

The Manassas Journal

VOL. XVII. No. 38.

MANASSAS, VA., FRIDAY, FEBRUARY 2, 1912.

ONE DOLLAR A YEAR

RELIGIOUS SERVICES

ORACE METHODIST CHURCH, Rev. Chas. L. DeLoach, Pastor. Manassas - Every Sunday at 11 a. m. and 7:30 p. m. Sunday School at 10:30 a. m. and 7:30 p. m. Epworth League at 7:30 p. m.

Of Interest to Army Horse Breeders

Capt. C. H. Conard, jr., who has charge of the Front Royal Remount Depot, has requested THE JOURNAL to give notice to horse breeders in Prince William of the special opportunity afforded at the depot to breed horses for army purposes.

KOPP KERNELS

Notwithstanding the extreme cold, the snow made lots of fun for the boys and girls, who hugely enjoyed the sleighing.

SKANN'SONS & CO. THE BUSY CORNER WASHINGTON, D. C., U. S. A.

TWO PATTERN DEPARTMENTS NOW IN PLACE OF ONE

ADD TO THE HELPFULNESS OF THE "BUSY CORNER" AS WASHINGTON'S SUPPLY CENTER To supply the wants of the greatest number of persons has always been the policy of Kann's.

IN ANNOUNCING OUR AGENCY FOR THE PICTORIAL REVIEW PATTERNS

—we do so with full confidence of their merits, having kept in mind in their selection that we must present our public with the best of everything, and we believe these patterns to possess exceptional quality—else they would not be here.

SOME POINTS OF INTEREST ABOUT LADIES' HOME JOURNAL PATTERNS

Thousands of these patterns are now in use, not only in Washington, but all over the country, many women preferring Ladies' Home Journal Patterns to any other kind.

nical discussion of the chemical composition of soils, which included in the main nitrogen, phosphorus and potash, but declared organic matter the working force of the raw materials.

Soy beans, alfalfa, cowhorn turnips, etc. were good crops to grow to add nitrogenous matter to the soil.

He urged pruning every year. The first year cut the new growth back to 6 or 7 inches, and keep tipping back until tree is 4 or 5 years old.

Mr. Smith Talks Orchard. Mr. H. L. Smith followed in some valuable hints on apple growing, for which he regarded Virginia as being famous.

Value of Barnyard Manure. Six tons of barnyard manure, the usual quantity scattered in the acre, he stated, contained 60 pounds of nitrogen, 42 pounds of phosphorus and 48 pounds of potash.

Buy Trees at Home. Get your trees as near home as you can, he said, and the price for a two-year-old should not exceed 20 cents.

Don't Burn Corn Stalks. He deplored seeing Virginia farmers burn corn stalks, every ton of which, he declared, contained 48 pounds of nitrogen, 35 pounds of phosphorus, and 55 pounds of potash.

There was no dairy demonstration, the especially equipped car from Richmond which was to join the train here, failing to make connection.

He deplored seeing Virginia farmers burn corn stalks, every ton of which, he declared, contained 48 pounds of nitrogen, 35 pounds of phosphorus, and 55 pounds of potash.

There was no dairy demonstration, the especially equipped car from Richmond which was to join the train here, failing to make connection.

All along the route from Washington, the train has been met by good crowds, showing how farmers are being aroused to interest in more profitable methods of agriculture.

Mr. M. M. Luzader, of Culpeper, discussed the profits of poultry raising on the farm, from a farmer's point of view.

THE HIGH SCHOOL TANGLE. OUR editorial reference in the last issue of THE JOURNAL to the prevailing inharmonious and strained relations existing between members of the Manassas School Board, appears to have been read by more or less difference of opinion.

As stated by us in the editorial referred to, THE JOURNAL has taken no part in the unfortunate conditions which have existed in the School Board for the past several months.

Mr. Wheeler wishes us to quote him as saying emphatically that no communication from Prof. Burton was formally presented to the Board at its meeting on January 20th.

