WHAT CONGRESS DID

"What did Congress accomplish?" asks LaFollette's magazine. The sixty-second Congress will be notable in future years for the impetus it gave to the Old Order. The two forces of progress and reaction contended more or less earnestly. The lines between representatives (in Congress), of special interests and private interests were more sharply defined, and the general outcome shows that the people are determined to break down the "System" that has for years been running the government.

The most significant results of the recent session of Congress are:

- Admission of New Mexico and Arizona to Statehood.
- Approval of a constitutional amendment for direct election of United States Senators.
- Establishment of a Children's Bureau in the Department of Commerce and Labor.
- Creation of Commission on Industrial Relations.
- Free usage of the Panama Canal by Americans engaged in coastwise trade.
- Exclusion of William Borlmeier from the United States Senate.
- Abolition of President Taft's Tariff Board.
- Extending the lease of life of President Taft's Commerce Court another year.
- Making eight hours a day's work on government work.
- Passing the wool and steel bills vetoed by President Taft.
- Establishment of the Parcels Post.

The first step forward in other reforms were also made: To limit the office of the President to one term of six years; to establish a department of labor with a secretary in the President's Cabinet.

Thus do old things pass away while the "new time" is coming when the people themselves will run the government at Washington.

SIGNIFICANT

An editorial in the Richmond Virginian of September 2 on "The Real Political Situation" deserves the attention of all citizens interested in the outcome of the presidential campaign. It quotes the conclusions of the editor of The North American Review:

The nominal candidates for President of the United States are Woodrow Wilson, William H. Taft, and Theodore Roosevelt; the real candidates are Woodrow Wilson and James S. Sherman, with the remote possibility of Philander C. Knox, becoming acting President pending a new election in 1916.

It seems that the situation is similar to that of the campaign of 1824—the Democrats against the field. The editor of The Review says Roosevelt is the only man who can win—but that he cannot get under the most favorable results possible for him. He says that Taft cannot win, that 256 votes is as many as he can secure under the most favorable outcome possible for him. Now if the House of Representatives should be called upon to settle the succession to Taft, it might deadlock, and the Senate would have to choose a vice-president—either Marshall or Sherman. (If Sherman gets more electoral votes than Johnson). Then the new vice-president would become president. Now Col. Harvey, of The Review, sums up the situation this way: "Wilson will probably be elected. If he carries New York he cannot be beaten. Neither Taft nor Roosevelt can win. A vote for Taft is a vote for Sherman. A vote for Roosevelt is a vote for Sherman. A vote for Wilson is a vote for Wilson."

However, if you don't want to throw away your vote, cast it for Wilson.

A FARM IMPROVEMENT AGENT

We wish to call attention to the article on the front page giving full particulars about the new plan of the Southern Railway to help the farmers of this vicinity improve their organization as citizens of the soil. The greatest, the most interesting, the most important of all sciences is the science of agriculture. Every true agriculturist should avail himself of every privilege and opportunity to learn more about their noble and devoting work. Like the end of the rainbow, which no person has ever been able to find, there is no end to the field of knowledge covered by the subject of farming and other sciences connected with it—so broad is the subject, and so comprehensive in all its complications of facts, conditions and individual experience. Hence there is no expert farmer so wise that his understanding of agriculture cannot be further enlightened, and Prince William farmers ought to show their appreciation of this new plan. However, this could not be done for them and to keep him busy all the time and show the Southern Railway company that they are in earnest in this forward effort to improve rural conditions.

GET TOGETHER

The fact that our common school system is called the Public School does not guarantee that the public takes the interest in this organization that it should. To have a school board of three men, more or less interested in school matters, and have the whole thing turned over to their management is not just—it should be. School Board and school patrons should attempt to get a little closer together and talk over some of their plans and ideas before executing them. The Board, patrons and teachers could occasionally hold a joint discussion—it would undoubtedly increase the efficiency of the work of the Board as well as the teachers and increase the harmony which is so essential to all organizations.

PARAGRAPHS

A CIGAR in the hand is worth \$2 in the savings bank.
Exit Stephenson and Lorimer—enter Watson and Chilton.
The biggest fish are always caught with a hook and line.

The Bull Moose must envy the South Carolina vocabulary.

"W" stands for Wilson, for Washington and for White House.

In some colleges the athletic stadium is all the Greek left in the course.

