

Faquier Democrat

DEDICATED. In services Sunday at the Greenwich Presbyterian Church, near Nokesville, a renovated education building and new social-recreation building were dedicated. The new structure is just one phase of a long-range building plan for the church on Rt. 215 in western Prince William County. One of the oldest in Northern Virginia, it dates from the year 1810. The present church built in 1858 has become a community landmark.