Mr. Wheeler does not regard the report of the meeting published by us as in any sense official, inasmuch as the minutes have not yet been approved by the Board and signed by its chairman.

Mr. Wheeler does not regard the report of the meeting published by us as in any sense official, inasmuch as the minutes have not yet been approved by the Board and signed by its chairman.

Mr. Wheeler does not regard the report of the meeting published by us as in any sense official, inasmuch as the minutes have not yet been approved by the Board and signed by its chairman.

Mr. Wheeler does not regard the report of the meeting published by us as in any sense official, inasmuch as the minutes have not yet been approved by the Board and signed by its chairman.

THE FOOL AND HIS MONEY. The statement of the late P. T. Barnum to the effect that the American people like to be humbugged, is signally emphasized by the annual report of the Chief Inspector of the Postoffice Department, which states that during the past fiscal year mail order sharks were put out of commission by the department who had fleeced the unwary to the tune of approximately \$77,000,000.

As the Washington Star aptly remarks, "this enormous amount of loot from the credulous and the ignorant does not, however, represent all the losses through the various forms of swindling by mail." It only represents the profit of those who have been caught and does not embrace those who are still plundering the people through various schemes of rosetate character.

It would seem that no matter how much publicity is given to mail order swindles, the public, indifferent to repeated warnings, continues to patronize the "something-for-nothing" advertisements in cheap and unreliable journals, many of which are owned and published by the sharpers themselves.

Mr. Wheeler wishes us to quote him as saying emphatically that no communication from Prof. Burton was formally presented to the Board at its meeting on January 20th.

logues of concerns of doubtful reputation, or of which they know absolutely nothing themselves, only to find that they have cheaply constructed articles or adulterated food stuffs, and after paying freight charges and other expenses they are out more than they would have paid for something reliable and serviceable at their local dealers.

There is a lesson to local advertisers in this. The public is not indifferent to what it reads. Are you an advertiser in THE JOURNAL? Will you, by your lack of business enterprise, permit Virginia money to continue to flow into the hands of the wise guys who know the value of printers' ink and employ it to illegitimate ends? Think about it.

A WELL known agriculturalist in one of the best farming sections of the South owns an 800 acre farm, easily worth \$50,000, and pays his manager the fabulous sum of \$35.00 per month—still he wonders why his farm does not pay. The employment of cheap and unintelligent labor on farms is too often the case and invariably results in serious losses to the owner of the property.

Farming is a business as much as any other trade or profession is a business and must be conducted along the lines of commercial enterprises to be profitable, and what other industry would think of employing a man at \$3.00 per week to take charge of a \$50,000 investment? No wonder the farm does not pay.

A CHINESE professor said a few days ago that he would like to see Col. Roosevelt become the first president of the new Chinese republic. The professor need not necessarily conduct a lonely campaign. Mr. Taft and some other G. O. P. leaders might be persuaded to entertain similar yearnings and be depended upon to boost the boom.

Mr. BRYAN says: "I do not believe any President should have a third term." Mr. Bryan knows something of the effort it costs to even aspire to one term and ought to know that on a comparative basis no man could hope to live long enough to have such an ambition.

The kind that please you. Correct Lighting; Artistic Mounting. In fact, the best in up-to-date photography.

Senator Flour!

For 25 years we have been selling SENATOR FLOUR and we are better satisfied with it today than ever before.

It is made in one of the most sanitary mills in the world and every care is taken to preserve its purity digestibility and unusual food value.

It is so perfectly made that it mixes more readily than ordinary flour.

Hence it not only makes better bread but makes it easier and quicker.

Sold by grocers in every city and town. Bought by people of all classes.

Insist on your grocer sending you Senator Flour with tomorrow's order.

