

## Prince William County Births as Reported on U.S. Sons of the American Revolution Membership Applications, 1889-1970

The individuals included in this database have listed Prince William County, Virginia as the place of birth (POB) for themselves, or their ancestors, on their applications for membership in the National Society, Sons of the American Revolution (SAR). The majority of births are in the 18<sup>th</sup> and 19<sup>th</sup> centuries.

This database includes **selected information** taken from the applications. The original applications (approved by the SAR between 1889-1970) include additional details and were added to Ancestry.com in 2011 and updated in 2015. They can be viewed on **AncestryLibrary Edition** in any Prince William County (Virginia) Public Library or on Ancestry.com, with a paid subscription.

SAR applications require a pedigree and accompanying information to demonstrate a generation-by-generation link to a patriot ancestor. Genealogical information submitted may include references to Revolutionary War pension files, baptismal records, marriage records, cemetery records, census records, family Bible records, deeds, court records, documented family and local histories, and copies of applications to other lineage societies. Applications also typically include a short summary of the ancestor's service.

These records can be an excellent source for names, dates, locations, and family relationships. Applications can be searched by name, place and date of birth and death, and application year.

The SAR cautions that many older SAR applications are not sufficiently documented pursuant to current SAR genealogy standards. You will want to evaluate the contents as they have not been verified.
