The future of Managage will be determined by light and 200 to the subscription for water. The Company also Monday night. In order to actualize its possibilities this Town agrees to remove all charges for water used in fighting fire when a must have public utilities. sewer system is established. The Company is to supply free water for two public drinking fountains and four automatic fountains for no man that has not his hour, nor is there anything that has not animals. When water is furnished free for fire service, the Com- its place."—Rabbi Ben Azai. pany proposes a charge of 15 cents per 1,000 gallons for water for street sprinkling purposes. The proposition is most liberal.

Charles Farnum and T. J. Parmley, of Philadelphia, who are tent to cling to methods in vogue. promoting the enterprise, will be in town Monday morning. They will meet citizens who wish to sign for water and light. While no for the improvement of waterways were devoted to the good roads poration, it is a matter of economy for the Corporation that such grant be effective with installation of service. There is no doubt that 200 individual subscriptions for water and 200 more for electric light will be secured—at any rate it is but a matter of time. However it is in the best interests of the community to comply immediately with this easy requirement for free water for Corporation use.

Apart from the commercial viewpoint, many immediate signatures will evidence moral support of the community which has been Chicago endorses La Follette for President of the United State and existence. With their proposition verbally approved by the didacy. Town Council, the promoters now are waiting only for the ratifiof Manages - facilities that this Town has been unsuccessfully amount does not seem so very large. seeking for years, but that are now to be installed upon ratification of the Council approval.

own faith in the Town: For many years Manassas has endeavored to secure public utilities. Now that they are in sight let us welcome devote their efforts for reform here at home. An example is pre-

The moral tic views of James J. Hill, president of the Great Northern railchligation is more binding upon the firemen. Their first duty at road, as to conditions in the United States. In a recent interview any hour is to protect the community. There is no branch of pub lie service in which effort is so great and reward so small.

express appreciation of their efficient fire department. The pro-sell them. If you get away from New York everybody is quit ceeds of an entertainment in Conner's Hall tomorrow night will be happy and everything is all right. They always have faces as long devoted to the department. The entertainment will be more than as horses in New York." worth the money, and so you will contribute to a worthy cause without actually depriving yourself. Every man, woman and child that can raise the price should be there, and help make the event a fitting demonstration of appreciation of the firemen. What will be doing? Plenty! The band will play and a quartette will sing. They are going to pass around the cake baked for the great contest that is now going on. With ears filled with music and stornach filled with cake, who sould help being happy. There will be some clever vaudeville stunts. The prize-winners in the cakebaking contest will be announced, and the "country-auctioneer" who will sell the cakes, will be a comedy feature. It will be worth I A collection that will interest every well dressed man. something to see the young fellows bid for the cakes their best girls have baked. There will be something doing every moment.

BUILDING MANASSAS

On the eve of acceptance of great public improvements it is well to view fundamentals upon which they are based. Manassas is at the point of installing water and electric lights at a most opportune time. While it is true that Manassas has progressed steadily and substantially without public utilities, it is also true that the Town has advanced to a point where continued lack of such facilities will arrest development. The growth of the Town in commercial, residential, educational and industrial importance has created the necessity for facilities equal to its expansion. Obsolete methods cannot obtain in aprogressive Town. A community. like an individual, may either develop or retrograde. Manassas in going forward.

The superior character of our building provements is evidence of the solid foundation upon which and Town is building its imisted really values. Property is in active demand and steadily increasing in value. The Town is building along safe, conserva-

Buy prepared roofing of B. C. Corn-well and save money. 15tf Why, then, should Mr. Wheeler First-10 care white corn.

Are You Nervous?

What makes you nervous? It is the weakness of your womanly constitution, which cannot stand the strain of the hard work you do. As a result, you break down, and ruin your entire nervous system. Don't keep this upl. Take Cardul, the woman's tonic. Cardui is made from purely vegetable ingredients. It acts gently on the womanly organs, and helps them to do their proper work. It relieves pain and restores health, in a natural manner, by going to the source of the trouble and building up the bodily strength.

Mrs. Grace Fortner, of Man, W. Va., took Cardul. This is what she says about it: "I was so weak and nervous. I could not bear to have anyone near me. I had fainting spells, and I lost flesh every day. The first dose of Cardui helped me. Now, I am entirely cured of the fainting spells, and I cannot say enough for Cardui, for I know it saved my life." It is the best tonic for women. Take Cardul. It will help you. Ask your druggist.
