

CLIFTON

The flu is visiting us again. Many living south of the railway are sick. Every family has sickness and whole families are sick and must depend on neighbors for necessary attention and chores.

Hay, Grain and Feed

Mr. Farmer, much of your success this year depends on the way you treat your stock. Don't let the price worry you, but become a "crank" about quality, and demand it. A cheap feed in price may be very expensive in results. Let us fill your requirements with a product of quality, and insure you against an unsuccessful year.

MANASSAS, VIRGINIA

We Recognize Fully

That all merchandise is entirely too high: that people who get big daily pay, such as factory and mill employes, may buy at present prices and live. But not so with the average Prince William County family. The income of the average "Prince Williamite" can't possibly buy other than something to EAT—and we sell NOTHING TO EAT.

Our year starts March 1st. At that time we shall announce a Business Policy radically different from anything yet attempted in this section of the country—a policy we KNOW will be BETTER FOR YOU and we believe will be better for us. Keep your "ear to the ground" about that time, and hear the glad news that we shall announce.

A REAL CIVIC CLUB CREED
 The civic club at Whitnell school has set forth its standards in the following creed, which may be commended to schools throughout Virginia:

A Whitnell Pupil is trustworthy.—His honor is to be trusted. If he violates his honor by telling a lie or by cheating or by not doing exactly a given task, when trusted on his honor, he is not a real Whitnell pupil.

A Whitnell Pupil is Loyal.—He is loyal to all to whom loyalty is due—his teacher, his home, his parents, his country.

A Whitnell is Helpful.—He is ready to help persons in need at any time, to share the duties of home and school. He does one good turn to somebody every day.

A Whitnell Pupil is Friendly.—He is a friend to all.

A Whitnell Pupil is Courteous.—He is polite to all, especially to women, children, old people, and the weak and helpless.

A Whitnell Pupil is Respectful.—He respects and obeys his parents, teachers, leaders and all other duly constituted authorities. He respects the convictions of others in matters of custom and religion.

A Whitnell Pupil is Cheerful.—He smiles whenever he can. His obedience to orders is prompt and cheerful. The harder the task the gladder the heart!

A Whitnell Pupil is Thrifty.—He protects school property. He works faithfully, wastes nothing, and makes the best use of his opportunities.

A Whitnell Pupil is Brave.—He has courage to face danger in spite of fear, and to stand up for what is right against the coaxings of friends or the jeers or threats of his opponents and defeat does not down him.

A Whitnell Pupil is Clean.—He keeps clean in body and thought, stands for clean speech, clean sport, clean habits, and travels with a clean crowd. He keeps the school grounds clean and neat by discouraging waste paper and useless articles on the grounds.

WOES OF A WIFE

It is proverbial that the wives of literary geniuses have been fated to undergo more ordinary domestic ordeals with their famous yokemates from Socrates' Xantippe (much and unjustly maligned woman) to Mrs. Thomas Carlyle, Mrs. Charles Dickens and Mrs. Bulwer. But the wife of a naturalist must be possessed of fortitude and poise indeed to endure the life indicated by Elizabeth Cary Agassiz with her famous husband in her biography recently published. The Knoxville Sentinel says it is a piquant mixture of letters, narrative, science and history, says a reviewer. "In a hurry to prepare for church, I ran to my cupboard for my boots," writes Mrs. Agassiz, "when I seized the tail of a good sized snake. I called to Mr. Agassiz, who was still sound asleep that there was a serpent in my closet. 'Oh, yes,' he murmured sleepily, 'I brought in several in my handkerchief last night. Probably they have escaped, I wonder where the others are?' He rose to secure the precious monsters, in leisurely fashion, and expected his wife to admire their beauty when they were assembled. At another time a young bear, held in durance in the cellar, arose and broke his chain and ascended to the dining room, where he was invited by the dinner guests to sit at the dinner table."

"NOT HIS JOB"
 "I'm not supposed to do that," said he. When an extra task he chanced to see;
 "That's not my job, and it's not my care,
 So I'll pass it by and leave it there." And the boss who gave him his weekly pay
 Lost more than his wages on him that day.
 "I'm not supposed to do that," he said;
 "That duty belongs to Jim and Fred."
 So a little task that was in his way
 That he could have handled without delay
 Was left unfinished; the way was paved
 For a heavy loss that he could have saved.
 And time went on and he kept his place
 But he never altered his easy pace.
 And folks remarked on how well he knew
 The line of the tasks he was hired to do;
 For never else was he known to turn
 His hand to things not of his concern.
 But there in his foolish rut he stayed
 And for all he did he was fairly paid,
 But he never was worth a dollar more
 Than he got for his toll when the week was o'er;
 For, he knew too well when his work was through
 And he'd done all he was hired to do.
 If you want to grow in this world,
 young man,
 You must do every day all the work you can;
 If you find a task, though it's not your bit,
 And it should be done, take care of it!
 And you'll never conquer or rise if you
 Do only the things you're supposed to do.