I would consider it a great favor if my customers would send me in full by February 15th as I truly need the money. Mrs. R. J. Adamson. 1-19-12

HAS NOTABLE WAR RECORD

Col. Berkely Believes His Farm Furnished More Soldiers Than Any Farm in Confederacy. HAYMARKET, VA., JAN. 29, 1912. EDITOR MANASSAS JOURNAL: I am inclined to believe that my farm of Evergreen furnished a larger number of soldiers for the war than any farm in the Confederacy. If I am mistaken I would be glad to be corrected.

PASS THEIR THIRD READING

The Senator Thornton "anti-Reno" bill was carried through its third reading on Monday with its briefest of explanations by its patron, and no opposition. The measure requires notification of every defendant in divorce proceedings. Positive knowledge that this notification has been received must be possessed by the court before the case can be gone into. The bill will eliminate from the state the "immigrant divorcees" who come to Virginia solely for the purpose of securing a divorce, and succeed largely because the defendant never knows, until too late, that he has been sued.

HEALTH

Scalp and Hair Troubles Generally Caused by Carelessness. Dandruff is a contagious disease caused by a microbe which also produces baldness. Never use a comb or brush belonging to some one else. No matter how cleanly the owner may be, these articles may be infected with microbes, which will infect your scalp. It is far easier to catch hair microbes than it is to get rid of them, and a single stroke of an infected comb or brush may well lead to baldness. Never try on anybody else's hat. Many a hat-band is a resting place for microbes. If you happen to be troubled with dandruff, itching scalp, falling hair or baldness, we have a remedy which we believe will completely relieve these troubles. We are so sure of this that we offer it to you with the understanding that it will cost you nothing for the trial if it does not produce the results we claim. This remedy is called Rexall '98' Hair Tonic. We honestly believe it to be the most scientific remedy for scalp and hair troubles, and we know of nothing else that equals it for effectiveness, because of the results it has produced in thousands of cases.

HOW TO SAVE MONEY Begin right. Limit your expenses. Watch the leaks. Take care of your health. Don't care of a good fellow. Be a man. Have a savings account. Avoid all quick schemes to get rich. We will start you right. \$100 will open an account with National Bank of Manassas Resources Over \$350,000.00

SOUTHERN RAILWAY PREMIER CARRIER OF THE SOUTH SCHEDULE

In effect May, 28, 1910. Schedule figures published as information and are not guaranteed. Trains to MANASSAS as follows...

Just a countryman—that's all, is the way the grower of this remarkable ear of corn, Mr. Fred C. Palin, styles himself. Though he is admitted to be one of the leading corn experts in the country...

The World's Greatest Ear of Corn. VARIETY—Palin's Corn Flake Yellow. (Named after winning the W. K. Kellogg \$1,000 Trophy). A HYBRID—The seventh year production.

It picked it up and looked it over. 'Well, I said finally, I think it is the most perfect ear of corn I ever saw. It's good enough to win the W. K. Kellogg \$1,000 trophy this year at Omaha.'

And I was confident the moment I saw it, and looked it over, that I had the trophy winner in my hand. So much so that when I left for Omaha to exhibit the ear, I took it out of my grip and showed it to the station agent with the words, 'That's the ear I'm going to win the \$1,000 trophy with.'

So there's the story of the champion ear as Palin told it himself. And on the strength of it who will say that Fred C. Palin doesn't justly merit the title, 'The Man Who Knows Corn'?

But that's not all of Palin's story. He tells it willingly, though modestly, for he knows that his story wherever told is a source of great encouragement to the thousands of farmers who never had a better chance than he had himself. Palin was born and brought up on a farm near Newtown, Indiana. He has never

owned a foot of farm land in his life, and the 300-acre farm on which the champion ear of corn which won the Kellogg Trophy was grown is a rented farm.

Mr. Palin's real experience as a farmer began about sixteen years ago. He had been on the road as a grocery specialty salesman, when he took a notion that he would rather be an agriculturist, so he took a few short courses at Purdue University and rented a portion of the farm he now occupies. Nine years ago he began carefully breeding this new variety of corn. For two years he planted two rows of Reid's Yellow Dent, then two of Alexander's Gold Standard, detaching the Gold Standard. From the detasseled rows he picked for seed only the ears carrying the characteristics he wanted to reproduce, planting these in breeding plots and maintaining a careful selection, so that in nine years' time he had developed a well-settled type.

