

Grace Chapel
Prince William Co.

PRINCE WILLIAM COUNTY COURTHOUSE
MANASSAS, VIRGINIA 22110

September 11, 1973

The Vestry and Congregation
Saint Paul's Episcopal Church
Haymarket, Virginia

The Prince William County Historical Commission, upon the request of the Congregation of the church, does hereby advise the members of the Congregation that there is historical evidence that Grace Chapel is an historically important structure. If structurally possible this building should be preserved for future generations as an important part of their Virginia Heritage.

This Commission stands ready to offer any technical help it can in this project. However, as the property must remain in the ownership of the Church there is no way in which Prince William County could fund this project. We will however endeavor to mark the Chapel with an historical marker.

Sincerely Yours

Sue Coe, Gainesville, Dist. Representative
The Prince William Historical Commission
