A Word About Buying Lumber Mill Work and Building Supplies

> The best managers all over the country are reafizing that the safest and most comfortable way to invest money is in building and improving right at home. In this connection, it is time well spent to consider the actual values received for each dollar spent for Lumber, Mill Work and Building Supplies.

We believe that it pays well to compare our prices and grades, as we are carrying large and carefully selected stocks of Lumber, Shingles, Laths, Flooring, Siding, Ceiling, Sash, Doors, Blinds, Mouldings, Cement, Lime, Wall Plaster, Etc., which we buy direct from the biggest producers in large quantities and handle at the lowest cost to our customers.

We will complete a large addition to our new mill about April 1st, which, with a number of new machines and an increased force of skilled mechanics, will enable us to turn out a much larger quantity and a better class of special mill work.

We can save you money. We can ship you satisfacprove this to your own satisfaction by looking over our stock and then comparing our prices, and we would greatly appreciate your doing this.
