FARM MACHINERY

20M UNIVERSITY Reduces Labor and Cost of Production.

> The fundamental importance of all farm machinery is that it cuts the cost of growing crops. It returns larger p ofits for the farmer, lightens his work, increases his crop yeilds, and makes farm life worth living.

Since labor is as scarce and expensive as it is, the question of farm management is being felt. We must take advantage of all modern machinery possible to increase our production, and at lowest cost.

Labor-saving farm implements have greatly increased the earning capacity of the individual farmer. Before these implements came generally into use it required four farms to feed one town will be the liveliest campaign to family—now one farm feeds precede the primary in August. three families in town. And yet our methods of farming, in general, is very inefficient. Many of ilians, who are starting daily our farmers are working hard, drills in anticipation of war. bending their backs and cailous Every afternoon the employees their hands with primitive hand of the First National Bank, under tools, while they could achieve the instructions of an army officer much greater results with less drill on the roof of the twentylabor by the use of proper farm story skyscraper. HEADQUARTERS FOR

THREE CANDIDATES OFFICES NOW OPEN IN RICHMOND

Political Activities Seen at State Capital -Civilians Drilling in Anticipation of War-Judge Burks Takes Oath.

Richmond, March 27-The three gubernatorial candidates, John Garland Pollard, J. Taylor Ellyson and Westmoreland Davis have established offices here, in preparation for their campaigns, and it is expected they will start active work on the race for governor in a short time. J. H. Binford, of this city, has announced that he will not run for the office of Public Instruction, and with Harris Hart, of Roanoke, and R. C. Stearnes, present incumbent in the race, it is believed that it

Military preparations are being made throughout the city by civpeake and Potomac Telephone I shall not attempt to name the Company will shortly organize a officer to train the men in military drills. Another student cadet corps has been formed at the Junior Binford High School, and motor boat owners are preparing to offer their craft to the government for patrol duty whenever

they are needed. Judge Martin P. Burks ly named to the Supreme De by Governor Stuart, to succe Judge George M. Harrison, took his oath of office Thursday afternoon before Judge Whittle, chief justice of the court. Following the ceremony the court elected Thomas Johnson Mitchie, of Charlot esville, court reporter, to succed Judge Burks. Mr. Mitchie is at the head of the Mitchie Pubhishing Company, of Charlottesville, and is well-known for his

A trinity of evils, closely allied, that afflict most people, and which follow one on the other, in the order named, until the last one is spread through the system, leading to Catarrh many evils. But their course can be checked.

PERUNA CONQUERS

It is of great value when used promptly for a cold, usually checking it and overcoming it in a few days.

Ample evidence has proved that it is even of more value in overcoming chronic catarrh, dispelling the inflammatory conditions, enabling the diseased membranes to perform their natural functions, and toning up the entire system.

The experience of thousands is a safe guide to what it may be expected to do for you.

Liquid or tablets—both tested by the public and approved: THE PERUNA COMPANY, . . . COLUMBUS, OHIO

Better Farming in the South

Permanent Influence Of Fertilizers On Southern Soils Feeding the Plant the Real Purpose Developing the Resources of the

soil fertility has chemical analysis shows that they

the form that the plant can use for rain. its growth," says Professor Harper.

"In fact," he continues, "a chemical analysis may show that a soil has little total food content, but that little greater yields.

"Most of the soils of the South have been formed from granite rocks which Soils derived from granites con tain considerable sand. Such soils are found very extensively in the region east of the Mississippi river. "Can these sandy loam soils of the South be made to produce abundant

"The answer is 'Yes.' Proof is profrom the experience of thousands of farmers. They won through proper farm management and fortilisation. Many farmers of the South are tion as it is understood at the prestoday getting a bale of cotton to the ent time, it appears that you have a acre where they once got only oneshird of a bale. They are producing
from 50 to 75 beachels of train on the
dame land which a few reals ago prochiced only 15 to 20 bushe. "What is the secret of their suc-

"Is it in the change in the methods of cultivation? There has been considerable improvement in this respect. "Has it been due to deeper plowing? This has been a help.

"Is it due to crop rotation? The right kind of rotation is beneficial. is this, the plants have been fed bet- ciencies. producing a bale of cotton to the acre Apply at the rate of three or four on land which twenty-five years ago hundred pounds per acre before the

"How has he done it?" was asked. "It has been the practice of this come to be look. farmer to put on his land the amount ed upon in a new of fertilizer that he could purchase with the proceeds of the sale of his light. Soils are cotton seed from this same land. Of no longer spoken course, this farmer could have grown of as being rich his cotton more economically had be simply because grown it in rotation with other crops.

Loss Through Leaching "Sandy soils naturally erode and contain abund leach readily. Phosphoric acid does ance of plant not leach away but remains in the J. N. HARPER,

You Need a Tonic

There are times in every woman's life when she needs a tonic to help her over the hard places. When that time comes to you, you know what tonic to take-Cardui, the woman's tonic. Cardui is composed of purely vegetable ingredients, which act gently, yet surely, on the weakened womanly organs, and helps build them back to strength and health. It has benefited thousands and thousands of weak, ailing women in its past half century of wonderful success, and it will do the same fo

Miss Amelia Wilson, R. F. D. No. 4, Alma, Ark, says: "I think Cardui is the greatest medicine on earth, for women. Before I began to take Cardui, I was so weak and nervous, and had such awful dizzy spells and a poor appetite. Now I feel as well and as strong as I ever did, and can eat most anything." Begin taking Cardui today. Sold by all dealers.

Has Helped Thousands.

LIME GRINDING BILL CALLED "THE HOBBY OF WESTMORELAND DAVIS"

(ii) (iii) (iii)

It is said of Westmoreland Davis didne for Governor of Virginia, that he first makes up his mind that a certain idea is a good thing and then he never lets up until it is put As an Electration, he knew, as we

all know, that carbonate of lime is abuntately accessary to more actility of the soil so that the lexumenalishin, chover, soja bezus, erfusoa elovez, etc... will grow and furnish regetable marher in the sail for fertility. Lime was controlled by a combination of burners ground and placed to an ordinary flowwho held the prices up and the farmerpot bare one apple only, but that apers simply could not get what they ple was 16 inches in circumference needed. Pavis went to Illinois, where, and 5% inches in depth. It is named convicts were erinding limestone to after the secretary of the Royal Horwill be farmers of that state at a love ticultural society, the Rev. W. Willia. seice. He returned to Virginia, and after two years' aght in the Logislature his hill became a law. The lime and Davis paid the formers' expense establish a plant to Tidewater, Va., over and handed them at the Azerus, in the preceding twelvementh and for erinding overer shells. The Mill
