MEMORANDUM

Dear Frances -

I'm sorry it's taken so long to get this title abstract to you. It was more difficult than I expected to sort out all my notes & make a credible argument for the chain of ownership. Also I found some earlier wills/deeds which seemed to fit in and I had to wait to get back to the courthouse. Maybe a closer study of the original papers in the chancery suit would explain exactly how Balch obtained the house. This may be too late for your report, but I figured you would still want to see it. Hope you have a nice summer (what's left of it). I'll be on vacation myself the next 2 weeks.

Cheers!

Don