The third party's interest in the workingman is how he can be worked once more.

Roosevelt, "the self-appointed divinity," said Woodrow Wilson at Buffalo. Right!

FARMERS have awakened to the folly of the so-called blessings of a protective tariff.

"GIVE us bread and sleeping room," cry the mill workers in the very citadel of Protection.

CHARLES BLAKE CLARKE.

HIDDEN MONEY

Statistics show that the percentage of money lost outside of banks is greater than that lost thru bank failures by over 240 per cent. And yet people will store their money away in stockings, bureau drawers, mattresses, carpets, etc., waiting for the thieves and flames. The stories of serious and pitiable losses of this kind published during the past year would fill a volume. They show that many murders have been caused by hidden money—in some cases for ridiculously small amounts.

President Taft's "Tariff Board" was a very satisfactory plank in the Protection Platform.

POLITICS may be ruinous to the men in it, but it's a heap more ruinous to the public out of it.

WHEN a man swears off drinking he saves money, for then he sneaks off and drinks by himself.

WINNING with Wilson means more than a mere Democratic victory. It means restoring real prosperity.

"THE law-making power in the hands of a thinking people is the safest proposition under the sun." Selected.

JUDGING from the pension roll, the Johnny Rebs must have seriously crippled every Yank that wore a uniform.

"PROTECT us so we can maintain the American standard of labor," beg the trusts—at Lawrence, Mass., for instance.

SOUTH American railway trains are reported to be stuck in snow drifts. Slip this under the sweatband of your hat and keep cool.

THE campaign utterances of Teddy, the Moose, for the past week or ten days has consisted chiefly of accusations and denials.

Why don't the text books of Arithmetic used in the rural schools teach more farm accounting and not so much counting-house business.

A great many of our American girls are seeking foreign titles by marriage, forgetting there is a native one nobler than all. It is that of "wife."

Roosevelt's protective tariff policy includes some unannounced plan whereby labor is to get its share of "raise money" from the high tariff loot.

WHEN a woman wants to get a new hat she seeks the advice of her dearest chum, and then buys an entirely different pattern than the one suggested.

GOD doesn't allow the angels to appear to mortal vision anymore, but when we can see a mother and her baby we don't mind the heavenly visitants.

The Pullman Car Company earns \$9,000 annually on cars that cost \$15,000; the porters are paid only \$25 a month to save the company from bankruptcy.

The Democrats are not taking the election of Wilson for granted. They are working and working harder than in a score of years and working as a united party.

The Democrats seem to be a "jinx" in Secretary Wilson's Department. No man seems to be more troubled than a Norman—slid with six wives. This Florida Everglade affair only proves what most of us have thought for some time, viz: That the Agricultural Department at Washington is very poorly managed.

Project manufacturers to give labor a full dinner pail. Then let down the bars for all the labor of Europe to come in and compete with American workmen to keep down wages. That's protection! And that's the reason Congress won't restrict emigration from Southern Europe. It's against the law of the lottery.

Villages, towns and cities are very much like individuals. They have their own individual characteristics and their habits are hard to change.

Marble and Granite are characterized by energy, aggressiveness and live-wire development, while many more are suspicious for the lack of rural conditions.

LaFollette is the pioneer Progressive in the Republican party. Roosevelt is a late convert to Progressivism. LaFollette was entitled to the Progressive nomination; Roosevelt, the victor for leadership, now lambasts LaFollette because the Wisconsin Senator won't follow the Bull Moose to make Roosevelt the great "I am" of the Progressive cause. Is Roosevelt sincere?

Col. George Harvey, editor of the North American Review, analyzes the present political outlook in the September number of his magazine and says: "The true appellations of the three leading candidates are: Taft, conservative; Wilson, liberal; Roosevelt, radical." As to Dobs we might add that he is revolutionary, and that Chaifin is persevering. Voters can take their choice.

As a people we have gone far in our farming operations and have not kept up the productive capacity as was intended that we should. No field, it matters not where located nor fertile, can continue producing the same crops indefinitely.

Changes must be made, therefore, we are taught from this fact that we must diversify.

At the same time the depression is so great that we must diversify.

As we are taught from this fact that we must diversify.

At the same time the depression is so great that we must diversify.

As we are taught from this fact that we must diversify.