The Palin champion ear was the first winner of the W. K. Kellogg National Corn Trophy, a handsome silver and enameled cup made by Tiffany of New York at a cost of \$1,000. Mr. Kellogg, as the originator and manufacturer of Toasted Corn Flakes, naturally has a deep interest in the development of the higher grades of corn, for the company of which he is president. The Kellogg Toasted Corn Flake Company requires ten thousand bushels of corn a day for the making of its product.

The Kellogg trophy was offered to be awarded in annual competition for the best single ear of corn until won twice by the same producer. The fact that the Kellogg product is made only from selected white corn, while the winning ear was of a pronounced yellow type, was a peculiar feature.

The Kellogg trophy was won in 1910 at Columbus, Ohio, by R. A. James, of Charleston, Illinois, with a magnificent ear of Reid's Yellow Dent, but not so perfect an ear as that which originally won the trophy and which has become known as 'the best ear of corn ever grown.'

The next award of this trophy will be made at the next National Corn Exposition, which will be held in February, 1913, at Columbia, South Carolina. It is planned to make this exposition much broader in scope than any held in the past, and consequently a much longer time will be required for preparation. Special buildings are being erected for the exposition, the main building to be 400 by 167 feet, ground measurements. The show will last ten days. The state of South Carolina has appropriated \$40,000 for the expense of the exposition and the prospect is that Dixie will 'do herself proud' in an effort to make this exposition the greatest of its kind ever held.

ACT QUICKLY Delay Has Been Dangerous in Manassas.

Do the right thing at the right time. Act quickly in time of danger. Backache is kidney danger. Doan's Kidney Pills act quickly. Plenty of evidence to prove this. Mrs. Benjamin Martin, Waterloo St., Warrenton, Va., says: 'I can frequently remember the relief my kidneys benefited me greatly and have lived up to every claim made for them. I was afflicted with a severe case of kidney complaint and for a time it seemed as if it would prove fatal. The pains and aches in my back were almost unbearable and finally the doctor who attended me, advised a trial of Doan's Kidney Pills, saying that he knew of a similar case where they had made a cure. I took the contents of six boxes of this remedy and was not only relieved of my kidney trouble, but was helped in every way. I am in a position to praise Doan's Kidney Pills highly and in return for the great relief I have received, I willingly allow the publication of this statement.'

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other. If You Want Your Farm Sold Quickly, List it with S. W. FITZWATER, NOKEVILLE, VA.

Searle's estate, will be offered for sale by public auction, in front of the post office, in the town of Manassas, Virginia, on

COUNTY COLORED SCHOOLS Summary of Progress in Industrial Departments for Past Session—Future Outlook Bright.

The colored teachers of the county have been urged to organize their pupils and patrons into School Improvement Leagues for the purpose of supplying many of the needs of the schools by their personal efforts, and to teach in a simple and practical way, sewing, cooking and manual training. The teachers were asked last session to make a report of the work done along these lines, which some of them have done, sending the same to P. W. Gibson, principal of the Brown colored school in Manassas, who has condensed them and rendered the following report; and while it does not show a very great amount of work done, it does show a decided tendency in the direction of self-help which, we believe, is increasing among the colored people, and which is absolutely necessary to substantial progress in their schools. We expect to be able to show a much better report for the present session:

The following is a report of the industrial work and improvements in Prince William colored public schools for the year 1910-11.

Thornton School—Catherine Carter, teacher—Taught sewing, bought shades for the windows and individual drinking cups. Amount collected, \$4.40. Neaseco School—Fannie Redmond, teacher—Taught sewing and the making of picture frames, bought a blackboard, bell, wastebasket and a number of books.

