AFTERWARD

Manassas and its people have shown themselves to be strictly up-to-date, progressive and business-like; have rebuked their knockers and placed the town on the road to growth and improvement by passing the bond issue by an overwhelming majority. This i only as it should be. Manassas has the location, the beauty, the -climate and the people, and now that she has voted to install the improvements that modern science and comfort demand as necessary for the promotion of health, wealth and happiness, there is no reason why she shouldn't march forward without pause to the front attractive town in this section of the country.

AUGUST

On the whole the reputation of August is one of dependable

certanity, whether he will have a good harvest or a poor. In this month come the conditions which tie the dog days of the classics up to the dog days of juvenile superstition. If it has not sped the A comfortable home veranda before this, the American family journevs in dust and irritability to places deserted of other home-weari-Ed families. In August some time the baseball fan knows just about where it is that the home team will land when the honors are distributed. And, as if to fix beyond questioning the reliability of August, the hay-fever patients begin their speezing to the day and hour set down in the calender of custom.