DIVERSIFIED FARMING REALLY A NECESSITY

Continued from first page

mass of farmers will just remain at railroads, owing to the fact of their simplicity and small cost of installation. Many similar devices have been tested, but found wanting, by reason of their impracticability to apply to service conditions, and of such technical and complicated design they could not be adjusted to operations of trains on the ordinary roadbeds of the country. We congratulate this company and its stockholders upon their efforts in the preservation of life and property and the assured profits which will accrue to the stockholders.

C. & E. I. WILL TEST NEW SAFETY DEVICE

Continued from first page

The money crop specialty is the place to make the high developments. You can handle your diversified operations just as well as though you were not making any specialty of anything, while at the same time your specialty will develop usually beyond your expectations. Develop faster than you realize at first, and the profit from the specialty will always come in and make the farmer feel like going on to higher developments.

As to what branch to keep up as the money crop specialty, the list of crops that can thus be handled is so long, and the tastes of the different farmers so different, that it would be folly for me to even attempt to point out to anyone a certain branch, as some would make a miserable failure of one thing, and an overwhelming success of something else.

Sure I have my own choice and follow my own lines, but my choice would not be yours perhaps. However, anyone can take up and specialize on some certain line and give that special line special attention, and even at the end of the first year the farmer is likely to be running high.

TO GET AFTER TAX DODGERS

Wholesale investigations by grand juries or tax dodging in Virginia is likely as a result of the small number of persons who returned incomes over \$2,000 a year to the State Auditor. Some of the counties of the State did not return a single person with an income above \$2,000. Tax first step toward an investigation of the charges of tax-dodging will be taken in Shenandoah county, where Judge Thomas W. Harrison is preparing to order an inquiry. The commissioners of the revenue have been summoned to give information.

State Auditor C. L. Moore some time ago notified the Virginia courts that he would ask for an investigation and ascertain in each county how many were paying taxes on incomes over \$2,000. Charges of making false returns and evading the law are likely to result.

Thomas Fortune Ryan, the New York millionaire, who maintains a country home and citizenship in Nelson county, Virginia, returned his income as \$150,000. The Virginia law, as generally interpreted, includes salaries and interest on all stocks and bonds, whether in or out of the state.

The fact that the New York millionaire did not return an income for more than \$162,000 caused comment. It was asserted by Mr. Ryan's friends that that amount represents his income from his holdings in Virginia and not outside the state. A test will likely be made as to whether the holdings outside of the State are amenable to the Virginia Income Tax law.

MOTHER OF EIGHTEEN CHILDREN
"I am the mother of eighteen children and the praise of doing any work than any other woman in the world," writes Mrs. C. J. Martin, Roanoke, Va. "I suffered for five years with stomach trouble and could not eat as much as I wanted them. I have taken three bottles of Chamberlain's Tablets and now a well woman and weigh 108 pounds. I can eat anything I want to and never feel bad again. I am grateful to Chamberlain's Tablets for what they have done for me." Chamberlain's Tablets are for sale by all dealers.

PRESIDENT FINLEY GROWS FINE CORN

Continued from first page

Most farmers blame Providence for the short yields of corn that they will get this year, but we should never do anything like this. If we do our part, Providence will come in for her part. This is well proven in the demonstration field of corn on President Finley's farm near Warrenton. He planted a field of corn under the direction of Mr. Plunkett, general manager of the Cotton Culture Department of the Southern Railway, with the expectation of getting 60 bushels per acre. Judging from the appearance of the corn at the present time there is no doubt but that the 60 bushels per acre will be obtained. This is the best field of corn I have seen in Virginia," says Mr. Brown, Field Agent, and this fact is due largely to better preparation, better seed and better cultivation than is given the average corn field.

The keynote to better corn crops is better preparation of soil, better seed, shallow and frequent cultivation.

EASY TO DEFY EVIL SPIRITS

The Chinese believe that evil spirits are able to move only in straight lines and that they cannot penetrate through solid matter, therefore the problem of keeping them out of a dwelling or a garden seems to them a simple matter.

Made Wedding Realistic.

At the wedding of a Leicester, England, merchant, in a half-burned church, the bridegroom was conveyed to the ceremony on a mule. Firemen and his comrades formed an arch of axes for the newly-married pair.

Lengthy Cough.

The three main causes of coughing and grunting, and when he got opposite the screen he gave one of those terrible coughs which only a man who has been close to such a beast can understand. It was eleven feet long.

