MISS GILL RETURNS FROM TRIP TO FAR WEST

Attended Sioux Indian Congress on the Rosebud Reservation in South Dakota.

Miss Inno McGill, editor of The Indian Sentinel, was in Manassas this week on the way to her home, "Loingill," near Haymarket, after a visit to South Dakota where, in her official capacity as representative of the Catholic Indian Missions of America, she attended the Sioux Indian Congress held early in July at Oak Creek on the Rosebud reservation.

An interesting feature of this remarkable gathering is told by Miss McGill in her description of the "genuine hospitality" demonstrated by three families of non-Catholic Sioux living in the immediate vicinity of the Congress. These Indians voluntarily gave up their residences, turned them over to the authorities of the Congress for the use of visitors from a distance, and themselves lived for a week in the tents they erected near by.

In motor rides covering 600 miles, Miss McGill visited the missions and the government agencies on Rosebud, Pine Ridge, Lower Brule and Yankton reservations. In company with Miss Bryne, of New York City, she went to Hot Springs and Rapid City in the heart of the Black Hills before visiting friends at Yankton, Omaha and Chicago.

BOATWRIGHT ALEXANDER.

Beautiful Wedding Took Place at Clark Home Near Minnieville Sunday.

One of the prettiest and most impressive weddings of the season was solemnized at the home of Mr. and Mrs. C. E. Clark Sunday morning, August 3, 1919, when their niece, Miss Estella Lucy Alexander, of Minnieville, Va., became the bride of Mr. Arthur Sinclair Boatwright, of Richmond, Va.

Long before the appointed hour, guests had begun to assemble in the pretty parlor which, artistically decorated with wood ferns, served as the wedding bower. Miss Hazel Hamilton, of Richmond, cousin of the groom, played "When You Are Near Me" before the ceremony, following this with Mendelssohn's Wedding March. As the clock was chiming ten, and with the strains of the Bridal Chorus from Lohengren on the air, the bride and groom were ushered in by the attendants, Miss Abigail Throckmorton, of Richmond, cousin of the groom, and Mr. Daniel C. Alexander, brother of the bride. Elder A. J. Garland, of Washington, D. C., assisted by Elder J. A. Norton, officiated, while the pianist softly played "End of a Perfect Day."

The bride was beautifully gowned in tan silk georgette crepe, and pussy willow silk with white hat and accessories to match. She carried a large bouquet of bride's roses, sweet peas and ferns. The bridesmaid was tastefully attired in white georgette crepe, while Miss Hamilton at the piano, wore a becoming gown of pale pink silk crepe.

After receiving the congratulations of their many friends and also many nice wedding gifts, one of which was a beautiful cut glass set, gift of the bride's brother, the newly married couple, together with the other members of the wedding party, attended the services at the Greenwood Baptist Church.

At the close of preaching, a sumptuous luncheon was served in the spacious dining room of the Clark home by Miss Lucile Clarke and her two sisters-in-law. The huge white bride's cake served as an elaborate centerpiece for the long table, and was cut by the bride just before the company was seated at the festive board.

Early in the afternoon the bride

Officers Elected and Addresses Made in Interest of Work at Annual Session.

The Women's Missionary Union of the Potomac Association of the Baptist Church, held its annual session at the Antioch Baptist Church, Wednesday, July 23. A short time before the convention, the plan of the meeting was changed at the request of the Southern Baptist Convention from two days, one day, owing to a general misunderstanding of this change, and had condition of the road from Haymarket to Antioch, due to the continuing rains, the program was much interfered and many of the visiting men were very late in reaching the meeting.

Cows Higher Than Ever Before.
Prince William county has a great many dairies and it is predicted by men well acquainted with the situation generally that cow values will go much higher this fall than ever before. The general high scale of prices, especially of dairy feeds, will almost certainly necessitate a big increase in the price of milk. This will have a big effect on cow prices. In this connection it may be mentioned that Mr. S. J. Miller of Bristow, who recently sold his farm to Mr. Brown, of Rockingham county, refused the goodly sum of \$1,000 for four grade Holstein cows. Think of it! Two hundred and fifty good United States dollars for a cow. Mr. dairyman, if you are going to put in cows this fall, better do it quickly.

