

THERE IS A REASON FOR CHEWING REYNOLDS' SUN CURED TOBACCO

Chewers becoming tired of heavily sweetened sun cured tobaccos caused REYNOLDS' SUN CURED to quickly win from the old brands of much longer standing the place as favorite with sun cured chewers...

REYNOLDS' SUN CURED

is not only pure sun cured, but it is made from choice selections of the genuine sun cured leaf grown where the best sun cured tobacco grows.

PASTURING CATTLE

Change of Field Shows No Avoided Winter Feeding. There is an old saying that change of pasture makes a horse fat, but the many another wise saw, this has more found than sense.

Three or four times pastures have become accustomed to their regular round of habits. It is not until the need to winter feeding, the same pastures will appear although it is a rule between the two fields to rest them they will pass from one field to the other without the sign of business.

It is especially important that the sunlight should reach the stock early in the day, for even when there is little perceptible warmth in the air there is in them that which enlivens the spirits of beast as well as man.

THE SWINEHEAD. It is demonstrated by all experiments that in the making of pork at low prices the various species of pasture grasses are the most beneficial, cheapest and most useful of the many foods which the hog subsists.

Handy devices for loading hogs are numerous. Here is the best one I know, says a writer in Kimball's Dairy. I have tried the portable hog loader, but this beats them all.

The Better Way

The tissues of the throat are inflamed and irritated; you cough, and there is more irritation—more coughing. You take a cough mixture and it eases the irritation—for a while. You take SCOTT'S EMULSION and it cures the cough. That's what is necessary. It soothes the throat because it reduces the irritation, cures the cold because it drives out the inflammation, builds up the weakened tissues because it nourishes them back to their natural strength. That's how Scott's Emulsion deals with a sore throat, a cough, a cold, or bronchitis.