STAPLE AND FANCY GROCERIES

WHAT WE NEVER FORGET

according to science, are the things associated with our early home life, such as Buckskin Arms, Saddle, Rustler, etc., to carry our gun,

boots, saddle, covers, this exception, etc.,

which may be framed and hung upon the walls. Teachers will be issued duplicate certificates which may be kept as testimonials of good work. The names of first grade schools will be published from time to time in the Virginia Journal of Education.

Below this space for marking the percentage the school has obtained:

Ten thousand of these cards have been printed and will be mailed to teachers throughout the state.

PEOPLE TO VOTE ON AMENDMENTS

Virginia voters will at the coming November election, ratify or reject at the polls two proposed amendments to the constitution.

One of these amendments will enable city treasurers to succeed themselves indefinitely without limitation to the number of terms. The other provides

that the revenue must be elected by the people, and shall be eligible to succeed themselves indefinitely.

This makes a total of three amendments to be passed upon by the people at the polls. The third is a clause conferring upon cities the right to adopt a commission form of government.

In the last legislature an effort to have the amendments regarding city officials voted on again was successful. The bills being that the submission of 1910 was illegal inasmuch as the two propositions were voted on as one.

This point was raised so as to avoid the constitutional provision that the amendments must be approved by two legislatures.

The amendment was approved by the legislature in 1908 being taken as the first. The rush was to make all city treasurers eligible for re-election in the election of

the next session.

The third is to increase the

term of office of the city treasurer.

The fourth is to increase the term of office of the city treasurer.

The fifth is to increase the term of office of the city treasurer.

The sixth is to increase the term of office of the city treasurer.

TOPICS OF THE TOWN

C. E. Collins spent Sunday at his home in Marshall.

H. C. Rykemann spent Sunday boating on the Potomac.

Billie Cowing, of Warrenton, was in town one day last week.

Miss Bessie Myers, of Sterling, is the guest of Miss May Wenzel.

J. W. Teates, of Broadway, was in town Sunday, visiting friends.

Crigler & Camper have moved into their new quarters on Center street.

Dr. Hoop made a business trip to Fauquier and Loudoun counties this week.

Miss Bertha Furr, of Beverly Mills, was a Manassas visitor one day this week.

Thos. H. Lion made a business trip to Orange one day the first of the week.

Mrs. R. J. Adamson will have her millinery opening next week, Sept. 26, 27, 28, 1912.

Miss Evelyn Wrenn, of East Falls Church, is visiting her friend, Mrs. D. L. Lebeau.

Mrs. Mary Shannon left Tuesday for Washington, where she expects to locate permanently.

Samuel Muddiman, of Roanoke, arrived in Manassas, Wednesday, to attend the funeral of his mother.

Arthur Leith, who was operated on a short time ago for appendicitis, returned to his home this week.

Miss Elizabeth Coates, of Lynchburg, is visiting her sister, Miss Blanche Coates, for a few days this week.

The regular business meeting of the W. G. T. U. will be held Friday afternoon at three o'clock in the Edford building.

Mrs. J. T. Rynan, arrived here yesterday from Asheville, N. C., to visit her mother, Mrs. M. J. Bradford, of this place.

Mr. McDonald, who recently purchased the Cory farm near Brentsville, has about 4,000 bushels of fine winter apples.

A number of Manassas young people spent a very enjoyable evening at the home of Mr. and Mrs. W. N. Merchant Monday.

Miss Lucie Mai Buck, who has been spending some time with friends in Fauquier county, returned to her home at Millford Saturday.

Ikey Florence, a former Manassas boy, was in town Tuesday shaking hands with old friends.

Mr. Florence now holds a position in Norfolk.

Miss M'Lerie Moffett left this week for New York City, where she will enter Columbia University again this fall.

The local High School opened Monday morning and from the number of students it promises to be a banner year. Several hours from Burke will attend this year, aside from other adjoining towns.

A horse belonging to D. Lebeau was stricken with colic while standing in front of C. E. Nash's hardware store, Tuesday morning, and fell to the ground, but soon recovered after being un-hitched.

Prof. Mueller's class of little children are to have a German in Conner's Hall in the near future. This will be a new feature for Manassas to see the children dancing the Long Boston and other dances.