CHRIS MEETZE IS GRATEFUL.
I wish to extend to all of those throughout the county and 14th Senatorial District my deep appreciation for the loyal support given me in the recent campaign. When the petition was presented to me I was aware of the fact that my opponent had more than a month's start, also of the opposition that I would encounter in Alexandria city, and the wet sections of the district. Yet I felt it my duty to answer the call of the people for service and duty. Had I surrendered principles for success I would have been overwhelmingly elected. But I absolutely refused to sell out for office. I thank every friend for all they did and shall stand ready to take up the banner again when called upon.—C. J. Meetze.

Tuesday, September 23, as judging commences punctually at 10 a. m. Tuesday. The building for the reception of poultry will be open and ready to receive exhibits Monday, September 22.

All specimens sent will be cared for, and returned at the close of the exhibition; it will, therefore, be unnecessary for the owners to accompany them. All expenses of transportation must be prepaid and all specimens entered at the name of owners. The Association will not be responsible for loss by fire or otherwise, but will exercise all possible vigilance in the care of exhibits and police arrangements of the hall.

No specimens will be allowed in the hall except those which have been duly entered in the books of the association, and the entry fee and express charges paid. This will be strictly adhered to.

Entry for turkeys, geese, and ducks will be 35 cents each. Exhibitors will furnish their own coops in these classes and all will be judged single.

The entry fee for poultry in competition is 35 cents; breed-in pen, \$1.00. This includes coop fee, feed, and attendance. All specimens entered for exhibition must be shown in coops provided by the association, unless there are not enough coops to coop the show.

The judges are strictly prohibited from making known their award except through the superintendent. Any person attempting to interfere with the judges in their decision by letter or otherwise, will be excluded from competition and exhibition.

The decision of the judges, after being ratified by the board of managers shall be final.

Prizes are not to be awarded for birds impaired in value for breeding purposes. The American standard of perfection is to be the guide in judging.

All fowls are to be shown singly or in breeding pens; a breeding pen to

"We just mopped 'em up"

"Those boys did it. I know what retreat meant. And, pep! Say, every mother's son charged as tho' he was the whole American Army. It was the proudest moment of my life."

More than 32,871,000 tins of Velvet Tobacco were sent to the boys in France—enough, if placed end to end, to reach 2340 miles or nearly from New York to Brest. How much it helped them, their friendly letters testify.

The Association's standard of perfection is to be the guide in judging.

All fowls are to be shown singly or in breeding pens; a breeding pen to be one cock or cockerel and four hens or pullets. Old and young pen will not compete. Birds entered singly cannot compete as pen also. Pens must be entered separately.

The association reserves the right to put more than one specimen in a coop, provided the same belongs to one exhibitor, thus: Two females of one variety, or male and female; but in no case will two males be put together in the same coop.

Labels will be sent for each entry. The label must have the sender's name and address legibly written thereon, and name of the express company for the return journey. If from accident the Association labels do not arrive in time, send exhibits without them, and the superintendent will make duplicates. When more than one specimen is sent in a coop, each entry must be properly divided and separately labeled. Unhealthy specimens will not be exhibited, but will be returned to the owners at their expense.

There must be five or more entries in a class to win first money. Where there are less than five entries in a class, two, three or four entries shown first premium may be awarded and if so second money paid. Where there is only one entry in class first premium blue ribbon will be awarded and money prize withheld.

All specimens must be banded and band numbers properly entered on the entry blank. All birds found not banded will be banded by the superintendent at a charge of five cents each, to be paid by the exhibitor.

During the exhibition no specimen will be removed, except by consent of the superintendent or general manager.

This association will cooperate with any exhibitor in the sale of any exhibit provided sale price and leg-band number is furnished on entry blank. The return to be made to exhibitor within 10 days after show.

The term "specimen" implies anything for which a premium is offered.

THE HIGH PRICE CRISIS.

Federal remedies for the excessively high cost of living are urged by many elements representative of the American public, and the administration is considering ways and means of lowering prices. It is assuredly time that serious consideration was being given to this question, which affects the daily lives of practically all the people. While the war was on the public bore with the high prices with remarkable patience. It was recognized that conditions were abnormal, that our natural supplies of food and other necessities were lowered and were in demand for the sustenance of our allies. The outflow of immense quantities of materials to other lands, the shortage of labor and the concentration of all possible forces upon the business of making war combined to create a situation of price inflation that cost the people an immense sum.

