MEETZES UP ON SITUATION.

In making my last appeal in this campaign to the citizens of Prince William, I sincerely hope that every man when he goes to vote on June 1st, will ask himself the question: "What has Meetz done for me?"... "Did Meetz make a speech at Woodbridge?"... "Did Meetz ever say or even think of saying such a thing as he is being used against him in this campaign and that is—'if he had a child dying and the doctor said one spoonful of whiskey would save its life, that he would rather see it die than to even give it one spoonful of whiskey?'"...

REPLY TO MR. MEETZ.

EDITOR JOURNAL.—In reply to Mr. Meetz's statement, printed in this issue of THE JOURNAL, regarding certain remarks that he claims I made at Woodley on Thursday night, I wish to say that my language was as follows: "You in this audience who know me are well aware that I do not drink in excess of a beverage. If you have any claim to my respect, I have a right to hear it said that many of our best men indulge at times in the use of wine. If Mr. Meetz expects to be nominated to the Legislature by perverting the truth in what he knows is an untruth he has surely formed a wrong estimate of the people of Prince William county. False in name, false in opinion."... HOW TO FINANCE THE JUBILEE? EDITOR JOURNAL.—How to finance the necessary money to finance the Jubilee is a question now before the Jubilee Committee... It seems to me that we have all the background or stage-setting for a very great affair. The President is coming, the Governor and many other distinguished men. A very small contribution from the business men of Manassas, from \$1.00 to \$5.00 each, ought to be enough. We must have programs to send to all enquirers, and to every G. A. R. Post and every Confederate Camp in the United States...

As Power, Stability and Wheel-base are the Leading Features in An y Automobile Investigate the Flanders-20; E. M. F.-30 and Studebaker-40 before you buy a motor car. If you have had experience—oh, what a lot experience means—or have wisdom enough to keep out of a fire, you can't help but see the great advantages in Mechanism, Power, Durability, Reliability, Beauty, Comfort and Price offered in this line of gas and electric machines, sold under a broad guarantee against break or defect. The little 20-horse power Flanders with four cylinders, 32" wheels, 100" to 102" wheel-base—distance from axle to axle—with four cylinder rings on each of four piston-heads, weighing 1400 pounds, equipped with magneto, horn, gas and oil lamps complete, for \$700, is a marvel in every particular, and the same power-plant with the vestibuled or fore-door, five-passenger body for \$800 is the sensation of the season—the latter model has one extra speed forward.

The E. M. F. 30 has four cylinders, 4x4 1/2", which as does also a 4x4 1/2", being exactly the same area, figure out 30 1/2 horse power, but the extra length of the E. M. F. cylinders, as in a gun barrel, give immensely more power, which, coupled with the fact that each of its four cylinders has one more ring on each of its four piston heads, gives a little over one-fourth more power than the 4x4 1/2" cylinder, having four compression rings less, which, with the equalization of weight and the elimination of one universal joint by placing the transmission gear on the rear axle, and using the cone clutch, as is done on the Packard and other \$4,000 cars, as well as very much larger valves, accounts for the remarkable demonstration of power shown in hauling the 110-ton railroad locomotive from a standstill into Los Angeles and negotiating the "Gumbo" and other difficult mud-roads encountered in the "Path-Finding Golden Tour" test from Detroit to Denver and return, the "Hamsy Historic Tour" and hundreds of other remarkable feats in his earlier days when the car was not nearly so perfect. In addition to the usual types of bodies we are also offering the same car in a five-passenger detachable tonneau with semi-torpedo effect for \$1050, and the same car with a full vestibuled or fore-door, five passenger body—a most dignified, exclusive, classy and fashionable effect, with adjustable ventilators in the dash for winter or summer, with the standard equipment, complete for \$1,100. Ask for literature and a demonstration under the most strenuous conditions, and you will be an E. M. F. enthusiast. The car is its best advertisement.