McCrae School—Georgetta Hughes, teacher—Taught sewing, patching, darning and cooking. Potomac School—Susie K. Holmes, teachers—Pupils made one hand embroidered white shirt waist, six hemstitched handkerchiefs, one white apron and one dress skirt.

Olive Branch School—Avery Coleman, teacher—Plain sewing and the different stitches taught in model form. North Fork School—Jeannette Harris, teacher—Taught plain stitches, hemstitching and a little fancy work. Girls made collars, handkerchiefs, tray mats and one dress. Taught cooking. Boys made towel racks, pointers and mop handles. From an entertainment, \$6.55 was cleared.

Kettle Run School—Julia H. Pinn, teacher—Taught sewing and paper modeling, painted school room on the inside, purchased window shades, material for the sewing class and a few pictures; school grounds were cleared of bushes, etc. Amount collected, \$10.00.

Dumfries School—Bessie C. Grant, teacher—Bought individual drinking cups, water bucket and dipper, window shutters, hooks for wraps and cups, window shades, looking glass, comb and brush, towels and soap. A boy was employed to sweep and make fire. Amount collected, \$31.50.

Brown School—Bessie E. White and Powell W. Gibson, teachers—Taught sewing and woodwork. The girls made twelve aprons, four pillow cases, three dozen undergarments, three shirt waists, six doll dresses, six handkerchiefs and uniforms for the school base ball team. The boys made a table for the sewing department, a library for the church choir and repaired and painted the desks. The boys and girls painted, in water colors, pictures of twelve prominent men. The boys made frames for the same which improve the appearance of the walls. Bought an organ and a number of books for the school library. The pupils raised \$21.00 toward society. The boys and girls for the church. The Colored Civic League raised funds with which to lay walks about the school grounds. Amount collected for church and school, \$132.45.

MAY VOTE ON BOND ISSUE Council Sanctions Issuing \$75,000 Worth of Bonds for Public Utilities.

Continued From First Page Prince William, Virginia, in vacation, or term time, by the Mayor of said town, requesting the said Judge to order an election for the purpose of submitting to the registered qualified free-hold electors of said town, the question of whether or not such issue shall be made, as provided by law.

The Clerk of the Council was ordered to transmit a copy of this ordinance to Mayor Chapman for his approval or disapproval, which has been done and the Mayor has given his hearty endorsement to the movement, so that the petition for the special election now goes to the Circuit Court.

Bonds to be Paid in Forty Years. The petition, as presented to Judge Thornton, will set forth the town's desire 'to issue bonds for the purpose of installing a water, sewerage and light system for said town, which said bonds are to run for a period not to exceed forty years, to bear interest at a rate not to exceed six per centum, in denominations of one hundred dollars each, or any multiple thereof, not exceeding one thousand dollars, and for a sum not to exceed seventy-five thousand dollars.'

Mr. Hynson Makes Tasty Talk. Councilman R. S. Hynson made a short, but most opportune and sensible address to the Council with reference to public expenditures. He stated that personally he was not dependent upon the public utilities proposed in the petition, inasmuch as he had, at considerable expense, equipped his hotel with them all, but that he heartily favored the town owning such plants and that he was willing to bear his share of the additional taxes. In the matter of expending the sum provided in the bond issue, in the event the same was carried, he urged upon each individual member of the Council to make it a personal task to see that for every dollar paid out, the town received one hundred cents in value. There was a general disposition, he stated, on the part of public officials to carelessly handle monies entrusted to them for public benefits. He believed that all such funds should be more jealously guarded than one's own bank account, for the reason that when a man spends his own substance, he invests that in which he alone is interested or can be affected, but the investment of public funds increases the whole municipality.

Journal Office Fees Review. Councilman D. H. Prescott arose and stated that he had been authorized by Mr. D. R. Lewis, of the Manassas Journal, to state that THE JOURNAL would be glad to publish free of charge any order of election or ordinance bearing on the issue of bonds, which offer was received with thanks on the part of the Council.