—Mrs. Amelia Cross and Mr. Alvin S. Hart, both of Manassas, were married here yesterday by Rev. Edgar Z. Pence. Mrs. Hart is the widow of Mr. Herbert Cross. The bridegroom came here several months ago to take charge of the estate of Mr. C. Paul Nelson, near town.

—Dr. and Mrs. Edgar C. Harper will be glad to receive at the public health office in Main street magazines and other reading matter for the convict camp near Dumfries. Dr. Harper has visited the camp several times since the outbreak of influenza there and has carried from Manassas lengths of gauze and some odd dressings left over in the wartime surgical dressings workroom in Manassas, which have been valuable service during the epidemic.

—The high school class in domestic art raised about \$20 for the athletic fund yesterday by having luncheon to the students. The menu, served cafeteria style, included ham and cheese and lettuce sandwiches, escalloped potatoes, Waldorf salad, chocolate and coconut cake and doughnuts. The students furnished all materials for the luncheon and the doughnuts were made and contributed by Mrs. Carl Glaettli, of Catlett, mother of one of the students.

—Messrs. A. J. Pohl, jr., and Leo Pohl, of Alexandria, who enlisted in the navy in June, 1917, and after training at Newport, R. I., sailed in December of that year, arrived in New York during the week and received their discharges, returning to their home in Rosemont. They served as couriers during the peace conference at Paris. The Pohl twins will be remembered as former Eastern College students prominently identified with athletic events at Eastern during their stay here.

—Mr. V. A. Miller, who has been official tester of the Prince William Cow Testing Association for the past five months, closed his work here with his January report given elsewhere in this issue and has gone to Middletown, where he will teach agriculture in the Middletown high school. Merchant.

—Weather permitting, there will be a farmers' union meeting at Catharpin school house tomorrow afternoon at one o'clock. Not only farmers' union members are invited, but the invitation is extended to all farmers and their wives. Lime and fertilizer problems will be discussed, as well as means of marketing farm products to advantage. "Every farmer and his wife are interested in these problems," said Mr. Browning, "and you are urged to attend this meeting."

—A buggy driven by Miss Rose Burch, of Brentsville, and Mr. Anthony Robinson's team driven by Mr. Thomas Robinson, of Manassas, collided one day last week on a bridge at a turn in the road near Bethlehem Old School Baptist Church. No one was injured. When the two vehicles came together the wagon wheels are said to have broken the wheels from the near side of the buggy and knocked the lighter vehicle off the bridge, throwing the occupants out. The horse became frightened and started to run away, but was soon caught. Miss Burch was accompanied at the time by a little daughter of Mr. and Mrs. Albert Roseberry.

MANY COWS ON ROLL OF HONOR

Cow Tester's Report for January Shows Gratifying Results for Dairymen.

(V. A. Miller, Official Tester)
With this report, the fifth month's record of the Prince William Cow Testing Association comes to an end. It is gratifying to note that the number of honor cows is greater than that of any previous month, as a comparison of those of the preceding months with the records given below will show.

During the month of January 324 cows were tested. Of this number 32, or a percentage of 10.3, attained the honor roll. Since this number includes many of the most profitable cows in the county, it is reasonable to expect that members of the association will use all available methods of improved feeding and care to increase this number and thus derive the greatest profit from their industry.

The best cow in the association was a grade Holstein owned by Mr. W. R. Hooker. This cow's production was 82.5 pounds of butterfat and 1794 pounds of milk. Mr. H. C. Allen had the best herd production, averaging 38.6 pounds of butterfat and 867 pounds of milk.

The following table gives the names and records of the cows in the association which have produced more than 50 pounds of butterfat during the period of thirty days ending January 30, 1920:

MANY THOUSAND RATS ARE KILLED

Miss Gilbert Seeks Further Cooperation in War on House and Farm Pests.

(Miss Lillian V. Gilbert, County Home Demonstration Agent)
The county home demonstration agent is appealing to the boys and girls in both the white and colored schools to continue through 1920 the rat campaign started in November.

All things considered, this campaign was a great success. The boys and girls killed 12,947 rats and mice, and very little money was put into the work. What would have been the result had we offered the boys and girls a penny apiece for all rat tails and one-half penny apiece for mouse tails?

Only four white schools in the county failed to take part in this work. The final report of those taking part follows:

Table listing schools and rat/mice counts: Woodbridge—1547 rats and mice killed—first prize of \$10. Catharpin—1507. No second prize was offered, but complimentary prize of \$3 sent to Catharpin.

