RE: Industrial Rezoning

The Prince William Board of County Supervisors has initiated a rezoning case to rezone a portion of the Prince William Regional Industrial Complex from A-1, Agricultural to M-2, Light Industrial. This rezoning would include about 880 acres. Our records indicate that you own property that is included in this rezoning. A map is enclosed that outlines the areas being considered for rezoning.

At this time we are seeking the opinions of property owners to determine whether or not they want their property included in this rezoning by the Board of County Supervisors. Although we cannot guarantee that a property owner's request will be fulfilled in every case, we can state that we do wish to give them all due consideration in making our recommendations to the Board and Planning Commission. In order to do so, however, we need a response from you as soon as possible.

Please complete the attached form and return it to the Planning Office in the envelope provided. You may place any additional comments on the space provided on the form. Be sure to put your name on the form so that we will be able to identify your property when we receive the form from you.

Prior to the initial Public Hearings before the Planning Commission and Board you will receive a notice indicating the time, date and location of the hearings. Approximately one week prior to the public hearings, staff reports from the Planning Office will be available to the public.

If you have any questions, please call Allan Baken at the Planning Office at 368-9171, extension 432.

Thank you for your cooperation and please return the form to the Planning Office as soon as possible.

I would also like to make the following additional comments.
