CLEAN-UP DAY

The citizens of Manassas are earnestly requested to clean up their premises, and unite in a general Clean-Up Day on Thursday, May 1st. The unsanitary condition of alleys, vacant lots and streets is a menace to health, especially during hot weather. Premises will be inspected by the Sargeant on the day following the date set above, and any property found in bad condition will result in the owner being dealt with according to law.

But, until the time came for Joseph's exaltation to power, his experiences looked as if the Lord had less love for him than for any other member of Jacob's family.

"Which Things Are an Allegery."
Like Joseph, our Lord Jesus was also hated without cause. (Psalm 69:4.) The brethren of Jesus were the Jews, who crucified Him. No cause of death was found in Him. It was on account of envy that the Jews called for His crucifixion. His works were good, and the Lord more perfectly than did they; He declared that some day they and all others would recognize Him as the Messiah. Therefore they hated Him. similarly hated unjustly. Chance to Earn Vacation Money—The Washington Post's Great 1913 Puzzle Conta WHAT'S THE TOTAL OF THESE FIGURES

THE PROBLEM

The problem is to ascertain the total of the figures in the puzzle chart. Just add 'em up. The figures run from ONE to NINE. There are no double figures, and no characters which are not figures. The tail of all "6's" has a decided curve, while the tail of the "9's" is straight. All the other figures have their usual characteristics. So there is no intent to allow any question to arise over the identity of a figure. In the event that no one ascertains the exact total, the prizes will be awarded for the nearest correct solutions.

HOW TO ENTER

Should there be any ties, as many primes will be reserved as there are people tied before any primes are awarded to those sending less correct solutions. That is, if two people tied on the absolutely correct answer, they would have to count the second puzzle to determine which was entitled to the first and which to the second prime. Then the one who sent the next best answer would be entitled to the third prime. This rule will while the winning of a prize does not depend upon the time the sofu-tion was registered, the puzzle is more or less illustve, and the best thing to do is to begin counting at once.