The highest record made by any boy or girl goes to Albert Allen, of Greenwich, who caught 778 rats and mice and received a prize of \$5. The next highest record was made by Stanley Dawson, of Woodbridge, who had 655 to his credit and received a prize of \$2. Frank Arnold, also of Woodbridge, killed 543. Mabel Pearson, of Minnieville, won the prize of \$5 offered for the best record made by a agricultural and home economics club member in good standing. Mabel, who is quite a small girl, had 144 to her credit.

The following colored children made good records and each has received a small prize: Henry Allen, Thoroughfare, 132, \$1. Randolph Butler, Antioch, 108, 75 cents. Mattie Hudley, Catharpin, \$5, 50 cents. To make the prize money possible \$10 was contributed by farmers and business men, and the remainder was appropriated by the county board of supervisors.

Farmers and other business men of Prince William, let the boys and girls know what you will do to encourage them.

Motor Car Standards Are in the Hands of the Consumers

"It is within the power of the motoring public to make automobiles measure up to their requirements," says C. K. BODINE, of Newmarket, Va., local dealer in Chevrolet passenger and commercial cars.

"The success of any automobile depends on the degree to which it gives purchasers what they want and need.

"In buying a car see that you get all that your money calls for. If you are not a judge of mechanical construction find out from owners what service their cars afford. The testimony of not one, but many owners is necessary to establish a reliable reputation. The reputation and resources of the manufacturer are guides to the quality of the car.

"Service and economy are the chief points to be considered.

"Of what use are all the comforts and conveniences of equipment if the car itself doesn't stand up? What enjoyment is there in them if the car itself is a continuous extravagance?

"Complete satisfaction can only be experienced with a car that not only includes every essential of modern equipment but which affords dependable and inexpensive performance.

"These are the standards by which a car should be judged. Purchasers can secure cars that measure up to them if they insist upon it.

"Satisfy yourself that the car you decide upon is fully equipped at the start. But above all make sure that the motor and other vital parts of its construction are such as to insure you dependable, economical and lasting service in return for your investment. By doing this you will advance the standards of the industry and benefit the motoring public as a whole."

PASTOR WRITES FROM KENTUCKY

Rev. Mr. Rixey, Now at Theological Seminary, Recalls Prince William Days.

The Journal is in receipt of this interesting letter from Rev. R. P. Rixey, of Fredericksburg, a former Prince William pastor, who is now at the Southern Baptist Theological Seminary at Louisville, Ky.:

"You may be surprised that news from your paper reaches to this city of 250,000 in far off Kentucky, 700 miles from Manassas. Some mutual friend sent me a clipping from a late copy of The Journal with the letter you published from Rev. R. T. Hayes, of Pendleton, Va., telling of his work in Louisa county.

"The reading of that letter brought back a flood of memories of about five years ago when I was the pastor of Woodbine and Bellehaven churches in Prince William county, and Brother Hayes was debating the question of giving up his position with the Standard Oil Company to enter the ministry. I have never had cause to regret the fact that I then urged him to make the sacrifice needed and consecrate his life to so noble a calling. I saw him take his departure shortly for Louisville, Ky., to make the preparation he needed. I saw him two years later when he returned and began his good work in Louisa county. I have helped him there two years in special meetings at one of his churches.

"So much impressed was I with the intellectual and other help he had secured at the Seminary, that I made up my mind that I wanted the same. It is seldom a man of my age, who enters the ministry as late in life as I did, ever goes to a Seminary. However, I resigned my two churches and came last October for special work, and have greatly enjoyed the course of study.

"I am by far the oldest man at the Seminary this year, but have no difficulty keeping up with the young men in my studies and have successfully passed all examinations.

"I wish more of our older men would come here for preparation for this work.

"My mind runs back over the past five years, and it seems but a short time since I enjoyed the hospitality of the homes I shall never forget; and the names Woodbine, Independent Hill and Bellehaven will never be forgotten. The kindness and consideration of the people, in view of my imperfect work, will be to me always a source of gratitude and wonder.

"Such names as Hayes, Hill, Cornwell, Smith, Russell, Luck, Merrill, Tubbs, Donohoe, Woolfenden, Lynn, Storke, Lowe, Wine, Wright, Abel and many others, too numerous to mention, will live with me so long as memory lasts. I wonder if Mrs. Sam. Lowe remembers that little homemade rug she gave me! It is on my floor in far off Kentucky, and I see it as I write this letter. Considerably worn now, but still in use. Mrs. Donohoe and her sisters loaded down my buggy many times with good things for my folks at home. So did others, who were church members. I refer to Mrs. Sam. Lowe and Mrs. Donohoe and her sisters specially, because they were not members of my churches, which made their kindness the more remarkable.