Misses Rae Liebeschutze, Carrie O. Williams and Messrs. O. E. Gathmann and H. R. Clark have returned to Washington after having spent a most delightful week at the home of Mrs. Mary Williams, near town.

Maurice Shappo, representing M. Stein & Co., of Washington, was in town Tuesday taking orders for fall suits and overcoats. This firm will be represented by W. W. Garrison here this season, and is desiring to order a first class tailor-made garment with the best attention.

James E. Birckett, of Alexandria, was in town visiting last week.

Born, to Mr. and Mrs. Joseph Wheaton, Sunday, Sept. 15, a fine boy.

Robert Adamson and C. A. Sinclair are spending the day Tuesday.

A new barn is being built in the rear of the Lebeau property on Lee avenue.

Mrs. Annie Adamson returned this week from a visit to friends and relatives in Baltimore.

Miss Jennie Hotte is visiting friends and relatives at Woodstock this week.

Mr. Clarke, of Washington, was the guest of Miss Carrie Williams Sunday.

Remember the price of the Newton-Corwin performance is 25, 35 and 50 cents.

Carl Patti, of Catharpin, left last Sunday for Roanoke, where he will accept a position.

"Toots" and Phillip Brown, both of Middleburg, were in town visiting old friends Saturday.

Dr. Dexter will preach to the Loyal Temperance Legion at Bristol, Sunday evening at 3 o'clock.

E. H. Bryant is giving the outside of F. E. Sander's barber shop a coat of bright red paint.

Mrs. C. F. Brower and Mrs. Walter Sanders, of Catharpin, were in town shopping, yesterday.

Miss Lena Effinger, of Harrisonburg, is the guest this week of Misses Marcelline and Bessie Walker.

Mrs. Bernice Davis returned to her home in Bristol this week after a two weeks' visit to relatives in Glendale.

R. Carey Buck, of the Seaboard Air Line, Portsmouth, is spending a few days with his parents, Dr. and Mrs. R. C. Buck, near Milford.

Aten Council O. F. A. will dispense with regular meeting next Saturday, September 21, and meet instead on Tuesday night, Sept. 24. A full attendance is desired.

Judge C. E. Nicol and family, who have been visiting here for the past two or three months, returned to their home in Athens, Ga., Saturday.

Miss Amelia Brown is expecting a guest this week, Miss Alice Law, of Bayard, Va.

Miss Ruth Nonan, who has been spending the summer with friends in Alexandria, is a student at Eastern College this fall.

Gordon Lightner, who has for the last few months been surveying in Ohio, came down Wednesday from her home in Florida to Washington, Saturday night, and remained over Sunday.

Judge C. E. Nicol and family, who have been visiting here for the past two or three months, returned to their home in Athens, Ga., Saturday.

Misses Marcelline and Bessie Walker, of Bayard, Va.

Miss Lucy Mai Buck, who has been spending some time with friends in Fauquier county, returned to her home at Millford Saturday.

Misses Marcelline and Bessie Walker, of Bayard, Va.

W. W. Garrison made a business trip to Remington last Friday.

Eppa Hunt, of Haymarket, was in town one day this week visiting friends.

Robert Adamson and C. A. Sinclair are spending the day Tuesday.

H. M. White, of Lexington, is visiting friends in Manassas this week.

Shirley Leachman, of Alexandria, is spending a week at his home in Manassas.

Elmer Marks of Milford, will enter an automobile school in Washington this fall.

Mrs. Robert Bibb and children left Thursday night for their new home in East Radford.

Walter Joseph of Washington, was a week end guest of L. A. Hulfish.

Miss Nellie Beff has finished a fine granite stone for John Kenne, near Manassas.

Hubert Moon of Burke, arrived in town Monday to resume his duties at the High School.

Miss Lizzie Cooksey, of Washington, was a guest of Miss Etta Fletcher last week.

Mr. Stuart Tullos and Mrs. Simpson were guests at the home of Dr. W. R. Tullos last week.

FAITH OR WORKS;
WHICH SAVES US
God Developing Most Wonder-
ful Creation in Universe.

A Question Long In Dispute Is Now
Clear Through a Better Understanding of Bible—“The Path of the Just Is as the Shining Light, Shining
More and More Unto the Perfect Day.”

London, August 4.—London Tabernacle was crowded, as usual, with people of all classes from the text, “Now of
WOT’S, let any man should boast; for we are His
workmanship.”

