonville, Fla., who claims to be the youngest son of President Monroe and whose mother, he alleges, was the third wife of President Monroe," says the Herald.

THE WAR RECORD OF THE "Y"

Seventy-one Y. M. C. A. workers died in service overseas, eleven were killed in battle, three died of wounds, and fifty-five are classified as "died of accident and disease," which really means exposure and hardship; 141 were wounded, gassed or otherwise injured and two were made prisoners, according to a statement issued by S. A. Ackley, Y. M. C. A. executive secretary for Virginia.

Mr. Ackley's statement, which is accepted without question, also says 696 ministers of all Protestant denominations served overseas in the Red Triangle uniform; 675 educators, including college professors and others; 258 lawyers, 168 insurance men, 118 writers, 95 engineers, 175 entertainers, 427 salesmen, 148 clerks, 111 accountants, 80 bakers, 78 automobile men, 60 manufacturers, 43 physicians, 29 social workers, 47 artists, 76 physical directors, and others, making in all more than 8,000 workers.

While these figures are not expected to check the tide of criticism, they will show something of the scale on which "Y" work was conducted, which in itself provides ample room for criticism granted that even a small percentage of workers may be honestly rated wanting. And in this event Y. M. C. A. supporters may be thankful for their share in the work accomplished by the greater percentage and continue their efforts towards the support of the "Y" program here at home.

American birdmen were the first to score in the great international air derby between New York and Toronto and congratulations to Uncle Sam and his nephew, Lieut. James Flann, are in order.

We are merely evolving our belief in these methods. This Counter means that your meat—the meat you eat—is always in a clean, cool place, where no hands can touch it or the pesky fly swarm over it.

Forty Years Ago and Now.

The writer made a journey to the south of the village for three miles during the past week and could not help comparing conditions with what they were forty years ago. The last house on the road in Clifton at that time was the one now owned by Mr. W. H. Mathers and occupied by Mr. and Mrs. Earl Mathers. The rest of the road was dense woods, except the place owned by Mr. Alfred Beckwith and the old Simpson place lately owned by Mr. G. B. Wright, until reaching the places of Mr. A. H. Hunsberger and Mr. Preaby Woodyard. Now the road is for the most part cleared and dotted with farms and dwellings, many of which are a credit to their owners and to the community.

There is much talk of sinking wells for oil in this neighborhood, and also of a movement to organize a bank. Gas plants are being installed by a number of residents.

Miss Thompson Designs.

Mr. H. E. Derr, county farm demonstrator, from Fairfax, was a visitor last week. Mr. Derr reports that Miss Edith Thompson, former home demonstration agent for Fairfax county, has left the demonstration field and the work will be abandoned in Fairfax county. Rev. J. H. Beagen has been here recently to look after his interest in the soapstone business.

The threshers received a warm reception at the home of Mr. W. H. Mathers. The bumblebees fought their previous possession of the premises, but were finally overcome and the men proceeded to finish the grain.

Mr. J. W. Makely has purchased the machine owned by Mr. O. I. Detwiler for several years and is taking in the crops of this section.