"I hope when I get back to my home in Fredericksburg next June to have the pleasure of a visit to these churches again and a chance to persecute each of them, at least once, with a sermon."

IN MEMORIAM

In loving remembrance of our dear daughter, Sarah Virginia Hodges, who departed this life January 26, 1916, four years ago today, aged four years, one month and nine days.

In the graveyard she is sleeping, Where the sun and moon shine bright, Lies the one we love so dearly In the lonely, silent ground.

She is gone, but not forgotten, From the world of sin and strife, But her face will never be forgotten By the loved one left behind.

Safe in the arms of Jesus, Safe on his gentle breast, Lies our dear, loving daughter, Whom we gently laid to rest.

Never, dear, can we forget you, Or our aching hearts be eased, For God alone knows the sorrow That is in our hearts today.

But we miss you, dearest daughter, More and more each week and day, Yet our prayers are offered daily That we will meet again on high. By her father and mother, * Joseph and Dorothea Hodges.

IN MEMORIAM

In sad but loving remembrance of our dear father, Charles Dunn, who departed this life four years ago today, February 2, 1916. Gone, but not forgotten.

In the graveyard sweetly sleeping, Where the flowers gently wave, Lies the one we love so dearly In the cold and silent grave.

That true heart that beat so high, Free from care and gloom, Is hidden now from those he loved Beneath the silent tomb.

How we miss him in our home, Lonely are our hearts today, For the one we loved so dearly Has forever passed away.

But all his pain is over, His suffering, toil and woe, Jesus has taken him home to heaven To love for evermore.

We will try to bear our troubles And live the best we can, For we know that Jesus took our father To join the heavenly band.

He's safe from earthly sorrows, He's safe from earthly sins, He's resting safe with Jesus, He's called him home to Him. * Written by his Wife and Children.

NOTICE TO CONSUMERS

In view of the fact that many light and water consumers have registered complaints with Mr. Harry P. Davis, town treasurer, with reference to irregularities in statements rendered or penalties added for non-payment of accounts by the tenth of each month, I desire to state that such complaints should properly come before the council.

Citizens, therefore, are urged not to take up these matters with the treasurer, whose time is occupied during the day with other business, but to appear before the council in its regular sessions on the last Monday night of each month.

WHEN TO QUIT

When the grasshopper ceases to hop And the cows quit bawling, When the fishes no longer flop, And the baby stops squalling, When the dinner no longer duns And the hoot owl quits hooting, When the rivers ever cease to run, And the burglar stops his looting, When the vine no longer twines And the skylark stops his harking, When the sun no longer shines And the young men quit sparking, When the heavens begin to drop And the old maids stop advising, Then—it is time to shut up shop And quit your advertising. 1/3 Less Coal - 1/2 More Heat

You can save from a third to a half of your fuel and have a much warmer home than ever before if you will install a CALORIC.

The CALORIC is the remarkable furnace that heats without pipes, through only one register. It circulates heat by Nature's own method, forcing warm air up into the entire house and drawing cool air down into the furnace to be reheated and purified.

The CALORIC heats practically all types of homes, bungalow or three-story house, up to eighteen rooms. It heats kitchens and bath bedrooms just as comfortable and warm as the rest of the house. Also heats churches, factories, stores and other business buildings. More than 50,000 already installed.

The CALORIC can be installed in new or old houses—no cutting of walls for pipes and no interference with present system of heating. It burns coal, coke, gas, wood or kerosene, and saves from one-third to one-half the fuel.

CASH vs. CREDIT

PLUS SPECIALIZATION

¶ It's the day of changes. New conditions are arising in the business world that have to be met by new methods of doing business. This not only holds true in the case of the merchant but also the consumer. In looking backward one can hardly realize the good old easy methods that prevailed before the Great War.

¶ We felt when we started in business that the time was coming—and coming fast—when everyone who sold the necessities of life would have to SPECIALIZE. We did this and determined to sell meats and only meats. We feel that we have been justified.

Consider These Points:

¶ Selling only meats we do not have to carry five or ten thousand dollars on our books. Doing a thirty day business my total losses have not been one-fourth of one per cent.

Therefore you pay for this—NOTHING

¶ I keep one clerk who will combine to deliver very cheerfully your orders. If he did not do this I would have to pay him just the same

Therefore you pay for this—NOTHING

¶ I do my own bookkeeping.

Therefore you pay for this—NOTHING

¶ I am very frank to say that if I carried a big stock of other goods I would have to have more help but—I SPECIALIZE.

¶ The proof of the pudding is the eating thereof. Come down and see me and if my prices are not as low as can be sold elsewhere I would be pleased to know it. You will still receive the same courtesy, the same attention and the same low prices served in the same SANITARY WAY.