Editorial in the British Press has taught that salvation should be the reward of good works, it would harmonize better with the common conception. Why should God specially reward faith? Why should He not equally reward good works? The answer to this question can be appreciated only by an understanding of the Divine Plan, said Pastor Russell.

In God’s general dealings with angels and men His principle is to reward works, obedience. God’s exceptions are with the Church—for spiritual reasons, which we shall see.

But the Kingdom comes, the world in general will not be divided so much for faith, but rather for works,” he read. “They shall be judged more according to their works.” Thus obedience to the laws and regulations of Messiah’s Kingdom will be rewarded by gradual beautification, while the exercise of faith will bring the reward of strength of mind and body.

The Church Walks by Faith.

Now almost all nations are now said Pastor Russell. Everything is done except as the eye of faith can see more obscurely in the light of God’s promises and the types of the past. “So” said the Apostle, “we walk by faith and not by

works.” Peter declares that we should take up our cross daily, as property as a light in a dark place, while waiting for the dawning of the New Day (1 Peter 4:18). We are very near to that New Day now, but we still need the light of the Lamp, the Word of God, and it is shining more clearly than ever before. It is shown in the lives of our brothers that the Church is not being judged or condemned according to works, but according to her faith.

In the present time perfect works are impossible anyway, because of our imperfection through heredity from Adam, and because of the separation of all in contact with us in the world. But we have been delivered from the influence of Satan and the fallen angels—“seducing spirits”—1 Tim. 4:1.

It is when the believer reaches the point of a full consciousness of himself to God that Jesus becomes his Advocate with the Father and imputes of His merit as a covering for the sins of his brethren, and thus makes him acceptable to God. This is the secret of the Christian’s success, and the secret of God’s acceptance of him.

We Are God’s Workmanship.

However, as soon as the Father has accepted the sinner, as soon as he has been begotten of the Holy Spirit, as New Creature, old things are passed away, and, therefore, he may do what he did not do before. If he does not do what he did, he will die spiritually. But as old creatures, sinners, we are not yet acceptable to God.

PROVIDE FAITH IN THE MEDIATOR makes him acceptable. As it is now, creature has no sin to be forgiven.

The New Creature has no sinfulness from the past, but may cry, “Abba, Father.” As a son the New Creature is permitted to do all the things he did before the creation of an unclean world, because the inner life will suffice, and it is the secret of his salvation.

The Church Comes to God’s Own Creation. In the same way that the crosses thousands of millions of worlds, samples of which may be witness to a starry night. But with all their impressivity they are nothing to His infinite number of angels in various orders and functions, who open the earth with their wings. Even the smallest insect has a greater creation than the creation of an unclean world, because the inner life will suffice, and it is the secret of his salvation.

1 Peter 1:4

For more than sixteen centuries, God has been working on this New Creation. First of all, the great

Heavenly Friend, Hawk, “I am a proud father,”

and the rest of the creation, as far as it goes, is the pride of his heart.

As far as the principles of the creation of this Age. Only those possessing faith can be of this class. To all others, as navigation and shadow description of the heavenly nature are sufficient.

EFFECTIVE ORGANIZATION
FOR DEVELOPMENT WORK

How the Land and Industrial Department of the Southern Railway Is Conducted.

As an agency for the solicitation of men and capital for factories and for other industries and for immigrants into the South, the Southern Railway’s promotional and development work, agricultural and industrial, within the territory of the various lines of the Southern Railway System, the industrial department is organized.

The Land and Industrial Department, with jurisdiction extending over the lines of the Southern Railway, the Mobile and Ohio Railroads, the Georgia, Seaboard, and Florida Railroads, and the Western and Atlantic Railroads, has direct charge of matters pertaining to general development of the South.

At the head of it is the Land and Industrial Agent, with headquarters at Washington and with a substantial corps of assistants and large offices located there. Along the lines of the railroad districts of Atlanta, Louisville, Memphis, Birmingham, Columbus, Miss., Asheville and Columbia, the agents in charge of these offices give their assistance to all efforts to promote, in any direction, the welfare of the territory, and to the railroad lines, find locations for industries or help in their organization, and in every possible way extend their operation and that of the railroad to the benefit of the country.

In selecting a house plan, a great deal of subsequent comfort and happiness depends on the manner in which it is done.
