## America's Greatest Medium-Priced High Grade Automobile

Covered by a Broad Guarantee for One Year

The Buick Motor Company has the largest automobile factory and the third largest factory of any kind in the world. The Buick Motor Company is the largest shippers of first-class freight in the world, and their are more Buick cars running in New York State than

any other make. The registrations under the new law that went into effect August 1, 1910, and computed right up to date, prove this statement.

## Buick Cars Built Complete in their Own

From the finest raw materials and workmanship the market affords. Every working part is ground and fitted to the theusandth of an inch. This, combined with a perfect lubrication system and a reliable and efficient motor, has made it possible for BUICK cars to win over 94 per cent. of all road races, hill climbs, or speed events in which they have participated

From the first of July, 1910, until the first of October, 1910 the Warrenton Automobile Company, Inc., sold ten cars and we would be glad to have any prospective purchaser corres bond or talk with our 1910 customers before buying. During the present year we have sold one Model "14," 2 Model "33's" and 2 Model "21's" all of which cars were sold upon the showing made by the 1910 cars over Virginia Roads

**DEMONSTRATIONS** BY APPOINTMENT
