north side of Broad Run

washed away in 1972

a 1½-story gambrel roofed, clapboarded frame bldg. on  
a stone foundation. 2 bays long. windows 9/6??

### HISTORY

There are two mills on John Wood's map  
of 1820 identified as belonging to the Langhyer-  
family. The first, built before 1800<sup>by Jacob Langhyer,</sup> was  
located west of Linton's Ford on Broad  
Run. ~~at~~ The second mill was <sup>probably also by Jacob</sup> constructed, <sup>Langhyer,</sup>  
in about 1812 at the Crooked Shoal of  
Broad Run, east of Devlin Grove. This mill,  
a custom grist mill, was owned by  
the Langhyer family for over 100 years. The  
mill was remodeled in 1910 by Mrs. C.E. Langhyer  
who advertised in the Manassas Journal  
in 1911 that she ~~was grinding~~ would grind  
"graham flour and feed of all descriptions."

North side of Great Run

about 1000

is 1500 feet high, sloping from top to bottom  
in a gentle curve. It is a very fine specimen of the

type

There are two miles or more in this section

of 1000 feet in height to the top of the

mountain. The first, built upon the top of the

mountain, is the first of the series.

From the top of the mountain, the view is very fine.

is about 1000 feet to the top of the mountain.

From the top of the mountain, the view is very fine.

## Description:

As photographed in 1972 before tropical storm Agnes destroyed the building, it was a 1½-story, gambrel-roofed, frame-constructed building covered with weatherboards. The building rested on a stone foundation.
