INTRODUCTION

The Index of Deeds for Prince William County, Virginia, 1731-1827, was prepared by the Clerk of the Court from all deed books in existence in 1827. It originally filled two volumes. Only volume two now survives which indexes the letters M – W, both grantors and grantees (letters X-Z are missing from its end). Volume one, containing the surnames A-L, has been missing since the Civil War.

Since the surviving index lists both parties to each transaction, some of the entries will include surnames A – L and Y. The only deeds not represented will be those in which both parties' names begin with the missing letters.

This index is important because it may be the only record of many transactions that would have been found in deed books that are now lost. The manuscript index is in the possession of the Prince William County Clerk of the Circuit Court. RELIC has a photocopy of the manuscript which is kept near the RELIC desk. Please ask library staff if you wish to see it.

Charlotte Cain has transcribed the entire index into Excel and sorted it so that we now have an alphabetic listing of all the names, by Grantor and Grantee. A chronological list has also been prepared to give you an idea of what proportion of the missing deed books we have data for.

Deed Books for this time period are:

- Deed Book is lost.
