Mr. Tucker Hill, Executive Director
Virginia Historical Landmarks Commission
221 Governor Place
Richmond, Virginia 23219

Dear Mr. Hill:

Enclosed is a report which has been prepared by the Woman's Club concerning the Conner House. Also enclosed is a letter from Frank Murphy, Mayor of Manassas Park, showing the Woman's Club has full support of the City Council and that the Council has reviewed a copy of the report and concurs with its contents.

We hope that after review of the report--the history and pertinent facts contained therein--the Landmarks Commission will place the Conner House on its registry of historic landmarks in Virginia. Please note when reviewing these materials that the information appearing in newspaper articles is often referred to but not detailed in the report itself. Therefore, the attached newspaper articles should be considered additionally.

We have spoken with Mrs. Frances Jones at the Northern Virginia Planning District Commission, and she advises that the survey form for the Conner House, also known as the Blooms House, has been completed. She also advised that the site has been visited by her former supervisor, Mr. Dell Upton.

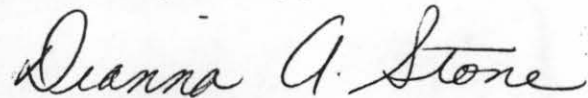

We understand that members of the Landmarks Commission will visit the site of the Conner House, and members of the City Council and Woman's Club would like to be available to go with you to the site. Please advise when you intend to come to Manassas Park so we can plan to be available. Additionally, we would be interested in knowing a time-span required to review this report, visit the site, and render your final determination. If you could give us some projected date for completion of this matter, we would greatly appreciate it.

Mr. Tucker Hill, Executive Director

Your review of this letter and all enclosures is greatly appreciated, and we look forward to receiving communications from you in the near future.

Yours very truly,

(Mrs.) Dianna A. Stone
Chairman, Conner House Committee