Now the war is over. The industries are nearly if not quite, restored to normal. There is no shortage of labor but on the contrary a surplus. The farmers and the makers of the necessities of life cannot be suffering for lack of help. Wages are high, but probably more on account of the high prices of everything required to maintain life than for any other reason.

Obviously a halt must occur some time. The process of cause and effect in higher and higher wages demanded on the score of higher and higher living costs and prices mounting on the score of higher wages cannot be indefinitely continued.

Disaster lies ahead if the prices are not checked—if clothing, food and shelter are not reduced in cost to the consumer. Wages cannot continue to

the public of relief. Many remedies are proposed now, in the direction of price-fixing by the government which will require the enactment of law.

This is not a condition to be allowed to drift while inquiry is being made and choice is being effected between plans. There is scarcely a household in the United States that is not suffering from this abnormal burden of cost. Even in those homes where more money is being received in compensations than ever before there is actually less comfort, less abundance of supplies. As Mr. Cleveland once said, it is a condition, and not a theory that confronts us, and we must have relief.—Washington Star.

THE BEST TEST

Is the Test of Time.

Years ago Mr. O. H. Evans, contracting carpenter, Prescott avenue, Manassas, told of good results from using Doan's Kidney Pills. Now Mr. Evans confirms the former statement—says there has been no return of the trouble Can Manassas people ask for more convincing testimony?

"I was so bad off with my back I could hardly do anything," says Mr. Evans. "Every sudden move caused intense pains and I felt miserable and discouraged. Some one suggested Doan's Kidney Pills and I used a box. The results of their use both surprised and delighted me. I was cured and I now have no signs of kidney trouble."

Over four years later, Mr. Evans said: "My high estimation of Doan's Kidney Pills hasn't changed in the least since I recommended them a few years ago."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Evans had. Foster-Milburn Co., Mfgs., Buffalo, N. Y.

Watch Your Spuds for Potato Wart.

Keep a sharp lookout for potato wart this season and report all suspicious cases and send specimens immediately to your county agents, your state experiment station, or the United States Department of Agriculture, and thus aid in controlling this menace. If this dangerous new disease gets established it will put a stop to potato growing in the infested area and lead to a quarantine of the locality.

At present potato wart has appeared only in a few gardens in mining sections of Pennsylvania, which are now under strict quarantine. It reached there in shipments of European potatoes in 1911 or earlier. Thirteen million bushels came in that year and some of them may have been infected; consequently every potato grower is urged to watch his spuds, particularly at

REAL ESTATE OPPORTUNITIES.

Bayles & Chase, sales agents, can get you satisfactory and quick results buying, selling or trading farms or suburban property.

There is a ready demand for large and small farms by the successful Washington merchants desiring to become "Country Gentlemen." We also have to offer for sale, or exchange, profitable and safe city investments to retiring farmers.

One of the liberal and attractive advantages of trading through this office is that we furnish the real estate dealers of Washington and nearby counties with a complete list of the properties listed with us, and in the event they can dispose of any of our property before we can, we will make equitable division of the commission on the transaction. This liberal sales policy eliminates the unsatisfactory results owners experience in tying their property up to the efforts of only one dealer.

We would appreciate hearing from you, and wish to assure you we can get you quick results if you contemplate making any changes.

Reliable bank references, as to our worthiness of your confidence and patronage, can be furnished.

Disaster lies ahead if the prices are not checked—if clothing, food and shelter are not reduced in cost to the consumer. Wages cannot continue to climb, in all lines of effort, without causing a break somewhere. The burden grows too heavy for the people to bear.

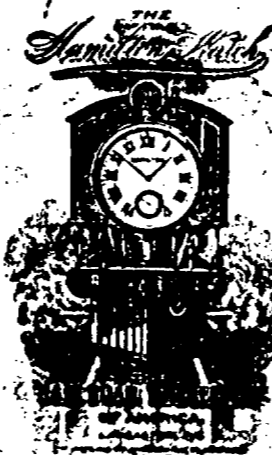

Federal and congressional investigations are proposed; they may possibly reach the root of the evil and disclose a remedy, but experience with prior investigations is not such as to assure
